#### Have You a Bad Sore ?

If so, remember these facts-Zam-Buk is by far the most widely used balm in Canada ! Why has it become so popular? Because it heals sores. cures skin diseases, and does what is claimed for it. Why not let it heal Remember that Zam-Buk is alto-

gether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal. Remember that Zam-Buk is at the same time healing, soothing and antiseptic. Kills poison instantly, and all harmful germs. It is suitable alike for recent injuries diseases, and for chronic sores, cers, etc. Test how different superior Zem-Buk really is. All druggists and stores at 50c, box. also Zam-Buk Soap. Only. 31-2 miles from the City Hall, nearer to down town Toronto than the Woodbine or High Park, where property is selling as high as \$100.00 per foot. Closer in than many solidly built up sections right in the city. Leaside is right in the heaft of Toronto's expansion, and is bound to come to the front as one of Toronto's finest residential districts.

Leaside is a complete townsite magnificently laid out by a landscape artist, 400 feet above the lake level, with a dry bracing healthy atmosphere, free from the smoke and dampness of the city, yet within easy access of Yonge St.

The development of Leaside is progressing rapidly, most of the streets are graded, and some of them paved, work has commenced on the construction of sewers and watermains. One firm alone that has a factory on the property has begun the building of 150 houses which will be completed this year.

This map shows the position of Leaside to Toronto. Building restrictions on all lots.
