TO FIGHT EXTRADITION

ERNEST VILLARD WILL NOT GO TO ALBANY

Until the Machinery of International Law Has Been Invoked—The United States Authorities to Press the Matter.

That he would fight extradition was the statement made to-day regarding the case of Ernest Villard, arrested a few days ago on a charge of forgery preferred against him in Albany, N.Y. He has fifteen days in which to take proceedings. It is understood that the United States authorities will press the matter. Villard, while secretary-treasurer of the International Hod Carriers' Association, is alleged to have forged his name to a cheque for \$30.

The accused is still being held at the police station and his meals served to him from his friends on the outside. Saturday a local barber called at the police station and was allowed to give him a shave in his cell.

"Humanity"

This well-known play, in three acts, which has been presented to the public of England over 4,000 times by the famous actor, John Lawson, has been reproduced in motion pictures, with Lawson and his original star company in cast. This is one of the biggest successes and should not be missed. People who have visited and lived in England have seen it as often as six times. See it and two other good comedies at Wonderland, Monday and Tuesday. Usual admission.

"FISHING EXTRAORDINARY."

located an Auto and Brought It Up.

Dr. Heaslip, of Picton, whose automobile sank through the ice near there a few days ago, is again rejoicing in the possession of his property.

The accident happened on the return journey from Adolphustown, about one hundred yards from the shore, and in forty-three feet of water. The doctor's escape was a narrow one. Feeling the ice to be collapsing under the front wheels of the car, he shouted to his companion, Mr. Osborne, to jump. The doctor followed quickly, but was precipitated into the water. His companion rescued him, while the auto sank by the bow.

On Saturday the rescue party, under John D. Culliton, located the spot where the accident had taken place, and, after taking a sounding and adjusting the grappling iron the automobile was brought to the surface, five minutes after the first "bite."

Then a stout cable was fixed to the automobile, and with the aid of a tree, a pulley and a team, the catch was landed. Some of the cushions and one lamp were missing, while the windshield was cracked and the top damaged. The damage is estimated at about \$150.

While the Bay of Quinte is noted for its fish, we believe that this is the biggest catch yet made in this district.

SCHEME APPROVED OF

To Have Children Write on Essays on Sanitary Questions

The suggestion which has been made to have the school children write essays on sanitary questions as one of the best movements which has been set on foot along this line, is a prominent citizen connected to the W.A. on Monday. The Board of Education is to be commended for taking up the matter and devoting the sum of \$59 towards the prizes which will be offered for these essays.

"It will tend to stir up interest among the children on this all important question," continued the citizen, "and it is one on which too much stress cannot be laid."

The Board of Education and the Board of Trade have granted money towards the prizes and they will cooperate with other civic bodies to help the scheme along. The City Council will likely donate a sum for this purpose.

Sold Brick Works

Cornwall, March 30.—David Lewers has disposed of his clay land here to the Glengarry and Stormont Railway company. Mr. Lewers has been manufacturing brick here for twenty years. There is now no one making brick here, or between here and Montreal, although there is an abundance of good clay for the purpose in the vicinity. Mr. Lewers manufactured 10,000 per day the year round, using wood as fuel. He intends disposing of the plant equipment.

Summoning a Jury

Police Constable Timmerman on Monday morning looked after the summoning of citizens to serve on a jury at an inquest at the police court this evening at eight o'clock, called as the result of the fatal accident at the Floor Wall and the company on Sunday morning. The inquest was ordered by the coroner, Dr. A. E. Ross.

Offered Premiership

Tokio, March 30.—The emperor has offered the premiership to Prince Iyeko. Tokugawa, president of the House of Peers, but it is believed that the prince will decline. Should he accept, the hopes of the radicals for a purely party cabinet would be greatly lessened.

On or about April 6th James McParland will occupy stores 22 and 24 Market street, immediately adjoining Gibson's Red Cross Drug Store, during alterations to building on King street.

Two C.P.R. inspectors were in the city on Monday for the purpose of conducting an investigation into the accident which occurred at Jackson's Mills last week. Politeness is to goodness what words are to thought. "Syrup of Figs," Gibson's.
