CURLING AND SOCCER AID. GRAHAM ANGRY UTILITIES COMMISSION

PRESENTATIONS MADE BY THE AT A STATEMENT MADE BY AID. WILL NOT GIVE FREE WATER TO THE SCHOOLS

There May be Another Team in the Soccer League — City Baseball League Meeting Wednesday Evening.

The members of the Kingston curling club gathered at the rink on Monday evening for the final meeting of the curling season. The presentation of the prizes won during the winter took place. The British Whig trophy, which was won by the rink skippered by Prof. J. F. Macdonald, the president of the club, was presented to the winning skip by W. R. Sills, J. A. McKee, H. T. Wallace and R. McCannell the other members of the rink were given individual prizes, the gift of the club. The "club" trophy, which was captured by R. N. F. Macfarlane's rink, was awarded to the winning skip by Prof. J. F. Macdonald. The three other players, Messrs. Chapman, Fizzell and Kingsbury, were presented with individual prizes.

Capt. W. Leslie, the senior skip, presented the District cup to the president of the club. This is the second time that the local club won the trophy.

T. M. Asselstine presented the Ogilvie shield to Prof. Macdonald, the Carruthers medal to Marshall P. Reid and the Stewart cup to Donald McCannell.

The winners of the trophies gave short addresses.

A couple of notices of motion were given. The president was empowered to appoint a committee to revise the playing rules.

City Baseball League. Stanley Trotter would like a large turnout to be present at the opening meeting of the City Baseball league to be held in the Y. M. C. A. parlour on Wednesday evening at eight o'clock. Everybody is welcome.

Belleville vs. Kingston. The Belleville senior basketball team will come to Kingston on Saturday, to play the return game with the local Y.M.C.A. team. When the local team played in Belleville it received a bad trouncing.

Portsmouth Curling Club. It is expected that in the course of a few weeks a number of the young men living in the village of Portsmouth will form a curling club. For some years the young men who are interested in the game have been playing games at the Rockwood rink. Some of these men have become so fascinated with the game that they have decided to call a meeting for the purpose of organizing a club.

Queen's Rugby Meeting. At a meeting of Queen's senior rugby players, held on Monday afternoon, several very important matters were discussed. The meeting was called for the purpose of seeing how many of the players could be back to college by September 20th. It is impossible for the players to arrive at any decision until the examinations at the University are over with.

Soccer Executive. A meeting of the Kingston Soccer League was called for Monday evening, but owing to the absence of certain officials no work could be transacted. Another meeting has been called later on in the week.

Considerable enthusiasm was shown as to the best possible way of running a successful league. W. G. Ferguson read a communication which he had received in connection with the affiliation of the local league with the Ontario Football Union. A meeting is to be held in Toronto during the course of a week or so and it was proposed to have a delegate of the Kingston soccer league in attendance at it. This meeting will be held Easter week, and as W. H. Dalby, the president of the local league, intends being in Toronto at that time, it is more than likely that he will represent his home league, and bring back the full particulars, to have them discussed at the earliest possible date.

The soccer season this summer is going to be a hummer. A new arrival made his appearance at the meeting on Monday night in the person of G. Brown, who came to represent a newly-formed team which proposes to join the league ranks this season. This team will be known as the Lancashires. The Whig was also informed that the C.L.C., Shipyard and R.C.H.A. are also going to enter teams. The Departmentals of last season are talking about joining the ranks of the R.C.H.A.

Mask of Death. London, March 31.—A curious mask of death was described by Captain Nugent in relating to the Royal Geographical society some of his experiences as a member of the Anglo-German commission which marked the boundaries of Nigeria and Cameroons. Among the numerous "jujus" found in the deserts but was a grotesque mask, which was apparently kept to frighten women. Any woman seeing it must die at once. The local witch-doctor put on the mask and ran about the hills until he met a likely-looking victim, who was then killed.

Describing one tribe of hill-top pagans, Captain Nugent said: "The villages consist of little beehive-shaped huts of mud and grass, perched on apparently inaccessible heights or cunningly hidden away in mazes of dense, tropical vegetation. The inhabitants bear a great resemblance to monkeys, being small in stature, but extraordinarily active. They only come down from their rocky fastnesses to cultivate their fields, or to make war on their neighbors. They are armed with bows and poisoned arrows, from which it is never safe for them to be parted, even when working in the fields."

Concerning Plumbing Inspection.—New Houses He is Erecting—He Was Called to Order by the Mayor.

There was almost war to the knife in the City Council meeting Monday evening between Aids. Graham and Litton. The former asked the latter regarding the duties of the city engineer as inspector of plumbing, his contention being that the foreman of streets did most of the inspection. To one of Aids. Graham's questions, Aid. Litton replied that there was enough bad-plumbed plumbing in Aid. Graham's new houses to require the inspector to visit them three or four times.

This brought Aid. Graham to his feet in a flash. The Victoria ward representative demanded a retraction from Aid. Litton. The latter replied that he secured his information from the streets foreman who said he had to make several visits to the houses in question. He did not know of the trouble personally, and would, therefore, withdraw his remarks to that extent.

They Aid. Graham demanded that he be given a chance to explain. The mayor said that as Aid. Litton had withdrawn his remark, that was all that was necessary. This did not satisfy Aid. Graham who said that a written impression would be created by the statement concerning his houses. The mayor ordered Aid. Graham to take his seat but the latter refused to do so, and continued to explain. His Worship said he would have to take means to compel Aid. Graham to stop. It looked as if Police Sergeant Nesbitt would be called upon to act. Aid. Richards interposed that it might be well to give Aid. Graham a chance to be heard later when he could rise to speak on a question of privilege. This satisfied Aid. Graham, who then sat down.

Shortly afterwards he had a chance to make a statement, which was to the effect that the plumbing in his houses was not done by himself, but by a plumbing contractor. It was not right, it was up to the city inspector to see that it was made right, and he himself would see to it too. He did not want the impression left that he was installing defective plumbing in houses he was erecting. He declared he could erect as good houses as Aid. Litton any day.

Local Electrical Inspector to be Sent to Toronto to Receive Instruction From Hydro-Electric Experts.

The Utilities Commission, on Monday afternoon, shelved the requests made by the separate school board and the Board of Education for free water for the schools. Rev. Father Hanby, chairman of the separate school board, and John Macdonald, representing the Board of Education, waited upon the commission and presented their case. The petitions, however, were ordered filed, which means no action.

Mayor Shaw brought to the attention of the commission the question of taxes which municipal utilities have no longer to pay. In view of the fact that the City Council loses \$5,500 in taxes, his wardship thought that the commission might meet the city in some way. The other members were willing to meet a committee of the City Council to discuss a readjustment of arrangements between the two bodies as to water and light, but the impression prevailed that the commission would be the gainer.

Mr. Toye asked Dr. Ross if it was true that he had made the statement last week, on a public platform, that a year the Hydro-Electric Commission would have something good to offer Kingston. Dr. Ross replied that he had, and Mr. Toye said he was glad to hear it.

On the advice of Chief Engineer Gaby, of the Hydro-Electric Commission, it was decided to send T. A. Hanley, electrical inspector for the city, to Toronto for a few days to receive instruction on the fine points of electrical inspection from Hydro experts.

Three petitions were received for gas main extensions: Victoria street, from Brock to Princess; Centre street, from Union to King, and Pine street on to Lansdowne. None of these contained the required number of signatures, and they were held over. The commission does not intend to expend money on extensions where a good revenue will not result.

A report was ordered made of the capital expenditure for 1912 and 1913 with a view of issuing debentures in amounts which showed the necessary revenue.

Mr. Birkett suggested in connection with the proposal to appoint a plumbing inspector by the City Council, that the utilities manager could use such a plumber for parts of the day, and thus help pay his salary.

Mr. Birkett asked for Engineer Evans' report on the Killey pump at the waterworks. The report presented to the council was desired, and Mr. Evans will be asked to report again as to whether he would recommend the proposed changes in the pump.

As William street is likely to be paved shortly, it was decided to lay new gas and water mains in the thoroughfares from King to Bagot streets.

A petition was received for water in Adelaide street. There is as yet no sewer in that thoroughfare, and the utilities manager will arrange to have water and sewer pipes laid in the same trench.

The manager was instructed to see if arrangements could be made with Queen's university to supply the general hospital with direct current in order that it could retain its X-ray motors.

T. J. Rigney (chairman), Mayor Shaw, R. H. Toye, Dr. A. E. Ross and J. H. Birkett were in attendance.

Best on this Continent. Fancy Northern Spy apples, large, red-checked fruit. See them at Carnovsky's, "on the corner."

"Strap of Fig." Gibson's. During building alterations, James McFarland will temporarily occupy the premises on market square adjoining Gibson's Red Cross Drug Store, on or about April 6th. Phone 274.

Fred Pelton, negro, sentenced at Little Rock, Arkansas, to one hundred and fifteen years, was pardoned, and immediately put to death in an electric chair for murder.

"Klovah Health Salt." 3 tins 25c. Gibson's.

Alison Haynes is under arrest at Philadelphia for stealing jewels valued at \$10,000. She was taken as she was leading a grand march at a ball.

"Ten cream bricks." Gibson's. Lanark and Lennox presbytery declined to answer the questions submitted by the Union committee relative to a survey of church conditions. Music, new hit. "Pull for the Shore." 15c. Detton's.

Mrs. A. Parks, Plainfield, died on Sunday. She was born in 1830. "Phone 230. Gibson's, for drugs."

WHIL SUE FOR DAMAGES. Thomas White, injured on the C.P.R. Will Take Action.

The Whig was informed on Tuesday morning, by Thomas White, who met with an accident last Thursday, near Jackson's Mills, that he would sue the Canadian Pacific Railway company for damages. He suffered a severe fracture of the left leg. He declares that the driver of the car showed carelessness and drove at a reckless speed.

An investigation was held on Monday morning, by Roadmaster M. Long and Charles McCullagh, foreman of the section, who claim that the car was only running ten miles an hour. Mr. White takes exception to this and told the Whig that the car was going not less than forty-five miles an hour.

"MOVE ON" CRUSADE AGAIN. Police Out With Big Stick After "Corner Loafers."

Spring is here or at least it looks as if it has arrived for good, and with it comes the usual trouble with "corner loafers."

The police are out with a big stick after the offenders. True, it is tempting to stand on the corner in the sun, but it must not be allowed. From now on it will be a case of "move on" or answer a police court summons.

Edward Snider, Belleville, a young man eighteen years old, is under arrest on a charge of burglarizing Smith's hardware store on the night of September 14th last.

England's first policewoman was appointed in London on Monday. She is a widow named Hughes, and is thirty-five years of age.

"McConkey's sweets." Gibson's. The classes in arts at Queen's closed to-day. The medics are waiting on examinations.

"Digestive Tonic," at Gibson's.
