

LACK CO-OPERATION

CAUSE OF FAILURE TO SECURE NEW INDUSTRIES

H. W. Richardson Made Some Pointed Remarks at Board of Trade Meeting—Only \$18,000 of \$25,000 Asked for, Raised for Reliance Moulding Company—No Action Taken

That lack of co-operation on the part of members of the Board of Trade was the cause of the failure to secure new industries for Kingston, was the charge made by H. W. Richardson, speaking at the meeting of the Board of Trade on Tuesday night.

Mr. Richardson said that when negotiations were on foot to secure industries, the matter was always left to three or four members, who were compelled to do all the work.

"If you want to do things that board is strong enough to do them," said Mr. Richardson, "but everyone must get their shoulder to the wheel."

The remarks followed a report given in regard to the location at the outer station of the Reliance Moulding Company. The city is giving the company a site, and at a recent meeting of the Bureau of Industries and Information, it was decided to assist the company in securing the balance of the amount required for the erection of a plant.

The company proposed to raise in Kingston, \$25,000 of preferred stock, with a bonus of fifty per cent common stock. It was reported that only \$18,100 of the amount required had been subscribed.

Mr. Meek stated that it was unfortunate that the amount necessary could not be secured.

Mr. Richardson declared that it was purely a lack of energy and co-operation that caused the proposition to fall flat. He was given to understand that there was a sum of money reaching \$6,000,000 belonging to Kingston people in the savings banks here, drawing interest at three and three-and-a-half per cent. It surely could not be expected that three or four men could undertake every thing.

J. A. Dalton said that there were members of the board who came to the meetings and talked about the raising of money for industries, and when called upon for help, refused to do so, stating that they had their money invested in bonds or something else.

J. O. Hutton, promoting the scheme, stated that the excuse given by members was that they did not have the money.

The president asked what action would be taken, but no person had a suggestion, and the matter was allowed to drop.

Mr. Richardson stated that it was true times had been hard in the money market, but still he held that with the co-operation which could be given, every proposition could be put through that the board desired to go through.

DECOLLETE IN THE CHURCH

French Archbishop Utters Significant Warning

Geneva, April 15.—Threats of partial excommunication for all who fail to satisfy certain self-appointed religious canons of dress have been thundered from the pulpit of Besancon, France. Recently the archbishop of that diocese of the Swiss western frontier has been denouncing present-day feminine fashions. His latest move is to have read in all the churches under his control the following:

"Young girls must not have their arms bare, and, above all, must not come to church in décolleté."

"If the present ridiculous fashions continue we shall be obliged to make examples by refusing to admit for confirmation and holy communion girls dressed according to these notes."

EDDIE FITZPATRICK

The fast little second baseman of the Toronto baseball league team, who has been welcomed back to his team after being out of the game for a long time last season. His reappearance has brought new life to the infield of Toronto's team.

FINDS PIECE-WORK BETTER

Efficiency System Would Stand no Chance in New England

Washington, April 15.—Widely differing opinions as to the value of so-called efficiency systems as aids to industry, were expressed by witnesses before the Federal Industrial Relations Commission at the opening hearing of an inquiry to determine the effect of such systems upon relations between employer and employee.

John F. Tobin, of Boston, general president of the Boot and Shoe Workers union, told the commission that the piece-work system worked so successfully in the shoe factories of New England that "any efficiency engineer who tried to install his system there would starve to death."

On the other hand, Harrington Emerson, of New York, appearing as an efficiency system expert, declared that he considered the piece-work method of paying the greatest obstacle in the way of efficiency.

Instead of the speed induced by piece work, Mr. Emerson said he would benefit both employer and employee by fixing a fair standard, then paying a fixed daily wage and a bonus for all work over a certain percentage of the standard.

Frederick W. Taylor, of Philadelphia, speaking of the "laws of fatigue," said that tests had shown that no young factory girl ever should be allowed to work more than one hour and a quarter without a ten-minute rest.

"Backache Plasters," at Gibson's.

Thomas Skene's grain elevator at Reabow, Ont., was totally destroyed by fire with its contents.

GANANOQUE WEDDING

DOUGLAS POUND OF KINGSTON WAN THE GROOM

And Miss Myrtle Smith, of Gananoque the Bride—Locked Out of Harness Makers' Return to Work

Gananoque, April 15.—The home of Miss and Mrs. Daniel Smith, Brock street, and the scene of a very pretty event at seven o'clock last evening when their only daughter, Myrtle, was united in marriage to Douglas Pound, son of Mr. and Mrs. George Pound, of the Sunnyside mission at Kingston.

The ceremony was solemnized in the parlor, which was tastefully decorated in yellow, green and white, the colors of the Winona Mission Circle, of which she was a charter member. Rev. Melvin Taylor, pastor of Grace church, of which the bride was an active and devoted member, performed the ceremony before an imposing number of the contracting parties. Miss Essie Leong, organist and choir leader of Grace church, played the wedding march as the bride party entered the parlor. Both bride and groom were unattended, the bride being given in marriage by her father. The bride was a beautiful girl, wearing a white silk with shadow lace and pearl trimmings, and wore a coronet of lilies of the valley and smilax. After the ceremony the bridal party sat down to a dainty wedding supper which was enjoyed by all. From nine till ten o'clock, a beautiful gown of white silk with shadow lace and pearl trimmings, and wore a coronet of lilies of the valley and smilax. After the ceremony the bridal party sat down to a dainty wedding supper which was enjoyed by all. From nine till ten o'clock, a beautiful gown of white silk with shadow lace and pearl trimmings, and wore a coronet of lilies of the valley and smilax. After the ceremony the bridal party sat down to a dainty wedding supper which was enjoyed by all.

The bride's going-away gown was of navy blue hedonite, with white to match. The bride was one of Gananoque's popular young ladies, esteemed by all who knew her, for her genial and unassuming manner. She will be much missed here. For many years she has been one of the sweet singers of the Methodist choir, and also a teacher in the Sunday school. She is the recipient of many testimonials of esteem from her many friends. The Winona Mission Circle gave her a linen shower at the home of their president, Miss Nettie Conner, on Good Friday afternoon. Her Sunday school class presented her, on the afternoon, with a beautiful china cream and sugar set, the teachers and officers of Grace Sunday school with a set of tea and dessert spoons, the Bible class with a beautiful chair, and the choir with a handsome picture.

Ralph Britton, who was in his new canoe, Tomahawk, with which he expects to try conclusions again with the holder of the international canoe sailing trophy, on Monday afternoon, for the first of the season.

Under the auspices of Canton Gananoque, No. 12 P.M., an excellent musical entertainment was held in the opera house last evening, and quite largely attended.

The looked out harness-makers returned to their work at the Gananoque harness works and W. J. Gibson's yesterday morning.

PORTLAND COUNCIL

Business Transacted at Meeting on 6th of April

Harrowsmith, April 6.—Members all present; minutes of last meeting adopted. The report of Herbert Jamieson and C. W. Leadley, township auditors, was presented. The abstract statement of cash, assets and liabilities of the township on Dec. 31st, 1913, was:

Schlitz Brown Bottle Claims Authenticated

by Dr. Robert Wahl, President of the Wahl-Henius Institute of Fermentology. We reprint from his letter.

"Our observations, extending over the last twenty-five years, have convinced us beyond a doubt that exposure of beer to light has a very detrimental influence on its quality generally, but especially upon the flavor of the beer.

We have tested beers repeatedly in this direction, placing the bottles into direct sunlight, and testing the same after one, two, three and five minutes exposure, found that the beer with three and five minutes exposure became undrinkable, on account of the peculiar odor developed.

The detrimental effect of light upon beer can be successfully counteracted by the employment of *brown or dark colored glass bottles*, and such bottles are therefore recommendable."

He quotes famous authorities to corroborate his opinion

Authorities on the subject of the detrimental influence of light on beer are:

C. Lintner, Lehrbuch der Bierbrauerei 1875, S. 343.
Beck, Zeitschrift für das gesamte Brauwesen, 1882, S. 370.
V. Huth, Der Bierbrauer 1876, S. 127.
Ney, Allg. Zeitschr. f. Bierbr. u. Malzfabr., 1878, S. 273

Light cannot harm Schlitz in Brown Bottles. It is made pure and then kept pure

CUBES

Want Pink Cheeks—Red Lips?

Some unfortunate men and women are prone to wonder why some of their friends are blessed with an abundance of color—pink cheeks and red lips—while theirs are always colorless. The reason for this last named condition is—there is not enough red blood corpuscles in the blood—rather a microscope the blood is thin and watery. The flesh is flabby. Well known physicians assert that the regular administration for several months three-grain hypo-nutrine tablets will greatly improve the color, add to the weight, make the cheeks pink and the lips red and in general be very beneficial. For self-administration, obtain from any of the best apothecary shops.

Announcement

Having in stock a large number of the newest designs in Monuments, we are prepared to quote exceptionally low prices until April 15th.

Lettering in cemeteries a specialty.
