## FINANCIAL MATTERS

### C.P.R. SORRY IT SOLD ITS LAND TO SPECULATORS

What Has Developed in the Past Twenty-five Years—Germany Has Put the Brakes on Promoters— Commercial Notes

Montreal, April 27.—The earnings of our Canadian railways during 1913 amounted, broadly, to \$200,000,000. These figures include all the subsidiary lines, and other affiliations of whatever nature; but the figures are remarkable. Thirty years ago the C.P.R., which now shows gross annual earnings of \$140,000,000, could hardly buy axle grease. Its 25,000,000 acres of land were worthless. The land now sells at the rate of from \$5 to \$35 per acre. That worthless land in its totality represents a cash value of nearly \$350,000,000. The lands still to be sold will realize \$200,000,000. The commissioner, which the London paper of Lord Northcliffe's called Answers sent out to investigate conditions in the Dominion, regrets in one of his letters that the C.P.R. should have sold its land—any part of it—to speculators in the early days. The company regrets that policy to-day itself, but at the moment there did not seem any alternative. The people could not be coerced at the time to settle in the wilderness; and the company needed money; and the big parcels were parted with—parcels which in their unoccupied state are held in the hands of the settler, who has to go further back while the splendid lands lie idle close to the railway. Of course, not an acre is sold now except to the genuine settler, but the point of value is that in the course of a comparatively few years, our Canadian railways, which began in feebleness and doubt, without great faith in the future, and nudged at by critics, can show the enormous earnings, in a twelve-month, of \$200,000,000.

### Curbing the Promoters

Toronto, April 27.—Germany has found a way of preventing a form of watering stock very common in America—the setting of a fancy value upon a factory or other property brought into the country and issuing stock to the owners accordingly. Germany accomplishes this by rigorous legal provisions controlling the founding of companies. Property of any kind brought in as a founding cannot be accepted at the valuation put upon it by the promoters who have brought it in, or by the bank that brings the stock upon the exchange. Its value must be ascertained by at least two expert examiners, and these are appointed by a wholly disinterested authority, namely, the Chamber of Commerce, under whose jurisdiction the case falls.

### How many promoters in Canada's golden age of promotion would have weathered this regulation without throwing overboard big blocks of common stock cargo?

### Big Oil Transfer

Los Angeles, April 27.—The sale of \$15,000,000 of the treasury stock of the Union Oil company of California to Andrew Weir and R. Tilden Smith, capitalists and show owners of Liverpool, Eng., was announced late to-day.

### Made a Recovery.

New York, April 27.—Lehigh Valley after reaching the new low figure of 132, recovered two points on a report that recent liquidation had been completed. It was reported that a large block of stock, exceeding 20,000 shares, had been marketed by a corporation and that selling had caused the break of more than ten points during the past week. It is believed by interests associated with the management that no immediate reduction in dividend is expected.

### Million Monthly Loss

New York, April 27.—The pig iron industry in the United States is being operated at a loss of \$1,000,000 a month, according to a report of John Penton, of Cleveland, secretary of the American Pig Iron association. The report was made to the general meeting of the association held here to-day. It further declared that the average loss on all pig iron sold by eighty-five per cent of the pig iron manufacturers and merchants north of the Ohio river during February last was \$1.15 per ton. Unfilled orders on the books of members of the association on March 1 amounted to 1,714,801 tons, the report says, and as a result of these conditions many furnaces have closed down and plants are in the hands of receivers. The report carried with it a protest against the new tariff.

### Financial Notes

Montreal Arena company plans capital increase from \$25,000 to \$150,000.  
Brantford has secured a branch of the great Scotland Woolen Mills company.  
A spectacular rise carried Richelieu to its highest price since April 27th, when it sold at 102 3/4.  
The plant of the Canadian Connecticut Cotton Mills at Sherbrooke, Que., is now fully completed and in operation.  
New Haven management has received \$50,000 proxies favoring acceptance of agreement with department of justice with 400 against.  
An issue of \$50,000 of City of Theford Mines five per cent bonds is being offered by Hanson Bros. Montreal, at a price to yield 5 1/2 per cent. The maturity of the bonds ranges between November 1st 1918, 1942.  
Of the \$40,000,000 of New York Central 100-year 4 1/2 per cent refunding and improvement mortgage bonds recently bought by J. P. Morgan & Co., there already have been placed in the hands of investors approximately \$30,000,000.

During the past few weeks the private investors and financial institutions in Canada have invested millions of dollars in Municipal Debentures and other high grade securities. Many Kingston investors have taken advantage of the attractive interest yields as evidenced by the large orders for Bonds and Debentures, filed through our Kingston office during the past few weeks.

Surplus funds are piling up all over the world, owing to the general slackening of trade. These funds are going into Bonds and the increasing demand will likely cause an advance in prices. Municipal, Public Utility and Industrial Bonds are still cheap. We advise that you BUY NOW.

## "TIZ" FIXES ACHING, SWOLLEN, SORE FEET

How "TIZ" comforts tired, sweaty, calloused feet and burning corns—Can't beat "TIZ"

People who are forced to stand on their feet all day know what sore, tender, sweaty, burning feet mean. They use "TIZ," and "TIZ" cures their feet right up. It keeps feet in perfect condition. "TIZ" is the only remedy in the world that draws out all the poisonous exudations which puff up the feet and cause tender, sore, tired aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "TIZ." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

Get a 25 cent box of "TIZ" now from any druggist, department or general store. Think! A whole year's foot comfort for only 25c.
