W. L. LOCKE AT HIS BEST

"In this, the most notable novel of the year, Mr. Locke has returned to the manner which in 'The Beloved Vagabond' won for him a foremost pince in the maks of novelists. After reading the morbid problem novel of the hour, the book is like a fresh breeze from the hills—it radiates the pure joy of life."—Philadelphia Public Ledger.

ADE'S FABLES, By George Ade

Author of "Pables in Slang," "Knocking the Neighbors," etc. It isn't all in the spelling. There are any number of "humorists" who can plant capital letters all over the page and mutilate words beyond possible recognition. And there are a number of fellows who use picturesque stang. George Ade does both, and is yet in a class with neither. Here he is with another collection of his fables as whimsical and as amusing as ever.

Just out. Illustrated by John T. McCutcheon. Net \$1.00.
