

## W. F. NICKLE ACCUSES SIR WILLIAM MACKENZIE

### Of Attempted Intimidation Over The C. N. R. Bill THE RAILWAY KNIGHT

#### WAS SEVERELY ARRAIGNED BY KINGSTON'S MEMBER

#### Quoted a News Paragraph From the Whig That the C. N. R. Would Not Do Much For Kingston When Its Member Opposed Government Bill.

Toronto Globe. Ottawa, May 14.—Amidst tense silence, succeeded by a roar of cheering, William F. Nickle, the young conservative member for Kingston, last night made a direct and terrible charge of attempted intimidation against Sir William Mackenzie. So intense was the feeling aroused in the house that his second direct mention of the railway knight by name was greeted by some hissing.

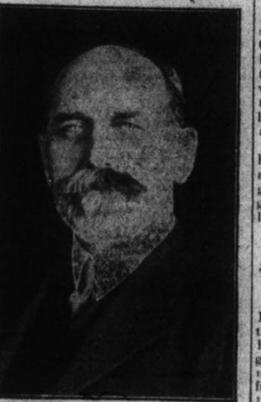

The arraignment of the knight who "would fire a poisoned arrow in the dark," who was not able "to meet in a fair fight in an open field," was conducted with glowing scorn and contempt. The crowded galleries leaned forward, stirred by the sensation, in breathless interest. Premier Borden's face hardened as he realized the great gravity of the charge. Sir Wilfrid Laurier leaned forward and exclaimed "hear, hear," rapping his desk in earnest approval.

Shortly after the beginning of the young Kingston man's speech Sir William Mackenzie left his front seat in the speaker's gallery, which he had occupied throughout the debate. As Mr. Nickle proceeded he left the house. The fire seemed too direct for the railway magnate.

Parliamentary corridors are buzzing. The general impression is that the matter can go no further until an explanation and apology come from Sir William Mackenzie. Some members are expressing themselves strongly in favor of having the knight financier indicted.

W. F. NICKLE, M.P.

SIR WILLIAM MACKENZIE.

### Threat of Discrimination

It was nearing the conclusion of the young Kingston member's speech that he turned to Sir William Mackenzie and his attempted participation in an attempt to intimidate Mr. Nickle from his position.

He first read a despatch from the Kingston Whig, quoting Sir William Mackenzie as stating that, owing to Mr. Nickle's opposition to the Mackenzie, Mann and Lash deal he would have to discriminate against the city of Kingston in relation to certain terminal and fuel plans.

"There is another side to this question, and this is perhaps just a bit personal," Mr. Nickle began. "I do not know exactly whether it is fair that I should bring up, and yet the conduct was so outrageous that I think it is only fair that the house and country should know how some men fight."

"There is such a thing as a fair fight. A fair fight is the kind of fight a man should fight who has felt the touch of his majesty's sword. The fight of a knight who should always remember the order to which he belongs; he should have a fair fight in an open field, and then realize what fair play is, and then he should not strike below the belt."

"When the letter I have in my hand appeared in the Kingston Whig I stood aghast. I want the house to listen, because within the last year men have been hurled from the legislatures of the provinces of Quebec and Ontario because they accepted bribes, because they yielded to the influence of money; and I want to know what is the opinion of this house of men who do not use money but threats, to win their purpose. As I say, when the first move was made by the Mackenzie & Mann interests in the lobbies of this house to secure

### REV. DR. CAMPBELL APPEALED IN VAIN

#### Rome Cold To His Proposal To Call A Halt To The Armaments

London, May 14.—Rev. R. J. Campbell, pastor of the City Temple, in a speech in that church, said that his suggestion, made on Peace Sunday, that the pope should head a combination of the churches in an appeal for the reduction of armaments, had been "turned down" by Rome.

"A highly placed ecclesiastic," discussing the matter with him at Rome, said that the nations would not listen, modern civilization not being founded on any moral principle, but being purely utilitarian. "The church," this ecclesiastic, "no longer possesses the authority it once had in the matter. A papal manifesto, backed by all the Protestant communions, would not effect any change for the better."

### A Pointer to Merchants

A certain store which is being re-established by new owners has specialized on famous trade-marked lines in many of its departments.

The figures of the store-sales show that the departments which have been able to secure such goods and push them are growing far ahead of those which have no famous brands to help them.

Responses to the advertising of this store evidence the fact that the public is more eager for well known, trade-marked goods than it is for articles whose names mean nothing.

In several instances there is direct co-operative advertising in the local newspapers between the manufacturer and the store—and this has brought splendid results in dollars and cents.

### A TRAIN WAS WRECKED

#### But None of the Passengers Seriously Hurt.

Chatham, May 14.—New York special No. 17, M.C.R., was wrecked at North Buxton, about seven o'clock this morning. Four coaches left the track and the roadbed was torn up for half a mile. The coaches were crowded with passengers, but no one was seriously hurt. The conductor received a sprained wrist, caused by jamming it against a seat when the jolt came.

The special, which consisted of fourteen coaches, was ten minutes late, and it is supposed she was trying to make up time. When passing the switch east of North Buxton the last four coaches of the train left the track, but fortunately remained upright. The track will not be ready for general traffic until to-morrow. The coaches were badly wrecked, and the trucks' tops were under them.

Another train was wrecked at this point about a year ago. At that time it was shown it had travelled from Tilbury to Buxton, a distance of eleven miles, in seven minutes.

### MAY CUT OFF GRANTS TO FRENCH SCHOOLS

#### Musgrove Hits At Action—Home Rule Kills Navy Grant

London, Ont., May 14.—A. H. Musgrove, M.P.P. of North Huron, speaking at a big gathering of Orangemen at Clinton, said: "If England opens any fight in Ulster will very suddenly change, and one thing is absolutely sure there will be no Canadian contribution towards an English navy."

Speaking of the bilingual problem, he declared that the government will amend the law shortly to cut off the grants to all schools who do not give pupils a thorough working knowledge of English.

### ROSE WAS UNSHAKEN

#### Though Grilled for Five Hours in Becker Trial.

New York, May 14.—"Bald Jack" Rose, chief witness for the prosecution at the second trial of Charles Becker, charged with being the instigator of the murder of Herman Rosenthal, came from the stand at the conclusion, yesterday, of five hours of relentless cross-examination bright-eyed and smiling.

The said-headed informer quietly and unfalteringly answered every question asked him by Martin J. Anton, chief of Becker's counsel.

Even when Anton shouted accusations of murder at Rose and tried to make him admit that he had made his living by committing petty larcenies and by selling opium to the slaves of the habit in New York's Chinatown, the former gambler remained unperturbed.

Rose's expression never changed during all the grilling. The tone of his voice was neither raised nor lowered at any time. He reiterated his story of underworld intrigue and murder, with a calm and matter-of-fact air.

He showed no fear, no emotion; and no remorse, except on one occasion. Then he said his conscience pricked him when he thought over how he had plotted to have Herman Rosenthal murdered.

### Becker's Case Looks Black

New York, May 14.—It is considered quite probably here this morning that before to-day's sitting of the Becker trial is done the accused lieutenant himself will be on the stand giving evidence on his own behalf, especially contradicting the incriminating story of Bald Jack Rose and Shapiro, chauffeur. Becker appeared in court to-day very pale and his guards said he spent a restless night. It was acknowledged on all sides that the evidence yesterday made his case look blacker than ever.

### Wireless to Reach Egypt

London, May 14.—England and Cairo are to be "connected" by direct wireless system. Work has been commenced on the English station, which is to be situated at Loughborough, in Oxfordshire. The government, which is to control the system, has purchased the necessary land and permanent buildings are well under way.

There are to be twelve masts 300 feet high and the arm of the installation will be southeasterly. While the immediate objective is to be Cairo, it is expected that its power will give it, in the night time, a much greater range.

The government hopes before long to have all parts of the empire joined by a wireless system.

### PACIFIC WILL SEE SOME STORMY TIMES

#### Not The Meeting Ground Of Nations, But Of Contentions

London, May 14.—Sir Ian Hamilton, speaking at Auckland yesterday, said that despite its charming name the Pacific is, if anything, destined to be more stormy than other more or less distinguished parts of the globe.

"Whilst we deplore such a contingency," he said, "it is conceivable that in the future there will be greater and more terrible convulsions than in the past. The Pacific is the meeting ground, not of nations, but of continents, and here might be decided whether Asiatics or Europeans shall guide the destiny of this planet."

### ASQUITH ASKED

#### For Definite Action On The Home Rule Bill

#### THEY WANT TO PUNISH THE LAW BREAKERS OF TROUBLESOME ULSTER.

#### Gun Running Continues—Prince Alexander of Teck, Greeted at Exposition in London by Singing of 'O Canada,' and 'The Maple Leaf Forever.'

London, May 14.—The fact that eighty prominent liberal members of the commons have signed a round robin to Premier Asquith, asking for more definite action in connection with the Home Rule bill, indicates a feeling of uneasiness among the supporters of the government respecting things to come.

While the nature of the demands on Asquith by his supporters is not open to the press, it is understood that they included a declaration that it was necessary for the peace and unity of the united kingdom that the government should take more definite and drastic means of punishing the law-breakers of Ulster.

Stories of petty gun-running here and there on the Irish coast now appear daily in the press, and this is notwithstanding the fact that a fleet of destroyers in addition to the revenue cutters is supposed to be watching against all such escapades.

### ASK SEPARATE SCHOOL TRUSTEES OF ONE IN WINNIPEG ASK BOARD TO TAKE IT OVER

Winnipeg, Man., May 14.—New developments in Manitoba's school controversy seem likely to be the result of a letter from the trustees of St. Mary's Roman Catholic school to the Winnipeg public school board.

It formally requests the school board to take charge of St. Mary's school and manage it under the terms of the public school act.

The chairman was empowered to choose a committee to go into the matter. No intimation was given at the meeting as to what the decision will be.

### TALK RUNS HIGH

Ottawa, May 14.—Talk runs high this morning concerning the insurgent speech of W. F. Nickle, and the chief topic of conversation is the vigorous attack which the member for Kingston made upon Sir William Mackenzie, head of the Canadian Northern. The general consensus of opinion is that if Mr. Nickle's charges can be proven, the matter will be a serious one. There is strong opinion that if he can substantiate his charges made in the house, there will be cause for action on the grounds of contravention of freedom of the Parliament act, since it is an indictable offence to bring a dross to bear upon a representative of the people. Apart from this, it is believed here that the charges will have a somewhat serious effect upon the vote on the present measure.

Moye, former president of the railway and Provincial Detective Groer, has been sent to Algonquin Park to put the warrant into effect.

### NO INTIMIDATION AT ALL

The charge of intimidation made in the House of Commons, on Wednesday afternoon, by W. F. Nickle, M.P., against Sir William Mackenzie in connection with the debate on the C. N. R. bill, was based upon a local news article on the first page of the Whig of March 9th. The article read as follows:

"It is reported from Ottawa that Sir William Mackenzie, of the C. N. R. company, is not inclined to be favorably disposed towards Kingston with regard to railway facilities here in view of the announcement that its member in the commons, W. F. Nickle, is out so strongly against any further government assistance towards the completion of the C. N. R. line. When some one approached him with regard to the establishment here of a terminal so that coal could be shipped via Kingston from Oswego, N. Y., he is reported to have said that the C. N. R. could hardly be expected to consider projects that would benefit this city when its representative was inclined to be antagonistic to the interests of that road."

Several weeks ago, the Oswego trade and publicity commissioner addressed the Kingston Board of Trade upon the possibility of establishing a car ferry between Oswego and Kingston for the purpose of freight coal direct to Kingston by water and trans-shipping it to Canadian

### LOST CHILDREN FOUND

#### Had Boarded a Train and Gone to Montreal.

Brantford, May 14.—Violet and Victor Smith, children missing from home since Monday morning, have been located in Montreal. Although only ten and seven years old, respectively, they made the journey without tickets or money. It is thought it was their intention to try to get back to the old country. It is supposed that the children, after boarding a Grand Trunk train here on Monday, got into a seat with an adult passenger and were overlooked by conductors. They are safe in Montreal in care of the Y.M.C.A. and will be brought back here.

### CLOSED DEAL

### WILTED SUITOR KILLS RIVAL ON WEDDING EVE

#### Fulton Man Held For Murder—Showing Of Marriage License Led To Tragedy

Fulton, N.Y., May 14.—Almost on the eve of his wedding day, Joseph Prestino, twenty-one, 305 West First street, was shot and instantly killed, yesterday afternoon, at the home of his fiancée, Miss Mary Gaudino, sixteen, in Fay street, by Tony Bell, a rival suitor for the girl's hand. Bell, aged twenty-five, is in custody.

Miss Gaudino and her mother witnessed the tragedy. Bell claims he had loaned Miss Gaudino \$35 in the belief that she was going to marry him. At 3.30 o'clock he went to the home of her mother, Mrs. John Gaudino, and finding Prestino there, became enraged. Bell demanded his money and it was not forthcoming.

Here Prestino made his presence known and asserted he was going to marry the young woman. Bell disputed the claim. Prestino, to prove his assertion, produced a marriage license and at almost the same instant Bell is alleged to have whipped out a thirty-eight calibre revolver and shot him through the heart.
