STIRRING UP INTEREST
OF KINGSTON MOTORISTS ON THE ONTARIO LEAGUE.

S. C. Kerrigan Pays Visit to Kingston—Dr. P. E. Doolittle, to Come Here and Address the Members.

S. C. Kerrigan, representing the Ontario Motor League, is in the city for a few days to stir up interest in the work of this very necessary organization. He is interviewing the motorists in the hope of creating widespread interest both locally and so far as the province is concerned. One of the purposes of the league is the erecting of road signs throughout the province, so that motorists will be helped by this great line of silent sentinels, making traffic easy, and without worry to those who are concerned. It is also hoped that the provincial secretary that the exchange of licenses can be made between Ontario and various states of the union contiguous to the provincial border. At present motorists of New York state and Michigan cannot enter Canada without considerable trouble and annoyance. By an exchange of licenses the entry of auto cars would be made pleasant, and would undoubtedly lead to a great influx of tourists through the province.

The league is also interested in good roads and will do all in its power to make the highways through the chief cities of Ontario of the very highest type of workmanship. The league is also anxious to set forth the beauties of Ontario, and to create interest that the show spots of Ontario will be made very apparent to all visitors.

As soon as Mr. Kerrigan has interviewed all the motorists in Kingston the president of the association Dr. P. E. Doolittle, of Toronto, will come to Kingston and address the members on the benefits to accrue from association with the league. Dr. Doolittle is well known to Kingstonians as an old bicycle enthusiast and leader, and has very kindly remembered Kingston and its many beautiful attractions.

After the first of December next no bonuses will be paid to hawking agents for sending domestic tourists to Ontario.

One's Beauty, Sleep.
The greatest aid to beauty is sleep. There are, however, many women who defy nature in this respect and burn the candle at both ends. A woman who must get up fairly early in the morning should not stay up half the night. Women can sleep the next day, are more fortunate. There are women, too, who pay too attention to the kind of room they sleep in. While they are as healthy and the beauty of their youth, but nature is inexorable and they will have to pay for their folly in the years to come.

It is very common to hear young women laugh at those women who take precautions to observe the laws of health, calling them "faddists," "old-fashioned mummies," etc. Very well, but just watch those same "mummies" who get their beauty sleep, and you will notice none of that sallow, drawn skin, common among the "nightawks."
