FAILURE CONFRONTS MEXICAN MEDIATION

The Delegates Reported Hopelessly At Odds

FUNSTON IS PREPARING

TO MEET AN ATTACK AT VERA CRUZ.

At Present He Has Orders to Act Entirely on Defensive—Has, However, Prepared to Advance as Flying Column Towards Mexico City.

Niagara Falls, June 19.—Hopelessly at odds on every point as to the conditions in Mexico entering into the discussions incident to the selection of a provisional president, the United States and Mexican delegates were prepared to resume their conferences in the mediation proceeding to-day. As the matter stands now the only prospect ahead is failure. The conference is scheduled for eleven o'clock to-day but may be postponed owing to the absence of Ambassador Noun.

General Funston Preparing to Advance on Vera Cruz, Mexico, June 19.—Alive to the fact that the expected breaking off of negotiations for peace at Niagara Falls may be the signal for an attack on the defenses of this town by Mexican troops, General Funston is to-day throwing up additional earth-works to meet such a contingency. At present he has orders to act entirely on the defensive, but his troops have been spending these times during the occupation here in preparing to advance as a flying column towards Mexico City.

\$600,000,000 Automobiles

The trade estimates that the sales of automobiles for 1914 will aggregate a total of \$600,000,000.

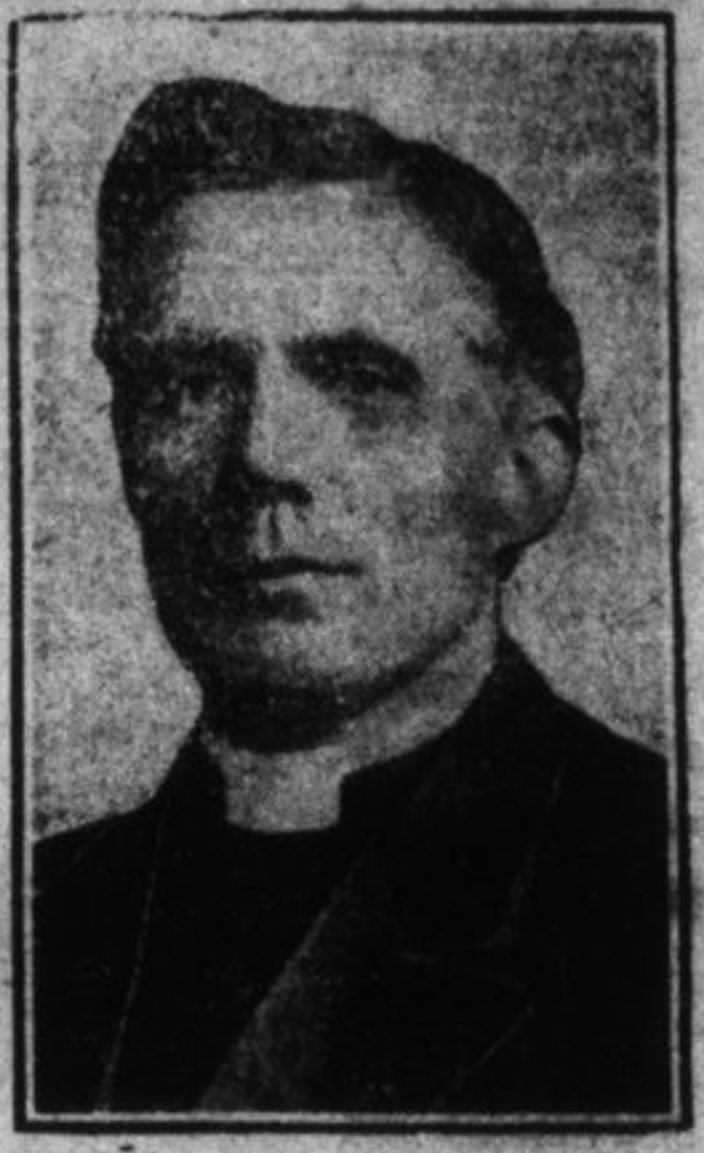

And yet some pessimists talk about dull times.

It is interesting to note that this immense volume of business has been largely built up through persistent advertising linked with consistent salesmanship.

And more enlightening still is the fact that much the larger percentage of automobile advertising is used in the daily newspapers.

The newspaper advertising which in most cases is directly linked up with the name of the local dealer is the sales message that brings direct results.

The automobile is a useful servant, but had there not been such aggressive and intelligent advertising its manufacture would still be among the infant industries.

CHANCELLOR BOWLES

LINE UP WITH ROWELL

Ontario Christian Endeavors With Liberal Leader

Owen Sound, June 19.—We do hereby place ourselves on record as being in hearty accord with the temperance policy of N. W. Rowell and we urge all our societies, in all organizations in Ontario, to give him and his representatives their loyal support.

Amid a scene of tremendous enthusiasm the foregoing resolution, moved by H. D. Tresider, of Toronto, and seconded by Mr. Kofer, of Berlin, was unanimously carried at the session of the Ontario Christian Endeavor Union yesterday. There were 750 delegates present at the convention, which was presided over by the Rev. W. A. MacLaggart. The president paid a magnificent tribute to the unselfishness of the liberal leader.

BREATHING SPACE GIVEN

To Canadian Authorities—Japanese Cruisers Not Arrived.

Ottawa, June 19.—News received here this morning, to the effect that the two Japanese cruisers due at this coast, will not arrive till tomorrow, has given the government a further breathing space.

"The less we say at present the better," said one prominent official this morning.

"The situation is a nasty one here. We have a Japanese ship with British subjects aboard lying in a British port, and a British dominion in no position to receive them. It is a real complication."

Honor for Sir Charles Fitzpatrick.

Cambridge, Mass., June 19.—At the Harvard commencement exercises the honorary degree of doctor of laws was conferred upon Sir Charles Fitzpatrick, member of the British privy council, and chief justice of Canada.

ROOSEVELT TO MAKE RUN FOR PRESIDENT

Does Not Care To Be Governor Or Senator—White House His Goal

Southampton, Eng., June 19.—Even sooner than was anticipated, Col. Roosevelt "boiled over" yesterday in an exclusive interview with the correspondent of the International News Service, just before sailing for New York aboard the Imperator, announced some of the most important things he will and will not do.

Summarized, here are his views and his reasons therefor:

He will not:

1. Run for governor of New York because he has not time to be side-tracked in Albany.

2. Accept nomination for United States senator, because the suggestion is "palpably preposterous."

3. Make any speech for anybody, himself included.

He will:

Accept the progressive party nomination for the presidency because he is convinced the country is in an unhealthy state.

The colonel indicated that he is going to show up what he characterizes as the "feigning errors" not only of Wilson, but of the Taft administration.

Max Aid Technical Education.

Ottawa, June 19.—There is a possibility of legislation at the next session of parliament by way of implementing the recommendations of the commission on technical education. The provincial governments will be consulted.

BIG FIRE AT WATERTOWN, N. Y.

Fifty Thousand Dollars Loss on Thursday Afternoon

Watertown, N.Y., June 19.—Fire which broke out in the old C. W. Ryder ice house, in River street, yesterday afternoon, swept that section of the city on both sides of the river, and caused a loss of at least \$50,000. The principal buildings burned are the coal sheds of the Riggs, Burdick & Carey Co., better known as the Burdick Coal Co., the largest carriage warehouse owned by Lincoln E. Brown, two houses on River street, a double house on the north side of the river owned by Mr. Brown, which was practically destroyed. No lives were lost. Shortly before three the fire was under control.

The burned buildings include the old C. W. Ryder ice house, Burdick's coal sheds and L. E. Brown carriage warehouse. Several dwellings on both sides of the river were also burned.

BILLS ARE DECREASING

Inland Revenue Receipts in May Fell Off \$300,000.

Ottawa, June 19.—Canadians, with one eye on the high cost of living, are drinking and smoking less this year than last. This is indicated by the fact that inland revenue receipts in May show a falling off from the figures for the corresponding month last year. The total for May, 1914, was \$1,641,375, as compared with \$1,948,500 for May, 1913.

CHANCELLOR BOWLES SPEAKS FOR ROWELL

The Head Of Victoria University Appears On The Platform At Bowmanville

Bowmanville, June 19.—Rev. Chancellor Bowles, of Victoria university, Toronto, speaking at Mr. Rowell's meeting here yesterday, declared it was the first time he had stood up in a public meeting and said a word in favor of any candidate for the legislature or for the parliament of the dominion. "It is the first time," said the speaker, "and I am not very young. I am four years older than Mr. Rowell. There is only one thing which could possibly make me take the action I am taking this afternoon. If that plank were not in this platform, much as I respect him, intimate as is our friendship, I would decline to rise at this meeting. I know what party feeling is, because I have felt the same. I am not one of those gentlemen who says he is an absolute independent, who follows his reason in all things. I know I have certain party feelings, and I confess to that. I am not going to break with them on this occasion, but I have broken with them in former times, and I know how severely it tries a man." He was there because he supported Mr. Rowell's temperance policy. He had never felt angry in a political contest until the statement was made that Rowell was insincere. He knew that was not the case.

At a meeting of St. Andrew's Presbyterian congregation, Toledo, it was decided to sell the manse in that village.

APOLOGY MADE

To Lord Mersey By The Stordstad Lawyer

COMPLETELY ABSOLVED

C. P. R. LAWYERS FROM TRYING TO SPIRIT AWAY

Certain Witnesses—Court of Enquiry at Quebec Hears Evidence That Empress' Steering Gear Was in Good Order.

Quebec, June 19.—Evidence on the construction and equipment of the Empress of Ireland practically monopolized this morning's proceedings of the special court of inquiry. Before the first witness was called into the box, Mr. Haight, chief counsel for the owners of the Stordstad rose to express regret.

"In answer to certain definite questions by your lordship," he said to Lord Mersey, "I make answer which I should not like to stand in the record unexplained."

"It may be," Lord Mersey replied, "that in my conduct of the inquiry yesterday, I became a little heated, because I did not like one of your witnesses."

Mr. Haight also completely absolved the legal representatives of the C.P.R. from any "manoeuvres to spirit away" Quartermaster Galway. The oil having been poured on the waters, the court proceeded with technical evidence.

Engineer Ondonovan, who had charge of the steering gear on the Empress, said that he inspected it regularly and it was in good order on leaving Quebec. He explained the connection between the wheel worked by the quartermaster on the bridge, and the rudder which actually steered the ship. It was a system of water and glycerine in cylinders and long pipes involving complicated chemistry and mechanics.

The second officer of the Stordstad claimed, however, that when the Empress of Ireland was sighted, he noticed that she was steering badly.

It is expected that the evidence will be all in by noon to-morrow.

ROWELL WILL FIGHT TILL LAST BAR CLOSES

Declares at Peterboro' That He Will Never Give Up The Battle

Peterboro, June 19.—In a speech here last night, N. W. Rowell, K.C., declared that he would fight against the bars in Ontario until the last one was closed.

Mr. Rowell made this announcement after vigorously denying the published statement alleged to have been made by Mrs. Rowell at a church meeting in London. He said Mrs. Rowell had never made any such statement, nor had she been in London on the day she was said to have declared that he would give up his fight against the liquor traffic if defeated in the forthcoming election.

Another Case of Siamese Twins

Paris, June 19.—Two sisters who were born in May of last year, who are united back to back, are about to be operated on by surgeons in order to separate them. The babies have been thriving splendidly, and it is expected that they will survive the operation.

BOUNTIFUL RAINS HAVE BEEN FALLING

In The West And Has Just Reached This Good City

Toronto, June 19.—"This is a two million dollar rain," remarked an observant official, this morning, in discussing the weather.

Whoever showed fell this morning in all parts of the Ontario. From Windsor to Belleville, from Niagara Falls to Muskoka, came reports of bountiful rains delighting the farmers and gardeners and all interested in them.

"Prospects are for cool weather after to-day's showers," said the weatherman, then a general warming up. "Just what Ontario will need for its hay crop." Local grain men report that the prospect for good harvests of wheat and oats throughout Ontario, generally, are bright.

VOLCANIC ACTIVITY IN ALASKA.

Shores of Prince William Sound Covered With Sulphur

Valdez, Alaska, June 19.—Additional evidence of volcanic disturbance in south-western Alaska was brought here in reports which stated that areas of the surface of Prince William Sound and the shores of the sound are covered with powdered pumice or sulphur. The powder is colored yellow, and is unlike the ash from the volcano of Mount Katmai, the only known large crater in the district. It is believed the fall of sulphur was brought down by the recent heavy rains.

STRATHCONA DIED A SCOT.

By Will Declared He Was a Domiciled Scotsman

Montreal, June 19.—An interesting point of discussion has been settled by the will of Lord Strathcona, just filed here, as to whether Canada, England or Scotland can claim the late magnate, philanthropist and statesman as a son.

"And I declare that I am and I intend to remain a domiciled Scotsman," is one short clause in the will.

The Canadian succession duties of fees will be only able to claim death duties on real estate held in this country, the shares held in the various Canadian companies coming under the English law.

CHALLENGE TO REAUME.

Conservative Convention Nominates Disputes His Claims

Windsor, Ont., June 19.—O. E. Fleming, nominee of the conservative convention of the new riding of Windsor, has challenged the allegation of Hon. Dr. Reaume, Whitney's candidate, that Sir James Whitney had insisted upon the candidature of the minister of public works, after he had been turned down at the convention.

"It would practically mean that they are claiming that Sir James Whitney, as leader of the liberal-conservatives of Ontario, is leading a rebellion," he said.

POOR WATER SUPPLY AT NEW THISTLE CAMP

Some Miles From Petawawa Where A Dozen Cavalry Divisions Are In Training

Petawawa Military Camp, June 19.—Owing, it is alleged, to faulty engineering, much difficulty is being experienced at the new Thistle camp where nearly a dozen divisions of cavalry and two cavalry ambulance corps are in training, in getting enough water for horses and men. There are about 3,000 men and 2,700 horses in this section of the camp, which is slightly over seven miles from Petawawa.

The cavalry moved on Monday and on Tuesday great difficulty was experienced in keeping water in the tanks, even before the men were up in the morning. By night it was impossible to get enough water for the horses to drink. Only a dribble was coming through the taps used by the men. Horses were lapping at the troughs in a manner that at times was pitiful. Petawawa is a tract of sand and stunted shrubbery and it is hard to estimate the suffering that would ensue on a blazing hot day from lack of water. The horses, however, were driven to a nearby creek to drink while enough water was pumped for the men.

"It is my belief that the elevations are faulty," said one workman, employed at the camp. "I think the tanks are forty feet too low. The men must be in bad shape. They are not allowed to have booze and couldn't get enough water to use as a chaser if they did have it."

TRADES AND LABOR MEN THANK ALD. HARRISON

For Efforts He Made In Their Behalf

LABORING MEN SORE

AT CONSERVATIVES FOR OPPOSING ALLAN STUDHOLME

And Will Assist Financially In His Election—Trades Council Against Merchants Who Work Their Employees Behind Closed Doors.

At the regular meeting of the Trades and Labor council held on Thursday evening, the following resolution was passed:

"That the Trades and Labor council make a public announcement of our appreciation to Ald. T. F. Harrison for his action last Monday in endeavoring to get justice done to the workmen of this city in regard to conditions on the paving work on Princess street." The resolution was carried unanimously.

A circular was received from the independent labor party of Hamilton making an appeal for moral and financial support in connection with the election of Allan Studholme, the labor candidate in Hamilton for the Ontario legislature.

The local council passed a resolution to assist the labor men in Hamilton financially, and an appeal will be made to every labor organization in the city for support in the matter.

There is a great deal of hard feeling among the laboring men in Kingston and all over the province in connection with the situation in Hamilton. After laborers in Hamilton were assured that Mr. Studholme would be unopposed, the conservative party broke its promise and trotted a man into the field.

As a result of this action, the labor men will vote in large numbers against the conservative candidates.

A committee was appointed to wait upon the members of the Board of Works at its meeting Friday afternoon in connection with future paving contracts.

A committee will wait on the Board of Education with regard to the foreign labor being employed on the addition to Victoria school instead of giving the local men a chance.

Joseph Abrams wrote asking the council to endorse a scheme whereby the stores would be allowed to be open in the evenings. As the labor men are in favor of early closing, no action was taken. The men expressed themselves against the merchants who work their employees behind closed doors.

The council expressed itself in favor of the stand taken by the Montreal Trades and Labor council which is asking the Borden government not to bring any more immigrants into the province, when so many of the men who have been residents for years are out of work.

In the face of Mr. Rowell's declaration that the state owes it to every child that it should have a good education in the English language, and consistent with that might study its mother tongue if so desired. Dr. Forbes Godfrey, in Toronto, says that the liberal leader has dodged the question. For himself he would like to see French abolished altogether. This is the attitude of the conservative party, although Dr. Godfrey is one of the few who has stated it concisely. In the meantime Mr. Rowell's clear enunciations are being contrasted with a policy of shifting and vacillation.

MUST BE BURIED.

Quebec, June 19.—Local coroners have given orders that forty bodies of the Empire victims, still unidentified here, must be buried without delay. One body of a woman found on the shore near Rimouski, yesterday, was impossible of identification or embalming being so badly eaten by fishes and action of water.

ASQUITH TO PROMISE

Some Measure of Women's Suffrage on Saturday.

London, June 19.—That Premier Asquith will, when he meets Sylvia Hankhurst's delegation of working women to-morrow, promise some measure of woman's suffrage legislation as soon as the home rule bill controversy is cleared away, is regarded here to-day as almost certain.

Just how far the premier will go without the approbation of his cabinet is problematical. It is thought for a start he will merely propose votes for unmarried women and widows, self-supporting or of independent income whose households are not otherwise represented in the present enfranchisement.

This will not be a very wide concession, and probably not altogether acceptable to the militants, but it would be a fair start toward full womanhood franchise.

It is realized here that all the authorities, from royalty down, would welcome any move that would render their lives less uncomfortable as the result of continued harrasing of the militants.
