The day was cloudy and cool, progress. The puerulus stage is that a drizzling rain falling at intervals. In which swimming is given up for The operations during the day were quiet lodging in the rocks. Growth confined to capturing a large tusker and change are rapid, and the evoluand taking him out of the stockade tion from the egg to the fully devel-

where he was tied up. "The proceedings were most interesting and exciting. The elephants, about forty in number, were in a seething mass, and reminded one of a huge football scrimmage, lighting and pushing, and never still for an instant. About 10 a.m. the gate leading into the stockade was partially opened, and four huge tusker koomkies, ridden by mahouts, entered the arena, followed by six large female elephants, also ridden by mahouts. These ten elephants manoeuvred so as to single out the tusker from the remainder of the herd, and pushed him to the side of the stockade, from where men se-These advantages have long | means of thick ropes which they tied round his hind legs. The maropes round his neck, a difficult and precarious job, which they successfully carried out with much skill and bravery. These four ropes were secured to four koomkies or tame elephants, and two ropes round his hind

legs were secured to two others. "The tusker showed fight the whole time, tugging and straining at the ropes, until an enormous tusker boat deck was too high; that after 'koomkie,' his highness' Durbar eleshant, charged him several times and severely punished him. When he was sufficiently cowed the gate was opened and the remainder of the herd was driven into a corner of the stockade, where they were guarded by several 'koomkies,' after which the four elephants, to which were attached the ropes round the wild tusker's neck, proceeded to drag him out of the stockade. His strength seemed prodigious, and for a minute or two he held his own with the four ly dragged out and down to the river bank, the two elephants to which his

hind legs were secured following. "Here there was a delay in order to enable another elephant to be tied on to the prisoner, who at once became restive, and nearly pulled Conce Thought Necessary, but New Your Search for Relief is Ended.

Wonderful Method Retains Rupture Without Knife, Danger or Pain.

J. Y. EGAN, Specialist of Toronto water, and brought him down on to his knees. This completely sobered

his knees. This completely sobered him, and he gave no further resistance of treating rupture are done away in the wonderful invention of a specialist of the wonderful invention of a specialist of has devoted fifty years to this one afflic. The marvelous hew FGAN "CURATRUS" and the ruptured instant relief, rest and arity where all others tail. It stops all tation and restores every part to its nail position as soon as it is used and for all and old style trusses are thrown away.

SAN'S CURATRUS" cures are absolutely withoperation and the cost is small.

Inititudes of cured men, women and children lift. Also endorsed by many physicians. These others fall is where I have my greatest cess. Nothing complicated, no pain or irrion, but just a natural retentive method. In the palisade during the night, and while his Excellency was watching he proceeded to demolish the remainder within his reach, but he was securely tied fore and aft, and was unabled to the remainder within his reach, but he was securely tied fore and aft, he was securely tied fore and aft. and was unable to do any more damage, while he was periodically pun- Australian Railway, which is to link ished by a huge Durbar tusker call- the east and west coasts and traverse

Big Ship Rolled Over.

A Cape Town newspaper has reeived from a country correspondent information which possibly throws some light on the fate of the steamship Waratah, which left Durban for Cape Town, en route to London on July 26, 1909, with 211 persons on board, and disappeared.

A man walking the beach at Uys. a point eight miles northwest of Berd Island, on Jan. 6, picked up a blank bottle containing the following message: "Waratah, Sept. 6, 1909. Ship "jug" was not smashed. Lucky felin great danger, rolling badly, will low cured him to trunks of trees by probably roll right over. A SUMMER DAY FROCK OF LACE OVER NET

What could be more airy and diaphanous than this pretty frock inexpensive lace allover, mounted on a foundation of white net? The tunic is shirred midway of its length, under cord, and a similar cord heads the flounce at the tunic-edge. Beneath this bonflant tunic the skirt is very narrow, and is draped upward a triffe at the back in the new bustle effect. Note the arrangement of the sash, with ends crossed in front. This arrangement is very smart just now and it is very easy to adjust such a sasa with snap buttons, the bow at the back remaining untouched

News to most women!

Oven-tested flour is for sale. Instead of buying ordinary flour you can buy flour whose baking ability has been proven in an oven:

A ten pound sample is taken from each shipment of PURITY wheat at the mill. This is ground into flour. The flour is baked into bread.

If this flour bakes into bread high in quality and large in quantity we keep the whole shipment of wheat and grind it. Otherwise we sell it. More bread and better bread from this flour is a
