OF ST. MARY'S CATHEDRAL ON SUNDAY EVENING

Was Preached by Rev. Father Scully of Toronto, Who Dwelt Upon the Value of the Soul.

A large, and enthusiastic congregation of men assembled in St. Mary's cathedral on Sunday evening heard a strong sermon by Father Scully, of Toronto. speaker is here to preach the duum preparatory to the great feast of Easter. He gave his first sermon on Sunday evening at which the male portion of the congregation were present and which tilled the vast edifice to the doors. The speaker dwelt upon the value of the immortal soul and declared that few of us had a clear conception of the value of the soul. Father Scully continued | by saying how well we look after the body which after all is only a frame containing the soul, but the fatter is shaped after God's own image and the price of its redemp-

blood of Christ. The speaker introduced several 'll histrations and claimed that if we had ten souls, or even two, might say that if we lose one will save the other. Having only one if it is lost it is gone forever. We also have ten fingers and yet we are loath to part with one of them. We have two eyes, but who would care to lose one? Therefore, if we so prize these which are only of short duration in existence, to our soul we are doing wrong if we do not safeguard it against all evil for fear of at being lost.

though six days in the week we look after our domestic affairs we are scarcely willing to part with the seventh to do God's bidding. He here introduced an excellent illustration of how we apply medicine to build up the body but towards the betterment of the soul we would not be so careby God and we should devote much attention to it as we do

The music of Sunday evening was particularly good and much appreciated by the large congregation. N. nouse, there is a complete absence of F. O'Connor rendered the solo all absorbent materials, such as "Tantum" Archbishop Spratt oc curled the throne.
