## RHEUMA WILL STOP ACID DEPOSIT

Isheumatic Complications Checked and the "Human Sewers"

The Kidneys, Bowels and Skin are the "human sewers" which carry off the impurities in the blood. When these are clogged Uric Acid sediment lodges in the muscles and joints and Rheumatism follows. RHEUMA, the great remedy for all forms of the terrible disease, checks the deposit of Urle Acid.

"For many years I suffered with Rheumatism. I am 71 years old, but am proud to say that after using one of RHEUMA the Rheumatic pains are entirely gone. I daily recommend RHEUMA to my friends."

FINDS WEED A SHEEP FOOD

Washington Man's Discovery May

Revolutionize Industry Remarkable success achieved by Y. C. Mansfield of Endicott, Wash., in fattening sheep on the long-despised Australian salt bush bids fair to revolutionize the sheep-raising industry ties-Rural Events, and Move in the northwest. Other farmers on whose acres the weed grows now regard what was formerly thought worthless land as a real bananza, and are preparing to turn their attention from the raising of hogs and wheat to sheep.

The salt bush is found along highways from Arizona to Washington. but few persons known its right name. In eastern Oregon it is generally known as the Pendleton food weed, and has been looked upon as are making maple syrup. James Wil- such a pest that there is a law against allowing it to go to seed.

> According to Mr. Mansfield, however, it is of more value to eastern Oregon than alfalfa, for not only is it a better feed for sheep, but it will grow on arid land, and requires practically no attention after once getting a stand, as it grows in hard, firm soil better than on loose, wellcultivated land.

Mr. Mansfield's experience unique. For many years he farmed 3,000 acres of land, all of which was wheat land with the exception of 150 acres, which were sub-irrigated alfalfa land. Finally this land became so foul with thistles and John

cided to invest in a flock of sheep. days at her home here. ## NERVOUS DISEASES

Strengthening the Nerves.

It is the opinion of the best medical authorities, after long observation, that nervous diseases are more common and more serious in spring than at any other time of the year. Vital changes in the system. after long winter months, may cause much more trouble than the familiar spring weakness and weariness from which most people suffer as the result of indoor life, in poorly ventilated and often overheated buildings. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and other forms of nerve troubles are at their worst, and that then, more than any other time. blood-making, nerve-restoring tonic

The antiquated custom of taking purgatives in the spring is useless, for the system really needs/strengthing, while purgatives only gallop through the bowels, leaving you weaker. Dr. Williams' Pink Pills are the best medicine, for they actually male the new, rich, red blood that feeds the starved nerves, and cure the many forms of nervous disorders. They cure also such other Hill mustard that this, with the high forms of spring troubles as headcost of labor and the low price of aches, poor appetite, weakness in the wheat, made it impossible for him limbs, as well as remove unsightly trice Allen and George Hawley has to continue longer to grow wheat pimples and eruptions. RULE OF THE MOB

of Irresponsibility Destroys, But Never Creates Leslie's Weekly. "A mob kills the wrong man," was

flashed in a newspaper headline lately. The mob is an irresponsible, unthinking mass. It always destroys, but never constructs. It criticises, but never creates.

Utter a great truth, and the mob will hate you. See how it condemned Dante to exile. Encounter the dangers of the unknown world for its benefit, and the mob will declare you crazy. It ridiculed Columbus. the mob gave him prison and chains.

Write a great poem to thrill humob will allow you to go hungry: The blind Homer begged bread fort after meals. To put wholesome and banishes discomfort without any through the streets. Invent a machine to save labor, and the mob will declare you its enemy. Less than 100 years ago a furious rabble smashed Thimotheir's invention, the

sewing machine. Build a steamship to carry merchandise and accelerate travel, and the mob will call you a fool: A mob lined the shores of the Hudson river to laugh at the maiden attempt of "Fulton's Folly," as they called his little steamboat.

The spirit of the mob stalks abroad in our land to-day. Every week gives a fresh victim to its malignant cry for blood. There were fortyeight persons killed by mobs in the United States in 1913, sixty-four in 1912, and seventy-one in 1911. Among the forty-eight last year was a woman and a child. Two victims were proven innocent after their

In 399 B. C. a demagogue appealed to the popular mob to have Socrates put to death, and he was sentenced to the hemlock cup. Fourteen hundred years afterward a demagogue appealed to the popular mob, and all Europe plunged into the Holy Land to kill and mangle the heathen. In the seventeenth cen-The last poem of Cy Warman, the tury a demagogue appealed to the ignorance of men, and twenty people were executed at Salem, Mass., with-"Release unto us Barabbas, and Ba-

The demagogue is the leader and instigator of the mob. He appeals to the passions and ignorance of men. His stay will not be long, for he fills the land with discord, but he never fills a pay envelope.

SHACKLETON'S FAILURES

Explorer Tells Experiences as Electioneer and Lecturer

Sir Ernest Shackleton tells three good stories of his three most memorable failures in life. First how he went electioneering.

He says of this: "On one occasion when I had to address a meeting I missed my train, and had to take a special to get through. I arrived at the hall just in time to hear the chairman apologizing for my absence. I, however, made my speech. What my opponents thought of it was voiced by one of them, who got up and said, 'He took a special train to get here, and when he got here, what did he say?

Nothing.' "I need scarcely remind you tha

was defeated. "It may interest you to hear that in Sydney, on my return from my last expedition, I had a very large audience-over 4,000 people in the town hall-and this is a contrast to a levture I gave in Leith a few years ago. I hired the hall and adver-

tised my lecture. "On the evening of the day, drove from my house in Edinburgh. and, instead of finding the place full,

not count since that means merely a rather not, as he was 'very comfort
