RADIUM A FRAUD

**MOST PHYSICIANS WHO URGE
ITS USE ARE CHARLATANS**

Paris, April 20.—A new inter-
pretation of the recent order-in-coun-
cil prohibiting the entrance into
British Columbia of all artisans and
laborers has been made here. It was
thought at first that owing to the
Chinese act the order-in-council did
not affect the entrance of Chinamen.
However, after a close study of the
legal aspects of the question, it has
now been decided that under present
regulations the government can, if it
so desires, exclude all new-comers
from China and in view of the re-
cent racial difficulties in British Col-
umbia, the government may avail
itself of this interpretation. The only
nation not excluded under the pro-
visions of the order are the Japa-
nese, whose case is covered by the
treaty arrangement with that coun-
try.

Ottawa is awaiting with consid-
erable interest and some anxiety the
arrival of the steamer which has
returned from Shanghai with four hun-
dred Hindus who, it is claimed, will
endeavor to test the legality of the
recent Canadian order-in-council as
to their rights as British subjects.
The steamer is expected to arrive at
Victoria about May 1 and orders
have been sent to the coast to pro-
hibit the entry of the immigrants if
they are entering in contravention of
the present regulations.

Owing to the present feeling at the
coast with regard to orientals gen-
erally there is some fear here that
trouble might develop.

"A WIFE SO SWEET"

**Late Lord Wimborne Pays Striking
Tribute in His Will**
London, April 21.—"I thank God,
who has given me a wife so sweet,
so loving, so capable," was the trib-
ute Lord Wimborne, who died in
February, aged seventy-eight, paid
to Lady Wimborne, to whom he be-
queathed property provisionally
valued for probate at \$1,250,000, so
far as present can be ascertained.

Lady Wimborne had been the wife
of the late peer since 1868. She is
one of a remarkable group of child-
ren born to the seventh Duke
of Marlborough. Her brother was
the late Lord Randolph Churchill.
She is thus Winston Churchill's
aunt. Her sisters are Lady De Ram-
sey, the dowager-Duchess of Rox-
burgh and Lady Sarah Wilson.

one dreaded disease that is being
able to cure in all its stages, and
that is the Catarrh Cure now known

being considered a disease, requires a
constitutional treatment. The
Cure is taken internally act-
ing directly upon the mucous sur-
faces of the system, thereby
restoring the foundation of the dis-
eased nature of the system, and
building up the constitution and
restoring nature's work. The prop-

**LADIES! SECRET TO
DARKEN GRAY HAIR**

Bring Back Its Color and Lustre
With Grandmama's Sage
Tea Recipe.
Common garden sage brewed in-
to a heavy tea with sulphur and al-
cohol added, will turn gray, streaked
and faded hair beautifully dark and
luxuriant; remove every bit of dand-
ruff, stop itching and
falling hair. Mixing Sage
Tea and Sulphur recipe at
home though, is troublesome. An
easier way is to get the ready to use
bottle, at drug stores, known as
"Wyeth's Sage and Sulphur Hair
Remedy," thus avoiding a lot of
muss.
While wispy, gray, faded hair is
not sinful, we all desire to retain
our youthful appearance and attrac-
tiveness. By darkening your hair
with Wyeth's Sage and Sulphur, no
one can tell, because it does it nat-
urally, so evenly. You just dampen
a sponge or soft brush with it
and draw this through your hair,
by morning all gray hairs have dis-
appeared. After another application
or two your hair becomes beautifully
dark, glossy, soft and luxuriant,
and you appear years younger.

**FOOLISH TO SUFFER
FROM STOMACH ILLS**

What's the use of suffering from
heartburn and the other disagree-
able things caused by Dyspepsia and
Indigestion when we offer you the
privilege of using Rexall Dyspepsia
Tablets entirely at our risk, with-
out the distinct understanding that, if
they do not relieve your stomach
trouble and make your stomach
comfortable and your digestion easy,
they will cost you nothing. If they
do not do all you expect them to, we
want you to tell us and let us give
back your money. We know what
they have done for others, and what
they are made of. That is why we
have confidence in them.
Among other things, they contain
Pepsin and Bismuth, two of the
greatest digestive aids known to
medical science. They soothe and
comfort the stomach, relieve heart-
burn and distress, promote the sec-
retion of gastric juice and help
make the bowels regular. We be-
lieve them to be by all odds the best
remedy for indigestion or dyspep-
sia ever made. We believe you will
say so, too, once you have used
them. If you don't, they will cost
you nothing. Sold only at the more

town only at our store. Three sizes,

CHINESE CAN BE EXCLUDED

FROM \$2.50 OF CAPITAL

**Chatelus Organized Future Prov-
iders Society 20 Years Ago**

Paris, April 20.—Frederick Chate-
lus, who died this week, was the
founder in 1891, when a poor typist,
of the Society of Providers for the
Future, and the help of a few
friends and a total capital of 14
francs (\$2.50). Twenty years later
the number of subscribers was 261,
000, with a capital of 31,000,000
francs (\$6,200,000). Each original
subscriber received an annual income
of 3,000 francs (\$600) from his first
investment.
The last years of M. Chatelus' life
was embittered by the discovery, in
1905, that the charter under which
the society was incorporated was il-
legal, so despite a long battle in the
law courts he was compelled to
transform it into a mutual aid as-
sociation of regular officers, and
abandon his independent and per-
sonal management.

THE TANGO IS ACQUITTED

**Emerges Triumphant From Dancing
Masters' Inquisition**

Paris, April 21.—The fifty dan-
cing masters assembled this week for
the first International Dancing con-
gress gave a verdict of "not guilty"
to the Tango, Maxixe, Tres-Moutarde
and other defendant dances charged
with impropriety.
The masters weighed the evidence,
pro and con, and made the acquittal
unanimous.
Several new dances were present-
ed, the principal being the tango, a
composition of M. Lefort, the presi-
dent of the congress, who gave a
demonstration of it. It is believed
that it will find much favor, for it
has arm movements much different
from anything now in vogue.
After a Furlana demonstration,
after which a uniform arrangement
of the dance was decided upon, the
Tango came under discussion, to
emerge stronger than ever.

FAITH IN FINGERPRINTS

**German Police Experts Not Disturbed
by New York Case**

Berlin, April 21.—The German
press, inspired by the local police
authorities, says that the recent fall-
ure of finger-print identification in
the case of an unknown man found
dead in New York is not likely to
shake confidence in the worth of
dactyloscopy for police purposes.
An official communique, issued in
Berlin, says that the fact that the
so-called "touch roses" can be re-
produced in wax is not new. They are
missing from persons who do hard
hand work or have been burned.
These lines can at best be only tem-
porarily obliterated, it is said. They
invariably renew themselves in their
original form as soon as the effects
of the artificial operation which has
been performed, voluntarily or in-
voluntarily, are removed, and event-
ually identification becomes as in-
fallible as ever.

THE GERMAN A GAMBLER

**Betting Machines Handled \$200,000
In One Day**

Berlin, April 21.—All race records
were broken in Germany on Easter
Monday when the gate at Karlsruhe
took in \$25,000 in admission money
alone and the official betting ma-
chines received and paid out \$200,-
000 in wagers.
The newspapers, far from decri-
ing the increase in the gambling pas-
sion which the figures denote,
pridefully deduce from them that no-
thing is better designed to destroy the
myth that Germans are poor or that
money is especially tight in these
regions.

REPORT FORTHCOMING

**Field Parties Have Covered Prac-
tically All Western Provinces**

Ottawa, April 21.—The Commis-
sion of Conservation, acting in co-
operation with the provincial gov-
ernments, has been making an exten-
sive investigation into the water
power of the western provinces. Field
parties have covered practically all
the territory in these provinces, par-
ticularly in British Columbia, and a
report will be issued shortly giving
full data, including the result of sys-
tematic stream measurements. The
information respecting the water pow-
ers in the eastern provinces was pub-
lished in a report by the commis-
sion two years ago.

CALL FOR BACHELORS

**Husbands Wanted for 65 Widows
Who Own Property**

Syracuse, N.Y., April 21.—Presi-
dent F. M. Parsons, of the village of
Weedsport, has sounded a clarion
call for bachelors to come to his vil-
lage and marry sixty-five widows
who own property there.
The town has too many widows, he
says, adding that he knows sixty-five
of them who would marry again.
Friends of the executive see an
Ethiopian in the woodpile. The vil-
lage is soon to vote on a municipal
lighting plant. Parsons opposes it
and wants the sixty-five votes to
carry the proposition his way.
