THE WOMEN'S INFLUENCE.

for the party was startled as Sir support of the issue of a license James Whitney snapped, "It's not a right; it's a privilege." Well, it's a privilege that should not be confined to the mere men. It's a privilege which the women demand and one they will eventually get. For present all they can do is reque their friends to support the leader who is willing to extend them the franchise if he is given the chance.

GOOD ONE ON DUFF.

Arthur Hawkes tells a good stor about Hon. "Jimmy" Duff, the mir ister of agriculture. He is supposed to direct his department, but, like the minister of education, he is figure head. Some under official does the work and the Hon. "Jimmy" gets the credit for it. On one occasion, however so the record runs, according to Hawkes he spied in the estimates an item for alfalfa, \$2, 400, and asked for an explanation. He got it. The seed was of a into use, a quantity was being distributed. "Not by a jugful," said the Hon. "Jimmy," with exceeding good one and shows how progressive union is dead, and that all the the bar" in places where there is is the man whom Sir James Whitney selected as the head of the agri- have gone for naught. The conservative candidate in North Oxford, and in opposition to Mr. Rowell, claims the support of the electors on the ground that he has contributed to the support of the local baseball team. My, that is a powerful plea.

A VERY STRONG APPEAL.

Mr. Rowell has made his promised visit to Kingston and made a speech that has never been surpassed for its intense earnestness. Every man who went to criticize or to scoff-and the scoffers early in the meeting were very much in evidence-were deeply and seriously impressed with all had to say.

The liberal leader supplemented the observations of Ald. Harrison and Mr. Lindsay, of Toronto, in several respects, enlarging on two questions -the necessity for greater economy in the financial affairs of the vince, and greater devotion to the social tasks of the day.

his temperance policy. It was not I ideal, perhaps, but it was advanced, and it was what the people could have at once. All he had promised had been redeemed. He had moved in the legislature for the abolition the bar, which the church and state lemanded, and it was for the electors to express by their votes their mind upon the matter. They could have, if they wanted it, the abolition of licenses to sell liquors in the oons, hotels, and clubs; and they could have, if they wanted it, the re- ed, on Sunday, that he was out iquor in shops on a majority of leave the church.

This issue, this profound issue, lay now entirely with the electors, earnestly presented. Again and again the audience cheered the speaker, and 292 peroration, depicting the duty of the hour, and the manner in which it appealed to the patriotism of every

CHURCH MEMBERS

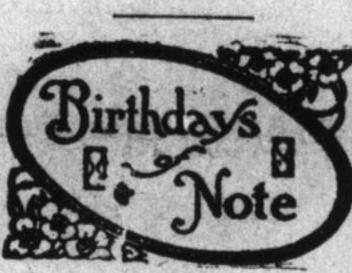

he Obligation That is Resting Up on Them.

Toronto Globe. The Presbyterian, which voices the opinion of the great mass of the Pres byterians of Ontario, in its issue of June 11th, makes very plain its conception of the obligation resting upon members of the Christian church, at the present moment. In a brief review of the inception of the abolishthe-bar policy the Presbyterian shows that it had its origin in a resolution moved in 1902 at a temper ance convention in Toronto by the Rev. Dr. Carman, seconded by the Rev. Principal Caven, asking the government of the day "to abolish the public bar, the treating system, and drinking in clubs, and to impose such The liberals and temperance workers other restrictions on the liquor traffic as shall most effectively curtail its

operations and remedy its evils." Twelve years have passed in which public opinion has been ripening on the issue. Principal Caven is gone, but the spirit that inspired him to make war upon the drink traffic still animates the church of which he was a revered leader. Now that a political chief has declared that, when given power, he will abolish the bar liquor. It simply adds to the length and the drinking of liquor in clubs, and has challenged the churches of Ontario to come to his support if they really want the bar to go. The abolition of the counter and all that Presbyterian says there can be but one answer. Those who accept on moral issues the leadership of the Christian church are bound to vote only for candidates who can be relied upon to support such legislation as ists. They went to hear and see the Mr. Rowell has pledged himself to

The Presbyterian is not attempting to dragoon the people to whom it be speaks. The business of "dragoonare ing" Presbyterians has not been popular since Drumelog. But the rresbyterian points out-and is entirely justified in pointing out-that the policy adopted by Mr. Rowell had its origin in a resolution moved jointly by the leaders of the Methodist and Presbyterian churches of Ontario more than a decade ago, and approved from time to time ever since by church courts and conferences. For that reason a very great and pressing obligation rests upon church members to redeem the pledges, made in their name and by their authority, to support any political leader of either party who would promise to abolish the bar.

Mr. Rowell has not sought to make party issue of this great reform. and his followers have offered their support to the government of James Whitney for a non-partisan measure. The refusal of Sir James to move forward with public opinion has forced the issue into politics. There it is, and there is must remain till the sale of liquor over the bar in this province is ended, or until the people of Ontario have proved beyond peradventure that they are not prepared to vote as they pray, and that upon their lips the words "Thy Kingdom come" have no meaning and no relation to their daily lives.

VICDAY, JUNE SEVEN-

George Henry Cowan, former M.P. or Vanctaver was born ffty-six years ago to-day in Lambton County, Ontarlo. After a brilliant course at the University of Toronto, he took up the study of law and about twenty years afo settled in Vancouver, where he has since been in practice. He has taken an active interest in British Columbia affairs and has written a least two valuable brochures on problems affecting the coast province. Besides this he helped to found the Bank t.f.
