Walked Floor at Night To Quiet Irritated Nerves
Sleep Was Impossible—Suffered From Faintness and Dizzy Spells—Great Change Effected by Dr. Chase's Nerve Food.
Monotony as well as over-excitement is often an unbearable strain on the nerves. And who can say that woman's work in the home is not deadly monotonous? Doing the same thing day after day, year in and year out, gets on the nerves, and after a while the strain is more than the system can stand.
You feel faint and dizzy at times, cannot rest and sleep at night, little things worry and annoy, you have no appetite and cannot digest what you eat.
If you are a stranger to the merits of Dr. Chase's Nerve Food as a means of restoring feeble, wasted nerves, this letter will be a revelation to you. It brings a message of hope to all who suffer from diseases of the nerves.

CANADA ENTITLED TO ACT
Against Hindus Under Supreme Law of Self-Preservation.
London, June 4.—There is no question about the nature of the imperial government's reply to the resolution of the British Indians in Vancouver about to be sent through the viceroy of India. The reply will be a reiteration of the words of Lord Curzon, when viceroy of India:
"Common rights of British citizenship cannot be held to override the rights of self-protection conferred on the self-governing colonies."
The best and most responsible British journals have repeatedly endorsed this dictum. Since the Komagata Maru incident, arose the Times, the Morning Post, and other leading journals unite in asserting that this matter of emigration rests primarily with the dominions affected, namely, Canada, Australia, and South Africa, who are fully entitled to act under the supreme law of self-preservation to keep their lands as white men's countries.

The Times advises the British India population to find outlets in Asia itself, not in countries like British Columbia, where it is impossible for British Indians to become useful colonists.
