PAPE'S DIAPEPSIN DIGESTS FOOD WHEN STOMACH CAN'T—IT'S GREAT

Stops Indigestion, Sourness, Gas and Dyspepsia in Five Minutes.

If you feel bloated after eating, and you believe it is the food which fills you; if what little you eat has like a lump of lead on your stomach, if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, burp or a belching of gas, you need Pape's Diapepsin to stop food fermentation and indigestion. It neutralizes, excessive acid, stomach poison, absorbs that misery-making gas and stops fermentation which sours your entire meal and causes Dyspepsia, Sick Headache, Biliousness, Constipation, Griping, etc. Your real and only trouble is that

the body was placed in the vault here. B. Blackman's child, ill of pneumonia, is much better. The Gardner cheese factory re-opens on April 1st. W. Welsh has been re-engaged as cheese-maker. W. PARALYSIS AND LOCOMOTOR ATAXIA

The most dreaded results of neglected nervous diseases—Study this chart and the symptoms stated here to learn if you are in danger— DR. CHASE'S NERVE FOOD will cure you.

To understand paralysis and locomotor ataxia, which is paralysis of the limbs, and their causes, it is well to remember that every movement of the body or its members is due to the contraction of muscle, which can only take place under the influence of nerve force. As this all-important nerve force is created in the nerve centres of the brain and spinal cord, and conducted along wire-like nerve fibres to the various parts of the body, any derangement of the brain, spinal cord or nerve fibres may result in paralysis or loss of the power of movement.

Paralysis, then, is the natural result of all neglected nervous diseases. If you find yourself nervous and irritable, oversensitive to light, sound and motion, addicted to continual movement or tapping of the fingers, twitching of the muscles, sudden startings and jerking of the limbs during sleep; if you have nervous headaches or dyspepsia, if you are unable to sleep or rest, feel downhearted and discouraged, and unfit to fight the battles of life; if your nerves are weak and exhausted, your blood thin and watery, you have every reason to fear paralysis of at least some part of the body, and consequent suffering and helplessness. Paralysis can always be prevented, and partial paralysis actually cured, by the timely use of Dr. Chase's Nerve Food. The time to begin treatment is when any of the above-mentioned symptoms become apparent. These are indications of a degeneration of the nerve cells, and when nerve force becomes exhausted, paralysis is bound to follow. acts on the system in an entirely different way to ordinary medicines. It is neither a stimulant to whip tired nerves to renewed activity, nor a narcotic, or opiate, to deaden the nerves. On the contrary, it is a food cure, which forms new, red corpuscles in the blood and creates new nerve cells. Every day it is bringing back health, strength and vitality to scores and hundreds who have become discouraged through the failure of doctors and other treatments to cure them. Why not get started on the way to health at once by using this great food cure? Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50. At all dealers, or EDMANSON, BATES & CO., LIMITED, Toronto.
