

CARSON HAS YET HOPES OF IRISH SETTLEMENT

Emphasizes The Necessity For Forbearance TO ORANGE WORKMEN

MISSION TO IRELAND IN INTERESTS OF PEACE.

King George and Queen Mary Ask That No Social Ostracism be Placed Upon the Bloomfield Sisters Who Made Scene at Court.

London, June 6.—With Sir Edward Carson's return from Belfast this morning, opinion as to the home rule situation has taken another turn. When he went to Ireland some days ago it was freely stated that he was going to arrange for the immediate summoning and operation of Ulster's provisional government. It seems now that he was on a mission rather of peace than of war.

Addressing the Orange workmen in Belfast yesterday, he emphasized the necessity of forbearance, even estimating that he had yet hopes for settlement by mutual compromise.

Like all other Ulster leaders, Carson realizes that it is the rank and file of the Ulsterites who have to be held in the leash. They are asking daily, "When do we act?" They look for drastic action rather than reasoning. On the whole the situation to-day is more hopeful of settlement.

ANTI-TRUST MEASURES

To Reach the U. S. Senate on Saturday Afternoon.

Washington, D.C., June 6.—This afternoon, President Wilson's three anti-trust measures will reach the senate, and there will be commenced a serious fight to throw them out. As the senate has already shown its strength against the present administration, it is thought the consequences may be serious. Several senators have indicated their intention of bucking these measures even to the limit of the United States constitution.

Becomes Vicar in England.

London, June 6.—Rev. S. Jones, formerly archdeacon of Prince Edward Island, has become vicar of Aspal, Stowmarket.

Chaplain and Co. Suspend.

London, June 6.—Chaplain and company, big bankers and merchants, who through a former partner, Arthur Weston, Grenfell, son-in-law of Earl Grey, were at one time trying to control the Grand Trunk railway, were announced as suspended today. Their capital is nearly two millions, and their liabilities are very heavy. It is believed that several important Canadian enterprises are involved in today's failure.

TORONTO PAID HONOR

To the Memory of Sir John A. Macdonald.

Toronto, June 6.—With many Toronto Ontario conservatives present and with messages from leaders unable to attend, Sir John A. Macdonald's memory received fresh attestation of affection and admiration in Queen's Park this afternoon, when the departed conservative chieftain's monument was dedicated in the time honored way. The platform was occupied by prominent members of parliament, including Hon. Frank Cochrane, Hon. A. E. Kemp and others. The audience sang the doxology in gratitude for the recovery of Sir James Whitney.

CAREFUL EXAMINING

International Law Regarding Landing of Arms.

Washington, June 6.—Secretary of State Bryan has indicated that the United States is making a careful examination of international law to decide the point regarding permitting the steamer Attila to land at Tampico with arms for the constitutionalists. Meantime the mediators at Niagara Falls are pressing that this is a most important feature of their adjudication of the case.

Going to Australia

Guelph, June 6.—Dr. G. C. Creelman, of the Ontario Agricultural college, has accepted an invitation to attend a meeting of the British agriculturists during the first part of September this year. It is understood that there are fifteen distinguished gentlemen going from Canada and the United States. Following the meeting in Australia, a visit will be paid to New Zealand, the government there having set aside a sum of money for the encouragement of science. It is expected that the president of the Ontario Agricultural college will also visit Japan, China and the Philippine Islands, and will return home about the first of November.

SHAMROCK IV. FASTEST.

Figured It Will Have to Allow Four Minutes.

London, June 6.—The yachting reporter of the Evening Standard estimates that Shamrock IV, Sir Thomas Lipton's new challenger, for the America's cup, will have to allow about four minutes to the biggest of the American defenders.

He credits an unnamed American yachtsman who witnessed yesterday's sail stretching spins, and who has seen the three defenders, as saying Shamrock IV will prove to be faster than any of them. In this case "touché," a continuation of the Lord's will depend on the question of time allowance.

CARNEGIE'S LATEST GIFT.

Two Millions to Educational Institutes in Pittsburgh.

Pittsburgh, June 6.—Announcement is made that Andrew Carnegie has given another endowment gift, amounting to \$2,000,000, to be divided equally between the Carnegie Institute of Technology and the Carnegie Institute, both of this city.

The gift brings Mr. Carnegie's donations to local institutions of learning to \$24,000,000.

PARTY LINES ARE SEEN MELTING AWAY

"Help Rowell For He Has Helped Us" Is The Slogan Now

Toronto, June 6.—"The clock has struck. This is the hour." Nothing better than this powerful and yet deeply sincere declaration of Mr. Rowell, in his Massey Hall speech, could be found to symbolize the present and unique urgency of the provincial election campaign. Ontario politics has suddenly found themselves at an acute crisis and at a period of rushing activity which could not have been predicted even a few weeks ago.

The talk of the town still centres on the amazing enthusiasm shown towards Mr. Rowell at his Massey Hall meeting. Not only by the liberals but also by the numerous groups of conservatives who were also, and most significant of all, by the hundreds of women who crowded the galleries and the platform.

If Mr. Rowell speaks with such effectiveness everywhere he goes throughout the province during the campaign, and if the government will be in danger not only of losing a large number of seats, (that is conceded already) but of being annihilated under an avalanche of non-partisan enthusiasm.

Party lines are melting away before your eyes in an unparalleled manner. The organized forces of Christianity are evidently aware that they are at close grips, closer than they ever were before, with the organized liquor forces, and the Christian forces are determined to win. In this determination the question of whether a man is liberal or conservative seems of small moment. "Help Rowell for he has helped us" is the slogan.

TO PREVENT DEATH'S DECAY.

Claims to be Able to Preserve Bones Permanently.

Milan, June 6.—After many experiments on animals, a chemist at Sina named Partini claims to have discovered a new method of permanently preserving the human body in perfect condition after death.

He is now exhibiting the corpse of a man of thirty, which has been left lying in the open air for four months after treatment. The body is just as it was at the time of death, even the eyes remaining unaltered.

GOVERNOR DISSOLVES AUSTRALIAN HOUSES

Owing to Deadlock Over Bill For Bidding Preference To Trades Unionists

London, June 6.—Hon. Munro Ferguson, the newly-appointed governor-general of Australia, has acceded to the request of Premier Cook for dissolution of both senate and house of representatives, consequent upon the former's rejection, for the second time in two consecutive sessions, of the bill forbidding the granting of preference to trade unionists in employment for government works. The elections are expected in August.

A Ticklish Situation

London, June 6.—Sir Ronald Munro Ferguson, the new Australian governor-general, who took up the reins of office only a fortnight ago, is already confronted with a difficult political situation. Yesterday the labor majority in the senate passed an addition to the address condemning the government for giving out a railway contract without calling for tenders.

The liberal ministers refused to present this addition to the governor-general, who will now be approached with it by the labor senators, who are in a good majority in the upper house.

REPORTS EXAGGERATED

Hindus Not Starving or Contemplating Rioting.

Ottawa, June 6.—Word received here by the immigration department is to the effect that the press reports that the Hindus on board the Komagata Maru, outside Vancouver, are starving and are contemplating riots, are very grossly exaggerated.

The department in Vancouver wired to-day to this effect. It appeared likely that the Hindus would return to India giving up their attempt to land on Canadian shores.

Hon. Dr. Roche, minister of the interior, stated that the Hindus could purchase all the food they wanted and officials of the department did not understand what ground there can be for the statements that they cannot get enough to eat. The department is not discussing its action in case hunger strikes should occur as rumored, for the remotest likelihood that anything of the kind would happen.

WANTS WIFE TO VOTE

Better Director Than he is a Rector, Says Minister

Halifax, June 6.—Pleading that his wife was a better director than he was a rector, Rev. Mr. Howe, Halifax, tried hard to persuade the Nova Scotia synod to accept a report of the temperance committee which contained the statement that the enfranchisement of women would aid temperance and moral reform movements.

A number of clergymen wanted the allusion deleted from the report, but Mr. Howe would not consent, and logic secured its retention in the report.

CONVICT CUT HIS THROAT.

Discovered by Guard Godkin and His Life is Saved.

A prisoner named Russell, who is confined to the insane ward at the Portsmouth penitentiary, made an attempt to end his life on Friday night when he cut a gash in his throat, with a piece of glass.

Guard J. D. Godkin, night overseer in the insane ward, was first to notice the man in his cell and he immediately called for medical attendance. When the prisoner was examined by the doctor it was found necessary to close the gash by a number of stitches. Had the guard not noticed the prisoner when he did the man would, in all likelihood, have bled to death.

Toronto Brute to Get "His."

Toronto, June 6.—With a two-weeks' old baby in her arms, Mrs. Bert Copley showed up in the police court and gave evidence to the effect that her husband had brutally beaten her, and maltreated her yesterday, and on previous occasions just before the baby came. Copley was sentenced to sixty days in jail with twenty lashes from the cat-o-nine-tails.

Hardly Knew Kermit.

Flance in Madrid Almost Took Him For Stranger.

Madrid, June 6.—Kermit Roosevelt, who arrived here some days ago, is staying with Ambassador Joseph Willard, whose daughter he is to marry June 11th.

The young couple spend much time together sightseeing and paying visits to places of interest nearby almost daily.

Miss Willard hardly recognized her explorer fiance when he arrived. His absence in the Brazilian wilderness added several years in appearance to his age, to say nothing of a new moustache and a good coat of tan on his face.

WOMEN'S VOTE IN SYNOD.

Halifax Rector Puts in a Good Word For His Wife.

Halifax, N. S., June 6.—Pleading that his wife was a better director than he was a rector, Rev. Mr. Howe, Halifax, tried hard to persuade the Nova Scotia Anglican synod to accept a report of the temperance committee which contained the statement that the enfranchisement of women would aid temperance and moral reform movements.

A number of clergymen wanted the allusion deleted from the report, but Mr. Howe would not consent, and logic secured its retention in the report.

Rev. Dr. Grant Toronto Resigned His Offices

He Was Head of The Western Mission Section—Nothing To Say

Woodstock, June 6.—Rev. A. S. Grant, D. D., of Toronto, head of the western section of the board of home missions and chairman of the finance board of the Presbyterian church, has resigned. It became known, last night, that after a spirited address on home missions on Thursday night, before the assembly, he handed his resignation to the moderator, Dr. W. S. Herdridge. He relinquishes all offices held, including membership on several minor committees.

When Dr. Herridge received the written resignation, Thursday night, he kept his own counsel, regarding it in the hope that Dr. Grant could be prevailed upon to reconsider. Other prominent members are now exercising pressure upon him but it is understood there is little likelihood of success.

Baker, aged twenty-three, was killed and Miss Bertha Kester, aged twenty-one, was seriously injured, early this morning, on the Fairport road, at Barb's Corners, when their light auto turned turtle and crashed into a telegraph pole. SENATE FINDS DEFECTS IN THE C. N. R. BILL

Asks The Government To Facilitate Aid On Conditions Not Open To Objections

Ottawa, June 6.—By a vote of 34 to 22 the senate adopted a resolution pointing out certain alleged defects in the Canadian Northern legislation as it came to them from the commons, and declaring "that this house desires to ascertain whether the government would not be disposed to facilitate aid being given on conditions which would not be open to said objections."

The resolution was moved by Senator Bostock, the liberal leader, upon the motion for the second reading of the Canadian Northern bill. In debate Senator Bostock frankly intimated that the senate would not accept the grave responsibility of rejecting the bill, as such course might precipitate a financial panic. He claimed, however, that the country was not adequately secured and that Mackenzie & Mann should be required to give their personal security.

ALBERTA LAND COMPANY SERIOUSLY EMBARRASSED

And The Government Comes To Its Aid

GETS A RE N D LOAN OF \$380,573 FOR LANDS, IT WAS SOLD

By the Laurier Government—The Title to the Lands Will Remain With the Government Till Loan Repaid.

Ottawa, June 6.—The affairs of the Famous Southern Alberta Land company are again before parliament. The company is declared to be very seriously embarrassed for the want of funds to complete its undertaking, and is compelled, therefore, to apply to the government for assistance. An order-in-council has been passed authorizing a refund loan to the company for the sum of \$380,573 the price of the 350,573 acres obtained under the Laurier government at a dollar an acre. The order-in-council recommends that parliamentary authority be obtained for the refund, the money to be repaid to the government by the company with interest at five per cent. The loan to be secured by a first charge against the company's lands, with priority to all existing charges and encumbrances, including the rights of the debenture holders.

The agreement made by the company with the Laurier government is to be modified, partially relieving the company of the obligation to irrigate one acre for every four sold or purchased. Title to the lands shall remain with the government until repayment of the loan with interest, but that the government may convey to the company from time to time portions of the lands upon payment on account of \$1.25 an acre if the interest be not in arrears.
