

EVILS OF PROTECTION AND ALSO OF FREE TRADE

Are Shown Up in The Budget Debate

SIX MORE SPEECHES DELIVERED IN THE COMMONS ON FRIDAY

The Tories preach the Gospel of the National Policy — The Liberals Hold for Open Markets and Favoritism to None.

Ottawa, April 18.—Six more speeches on the budget, three by liberals and three by conservatives, were made in the commons yesterday. No weakening has yet appeared in the position taken on either side. The liberals are the undoubted evils of protection, and the conservatives demonstrate the unhappy conditions that follow where free trade is adopted. Driven to it, the government members admit that their ambition for more protection is necessary, is to make said protection "adequate," and when pressed, liberals admit that the ideal system from their point of view, if it were only practicable would be out-and-out free trade. Conservative speakers preach the gospel of the national policy and home markets; liberals show how protection of tariffs allows the growth of combines and the exploitation of the farmer. They preach the doctrine of open markets and favoritism for none.

J. A. Robb, of Huntington, resumed the debate from the liberal side by admitting foodstuffs under conditions of the Underwood tariff, was enabling American manufacturers to feed his employees cheaper than could the Canadian manufacturer. That was the feature of the tariff question, the government would yet have to consider.

J. A. Atkins, Conservative member for Brandon, characterized the course of the late government as "reckless"; while retaining the national policy, it did not work out as applicable to the west. The tariff consequently bore unequally upon the west. The late government had

ACTOR J. K. RACKETT WOULD BE A PEER

So A London Despatch Says—His Pedigree Is Traced Back To 1066

London, April 18.—It is the ambition of James K. Hackett, the actor, who has recently become wealthy through an inheritance from an aunt, to become a British peer.

He persists in his present determination he will file a claim to be recognized as Baron Hackett, of Hacketstown, and Sheldon Abbey, county Carlow, Ireland.

According to his pedigree, which Mr. Hackett has worked out, he is descended from Heket, one of the barons who came over from France with William the Conqueror, whose name, he asserts, is inscribed in William's "six and thirty nobles," dated 1066, upon a pillar of Battle Abbey, near Hastings.

FIGHTS POULTRY "SANDING"

New York Humane Society Wants the Practice Stopped

New York, April 18.—The Humane Society has appealed to the department of agriculture at Washington to put a stop to "sanding" and "over-cropping" of live poultry.

The Greater New York Live Poultry Dealers Protective association, which is co-operating with the Humane Society, says that chickens are starved for a day or more before the consignments arrive in Jersey City and then fed on a paste composed of grain, pebbles and finely crushed stone.

These, it is said, often add four ounces to a four-pound chicken and result in large profits. It is said that from 150,000 to 300,000 pounds of sand is thus sold to consumers here each week at a fancy price.

Mexico City, April 18.—The reply of the United States government to the demand of President Huerta, that there should be simultaneous salutes fired by the Americans when the Mexicans salute the American flag, was delivered, last night, to Foreign Minister Rojas. His reply was unfavorable to an early adjustment of the situation. The matter was considered at a cabinet meeting last night.

SUGGESTS HIS RESIGNATION

Winnipeg Tribune Think Provincial Secretary Should be Punished

Winnipeg, April 18.—The Winnipeg Tribune editorially commends Lieut. Governor Cameron for his refusal to attend the Catholic banquet where the pope was to be toasted before the king, and suggested that the lieutenant-governor might almost be justified in asking for the resignation of Hon. James Bennett, provincial secretary, who spoke to one toast.

ANOTHER EDITOR AT THE BAR

Halifax, N.S., April 18.—Following an article appearing in the Evening Mail, yesterday, inferring that if the legislature passed the bill to incorporate the Nova Scotia Power company, the conclusion to be drawn would be that the members had been bought, it was reported, yesterday, that W. H. Dennis, Jr., manager of the Mail, would be called to the bar of the house and be asked to explain.

CARSON'S DEFIANT SPEECH

And Home Rule Settlement Seems Very Far Away

Limaevady, April 18.—At Garvagh yesterday Sir Edward Carson made the most defiant speech of his present tour, and seemed to suggest that a settlement was further away than ever.

"There is very little daylight on the horizon," he declared. "Minor minorities, in their speeches, seem to think Ulster is afraid of a show of force. They think you are a kind of mob which will run away from policemen's batons."

"They do not credit you with being a great and local community. They do not recognize you have hearts and consciences, and the fact, that your strength is not in the number of guns and ammunition which you have, but in the determined way you will resist what is against your conscience."

"The government thinks that you could be subdued in a week by the fleet or by the army. I know you could not be conquered in years."

At Limavady, Sir Edward Carson made the same points, and it appears almost certain that the statement from Ulster headquarters will be that all hope of a compromise has passed.

CIGARETTE MENACE TO BE FULLY PROBED

Report Of The Committee Will Command The Serious Attention Of Parliament

Ottawa, April 18.—The Broder special committee on cigarettes, which produced some startling testimony with regard to the prevalence of smoking in feminine society circles of Canada, will probably continue its investigations next session.

The inquiry is intended to be thorough, so that an exact idea of the extent to which the smoking of cigarettes may be regarded as a menace, can be obtained, and so that the report of the committee will command the serious attention of parliament.

It is not thought possible to conclude an investigation of this character in the short time left. The committee will likely bring one or more witnesses from Washington, and will also obtain evidence as to what has been accomplished in the state of Pennsylvania. The effect of cigarette smoking upon the young is an important feature of the inquiry, and it is proposed to invite as a witness Sir Hugh John Macdonald, of Winnipeg, president of Canada's first juvenile court.

UNCLE SAM'S "SWAGGER"

Daily News' Correspondent Writes of Tampico Incident

London, April 18.—Cunningham Graham, in a letter to the Daily News, says:

"I doubt a certain class of newspaper will be quick to lyric in its joy that President Wilson is going to teach the 'greasers' a lesson. Yet I do not see that President Wilson is raising in his majesty to read a lesson to these 'greasers.' His naval demonstration, his massing of the whole Atlantic fleet, his landing of a party of fifteen thousand men, directed against the wretched little port of Tampico, in the poorest, cheapest swaggar imaginable."

"Some American marines were arrested in that town by a foolish officer. They were released and an apology was tendered by General Huerta's government. What more could be asked for? Had the incident occurred at Kiel, Yokohama or Cherbourg, would the American fleet have been sent there to demand that their flag should be saluted? I know not. The Japanese would have laughed such a demand to scorn. The French or Germans would have treated it with well-merited contempt."

"Americans have inherited from ourselves the propensities to swagger with the weak and make terms with the strong. This is a case of the grossness of force. It can be of no possible benefit to anyone, and if the Mexicans have any patriotism at all left in them they should unite all parties against the foreign invaders."

A BIGAMIST CONVERTED AND SEEKS ARREST

But Toronto Authorities Could Not Meet His Wish As Crime Done In England.

Toronto, April 18.—William A. Douglas, aged seventy-two, entered the morality department offices yesterday afternoon and said he wished to surrender himself. He said he was a bigamist and as he had just got converted he wanted to clear his conscience of his crime and pay the penalty.

He declared that thirty years ago he married a woman in Oakville, with whom he lived for fifteen years, and by whom he had four children. Seventeen years ago he went to England and there married another woman, from whom he soon parted. As the crime was committed in England officers of the department could not hold him here.

Mrs. Moorehouse, of Glen Buell, underwent a rather painful accident on Thursday. While feeding her turkeys a male bird which weighed 25 pounds sprang upon her, and her face was badly lacerated below the eyes by the claws of the bird. Medical attention was necessary in closing the wounds.

WILL BLOCKADE

Every Mexican Port By Next Morning

HUERTA MUST ACCEPT THE ULTIMATUM SENT BY UNITED STATES

Or the Yankee Warships Will Begin a Blockade — No Bombardment Unless the Mexican Forts Take the Offensive.

Washington, April 18.—For the first time for months, President Wilson appeared at his office this morning on a Saturday. This was in view of the expected developments in the Tampico affair. News was expected as to Huerta's last answer to the United States ultimatum.

Meanwhile, United States war vessels are rushing southwards along both coasts. By Wednesday morning they will be ready to blockade Mexican commerce from every direction. Unless Huerta backs down, every Mexican port will be blockaded. It is not expected there will be any bombardment unless the Mexican forts take the offensive.

With copies of the translations of the latest messages from Mexico in his pocket, Secretary of State Bryan and Secretary Tumulty, about eleven o'clock to-day, rushed from the state department to the Washington Club, golf links where President Wilson was going. It is reported that the dispatches show Huerta still haggling for terms for a salute. Bryan simply said: "The incident is not closed yet."

NO ELECTION THIS YEAR

Premier Asquith Informs the British Commons

London, April 18.—Following his denial that the government had decided to dissolve this summer, Premier Asquith, in answer to a question in the House of Commons, said that the government hoped to pass the bill for the abolition of plural voting before dissolution, and this cannot be done until 1915.

This declaration has, however, failed to disturb the conviction of the unionists that an election must come this summer, and they are preparing for that eventually.

It is probable that the third reading of the Irish Home Rule bill will be taken on either May 11 or 18, and the suggestion is made that in order to facilitate its passage one of the stages in the commons shall be eliminated.

EXPLOSION AT DUMP

SEVERELY BURNED TWO BOYS AND A GIRL

On Saturday Morning — Black Powder Exploded — Men Near by Saved the Children From More Severe Injuries.

An explosion, believed to have been caused by gunpowder, occurred on the dump on Lower Bogat street, on Saturday morning, about ten o'clock, and three small children, two boys and a girl, were seriously burned.

Karl Clark, aged fourteen, living on Montreal street, was badly burned about the face, neck and hands.

"Teddy" Tanner, aged nine years, living at the corner of Montreal and James street, was burned about the face and neck.

A nine-year-old girl, name unknown, was burnt about the arms and legs. Just how the explosion reached the dump, is not known for a certainty but it is believed to have been carted to the dump from some yard which has been cleaned out recently.

David Henry, a middle-aged man, who looks after the dump, was at work raking up some of the rubbish. Karl Clark was assisting him. When the explosion occurred Clark's clothing caught fire. The other two children were standing close by, watching and that is how they came to be injured.

Mr. Henry, who happened to be working some distance from the scene of the accident, escaped injury. He ran to the scene and it was his quick action which saved the life of young Clark, as his clothes caught fire and were extinguished.

Drs. W. A. McCarthy and L. E. Crowley were called to attend the injured.

A representative of the Whig called to see the two boys shortly before noon. They were suffering a great deal from the burns they received but were doing as well as could be expected. It is believed that all three will recover.

Several other children, who were playing around the dump at the time of the accident, had a very narrow escape.

ICE FIRM AT MONTREAL

Expert Opinion Says It Will Soon Clear

Montreal, April 18.—Eight or ten days after the ice goes out in the Richelieu, the St. Lawrence should be clear for navigation to Montreal, according to the superstition prevailing among mariners. The Richelieu was yesterday reported clear to the government signal service, so it is expected that about the 24th or 25th Montreal harbor should be free for navigation. Captain Demers, harbor master, has been of the opinion that the 25th would see the harbor of Montreal clear of ice, and he yesterday reiterated that belief.

In the river between Montreal and a point one and a half miles below Three Rivers, the ice-bridge still holds firm, and at Montreal the conditions remain much the same. From the Lachine Rapids to the foot of St. Mary's Current there is a stream of open water several yards in width, and this is gradually widening.

As far from that point to a present-day ice is apparently still sound, and may stay here for several days yet. There is said to be four feet of ice in Lake St. Peter, while Lake St. Louis is still frozen also.

TO BAR THE ENTRANCE OF COMING HINDUS

The Dominion Government Ready For 400 Orientals Who Are Enroute To Vancouver

Ottawa, April 18.—When parliament met yesterday, H. R. Stevens (Vancouver), directed the attention of the minister of the interior to a press dispatch stating that 400 Hindus and Hong Kong to Vancouver, with a view to testing the government regulation respecting oriental immigration.

The deputy minister received a telegram to that effect this morning, and replied, Hon. Dr. Roche, "and the officers at Vancouver have been instructed to prohibit these people coming in contrary to our regulations."

There is at present an order-in-council passed, on March 31st, and to be in force for six months, which prohibits the entrance of all artisans and laborers into British Columbia. It is believed that this order at least will effectually bar the entrance of the coming Hindus.

HIS STORY OF MURDER

Pleads Self Defence for Attack on Mrs. Millard

Vancouver, April 18.—Jack Kong, the Chinaman accused of the murder of Mrs. Millard, was brought up for trial yesterday. Evidence of a circumstantial character having been given in detail as to the finding of the cremated remains of the deceased, Kong said, "I want to tell there was no murder. I did it in self-defence."

He carried the body down to the basement and thought for sometime what he would do with it. Then he cut off the legs and arms and put all into the furnace.

GENERAL PAGET DENIES ULSTER COUNCIL CHARGE

That He Precipitated Officers Resignations

VISIT OF THE KING TO FRANCE NEXT WEEK IS ALL IMPORTANT

Revival of Talk of Extending the Influence of the "Entente Cordiale" and of Further Alliance Between Russia, Britain and France.

London, April 18.—General Paget, commanding the troops in Ireland, today emphatically denied the statements of the Ulster councils to the effect that he called his officers together and laid before them the plans of seizing and occupying Ulster, and thus precipitated their resignations.

Liberal papers denounce this latest manifesto of the Ulsterites as scurrilous, and some of the unionist papers cast doubts on the authenticity of these statements.

Next week is likely to be quiet so far as the Home Rule situation is concerned. The king is going to France, and there are efforts on all sides to make his visit one of international importance.

There is a revival of talk of extending the influence of the "entente cordiale," and the possibilities of further alliances between Russia, England and France for the preservation of the peace of the world.
