AFTER THE LAUNCHING OF THE FOURTH CHALLENGER BY SIR THOMAS LIPTON FOR THE NOW AMERICANIZED VACHTING CUP.

The Countess of Shaftsbury, Sir Thomas Lipton, C. Nicholson, the designer of the new "Shamrock", M. Marconi and Lady Henry, photographed at Gosport last week after Shamrock IV. had been christened by the Countess of Shaftsbury and safely launched in Portsmouth Harbor. The new challenger is a big boat which will carry enormous sail, her mast being some 120 feet long and costing, so we are informed, \$3,0000. Sir Thomas is making yet another noble attempt to lift the cno, with all the disadvantages on his side as usual - the long trip over the Atlantic for one, not to mention the fact that the Americans are at liberty to build three yachts and select the best, while Sir Thomas can only rely on one. Cup-lifting is a very expensive hobby, but it shows a sporting spirit, and for that reason the public will wish the latest "Shamrock" better luck than her predecessor. hope in the hearts of some of King-,
