ergy. There was always a fear and ad in my mind, I had cold, nervous, weak spells, hot flashes over my body. I had a place in my right side that was so sore that I could hardly bear the weight of my clothes. I tried medicines and doctors, but they did me little good, and I never expected to get out again.
I got Lydia E. Pinkham's Vegetable
Compound and Blood Purifier, and I certainly would have been in grave or in an asylum if your medicines had not saved me. But now I can work all day, sleep well at night, eat anything I want, have no hot flashes or weak, nervous spells All pains, aches, fears and dreads are gone, my house, children and husband are no longer neglected, as I am almost entirely free of the bad symptoms I had, before taking your remedies, and all is pleasure and happiness in my home."-Mrs. Josie Ham, R. LINKING OF WIRES.

Taking the Telegraph Line Across. the Continent.

A. Bruce Smith, manager of telegraphs on the Grand Trunk system, has returned to Montreal after Wit Goernment's Serious Plight -With messing the driving of the last spike Both Sides Playing the Gun-Run- on the Grand Trunk Pacific railway and travelling on the first through train to Prince Rupert. Interviewed he told of another interesting ceremony that took place at Nechako rossing, where the steel met. This was the linking of the wires.

'At exactly the same mile post that marked the last spike ceremony the telegraph wires met a few days later. he said, "and one of the finest pieces of timber available was utilized as the last pole. It was brilliantly painted and we hoisted at its head a hig Union Jack which we left waving in the breeze to mark the spot. The telegraph system is now complete between Port Arthur and Prince Rupert, but there is at present only a commercial service as far west as Prince George. ommercial messages will be accepted in a few weeks time right through to the Pacific coast, but we did not want to open up before we could give the public a really first class service. Wires are now strung along 2,200 miles of main line, exclusive of branch lines, in Manitoba, Saskatchewan, Alberta and British Columbia. Nearly six thousand miles of copper wire have been erected.

"In addition to the telegraph service the Grand Trunk Pacific is making rapid headway with the installaion of the selective telephone train dispatch system, the last word in apparatus of the kind

"I was greatly impressed," concludsd Mr. Smith, "with the wonderful richness and fertility of the land ir the Nechako, Fraser and Bulkley Valleys, through which this most modern f transcontinental railways runs. Settlement has hitherto been on a small scale, owing to the fact that supplies and staples of all kinds had to be brought in by pack train or occasional steamer, but the long-awaited railway connection now places these lands ithin reach of all.
