

The valedictories which are included in the closing exercises of Queen's were delivered by students representing the different faculties, at Convocation hall on Tuesday afternoon. The programme commenced with the science valedictorian, H. P. Baker, who had nothing but praise for the science faculty as a whole. He laid particular emphasis on the mining and civil engineering training although in the latter branch he disparaged the attention paid to mechanical engineering. In regard to the mineralogy and geology department Queen's to-day has one equal to that of the foremost science college in America—Columbia university. As the course in science is each year enlarging, the opinion of the graduating year is that it should be extended to five years, following the example of the medical faculty. Regarding the military topic, which has been receiving so much attention of late at Queen's, the graduating class is in

MINING SCHOOL GOVERNORS

Recommend the Acceptance of the Leonard Offer.

The twenty-first annual meeting of the School of Mining was held in the engineering building on Tuesday evening. D. M. McIntyre, K. C., Toronto, J. McKelvey, Kingston, and W. P. Nickle, M. P., Kingston, were re-elected governors. Hon. Mr. Hartly having insisted that his resignation be accepted, a committee was appointed to select his successor.

Dr. W. L. Goodwin presented a report dealing with the year's operations showing that there were 228 students in attendance last year, and in addition 330 students in arts and medicine have been taking work in the School of Mining.

The treasurer presented the financial statement showing total expenditure for a year of \$17,645.50 with an over expenditure above receipts of \$3,112.

The meeting of the shareholders was followed by a meeting of the governors, Dr. W. G. Miller was present from Toronto, and Dr. Adam Shortt and Prof. R. W. Brock from Ottawa in addition to the local governors.

D. M. McIntyre, K. C., Toronto, was re-elected chairman, and Robert Crawford was re-elected vice-chairman.

In view of the increased grant from the Ontario government to the school it was decided to strengthen the department of civil engineering. Assistant Professor D. Ellis was given a year's leave of absence to take up post-graduate work. The proposals of Major Leonard were discussed, and the following resolution adopted:

"The governors of the School of Mining at their annual meeting having considered the offer of Major Leonard to build residences for the students of Queen's university who became members of the Canadian officers training corps, desire to express their appreciation of his generosity, and they recommended its acceptance by the trustees of Queen's university."

IN MARINE CIRCLES.

Movements of Vessels in and Out of the Harbor.

The steamer Lake Michigan arrived from Toronto, to go on Davis dry dock.

The steamer Sowards cleared on Tuesday night for Oswego.

The steamer Jeska cleared on Tuesday for Oswego.

The tug Stanton, and scow, cleared for the scene of the wreck of the steambarge Navajo, at the Main dry docks, and an attempt will be made to take off the vessel's boiler and engine.

The steamer W. H. Dwyer, after unloading her cargo at Richardson's elevator, will clear for Buffalo.

The schooner Katie Eccles cleared for Oswego.

The schooner Ford River is discharging part of her cargo of coal, at the dock of the Kingston hosiery mill.

The steamer La Monde recently fitted up at the Davis dry dock to ply between Picton and Napanee, cleared on Tuesday afternoon for Glenora with a cargo of bagged grain from Richardson's elevator.

The Fallon Bros' dredger, which has been undergoing extensive repairs at the Davis dry dock, left the dock on Tuesday afternoon, and the propeller Lake Michigan entered for repairs.

The sloop Maggie L., arrived from Picton, light, and will load grain at Richardson's elevator, for bay ports.

The tug Bartlett cleared on Tuesday night with two barges for Port Dalhousie.

The schooner St. Louis cleared for Oswego on Tuesday.

The tug Chippawa, of Oswego, arrived here this morning, from Cape Vincent to take back the steamer Jessie, owned by Capt. A. R. Hinckley.

The Donnelly Wrecking company was on Wednesday preparing to go to Long Point, forty-five miles from here, to raise the barge Ceylon, that ran aground last fall. It will be the latter end of the week before the necessary wrecking outfit will be ready to leave for the scene.

Prevost, Brock street, has received all his spring and summer goods for his order clothing department, also in ready-made clothing and gent's furnishing department. They are all well assorted with new goods.

The eight-year-old daughter of Isaac Shroom, Toronto, was suffocated in a fire which destroyed her home.

P. P. music of any description call Dutton's. Teachers supplied. Opposite Opera House. Phone 270. Mail orders given special attention.

An unconfirmed Vera Cruz rumor says six Americans were executed at Cordoba on Tuesday.

Read everything in the White's second section. There is good news given on its pages.

The Prescott liberal association has been dissolved.

Don't buy White Rose if you want a cheap flour.

THE BOWMAN CHARGES

IN LEGISLATURE AGAINST HON. W. J. HANNA.

C. M. Bowman Laid Serious Charges Against Conservatives of Working to Defeat Canada Temperance Act in Welland, Huron and Peel.

Toronto, April 29.—I charge that an agreement or understanding was corruptly or improperly made between the provincial secretary, acting in and for his department, and as such representing the government, and the organized liquor interests of the province of Ontario as represented by its organizations and representatives, that he (the provincial secretary), and his department of the government, would co-operate with the organized liquor interests in helping to procure the defeat of the Scott act in the counties of Welland, Huron and Peel, and that the said understanding or agreement was arrived at under the circumstances hereinafter set forth.

"I further charge that the said W. K. Snider did not go into the said counties in performance of any official duty of his office, or because he thought it part of his official duty to do so (as alleged by the provincial secretary), but went to the said counties upon the request and direction of the said provincial secretary in order to carry out the said understanding or agreement so arrived at by the said provincial secretary and the representative of the organized liquor interests."

"I further charge that the said W. K. Snider in so visiting in his official capacity the said counties, then and there stated that he represented the department of the provincial secretary, and the government, and endeavored to persuade the parties interviewed to work for the defeat of the Scott act, and advised them that it was the desire of the department of the provincial secretary that the Scott act should be defeated, and that the said statement of the said W. K. Snider in the said counties might be taken as representing the said department and acting upon instructions from the said department was true in substance and in fact."

The above represent the charges of C. M. Bowman, which were made in the legislature yesterday afternoon against Hon. W. J. Hanna, provincial secretary. The statement read by Mr. Bowman was an account of the visit of Inspector W. K. Snider into the counties of Peel, Welland and Huron in January last, when the vote on the Canada temperance act was being taken.

Hon. W. J. Hanna denied the charges, of course.

NATIONALISTS SMUGGLE

Arms Into Ireland Brought by Strange Steamer.

Londonderry, Ireland, April 29.—The Irish nationalist volunteers, a body similar in organization to the Ulster unionist volunteers, made matters even with their political opponents in the course of last night by successfully landing a large consignment of arms. The weapons, which are said to have been brought from America, were taken ashore at a remote spot on the coast of the county of Donegal, in the far west of Ulster. A strange steamer had been seen off the coast for three successive nights. Late last night a number of fishing craft approached, took off the cargo, and succeeded in evading the coast guards and landing the rifles, which were quickly distributed.

The size of the consignment is unknown, but it is believed to have been considerable, although not equalling the 40,000 rifles and 500,000 rounds of ammunition the unionists received on April 25th.

FOY DOES NOT KNOW

If An Ontario Election Is Soon to Take Place.

Toronto, April 29.—R. N. Rowell, in the legislature yesterday, made enquiry about the possibility of a June election.

Certain rumors, Mr. Rowell said, were afloat and with the session near its end, he said the house and the country will be interested to know whether it is the intention of the government to bring on an election in June.

Hon. James Duff regarded this as a joke and laughed loudly.

"I cannot give the house information that I have not got myself," said Hon. J. J. Foy.

It is not thought an election will be brought on until the fall.

POPULATION OF U. S.

Population of States and Possessions Is 109,000,000.

Washington, April 29.—Continental United States now has a population of more than 98,000,000, while the country, with its possessions, is peopled with more than 109,000,000 persons, the census bureau announced today. Census experts have calculated that the population of Continental United States on July 1st, 1914, will be 98,781,224, against 91,972,300 on April 15th, 1910, when the last census was taken.

ROBLIN MET HIS MATCH

When He Was Held Up By Diphtheria Quarantine.

Ottawa, April 29.—Premier Roblin, of Manitoba, who is in the city, found when he arrived in the east a few days ago that even though political factions and statutes can't stop something, he has met his match when he stacks up against a quarantine.

The premier of Manitoba told the story at the Chateau. Last week he visited Picton for the purpose of calling on his ninety-seven year old father, who lives a short distance from Picton. When he arrived outside the house he found himself confronted with a placard from which stared the sinister word "diphtheria."

Halting on the safe side of the front fence the premier of Manitoba managed to make those in the house cognizant of his presence by a few full-lunged yells. When they came out to the veranda they informed him that he must stay out in the road because the daughter of the house had an attack of diphtheria. Premier Roblin had to carry on his conversation over the top of the fence.

PRIESTS SEEK TRANSFER.

Further Trouble In Ottawa University Threatened.

Ottawa, April 29.—Further disruption of Ottawa university, resulting from the bilingual agitation, is threatened. The Revs. Fathers Stanton and Finnegan and another English-speaking priest on the teaching staff of the university, have requested their superiors to remove them from the Canadian jurisdiction of the Oblate Order and to allow them to be attached to the United States jurisdiction.

Fathers Stanton and Finnegan are both of United States origin and it is understood that their application for a transfer is endorsed by the Father Provincial of the American province. The application is now in the hands of the university authorities and of Father Charlebois, the Canadian provincial of the Oblate Order.

PRISONERS GAVE LUNCH

Mexicans Wandered Too Close to U. S. Lines at Vera Cruz.

Vera Cruz, April 29.—Six federal soldiers who wandered too close to the American lines, were captured late yesterday by mariners. There is not any desire among the Americans to attack or in any way assume the offensive against the Mexicans, so when the mariners found themselves in possession of a squad of Huerta's soldiers they did their best to entertain them.

The gossamer with the Mexicans regarding the news beyond the lines and after a field luncheon shook hands with them and sent them away.

PAY PASTORS \$15 PER WEEK

Fund to Increase Pay Inspires Fear of Independence.

London, April 29.—The Baptists of Great Britain celebrated by a mass meeting in the Albert Hall the completion of the fund of \$750,000 to provide more adequate stipends for the ministers of the church. At present 140 ministers receive less than \$75 yearly, whilst 700 are paid less than \$750.

There is some heart-burning amongst the more strict members of the denomination, because it is claimed that participation in the benefits of the fund means control of the individual minister by the board of trustees.

CONCERT AT PORTSMOUTH

It Was Held Under the Auspices of Hockey Team.

The concert given in the Orange hall, Portsmouth, on Tuesday evening under the auspices of the Portsmouth senior hockey team in the city league, was a decided success.

Rev. James Halliday acted as chairman of the evening and the programme was a most delightful one. It included piano selections by Miss Margaret Kennedy and Miss Matthews; songs by Miss Wilkins, and Mr. Partridge; recitations by William McFriedge and Mr. Kelly.

BETTER C.P.R. RAILWAY CONNECTION.

After May 1st, a better railway connection will be obtained at Sharbot Lake. The trains of the north and south will make better connections with the trains from the east and west. Last December the Frontenac County Council passed a resolution asking for the C.P.R. authorities, asking for the desired accommodation, and on Tuesday afternoon a letter was received by County Clerk J. W. Bradshaw, from A. D. Cartwright, of the Dominion Railway Board of Commissioners, stating that after the above date the train connections will be improved.

RATS LEFT KINGSTON.

Yesterday, by Dominion Express, George Mills & Co., the Princess street furriers and hatters, made another shipment of two thousand six hundred and fifty muskrats to their dresser in Montreal. The fact that most of these were bought in a single day (last Saturday) gives some idea as to the quantity that this concern handles in a season. When the skins are dressed they come back here and are made up into coats, muffs, etc., in their own factory—hence the quotation in their trade mark—"from hunter and trapper direct to you."

PRISON FOR MYSICIAN.

Pittsburgh, April 29.—Dr. C. C. Meredith, arrested some weeks ago in a sensational raid on private maternity hospital, known as "The House of Mystery," pleaded guilty to malpractice and was fined six and a quarter cents, and sentenced to not less than five nor more than six years in the Western penitentiary. The fine was imposed so that the costs could fall upon the accused.

THE SPORT REVIEW

PITTSBURGS LOOK GOOD FOR NATIONAL LEAGUE WINNERS

They Have Got a Flying Start—Sir Wilfrid Laurier Reads the Sporting Pages

Pittsburg are away flying in the National Baseball league race. This same club will take some beating for the pennant.

Cleveland Naps are coming to life. After losing eight straight, "Joe" Birmingham's "hard lucks" have won their last three contests.

"Old Man" Mullen, who was not good enough for Montreal, and who was knocked out twice by the Leafs last season, is winning his games in the Federal league.

Ty Cobb, the Detroit star, has purchased a dozen bats, each two ounces lighter than those which he formerly used. He expects that the change will improve his batting.

The Prescott lacrosse team has organized for the season, but the question of where to play has been left in the hands of the new officers. They cannot play in the O.A.L.A., and the only recourse is the N.L.U.

Manager Frank Chance, of the New York Giants, has released Outfielder Channel to Buffalo Internationals. Channel goes to the Buffalo club along with Gihoooley, as part of the deal for Second Baseman Truesdale, but a string is said to be attached to him.

"It's Pittsburg I fear," remarks Manager McGraw of the Giants. "Those Pirates have always been late starters in other seasons, but they come through with a great finish. This spring they are out in front, and will be hard to beat." Manager McGraw does not think much of the Cubs, nor the Phillies.

Manager Shaughnessy of Ottawa now thinks it's a four team race in the Canadian league with Erie, London, Peterboro and Ottawa the contenders. He figures that Peterboro is the most dangerous club of the three. However, the champs look to have the best ball club they have possessed since the Canadian league entered Ottawa.

"Jack" White, formerly a star of the International league, is likely to manage the Toronto Beavers in the Canadian league this year. Eddie Holly was billed for the job, but is unable to connect. Knotty Lee is at present in charge of the Beavers, but Knotty won't do as manager, though he will be retained as business manager and general fusser.

"Just because I am old and long in the game, I suppose," said the great Hans Wagner, "a great many young players have come to me and asked my advice against this Federal league excitement. For all these boys, I have only one thing to say: Stick with the club that brought you from the brushwood, and gave you your first opportunity. Tell the Federal spies you owe them nothing, and politely turn them down." Then, if they keep on pestering—oh, well, I'd overlook it if you hit 'em."

Sir Wilfrid Laurier may not be as well versed in sport as some of the present day youngsters, but on Saturday night he demonstrated that all his reading of newspapers isn't confined to matters outside the sporting page.

It happened at a little reception prior to the annual dinner of the parliament press gallery. Francis Nelson, sporting editor of the Toronto Globe, perhaps more familiarly known to the sporting fraternity as "Judge" Nelson, was introduced to the liberal chief. The formalities of the introduction were no sooner over than Sir Wilfrid remarked: "And by the way, Mr. Nelson, were you the man who was asked to referee the Johnson-Jeffries fight?"

GIRL STUDENTS GRAB

A Man Who Broke Into Alma College, St. Thomas.

St. Thomas, April 29.—A young lady student at Alma Ladies' College here was awakened by a noise about two o'clock yesterday morning and quietly investigating discovered a man in the corridor.

The other girls were aroused and while some stood guard at the windows and exits from the corridors, others flew to arouse the principal, his son and the janitor. These three arrived and took the man who was still surrounded by the determined girls, into custody. The police were called by telephone and the fellow was lodged in the cells.

He gave his name as Thomas and pretended to be intoxicated or dopy. He had climbed a fire escape to the second storey and gained entrance through a window. Before he had time to secure any plunder, if that were his object, the plucky young lady students nabbed him.

TAKES OVER THE BUSINESS

A. Neil, formerly manager of the Kingston Brick & Tile Co., Division street, has taken over the business, and in future will operate it himself. Mr. Neil, who has had a long and varied experience in brick and tile manufacturing, will be certain to render an up-to-date service to the general public. His announcement to the trade appears later.

Dutton's sole agents for celebrated "Newcombe" piano, noted for durability and purity of tone. 209 Princess street.

The C.P.R. steamship Montford, from London, is aground a few miles from Quebec. The passengers are safe.

Orchestra leaders notice: Various selections, 10 parts and piano, regular 75c, for 15c. Dutton's sale.

It is understood that Churchill favors further compromise on the home rule question.

Clearing sale of children's walking slippers less than half price. Dutton's.

JUST COME AND LOOK AT OUR WONDERFUL BARGAINS. J. McAuley, Furniture Dealer, &c. 281 Princess St.

SIR SANDFORD FLEMING. Installed on Monday afternoon as chancellor of Queen's University for the thirteenth term. He has already served thirty-six years.

complete favor of its adoption and strongly advises the course at present outlined.

The arts valedictorian, W. J. C. Scott, expressed his regret at the way some of Queen's examinations were conducted in arts and of the additional essays which were asked for in certain subjects at the last month. He thought the time was not far distant when final examinations would be a thing of the past. In regard to the Alma Mater election, Mr. Scott was of the opinion that the present system created too much of an antagonistic spirit in the university and that instead of each faculty running men in opposition to the other a system whereby the faculties should each nominate two candidates for officers in rotation. The speaker was very enthusiastic over an arts educational course and its value in increased capacity for intellectual enjoyment and opening new fields of thought.

W. P. Orok, B.A., represented medicine and was very warm in his praise of the medical faculty. The class this year numbers sixty-nine, and is the largest that has ever graduated in medicine at Queen's. He expressed his pleasure at the present catholicity of Queen's in regard to religion. Regarding the present five-year course he regretted that English had not been added to the list of subjects. In medicine there is a lack of teaching material and some remedy should be found to teach the need. The students of the final year regretted the loss of one of their most beloved professors, Dr. R. W. Garrett. Mr. Orok expressed, in behalf of the graduates, their thanks to the people of Kingston for their kindness during their college career. A very good point that the speaker emphasized was the present day necessity of the church and state aiding the medical profession in stamping out certain diseases.

George Telford represented theology and gave an interesting and humorous address. Queen's to-day, he said, possesses the finest theological course in Canada and equal to anything in the United States. Miss E. Wright gave a piano solo and Miss Elmer rendered a vocal solo.

THE MAYOR DOES NOT NEED

Cuspidors In His Office For His Own Use.

When newspaper representatives visited the mayor's office this morning they spied two bright and new cuspidors upon the floor, and asked his honor the meaning thereof. Mayor VOYER replied that they had not been bought there for his use. The Finance committee smokers desired the Rods, and their wishes were granted.

All the use the mayor has for them would be to turn them into a paper.
