## Freckles

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by Geo. W. Mahood under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely. Be sure to ask Geo. W. Mahood for the double strength othine; it is this that is sold on the money-back guarantee.

## Orrine for Drink Habit

TRY IT AT OUR EXPENSE

We are in earnest when we ask you to give ORRINE a trial. You have nothing to risk and everything to gain, for your money will be returned if after a trial you fail to get results from ORRINE. This offer gives the wives and mothers of those who drink to excess an opportunity to try the ORRINE treatment. It is a very simple treatment, can be given in the home without publicity or loss of time from business, and at a small price.

ORRINE is prepared in two forms: No. 1, secret treatment, a powder; ORRINE No. 2, in pill form, for those who desire to take voluntary treatment. Costs only \$1.00 a box. Come in and talk over the matter with us. Ask for booklet. G. W. Mahood, cor. Princess and Bagot Streets.

## Investment Information

IF today you are thinking of investing money you have on hand and are undecided what to buy—write us.

Upon request we shall be pleased to suggest suitable investments for you.

## USE HOT WAX BATHS

FOR RHEUMATISM, GOUT AND LUMBAGO

French Doctor Recommends Them—Enters a Vat of Paraffin at a Temperature of 120 Degrees to Prove His Theory

London, April 28.—Great interest has been excited in medical circles by the communication made to the Academy of Medicine in Paris by Dr. Barthe de Sandfort regarding the curative powers of heated wax in certain diseases, in regard to which details are printed.

A medical correspondent of the Daily Chronicle points out that "wax" is really a generic term, which signifies, roughly, anything which is of the consistency of beeswax. The term was at one time used in pharmacology, but it has long since been discarded in favor of words more precise in meaning. If one were to come across it nowadays it would signify hard paraffin. Soft paraffin is vaseline; liquid paraffin is oil.

In matters medical, the correspondent says, paraffin already enjoys the confidence of the profession and the public. It goes on to say:

"Vaseline we have known since the days of our childhood, and liquid paraffin admired with all kinds of evil-smelling substances has been sprayed into our throats and up our nostrils whenever we have dared to indulge in a cold. Comparatively recent liquid paraffin has attained to an enormous vogue as laxative. A very celebrated English surgeon has been the apostle of the internal administration of paraffin; it has been reserved for a French physician to proclaim its merits as an external application.

"Dr. Barthe de Sandfort has been working at the subject since 1907. For eight years the progress was slow, but so sure that in 1909 he was emboldened to do a thing which any one up to that time would surely have described as the act of a madman. So confident was he in the results of his observations that he actually entered a large vat full of paraffin at a temperature of considerably over 120 degrees Fahrenheit. What this means may be realized by looking at the readings on an ordinary bath thermometer, where it will be seen that a hot bath is anything over 105 degrees Fahrenheit. It is not many people who can endure a bath of 110 degrees Fahrenheit.

"Now, what is the outcome of this deed of inculcated but not frigid daring? In principle the outcome is this: By means of paraffin it is not possible to make an external application to the human body of a temperature very much higher than has hitherto been deemed possible without provoking pain or serious scalding.

"In practice the results may be divided into medical and surgical. In medicine hot-water baths, douches, poultices, and fomentations will be superseded in the treatment of local pains and inflammations such as occur in rheumatism, gout, lumbago, sciatica, varicose veins, boils and the like, by applications of superheated wax. In surgery, wounds, ulcers, burns and the like will be treated by super-heated wax in preference to ordinary dressings. The wax forms an artificial seal over the wound, protecting it from outside microbe air, and, by some process which remains to be explained, promotes very rapid healing.

"These are not assumptions on the part of Dr. Barthe de Sandfort. During the thirteen years that he has been at work on the question he has proved his conclusions. And the word of a man who will enter a tub of boiling oil in support of his theories may well be relied on.

"On the subject of his experience in this particular connection, Dr. Barthe de Sandfort says that not only did he suffer no discomfort, but that after the bath he felt stimulated and exhilarated."

### IT WAS UNCERTAINED

Welland Commissioners Do Not Refuse Licenses

Welland, April 19.—The Welland county license commissioners passed a new regulation requiring the curtains of all bars to be open during prohibited hours, giving an unobstructed view of the bar. Five of the seven licenses held over last week were granted. Two are again held over until May 5th, and it is understood that a change of ownership is demanded before they will be granted. The appeal of the temperance people to have the licenses of country hotels no longer needed by the traveling public cancelled has borne no fruit.

## KEPHALDOL

Cures Pain, But Does Not Affect the Heart.

First of all it may be well to mention that "Kephaldol" is the prescription of one of the world's greatest nerve specialists—the famous Herr Doctor Stohr, of Vienna, Austria. He has used "Kephaldol" in his private practice and hospital clinics in thousands of cases of Headaches, Neuralgia, Rheumatism, Sciatica, Neuritis, La Grippe and other forms of Nerve Exhaustion. The mere fact that Dr. Stohr originated "Kephaldol" is the only recommendation needed by most physicians and surgeons to commend the formula to their attention. "Kephaldol" is the only pain-relieving remedy used by Dr. Stohr, because it is the only one that does not affect the heart or other organs and may be taken with perfect safety until a complete cure results. "Kephaldol" Tablets may be obtained at most drug stores in 50c tubes, or they will be sent on receipt of price by Kephaldol, Limited, 31 Latour St., Montreal.

A TROUSSEAU NEGLIGEE OF EGYPTIAN CREPE.

The rich, clinging material of which this garment is made—a brocade Egyptian crepe in rose tone—makes the negligee fall about the lines in a most graceful manner and at the same time the fabric is caught up under a metal ornament. Two snap buttons quickly and so easily. One is placed under the ornament at the hip and the other hides among the folds of the lace collar.

### HON. A. MEIGHEN TO PLEAD

Canada's Case on Labrador Boundary Dispute.

Ottawa, April 29.—Hon. Arthur Meighen, the new solicitor-general, will make his first appearance before the judicial committee of the privy council as the representative of Canada this summer. He will appear in June for the old country to appear before the judicial committee in the dispute between Newfoundland and Canada, which has arisen over the boundary line of Labrador.

This is an old question, which has been in abeyance for years. It has become suddenly a live judicial question through the fact that Ungava has been annexed to Quebec, and through the growing importance of the Hudson Bay route. The original cause of the dispute arose over the granting of fishing licenses along the coast by both the Quebec and Newfoundland governments.

The matter came up incidentally today in connection with the granting of a bill to incorporate the Atlantic Railway. Premier Borden in answer to a question explained that the boundary dispute was being referred to the privy council at the request of the two governments. It is known that Hon. Arthur Meighen has been working on the case for some time, and it is the present intention to have him plead Canada's case.

### UPROAR IN BRITISH HOUSE

When Crooks Dubbed Unborn as "His Majesty's Enemies."

London, April 29.—In the British House of Commons yesterday Austen Chamberlain bitterly assailed the government and moved a vote of censure for its home rule policy. "The government," he declared, "is criminal," he declared, "in its statements simply conceal their plans."

The government was admittedly deeply concerned over developments yesterday. Reports from London yesterday stated that a huge cargo of arms had been landed early in the morning at Hongkong, despite the vigilance of the police. This indicated the nationalist volunteers are also getting well armed.

In the commons in the afternoon Mr. Asquith said the report would be investigated. While Asquith was being plied with questions by unionists relative to the movements of troops, Will Crooks, labor member, said: "Is it wise to reveal the movements of troops to his Majesty's enemies?"

This caused an impetuous uproar and it was a long time before order was restored. Finally the debate on Austen Chamberlain's censure motion was postponed.

The second cabinet meeting within twenty-four hours for the discussion of the Ulster situation took place yesterday, although the government has already begun to set additional forces of the law at work. The police in outlying Ulster have already been reinforced and instructed to search all automobiles and to arrest occupants if any are found carrying arms. Lloyd-George's budget statement has been postponed till Monday.

A petty office sometimes quickly develops the mammoth fool. Every community has its array of financiers on a small scale.

### GANANOQUE POSSESSES

Some Very Ancient Bibles and Other Old Volumes.

Gananoque, April 28.—Under the heading of "Remarkable Old Family Bible" in your semi-weekly issue of Monday, April 27th, appears an article crediting an old bible owned by W. C. Mickel, K.C., Belleville, "probably the oldest in the province."

Gananoque possesses at least two copies of the sacred scriptures that in point of time can discount it by practically a century.

One owned by Mrs. George Taylor, wife of Senator Taylor, published by the deputies of Christopher Barker, printer to the Queen's Most Excellent Majesty, 1599. It being a Geneva version of the famous Breches bible, so-called because of its unique rendering of Genesis 11:7.

Another in the possession of Frank Eames is practically of the same class, being printed by Thomas Barker, a son of Christopher Barker, London, 1605. This latter was consequently published six years after that of Mrs. Taylor's. Both volumes are in most excellent condition and needless to say are highly prized by their owners.

If the age of books generally were the topic, Gananoque can lay claim to more remarkable old books probably than any other town of her size in the country, to say nothing of the characteristic features of which vellum MSS of the thirteenth century. Conspicuous among a case of some fifty volumes, of which the youngest has considerably passed the century limit, are the following:

The Theological Works of Thomas Bacon, printed at London by John Day "Over Aldersgate Beneath St. Martins" 1562.

This is a massive volume, worn and stained with brass bosses and clasps; its condition is unique, clean and quaint the old black letter carries one back to the Elizabethan age and the early form of spelling, and the characteristic features of which give us light on the more modern use of the letter "th" by Englishmen in places where it is not thus used by other people. Most noticeable among these are the names "Eve" and "Abel" which are made to read "Hue" and "Habel," nor are these alone quaint in spelling, for every "be" is a hump "bee" the use of which seems to give almost as much surprise as though the sting was in it.

The commentary of Petri Fonseca is another with its quaint the strings, which are still strong enough to prevent being readily torn apart; this volume is shown as having been printed by John Theobald Schonyetter in Frankfurt 1599; its cover linings are of a complete folio in the earlier German gothic text.

With its pages lashed to the covers with white rawhide twines comes Thomas Stapleton's "Pentecostium Catholicum printed in Antwerp 1593. Another volume is that of Plutarque's Les Vies Des Hommes Illustres Grecs et Romains in early French, printed in Paris 1604, and bound in vellum with thongs of rawhide.

A visit to the owner's den afforded the writer great pleasure and Mr. Eames is nothing if not congenial and ardently fond of his "obbies. He is only too pleased to show his collection to any one who may be sufficiently interested to make request.

### AUSTRALIA'S "NATIONAL"

Song Written in Competition Wins Adoption and \$500

A few months ago the Musical Association of New South Wales offered a prize of \$500 and the Commonwealth's adoption for the "best Australian National." Since then the Emersonian phrase that "all men are poets at heart" has had fierce and varied expression. The composition of Arthur H. Adams, editor of the Lone Hand, was finally accepted as the best, and is now making its way into the hearts of the Australians. It runs as follows:

Which the heritage we hold,  
League on endless league unrolled,  
Splashed with sun and wattle-gold,  
God's demesne, Australia!

Great our opportunity,  
Greater must our courage be;  
For our race we hold in fee  
God's demesne, Australia!

Sons of those who won the sea,  
Of Imperial blood are we;  
Ours the country of the free—  
God's demesne, Australia!

Freedom from our onward stride!  
Wide our continent and wide,  
Are the faith and hopes that guide  
God's demesne, Australia!

Though begirt with guardian seas,  
Not in careless, slothful ease  
Shall we yield thy liberties,  
God's demesne, Australia!

Loyal sons of our race,  
Ready chance and chance to face,  
We shall die, but ne'er disgrace,  
God's demesne, Australia!

C. F. Sinn Dead

Arnprior, Ont., April 29.—One of the best known Canadian railway men passed away yesterday morning here in the person of C. F. Sinn, father of G. Maxwell Sinn, of Montreal. He was seventy-four years of age and retired about nine years ago from the C.P.R., with which company he had been chief travelling auditor.

Requiesce Joe Martin

London, April 29.—The executive of the Liberal Association of East St. Pancras will recommend at a special meeting on Friday to adopt a new candidate instead of Joseph Martin. This action is the result of differences between Martin and the association, but the present member declares he will contest as an independent.

Say good-morning as if you meant it for the whole world.

### THE WOMEN OF GERMANY

Very Active in Reform — To Attend Big Convention

Berlin, April 29.—It is announced by the League of German Women's Associations that over a hundred leaders of the women's movement in Germany will be in Rome next month for the quinquennial meeting of the International Council of Women and the characteristic features of which gives us light on the more modern use of the letter "th" by Englishmen in places where it is not thus used by other people. Most noticeable among these are the names "Eve" and "Abel" which are made to read "Hue" and "Habel," nor are these alone quaint in spelling, for every "be" is a hump "bee" the use of which seems to give almost as much surprise as though the sting was in it.

The work of the women's organizations in Germany since the last meeting of the council in 1909 has been largely directed toward legislation, and the league, with its more than half a million members, has become a power before which the government and parliaments have frequently had to bow. Petitions and demonstrations have been launched repeatedly against measures affecting the economic status of women, and this aspect of the program of the Rome conference will receive the particular attention of the German delegates.

The question of female suffrage, on the other hand, is for the German women more a matter of academic interest. Practically all the organizations connected with the league are in favor of giving the vote to women, but it is generally recognized that this cannot be won in Germany in the immediate future, and attention is concentrated on other efforts. Women's associations have been organized with a view to the political parties, even in most of the conservatives, in spite of their general attitude that the proper sphere of woman is limited to the "three C's," children, church and cooking.

"THE PANKHURSTS MUST GO."

Slogan of a New Suffragette Organization in London.

London, April 29.—A new suffragette organization, which has been formed here by several leaders who believe that the cause of woman suffrage has suffered by the practices of the Women's Social and Political Union, has adopted as its slogan "The Pankhursts Must Go!"

The movement is being boomed by Suffragettes who were at one time supporters of militant tactics, but who have been forced out of the leading militant organization because of their moderate views as to the campaign which should be carried on.

It seems that Mrs. Emmeline Pankhurst has not only dismissed members of her personal staff, but has also been discharging privates. One of these women who was dismissed last week says she was forced out on a most trivial pretext and that recently Mrs. Pankhurst has dismissed a number of workers from the organization; apparently through caprice. It is asserted by this woman that the militants are dwindling in numbers daily and that at present there are only 3,000 active workers.

Often times the hardest worker in the whole force is he who plans the work.

MRS. C. R. APPLIGATE

Tells Mothers What To Do For Deicate Children

"My little boy has been rather delicate for a long time. He was always very pale and his appetite was poor. Several people recommended Vinol. I gave it to him and he took it willingly, as the taste is delicious. In a short time I noticed a great improvement in his appetite. He soon had more color in his cheeks. He is now well like other children and romps about every afternoon after school. I am so happy with what Vinol did for my little boy, that I want every mother to know about it."—Mrs. C. R. Appligate, Dayton, Ohio.

This delicious cod liver and iron preparation without oil is a wonderful body builder and strength-giver for both young and old. We promise to give back your money in every such case where Vinol does not benefit. This shows our faith in Vinol.

Geo. W. Mahood, druggist, Kingston, Ont.

## Eating Relieves Stomach Trouble

A Prominent Physician's Advice.

"Eat good foods and plenty of them. Dieting, in many cases, is almost certain to get back to normal. To do so you must have the proper quantity of nourishment. You need it for brain or physical work. Probably there is nothing the matter with your stomach except acidity." That is merely an abnormal secretion of acid in the stomach. Neutralize that acid and your stomach trouble will end at once. Neglect may mean ulcers if not cancer of the stomach. Do not take patented medicines or pills for dyspepsia. Simply take a neutralizer of acid. Decidedly the best neutralizer is ordinary bicarbonate of soda. It is inexpensive and you can get it at any drug store. Take a teaspoonful in a quarter glass of water after each meal. The relief will be immediate.
