MANY PAROLED MEN TALK ON HOUSE FLY

ARE HOLDING POSITIONS OF TRUST AND HONOR

Interesting Statistics Gathered from the Annual Report of Parole Officers — Systems Regarded as a Success During Fourteen Years' Operation.

Interesting statistics are given regarding the parole system in the report of the parole officer, W. P. Archibald, which has just been issued.

During the fiscal year, 445 prisoners were released from the penitentiaries and 479 from the provincial prisons and reformatories, a total of 924. The number of cancellations for non-compliance with conditions of license was 32 or three per cent, and the number of forfeitures for subsequent convictions was 45 or 4.9 per cent. In total, the number of delinquents is 77, or 8.4 per cent. The number of prisoners who completed their paroles was 354, and the number who have not completed and who are still reporting is 485.

Mr. Archibald points out that it is impossible to use the figures for the year, or any other previous year, as a criterion of the success or of the failure of the parole system, as a number of the forfeitures and cancellations published each year, revert to the preceding year in cancellation and forfeitures. The only satisfactory test that can be made is to take the deductions from the figures embracing the aggregate results up to the close of the year.

The total number released on parole during the fourteen years since the inception of the act is 5,495 as follows: From penitentiaries, 2,967, from the provincial prisons, jails and reformatories, 2,528.

The number of sentences completed during the fourteen years was 4,533, or 82 per cent of the entire number released have finished their paroles and are now absolutely free from the oversight of the system, and as far as is known are enjoying good citizenship.

At the time the report was published there were 665 prisoners on parole, revealing the fact that an average of 12 per cent of the number have still the prospect of finishing their parole during the coming years. The total number of forfeitures for the fourteen years was 145, or 2.6 per cent. The number of cancellations for non-compliance with conditions of license in fourteen years was 169, or three per cent, making the total number of failures 314, or 5.7 per cent of the entire system. The results, the inspector says, must be gratifying to those who have taken an interest in the parole movement, and who believe that there is a responsive chord in the hearts of men which will vibrate to the appeal of integrity and honor.

The inspector adds: "I really think that an automatic system of parole from the prison viewpoint of conduct and industry, if ever inaugurated, would destroy the efficiency and the results as now obtained through such thought and careful study of each individual case. The parole system, in its economic value to the community, is seldom spoken of, yet when we consider that these prisoners average an earning capacity as wage earners of \$8 per week, supporting themselves, and in some cases their wives and families, while under supervision, that were they still in custody in our prisons, they would not be producers, but wards of the state, costing the country more than \$100 per capita per annum. Some of the paroled men are receiving large salaries, and are to-day holding positions of trust and honor in every province of the dominion. Best of all, a large number of them are changed men and are leading upright lives. If, in the final analysis of reformatory measures or methods, we find seventy-five or eighty per cent demonstrating their ability to reform and remodel their character, we must admit that a tremendous force is in operation in our communities, for the uplift and general good of our citizens."

Worse Than Dog Nuisance

Residents in the vicinity of James and Lower Bagot streets inform the Whig that the dump ground nuisance down there is far worse than the dog nuisance. The odor from the dump is bad enough now, but it will be ten times as bad when the warm weather comes.

BY PROF. W. T. CONNELL, OF QUEEN'S UNIVERSITY

Before the Queen Street Methodist Epworth League — The Danger of This Fly Impressed Upon His Hearers.

At the meeting of the Queen Street Methodist Epworth League, on Monday night, Dr. W. T. Connell, professor of pathology and bacteriology at Queen's University, gave an illustrated lecture on the house fly.

Dr. Connell began by classifying the various sorts of flies found in houses, ninety per cent of which, he said, could be classed as house flies. These flies, which breed in decaying matter, increase very rapidly, developing from the egg to the full-grown fly in ten days. They are of absolutely no use, as their work of scavenging is much better done in other ways. Their danger lies in the fact that they carry disease germs and filth. It has been proved that a fly which has had access to decaying matter will carry an enormous number of bacteria. Should he happen to light on food, ninety per cent of which he transfers to the consumer of the food. The fly then, as a carrier of germs, should be eradicated.

A number of slides were thrown on the screen illustrating unsanitary conditions in back yards. Dr. Connell went on to explain that by clearing up these places we might destroy the fly, as it would then have no breeding grounds. The campaign against the fly, he said, was one of cleanliness in and about our houses.

At the close of the lecture, Rev. G. L. Campbell moved a vote of thanks, which was heartily applauded.

A CITIZEN COMPLAINS

About Unsanitary Condition of a Neighbor's Yard.

At the meeting of the Board of Health, on Monday afternoon, Mayor Shaw brought to the attention of the members a case which had been reported to him. A citizen complained about the condition of one of his neighbor's yards. When Sanitary Inspector McCammon made an investigation he discovered that the man in question was keeping a cow, twenty chickens and a number of ducks in a yard twenty-five by twenty feet. The inspector reported that the yard at the present time was in a sanitary condition. Some of the members did not believe that such a yard could be in a healthy condition, so the matter will be allowed to stand until the mild weather arrives, and the inspector will make a second inspection of the premises.

"WOMAN'S SUFFRAGE"

Discussed by Sydenham Street Epworth League.

"Woman's Suffrage" was the topic of discussion at the meeting of the Epworth League of Sydenham Street Methodist Bible school on Monday evening. Papers were read by Mrs. J. Corbett and Miss Georgie Bell. Miss Lucia Parrott presided. The meeting was thrown open for discussion, in which a number of the members took part. During the discussion one of the members made the statement that if the women were given the vote they would all vote the right way. There was difference of opinion in this respect, so much so that one of the men present referred to a case in Kingston where the women, it was believed, did not vote the right way. Miss Johnson, a member of the choir, favored with a solo. Miss May Hinckley acted as accompanist.

"Uncle Tom's Cabin"

Kibble and Martin's scenic and dramatic production of "Uncle Tom's Cabin" will be seen at the Grand on Saturday, March 28th, matinee and night. Kibble and Martin's company carried out the special scenery and effects required to give a perfect production of this old, ever popular play. The company embraces over fifty people, a chorus of over twenty colored men and women, ponies and six man-eating hound dogs. A special train of cars is employed in transporting the production.

White Rose flour—pure and wholesome.

Mrs. T. R. Carnovsky and niece, Frances Conger, have left for Rock Island, Ill., for a month's visit with Mr. Carnovsky's sister, Mrs. (Dr.) A. Stecker.

CHEESE INSPECTORS HERE

To Get "Brush Up" at the Dairy School.

On Monday evening several cheese inspectors came to the city to take up a week's review at the Kingston Dairy school and gather up any new methods which might have come into practice during the past twelve months. They will carry this knowledge away with them and at various points throughout this province of Ontario give instructions on cheese making. The visiting members here are: G. H. Bensley, of Warkworth; R. T. Gray, of Marmora; J. McAllister and A. McKinley, of Curran; H. Hovey, of Belleville; S. Milforth, of Prescott; J. T. Whattain, of Pictou.

Married at Clayton, N.Y.

The first announcement of the marriage of Captain Chester W. Rees, supervisor from Clayton, N.Y., to Miss Emma Waits, daughter of Thomas Waits, of this village, was made on Saturday. The marriage took place at eight o'clock at the home of the bride's father, the ceremony being performed by the Rev. W. J. St. John, pastor of the Clayton Baptist church. The couple was unattended, and only a few of the immediate relatives of the bride and groom were present at the ceremony.

Captain and Mrs. Rees will reside in the old Rees homestead, which has been repaired and renovated lately. They will go on a wedding trip later in the spring.

Supervisor Rees is one of the best known residents of Jefferson county. For years he was captain on one of the river boats and is known throughout the county as "Cap" Rees. He is now serving his fourth term as supervisor of the town of Clayton. He has served on several important committees, among them being the one which had charge of the erection of the new jail. Prior to being elected supervisor, Mr. Rees served the village of Clayton as president and also as trustee.

Geronia's Old Boilers

The boilers of steamer Geronia, which are being shipped to Midland to be put into another company's steamer there, are evidently rather troublesome things to handle. They are being shipped on flat cars, to which they are fastened by iron rods, which are bolted to the cars. The boilers are so high that the overhead bridge will have to be raised to allow them to pass under. The Geronia is getting new tubular boilers.

Engagement Announced

Mr. and Mrs. Allen Smith, 31 Pauline avenue, Toronto, announce the engagement of their daughter, Helen Rosamond Bessie, to Ernest H. M. Sproule, son of Mr. and Mrs. James A. Sproule, Westbrooke. The marriage will take place quietly about the middle of April.
