**TWO IMMENSE DREDGES**

**PASSED THROUGH ON THEIR  
WAY TO SOREL, QUEBEC.**

Are the Largest With One Exception  
in the World—Were Turned Out  
at the Collingwood Shipyards—  
Movements of Vessels Reported  
Along the Harbor.

The two big dredges, Nos. 14 and  
15, which passed through Kingston  
yesterday, bound for Sorel, Que., where  
they will be engaged in contract work  
at the mouth of the Sorel river, are  
credited with being the largest, with  
one exception, in the world, being sup-  
plied with forty buckets weighing 4,  
500 pounds each, with a capacity of  
about forty yards at each trip.

The dredges were built at the Col-  
lingwood shipyards, and were taken  
east by Capt. James Smith, well  
known in Kingston, who is manager  
of the Collingwood shipyards.

The dredges are what are called the  
endless bucket and diggers and in ac-  
complishing their work the buckets  
make a complete revolution, deposit-  
ing the contents of their buckets on  
the scows through large chutes. The  
dredges cost \$350,000 each and are  
magnificent pieces of machinery.

The schooner George A. Marsh  
cleared for Oswego, to load coal for  
James Shortt, Portsmouth.

M.T. Co's elevator, Tug Hall, from  
Montreal, with two light barges, tug  
barkets cleared for Sorel, Balhousie,  
with barges Ungava and Selkirk,  
grain laden, for Kingston; steamer  
Stormont passed up on Tuesday night.

Word was received here that the  
steamer Puelow ran aground in La-  
chance lake. One of the barges of the  
Montreal Transportation company was  
used to lighten her cargo of grain.

The steamer Belleville cleared, this  
morning, for Montreal and interme-  
diate points.

The steamer Brockville cleared for  
Pictou yesterday.

The government tug Scout arrived  
here from Prescott this morning.

The steamer Toiler passed west yes-  
terday.

The steamer Simla called at Garden  
Island, on her way west.

**Carried Big Cargoes.**

The improvement in the stage of  
water and despatch which was won-  
derful, cut quite a figure in the  
freight market during the past sea-  
son. According to reports ore and  
coal carriers did not spend as much  
time in port as they did in 1912,  
which, of course, added to the supply  
of tonnage but the big increase in  
the capacity of the fleet was made  
by the improvement in the stage of  
water. Boats loaded deeper from  
the start and carried bigger cargoes  
than they did during the previous  
season. Owners and managers that  
figured that they had loaded up  
pretty well with contract ore and  
coal before the opening found that  
they had a pretty fair supply of free  
capacity before the season was very  
old.

It is figured that the capacity of  
the fleet was increased about 3,000-  
000 tons and that tonnage would make  
a pretty active freight market. The  
boats were kept pretty busy as it was  
and but for the improvement in the  
stage of water there would have been  
a scarcity of tonnage.

Five big steamers carried about  
100,000 tons more than they did in  
1912 and the increase in the largest  
fleet has something more than half a  
million in tonnage for the season. Big  
freighters carried from 400 to 900  
tons more freight a trip during the  
past season than they did in 1912.

The steamer W. P. Snyder, Jr., of  
the Shinauge fleet, loaded 12,439  
tons at the head of the lakes in Au-  
gust and that was the biggest cargo  
delivered at a Lake Erie port last  
season.

The Snyder Jr., and the steamer  
J. M. Schoonmaker are duplicates  
and are the largest freighters on the  
lakes. In 1912 the Schoonmaker  
took her biggest cargo in August  
and loaded 11,442 tons at the head  
of Lake Superior for Lake Erie. The  
1913 cargo was 497 tons greater  
than the biggest cargo in 1912.

The difference in the coal carrying  
capacity of the two big freighters for  
the two seasons was much greater.  
Last season the Snyder took 13,850  
tons of coal to Lake Superior, which  
was 925 tons more than the largest  
cargo for 1912. For the latter year  
the steamer Schoonmaker held the  
record with 12,927 tons. Both car-  
goes were loaded in August.

The boats of the Shenango fleet  
made grain cargo records. In July  
the Snyder Jr., took 464,000 bushels  
of wheat from Duluth to Port Mc-  
Nichol. On the last trip the Schoon-  
maker loaded 435,230 bushels of  
wheat at Duluth and this was the  
largest cargo of wheat that was ever  
delivered at Buffalo. The Schoon-  
maker loaded early in December.  
Several cargoes of oats of more than  
500,000 bushels were carried on the  
lakes last season.

**A Freight Register Machine**

A new machine that has never be-  
fore been shown in these parts will  
shortly be put over the Kingston  
sub-division of the C.P.R. A con-  
ductor of a freight train is supposed  
to pick up at each station all the  
freight that is ready until he has ac-  
cured his complete tonnage. To se-  
cure this tonnage correctly this new  
machine is so equipped that every  
pound of energy that the engine  
exerts on the "draw-bar" is automati-  
cally registered directly opposite  
the space in which the mileage is  
registered. This register is different  
than a grade-register as an engine  
has to work harder on a curved  
grade than on a straight even one.

**Case Being Investigated**

As yet no summonses have been  
issued in connection with the row  
which occurred in a Princess street  
butcher shop on Tuesday afternoon  
in which it was charged that two  
men had assaulted the proprietor.  
The case will likely come before this  
court in a day or so.

**TO SEE THE KING.**

Lively Times Promised by Suffra-  
gettes on Thursday.

New York, May 20.—A cable to the  
Tribune from London says:  
Lively scenes are promised when the  
suffragettes attempt to see the king  
on Thursday.

At yesterday's meeting of the Wom-  
en's Social and Political Union Mrs.  
Mansell said that it was going to be  
the biggest thing they had ever had.  
She thought the authorities must be  
trembling in their shoes. If there was  
going to be any militancy it would be  
on the other side. If there was any  
attempt at militancy on the part of  
the minions of the government, it  
would be at their peril.

Mrs. Mansell added that Mrs. Pank-  
hurst would be safe, because, like Sir  
Edward Carson, she had got a body  
guard.

**Weather Notes**

The barometer still remains high  
over the eastern half of the contin-  
ent, but they are now some indica-  
tions that a shallow depression will  
move across Northern Canada.  
Heavy showers have been al-  
most general in the western provinces,  
but the weather continues warm and  
fine from Ontario eastward.

**BANISH SCROFULA**

Hood's Sarsaparilla Cleanses the  
Blood, Skin Troubles Vanish.

Scrofula eruptions on the face and  
body are both annoying and disfig-  
uring. The complexion would be per-  
fect if they were not present!

This disease shows itself in other  
ways, as buncches in the neck, in-  
flamed eyelids, sore ears, wasting of  
the muscles, a form of dyspepsia,  
and general debility.

Ask your druggist for Hood's Sar-  
saparilla. This great medicine com-  
pletely eradicates scrofula. It puri-  
fies and enriches the blood, removes  
humors, and builds up the whole  
system.

Scrofula is either inherited or ac-  
quired. Better be sure you are quite  
free from it. Get Hood's Sarsaparilla  
and begin taking it to-day.
