The state of the s

BEHIND THE WICKET

Price, \$1.00. William Briggs, To- children or granchildren-and Co., City.

Some time ago we reviewed Mr. Buschlen's book, "The Canadian Bank Clerk," which foreshadowed an organized effort to improve the position of bank clerks in this country. Since the publication of the book the author has been engaged in preaching his gospel of self help to the clerks in Toronto, but with indifferent success. His new book, "Behind the Wicket," consists of a number of from the viewpoint of the man behind the wicket. These stories are the pretty heiress' chocolate, and she and has chosen western Canada. not very dissimilar from many of the is in tears. They afford a striking picture-albeit somewhat overdrawn here and there-of one side of the daily life of a not inconsiderable part of our town and city workers.

GRANNIE FOR GRANTED

By Mrs. George Wemyss. 313 Pages McClelland, Goodchild & Stewart, Toronto, Publishers. R. Uglow & Co., City.

In Mrs. Wemyss' latest book we are given a most delightful chronicle of a grandmother who, though aged years, is still young at heart, and who is looked up to by her children and grandchildren as guide, philosopher and friend. She understands them all, does this big-hearted and kindly old lady. She smiles upon their foibles, and they love her. She exercises a grandmotherly indulgence over their shortcomings, and they adore her. She teaches a tender submission to the poignancies of life, and they reverence her. The children who troop in and out of the pages of this book are just ordinary, everyday children. They are not dressed up for the occasion, but are introduced to us just as they are, and with all their childish defects and all their study this bit of family life, so beauture of English family life is very earlier days will be revived. But the made public.

Experiments, said Dr. Barlow, showed the radium was present at times in normal human tissue but it was present in much larger quantieles in corcinomatous tissues.

On the evidence adduced, Dr. Barlow suggested that radium and radiatoni were cases of cancer providing that they were present in quantities capable of stimuating cells which were ultimately to form

DENIAL FROM VATICAN

and Mexico. Rome April 25-The vatican denies that it has interfered in the conflict between Mexico and the United States, or in the internal dissensions of the former country. In both countries there is complete separations between church and state, but as both grant to bishops and clergy complete liberty and the broadest protection, the pope, whenever it is possible, has advised moderation and has urged American and Mexican bishops when admitted to will need \$10,000,000 expended on his presence to do all in their power to mitigate animosity and work

to avoid conflict. In fact, the Vatican has been optimistic, and until the last moment the pope hoped that war might be much avoided, trusting particularly to the wisdom of President Wilson and to his repeated statements in favor of peace. Even on Tuesday night when the American warships were already firing upon Vera Cruz, the pope, speaking to a Cardinal, said that his impression was that the reports from the United States and Mexico had been much exaggerated, as he could not believe that two noble nations were flying at each others throats over a mere question of
