

GATHERING IN ROME

OF THE INTERNATIONAL COUNCIL OF WOMEN.

The Recent Quinquennial Meeting—Resolutions on Temperance and Franchise of Women.

The quinquennial meeting of the International Council of Women, which five years ago, was held in Toronto, recently concluded its fifth meeting in the ancient capital of Italy and of the old world, and as its president, Lady Aberdeen, records, "was attended with the utmost regularity and persistency throughout all the days of the council meetings; notwithstanding the manifold distractions to be met with by visitors to Rome, and the long hours and lack of ventilation of the hall in which it was held, though this was in the luxurious Hotel Quirinal. The importance and extent of the subjects discussed at this international meeting of representative women from all the principal countries in Europe, North America and Australia, with Argentina and South Africa into the bargain, may be learned from the list of thirty-three resolutions adopted, bearing on such matters of all timeliness concern the women of all countries, and through them the welfare of society and the safety and happiness of the women.

Among these may be noted two or three of the most outstanding ones touching problems which affect the people of all countries. As for instance that on international mediation for the peaceful settlement of international conflicts, through treaties pledging the nations to such peaceful means of settlement, and that appealing for a more effective international protection of women in time of war, which will prevent the continuance of the horrible violation of womanhood which attends all wars. Doubtless the recent distressing experience of these of the countries represented, and especially of Serbia, made the need for such an appeal more acute, and prompted the resolution so suggestive of the misery of war. Other resolutions, intended to guard the legal rights of women and children, especially in the case of divorce, and urging the National Council to endeavor to secure juvenile courts or similar institutions in all countries, were also unanimously adopted.

But the two following resolutions will probably excite the most interest at the present time, and are therefore given in full—the "temperance" one coming first.

"The International Council of Women, fully realizing the immense harm done to the home as well as to the human race as a whole by intemperance, and expressing its sympathy with the cause of temperance, and urging the national councils to use their influence as far as possible to combat alcoholism, and requests the public health committees to give special at-

On the Advice of His Doctor

He Used Dr. Chase's Ointment for Protruding Piles With Splendid Results.

Too often a doctor can only think of an operation when asked for a treatment for piles. Some are sufficiently broad-minded to use the most effective treatment available, which is undoubtedly Dr. Chase's Ointment, as was proven in the case referred to in this letter.

Mr. Simon E. Jones, Railway street Inverness, N.S., writes:—"I have found Dr. Chase's Ointment the best treatment obtainable for protruding piles. For three years I suffered from piles, and was advised by a local physician to try Dr. Chase's Ointment. I had tried many treatments in vain, and therefore knew which is the best. I can highly recommend Dr. Chase's Ointment, and you are at liberty to use this statement."

The record of cures of every form of piles which stands behind Dr. Chase's Ointment is the strongest guarantee you can have that it will promptly relieve and cure this ailment, even in the most aggravated form. 50c a box, all dealers.

CANADA'S BISLEY TEAM LEAVES FOR ENGLAND.

Lieutenant-Colonel J. G. Ross is in command. There were altogether 20 riflemen, including their adjutant, Lieut. C. W. G. Gibson, 13th Royal at Regiment, Hamilton, Ont. The Canadian team called on the SS. Scotian. From right to left the names are: Pte. G. A. Lown, Guelph; Sergt. A. G. Bullock, Toronto; Staff-Sergt. T. Lemon, Halifax; Sergt. G. W. Russell, Ottawa; Gunner D. Noble, Montreal; Sergt. Martin, Calgary; Pte. W. J. Hedley, Dundas; Sergt. D. McKie, Guelph; Lieut. C. A. Bennett, Halifax; Color Sergt. W. H. Harkin, Toronto; Sergt. J. T. Armstrong, Halifax; Pte. H. Falsoner, Nova Scotia; Piper H. D. MacLeod, Toronto; Q.M.-Sergt. D. McInnes, Edmonton; Major W. C. King.

Does Sir James Defend This?

At the request of the Liberal Association of Manitoulin, and with the consent of the Rev. W. E. Wilson, R. E. Gamey's opponent in the present election, the Toronto Globe published yesterday two letters that ought to force Sir James Whitney to repudiate Mr. Gamey and make him retire from the contest. It is startling to find that the Hon. W. H. Hearst, knowing of this transaction, is in Manitoulin to endorse Mr. Gamey as the candidate of the Government.

The first document is a copy of a letter sent by Mr. Gamey a year ago to a number of his constituents who are fishermen in Manitoulin, and whose business is entirely at the mercy of government regulations. The disclaimer of the "member" is to them as terrible a thing as the town of a feudal landlord to an English farm laborer.

To eight such men it is alleged by Mr. Gamey's opponents this letter was sent, and three at least, C. Lowe and Jas. Toque, Killarney, and John Haste of Shegana, accepted and paid the drafts spoken of. The letter follows:

"R. R. Gamey, M.P.P., Broker.
Office: Traders Bank Building, Phone 7323.
Toronto, Ont., May 23, 1913.

"Dear Sir,—I am selling some stocks of Elizabeth Gold Mines, Ltd., at sixty cents per share. I am president of the company, and we have done a great deal of development work and have an extensive plant in operation. I have a payment to make now, and wish to sell you five hundred shares, for which I will draw on you three drafts for one hundred dollars in thirty, sixty and ninety days each. Some time early in June I will be up and explain fully the property and discuss matters with you. The drafts will go through the Merchants' Bank and they will notify you, and be good enough to accept them to assist me. Yours truly,

"(Signed) R. R. GAMEY."

When this transaction reached the ears of Rev. W. E. Wilson, who is now Mr. Gamey's opponent, he wrote to Sir James Whitney, directing his attention to the facts. Here is a copy of the premier's answer:

"Office of the Prime Minister and President of the Council, Ontario.
Toronto, Ont., July 23, 1913.

"My Dear Sir,—I have your letter of the 15th instant with enclosures. I am sorry to find the situation to be what it is, and, of course, it is impossible to deal with it by means of correspondence.

"Yours very truly,

"(Signed) J. P. WHITNEY."

"Rev. W. E. Wilson, Steelton, Ont."

In the face of these two letters, why does Sir James Whitney permit R. R. Gamey to represent him in this election? DARE HE NOT DENOUNCE THE MEMBER OF WHOM HE WROTE A YEAR AGO, "I AM SORRY TO FIND THE SITUATION TO BE WHAT IT IS?" What explanation has Sir James to make of these letters? Mr. Gamey called the Rev. Mr. Wilson "a liar and a skunk" the other day because he had shown some electors the letters. Is that to be the reward of the man who tries to keep politics clean?

Speak now, Sir James!

SEWS HAIR ON BALD HEADS.

Budapest Physician Successful in Grafting New Stresses.

Budapest, June 26.—A method of sewing hair on the human scalp in cases of baldness has been successfully used by Doctor Szekeley at the hospital of St. Stephane's in this city. The number of hairs planted in the head of one patient has been as high as 50,000.

One hundred hairs are drawn through punctures in the scalp in every square centimeter, and as both ends are left free, this makes more than 1,000 hairs to each square inch.

In the operation gold wires are used, 1-500 of an inch in diameter, and fine long hairs from a woman's head are attached to these. The gold loop acts as an anchor, which, after sterilization, is introduced into the subcutaneous tissue, where it is slightly twisted, thus holding the hair in permanent position.

It is said that 500 hairs can thus be planted in three-quarters of an hour. A special instrument has been designed by Doctor Szekeley for planting the gold wires, which are so fine that after the work is completed for planting 50,000 hairs there is only one gram of gold left in the scalp.

The hair becomes perfectly natural after a capsule of tissue forms around the gold knot. The inflammation disappears within ten days after the operation and no evil results have ensued from any of the patients. The hair can be treated in the ordinary way after the operation, and the doctor's earliest patient, who underwent the operation seven years ago, has a beautiful head of natural glossy hair.

EIGHTEEN HOURS IN THE AIR.

German Aviator Shows Atlantic Flight is Near.

Berlin, June 25.—Two flights at Johannisthal, which began yesterday and ended this morning, have demonstrated that an aeroplane journey across the Atlantic is coming within range of possibility.

The first flight was that of the German aviator Basser, who ascended at 3.49 o'clock yesterday afternoon and remained in the air for eighteen hours and twelve minutes, thus breaking the record for a continuous flight made by the Frenchman Pollet on April 26 of 16 hours and 28 minutes.

Basser used a Rumpler biplane with a 100-horse-power Mercedes engine of an entirely new type. The machine will receive a prize of \$2,500 from the National Flying Fund.

CHINA NOT UNSETTLED.

Says Dr. Morrison on Way Here to Study Immigration.

London, June 26.—Dr. Morrison, political adviser to the president of the Chinese republic, who has arrived in England, will in a few weeks return to China, going via British Columbia, with the intention of investigating the immigration question in that country.

Dr. Morrison has corrected the misapprehension as to the present conditions in China. He gathered that China was supposed to be in a state of anarchy, whereas it was in an incomparably more settled condition than it had ever been since the revolution, or for some time before.

The best and most progressive politicians of the Manchu regime had returned to public life and were working in harmony with the pick of the Young China party. Although parliament had been suspended, a constitution was being prepared by a council of seventy picked men under Dr. Arrigo, a distinguished Jap, and Dr. Goodnow, of Johns Hopkins university.

QUEEN'S CLOCK IS FOUND.

One Which Chimed Hours for Marie Antoinette Discovered.

Paris, June 26.—A clock that belonged to Marie Antoinette and for more than a century lay in a forgotten corner among many state treasures has been brought to the light of day by M. de Nolhac, curator of Versailles palace. It is a beautifully gilded piece of bronze.

On one side of the pedestal stands the draped figure of a woman; on the other Cupid is examining the stars through a telescope. There is in the pedestal a beautifully modulated organ chime that plays the favorite music of the guillotined queen. Among the pieces is a gavotte from Luck's "Armide."

COMMISSION'S WIDE PROBE.

Over Fifty Subjects to Be Considered at In-Canada.

Ottawa, June 26.—Over 200 witnesses will give evidence before the Dominion's Royal commission, which arrives in Canada on August 3. Over fifty different subjects will be considered by the commission, while in Canada. In regard to the most important of them, the matter of ocean freight rates, the Atlantic boards of trade are now preparing memorials. Witnesses will also be heard in regard to the transportation, trade and industrial development, cable facilities, empire organization and even the circulation of American literature in Canada, as compared with British publications. F. C. T. O'Hara, deputy minister of trade and commerce is Canada representative of the commission.

ANGLO-CANADIAN TRADE.

Clarence McCuaig Interviewed by London Express.

London, June 26.—The next year there should be a record general trade in Canada is the statement made by Clarence J. McCuaig, of Montreal, when interviewed by a representative of the Express. Canadians would, he says, prefer to buy manufactured goods from England and trade along this line could be greatly increased if English manufacturers made a more careful study of Canadian requirements. At the present time, this trade had already increased to such an extent that English manufacturers should study the question of establishing branches in Canada.

GIRLS WARNED OF DANGERS.

Graduates of Philadelphia School Are Given Advice.

Philadelphia, June 26.—Warning his schoolgirl audience against cigarettes and deploring the tactics of militant suffragists, Dr. De Baron R. Briggs, dean of Harvard University and president of Radcliffe College, declared at the commencement exercises of Miss Hill's school for girls that women in embracing their new freedom should avoid the coarser practices of men. His was the principal address at the graduating exercises of twenty-nine girls of the Methodist Episcopal church of the Covenant, Eighteenth and Spruce streets.

"There is no earthly reason why a woman should not smoke cigarettes if she wishes to do so," said Dr. Briggs. "If men do it women are certainly entitled to the same liberty. But it is deplorable that a woman should educate herself to such habits." The speaker then cited the outrages of militant suffragism as an example of the harmful tactics women have employed on the assumption that men have achieved their ends through the same methods. Dr. Briggs then turned his attention to the state, branding the amateur productions of young college men and women as "silly and often times vulgar."

You, and I see a good many bright men at twenty years old, who, when they get to be forty, will find out what fools they are.

Every Christian ought to know that there is a vast difference between religious zeal and religious persecution.

BELOCOURT CASE SETTLED.

Senator Given Possession of His Children.

Ottawa, June 26.—The dispute between Senator N. A. Belcourt, K. C., and Mrs. Belcourt, which was to have come before Judge Lennox, at the present sitting of the Ontario supreme court, has been settled to the satisfaction of both parties, but out of court. The settlement has been approved by his lordship and duly signed by him.

Mrs. Belcourt has entered a claim for alimony against her husband, and he had a counter-claim for the return of their three boys. By the terms of the settlement Senator Belcourt is given the custody of the children, and if Mrs. Belcourt desires to live apart from her husband, ample provision in the way of financial support will be made for her.

With the settlement of the case it is likely Mrs. Belcourt will go away for a long rest to recuperate her health. It was the settlement of this case which caused the postponement of the bi-lingual school case, which was to have come up before the supreme court yesterday. Senator Belcourt, who is himself a leader in the bi-lingual movement, is acting as counsel for the French trustees who are opposing the application of separate school board for an injunction against them.

LOOKS GOOD TO US.

If signs are anything, Rowell has the ear of the province at the present moment, and the Rowell candidates are going to spring surprises in this grand old province on Monday next that will make the rest of the dominion take notice of the reforms that are in progress here.

By conversation, the lazier will loaf away your time as well as his own, if you are foolish enough to let him.

HIGH VALUE ON GOOD WILL.

\$375,000 Paid by American Can for \$32,000 Plant.

Baltimore, June 26.—Further testimony as to high prices paid for Baltimore can manufacturing plants was adduced at the hearing before Special Examiner Edward Hackett who is gathering evidence in the government suit for the dissolution of the American can company on the ground that it is an illegal combination in restraint of trade.

Charles R. Kirwan of the firm of Kirwan & Tyler, said that the American Can company bought this concern in 1901 for \$125,000 in cash \$125,000 preferred stock, and \$125,000 common stock. At the time his machinery and plant was valued at \$32,000. The difference, he said, was for good will.

When asked for his opinion of the deal, he said: "The price paid was out of all proportion to the value received."

It is easier for a pretty girl to flag an automobile than it is for a home-ly one to stop a street car.

ON THE ADVICE OF HIS DOCTOR.

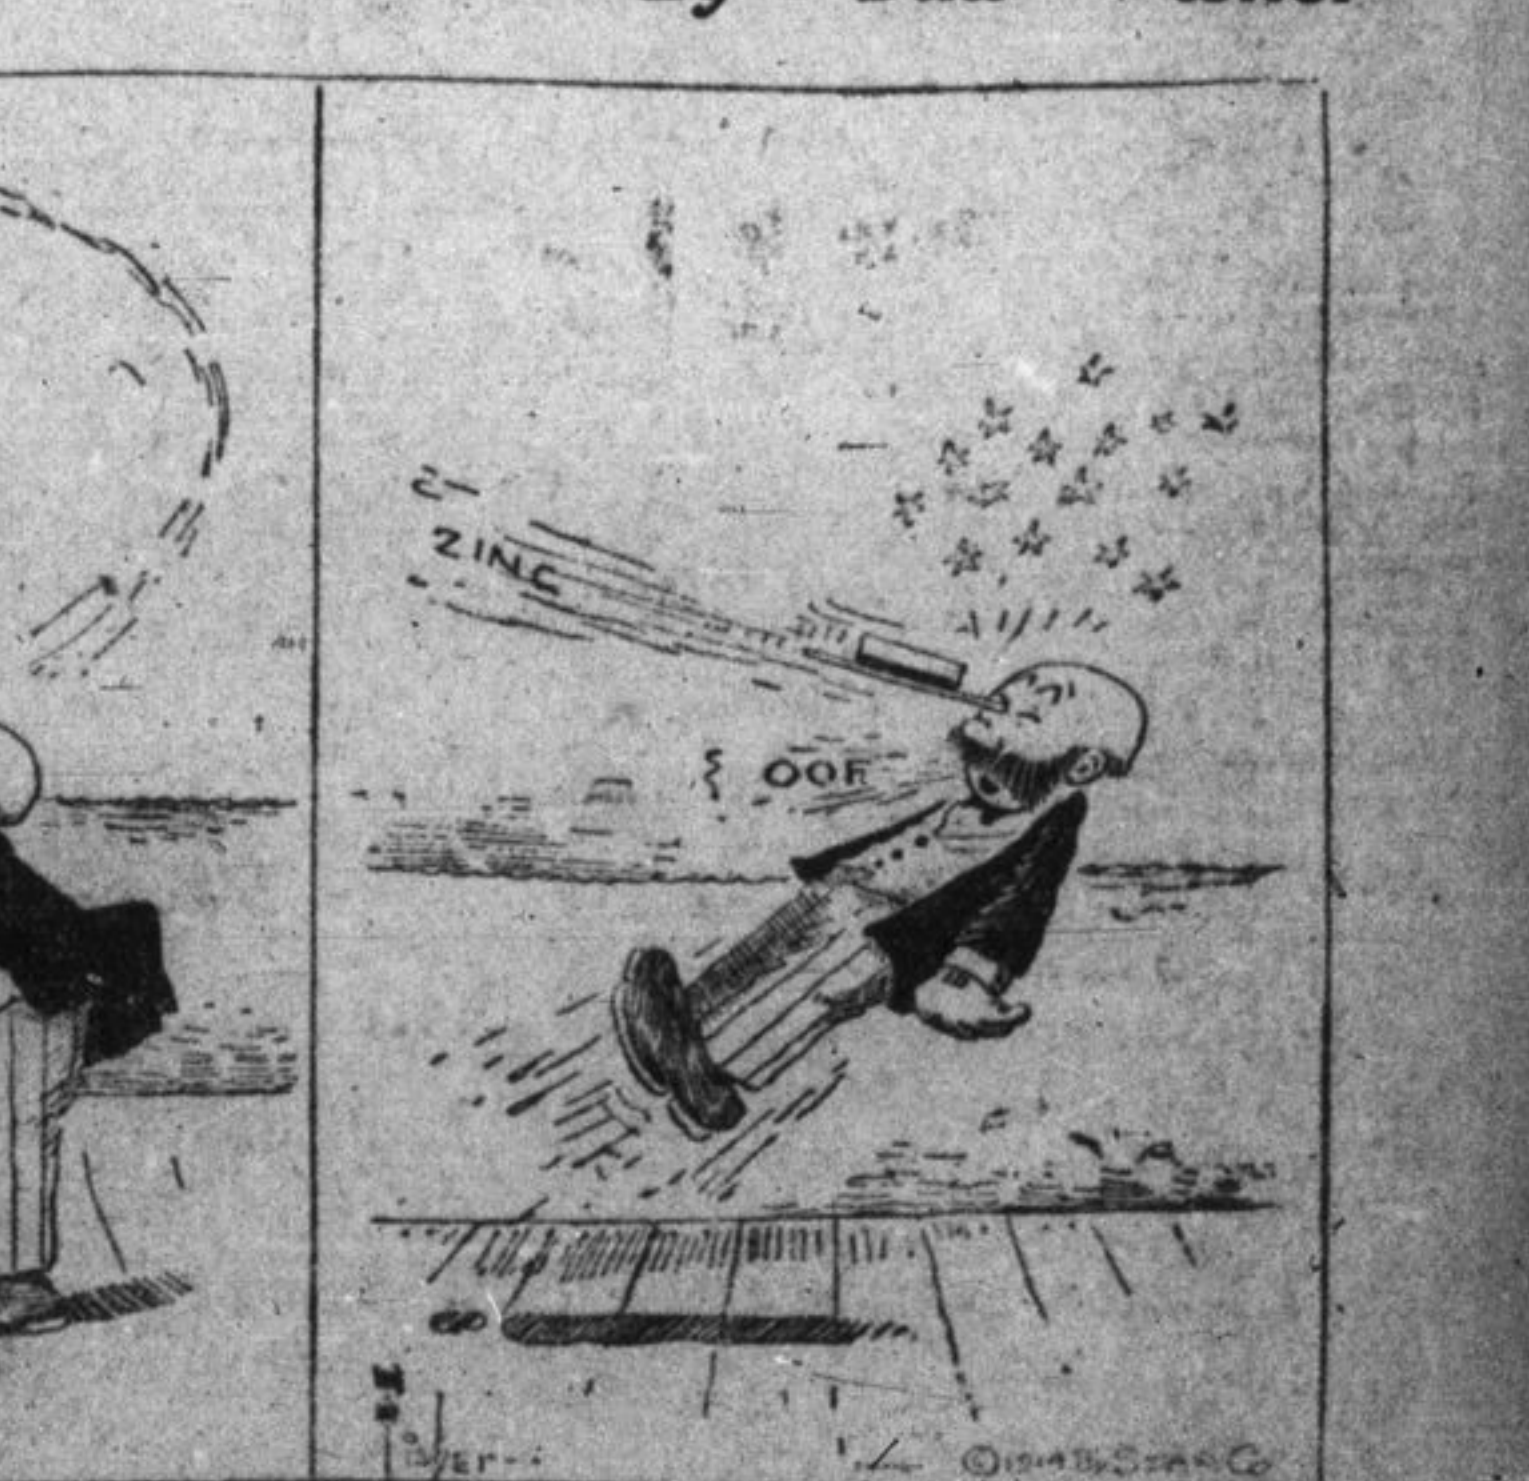

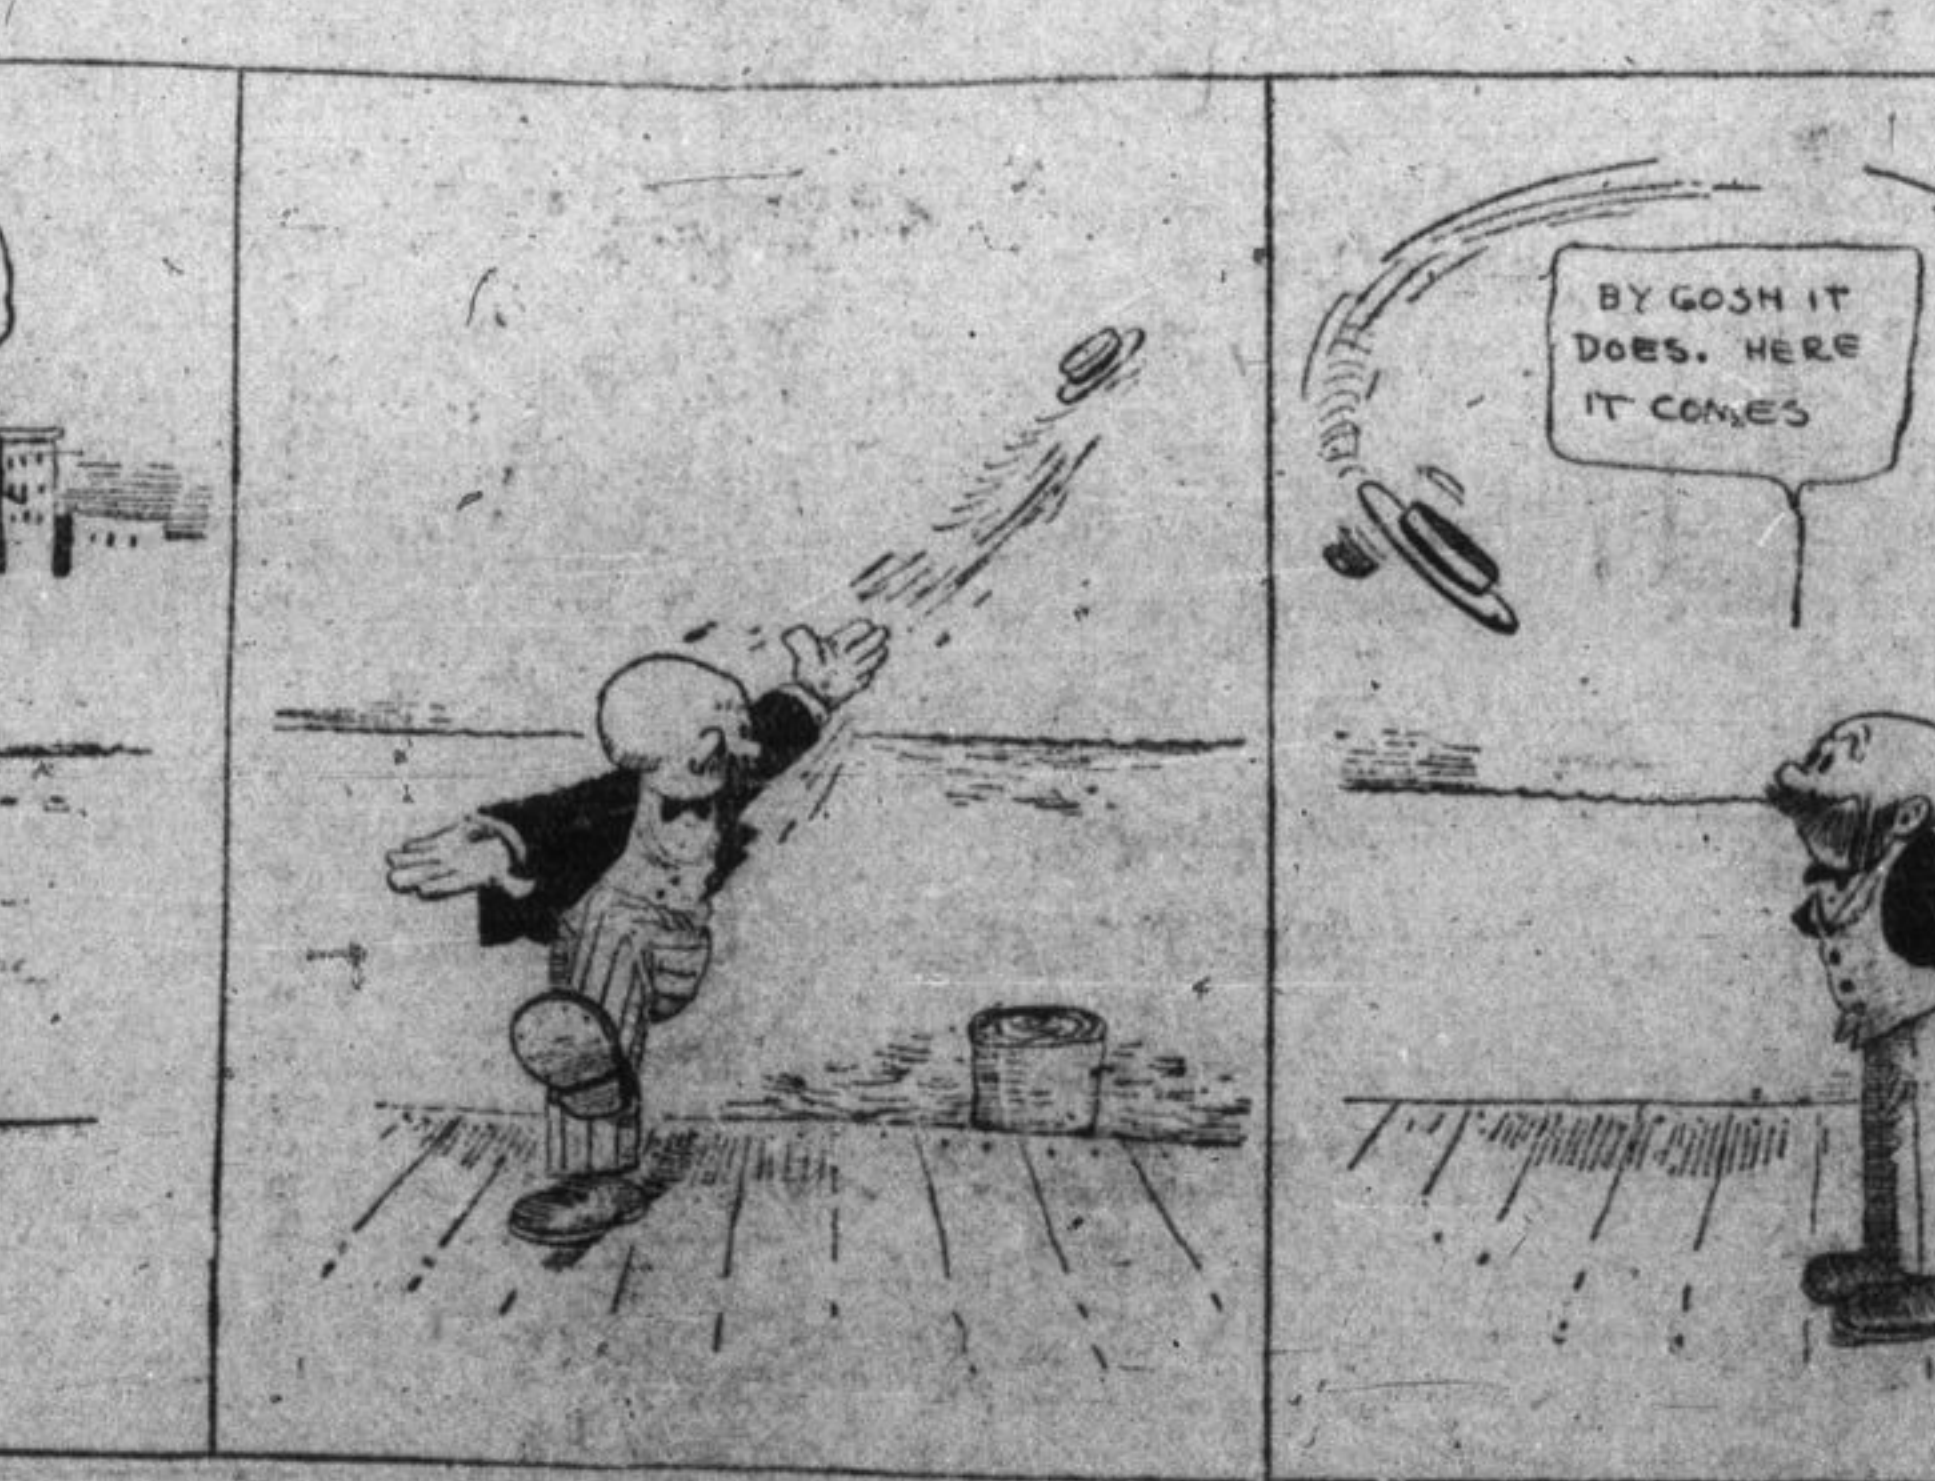

He Used Dr. Chase's Ointment for Protruding Piles With Splendid Results.

Too often a doctor can only think of an operation when asked for a treatment for piles. Some are sufficiently broad-minded to use the most effective treatment available, which is undoubtedly Dr. Chase's Ointment, as was proven in the case referred to in this letter.

Mr. Simon E. Jones, Railway street Inverness, N.S., writes:—"I have found Dr. Chase's Ointment the best treatment obtainable for protruding piles. For three years I suffered from piles, and was advised by a local physician to try Dr. Chase's Ointment. I had tried many treatments in vain, and therefore knew which is the best. I can highly recommend Dr. Chase's Ointment, and you are at liberty to use this statement."

The record of cures of every form of piles which stands behind Dr. Chase's Ointment is the strongest guarantee you can have that it will promptly relieve and cure this ailment, even in the most aggravated form. 50c a box, all dealers.
