The latter concern will tire, as a special feature of the "sports" and pastimes of the day. It will be recalled that a great uproar was created in the conservative ranks because some years ago the Niobe was permitted to attend a celebration at Yarmouth, N.S. The present return, however, shows that there has scarcely been a celebration along the Atlantic coast during the past two years to which the government has not sent a customs or fisheries cruiser, with full crew and complement of men.

There have been several requests for the attendance at such affairs of the Niobe on the Atlantic and the Rainhow on the Pacific, but for obyous reasons the government had to courteously refuse the request. In February of 1912 Mr. Hazen desired to help out the "Back to New Brunswick" movement, which was being organized in his own city of St. John, by having the Niobe appear. Failing his, he thought that it might be posible to have British war vessels present as a "great attraction."
