THE PARKS FAMILY

Descendants of Hay Bay Resident of Days Gone By

Milo Parks, in his day the oldest resident of North Fredericksburgh, was well known in this district, having many relatives in various parts of the county of Frontenac.

Some three years before his death which occurred at the age of eighty-seven years, the following interesting family history was published, showing interesting facts in the life of a United Empire Loyalist.

One of the oldest and most respected residents of the township of North Fredericksburgh is, says the Napanee Beaver, our venerable friend, Milo Parks, who has now, for over eighty-four years, resided on the same farm on the Pleasant shores of Hay Bay, Cyrenus Parks, his father, was one of the sturdy U.E. Loyalists who settled in Upper Canada, who resolved to hew out homes for themselves out of the unbroken wilderness, resolved to live and die under the British flag.

In the crown lands department at Toronto is preserved, an old U.E.L. list, and on it are the names of Capt. Cyrenus Parks, Sergt. James Parks and Nathaniel Parks, drummer, all of the King's Rangers. All were on the provision list, for the time the government very considerably granting necessary supplies of pork and flour until such times as the pioneers could clear and cultivate their own lands.

Irvine Parks, our county treasurer, has now in his possession the certificate of his grandfather, Nathaniel, signed at St. John, December 24th, 1783, certifying to his faithful service in the King's Rangers provincial regiment and to his honourable discharge at the disbanded of the regiment.

D. Nelson Parks, of the Beaver office, has in his possession the family bible of his grandfather, Cyrenus. It is now over 100 years old, and according to the statement on the fly-sheet it was bought in Kingston, "January 10, a.d., 1793." The book has been in family use ever since and is still in a good state of preservation.

Home Face Peeling

Becomes Popular

No complexion treatment yet discovered seems to have become so generally and so immediately popular as the mucedolized wax process, evidently the reason is that this method actually gets rid of a bad complexion, which can hardly be said of any other. It temporarily hides or bleaches the defective skin with cosmetics, cannot compare with the effect of literally removing the skin itself. Mucedolized wax takes off the offending surface skin in flour-like particles, a little at a time, until there's none of it left.

Here is one thing that actually does remove wrinkles, remove them quickly, and at trifling cost: Powdered saccharite 1 oz., dissolved in 1-2 pint witch hazel. Use as a face bath.

Freckles

February and March Worst Months For This Trouble—How to Remove Easily

There's a reason why nearly everybody freckles in February and March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of othine, double strength, from your druggist and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they will stay all summer, and spoil an otherwise beautiful complexion. Your money back if othine fails.
