## COMING TO KINGSTON ROWELL IN GANANOQUE

THE ROCHESTER CHAMBER OF COMMERCE MEMBERS.

To the Number of 250 Will be Here For Three Hours on Sunday—Will be Taken to Church.

The Rochester Chamber of Commerce has chartered the steamer Geronia for a tour which begins with Thursday of this week. Between 250 and 300 of the members will leave Charlotte on Thursday afternoon for a trip on the water. They will call at Hamilton and Toronto and then proceed down the lake and river as far as Ogdensburg. Returning they will come up through the Canadian channel and stop at Kingston on Sunday morning at ten o'clock.

Some days ago communication was had with the manager of the Richelieu & Ontario Navigation Co. of Kingston, and it was intimated to him that the members of the Chamber of Commerce on this trip desired to worship in Kingston at the churches most conveniently located. It was suggested that the party be divided up and that proceeding up Johnston street from the steamboat wharf some drop off at St. George's Cathedral, some at the Baptist church, some at the Congregational church, others at the Presbyterian church, St. Mary's cathedral and Chalmers church.

With this understanding it was understood that communication would be had with the representative members of the Board of Trade here, and that guides or pilots would be supplied by the churches to take the party to the various churches and see that they were received and fully provided for.

Nothing has been heard from the party since two of the number visited Kingston in preparation for this tour, they left with the understanding that they would be met at the wharf on Sunday morning, guided to the churches, and from there back to the boat which leaves at one o'clock on Sunday afternoon.

It is not known how many will be in the party, but when Avery B. Davis, of Rochester, was in Kingston, he informed the president of the Board of Trade that the 250 pledged to come then, and that others would certainly join the party later when full details with regard to it were made known.

In a sense it is unfortunate that the trip should be made on Sunday or the disposition of the citizens of Kingston would be to show these visitors about and to let them see what an attractive place Kingston is for a summer visit. These Rochester people represent the wealth of the city. They represent, too, the touring element, and an element whose acquaintance is worth cultivating.

Very Rough Trip Experienced by Schooner Charles Marshall.

The captain of the schooner Charles Marshall, which arrived in port from Oswego on Tuesday afternoon, reports the roughest trip of his life. When speaking to some of his friends, the captain stated that he will never forget the experiences he went through Monday night on the waters of Lake Ontario. There was a terrific wind blowing all night long. It was so strong that the schooner was at the mercy of the waves for hours. The captain stated that the wind started to blow shortly after nine o'clock and continued until five o'clock in the morning. At many times the boat was covered with the waves. When the captain appeared on the streets on Tuesday afternoon after his arrival, his face bore the signs of his trying experience.

THE LIBERAL LEADER VISITED THERE TUESDAY AFTERNOON.

And Was Heard by a Large Audience in the Grand Opera House—Dr. J. P. Sinclair, Liberal Candidate, Looks Like a Winner.

Gananoque, June 17.—The first shot in the liberal campaign in South Leeds was fired yesterday afternoon at 3.30 in the opera house, Gananoque, by the coming premier, N. W. Rowell, K. C., who stopped off here on his way to Kingston to address the electors of that city last evening. Word of his coming was only received at the eleventh hour, but a large gathering assembled out to listen to his able and enthusiastic address which dealt mainly with the temperance part of his policy, G. S. Lindsay, K. C., of Toronto was also present and dealt with the rule and misrule of the Whitney administration. The liberal candidate for this constituency, Dr. J. P. Sinclair, faced the electors of the town for the first time in his campaign and demonstrated conclusively that he has both the push and the zeal to carry him to victory on June 29th. Mr. Rowell and his party left by automobile at 5.30 o'clock for Kingston, leaving behind him a decidedly good impression of his sterling worth and ability to render a good account to the people of the province for what they may do for him at the polls on June 29th.

Large delegations from St. John's, Catarqui, and Madoc, A. C. F. & A. M. with their degree teams paid a fraternal visit to the brethren of Leeds Lodge, No. 201, A. F. & A. M. last evening, and exemplified the degrees of that order. After the general business session, the visiting brethren were tendered a banquet in their honor by the members of the local craft.

The excursion steamer Thousand Islander made a tour of the islands in this vicinity at 3.15 yesterday afternoon and drew out quite a fair crowd. At 7.30 with the Citizen's band on board she ran the first evening excursion of the season, making a short stop at Alexandria Bay. The excursion was under the auspices of the ladies guild of Christ church.

Mr. and Mrs. Charles W. Zaring, of New York City, have arrived at the Hay Island house. E. B. Rawson and family, of New York, have arrived to spend the summer at their summer home "Grey Rock." ### GOT ACQUAINTED ALL RIGHT.

Amusing Story Told at Meeting in City Hall.

G. D. F. Lindsay, K.C., one of the speakers at the big liberal rally in the city hall on Tuesday night, told an amusing story. Some people he said were opposed to giving women a vote in the election of perhaps they might meet such an experience as related in a story told by David Lloyd George. The story centred around a newly-married couple who had been united on very short acquaintance. In order to become better acquainted with select a good argument for the breakfast table every day.

The first argument taken up was, "Can a woman dress on \$25 a year?" The husband took the affirmative," said the speaker, "and when last seen he had crawled up the ladder into his hayloft and pulled the ladder up after him. No doubt some who do not want to give the women a vote have experienced something of this kind."

### ALD. LITTON FRIGHTENED.

A Victoria Ward Lady is After His Scalp.

Ald. Litton, chairman of the Board of Works, wears a frightened look these days. When asked by a Whig representative what the matter was he replied that a lady resident of Victoria ward was after him. The Board of Works has passed upon an additional water waggon route, but the additional blocks until the by-law was amended by the City Council. The Victoria ward lady called up Ald. Litton by telephone and demanded to know the reason why the watering carts were not on her block. Ald. Litton replied that the legal machinery of the council had to be brought into effect first, and he was told that it was time the women of the city were given places in the council so that things would be carried out with greater dispatch.
