WALDRON'S

Clothes make the man

But Corsets make the woman

So said a witty Parisienne Couturiere.

And it's true. That's why every well dressed Canadian woman should be careful to get a pair of C/C a la Grace Corsets to properly set off each new gown.

Remember too, that comfort becomes second nature to the wearers of

a la Grace Corsets

A good range of the new season's models is now on view. Come in and see them; and also look over our new styles in Ready-to-Wear Garments.

MET A WAR COMRADE

Trooper Mulloy Greeted at the Union Station, Toronto.

A despatch from Toronto says: When "Trooper" Mulloy, the blind hero professor of the Royal Military College arrived in Toronto yesterday, from Kingston, to visit his friend, Mayor MacNamara, of Edmonton, he met his first surprise at the Union station. When Mrs. Mulloy was looking for a taxi the driver of one of these machines stepped forward and said: "It's Trooper Mulloy; I'm Jack Middleton." They had been comrades in the Boer war.

In the old days, before Prof. Mulloy met with the wound which cost him his eyesight, Middleton and he had been troopers in the same squadron of the First Canadian Mounted Rifles in South Africa, and the reunion between the old comrades was not without its pathetic side.

Budget From Athens

Athens, March 20.—After an illness of several weeks, Mrs. George Nash, aged seventy-nine, passed away Monday noon at her Main street home. She was a most estimable Christian woman, active in W. C. T. U. and W. Y. S. work. Funeral services were conducted on Wednesday afternoon in the Methodist church by a former pastor and close friend, Rev. T. G. Brown, Brockville. Three daughters, Mrs. George Beach, Mrs. Crawford Slack and Mrs. Henry McLaughlin, all of Athens, also one son, Dr. C. C. Nash, Kingston, survive.

To Put On Flesh And Increase Weight

A Physician's Advice.

Most thin people eat from four to six pounds of good solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folk eat very lightly and keep gaining all the time. It's all a matter of this: Is the nature of the individual. It isn't Nature's way at all.

This folks stay thin because their powers of assimilation are defective. They just absorb enough of the food they eat to maintain life and a semblance of health and strength. Stuffing won't help them. A doctor might say they won't make them gain a single "stay" three pounds. All the fat-producing elements of their food just stay in the intestines until they pass from the body as water. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their red blood corpuscles and increase their blood's carrying power.

For such a condition I always recommend eating a Sargol tablet with every meal. Sargol is not, as some believe, a patented drug, but is a scientific combination of six of the most effective and powerful fat-building elements known to chemistry. It is absolutely harmless, yet wonderfully effective and a single tablet eaten with each meal often has the effect of increasing the weight of a thin man or woman from 10 to 20 pounds a week. Sargol is sold by good druggists everywhere on a positive guarantee of weight increase or money back.

Regretted Her Retirement

The Lethbridge Herald, of the 13th inst. contains the following reference to a former well-known Kingston school teacher:

"It was with great regret that Mr. Hamilton, (the superintendent) reported the resignation of Miss Evelyn G. Norris, as one of the directors of the Central Kindergarten. Her work was highly commended by the superintendent, and he pointed out that it would not be an easy task to supply a successor so accomplished. Miss Norris leaves at Easter for Ottawa, where she has accepted a position as director of the kindergarten of one of the new schools. Miss Norris is a daughter of W. H. Norris, Clergy St., and her friends are glad to see she has secured such a splendid position in the east.
