

INCOME TAX RULING PRISON LEGISLATION THE HEAVY EXPENSES GANANOQUE'S BIG DAY

WILL NOT PAY TO UNCLE SAM WITHOUT A PROTEST.

Oliver J. Wilcox, M.P., for North Essex, which includes Windsor, Walkerville and Sandwich, has laid complaint before Premier Borden.

Windsor, Ont., July 2.—The decision of the United States government that the residents of Windsor, Walkerville and Sandwich, as well as other Canadian border towns, who are working in Detroit, are liable for and must pay the one per cent. income tax, as imposed by the new federal income tax law, has not been allowed to pass unnotified by those living on the Canadian side of the border.

The British ambassador at Washington will be instructed to take the matter up with President Wilson at once. Mr. Wilcox says there are over 2,000 residents of Windsor, Walkerville and Sandwich affected by the decision. In an interview by long distance telephone, Mr. Wilcox said: "I do not advocate retaliation in this matter because there is no doubt but what it can be settled in a peaceful way; but feeling that I would advise that the statute on the Canadian side, which gives us the right to tax aliens, who are not living in this country, but in the United States and who are working in Canada, be placed in force."

The policy of President Wilson in enforcing the income tax on workers is to make up the deficit caused by new tariff regulations, and, to my mind, it is discriminating against the Canadian working people. "The United States has the best of the bargain if they allow aliens to work in their country without imposing this taxation, because the influx of skilled labor from the old lands has helped the manufacturers to a large extent, especially the automobile manufacturing district and I cannot allow this decision of the American government to tax Canadian citizens without protest."

Friday Afternoon. 88,000 Thousand Islander leaves at 2.15 p.m. for complete tour of the Thousand Islands. Fare, 50c.

BEING PREPARED BY THE MINISTER OF JUSTICE.

Prisoners' Families to be Aided From Money Earned in Prison—A Number of Reforms Being Formulated.

Ottawa, June 30.—Legislation providing for the reform of the penitentiary system in Canada will be introduced next session by the minister of justice if the study which he is now giving to the question can be completed before parliament reassembles. This legislation will probably affect all penitentiaries in Canada both as regards the system of discipline and the employment of prisoners, the classification of convicts, and the treatment of the criminal insane.

It is hoped that some system will be found under which convicts undergoing sentence in the penitentiary can be employed and their earnings applied in part to the maintenance of those dependent upon them.

In the adoption of such a system care would be taken to provide against any unequal competition with industries affording employment to free labor. In England, it is understood, a method has been devised whereby certain commodities used in the government service are manufactured by prison labor. It is thought that this plan might be adopted to conditions in Canada. It is not the view of the minister of justice to alter the penal system as to provide the desirable resorts for the criminal classes, but while instituting humane reforms to keep always in view the fact that prisoners are incarcerated for punishment as well as reform.

No genuine plan has been worked out as yet, but the minister of justice hopes to give the subject sufficient attention during recess to enable him to lay before parliament a concrete proposition.

Under the present system there is little or no classification of prisoners having regard either to the gravity of their offences or their age or the number of their convictions. This is one aspect of the question which will be given exhaustive consideration, as it is considered that it affords an opportunity for very desirable and useful reform.

Attention will also be given to the question of caring for the criminal insane in separate institutions, where they can be given separate treatment by specially qualified officials. Under the present system the criminal insane are housed in the penitentiary proper, and are under the control of the same prison staff as have charge of the sane convicts. Some of the reforms indicated were dealt with in the report of the commission appointed by the minister of justice last summer, and which was laid before parliament at the recent session. The minister of justice will supplement the investigation of this commission by personal consideration and study of the problem. Last summer he visited all the penitentiaries in the west and east and has acquainted himself with existing conditions.

LETTERS TO THE EDITOR. Safety at Sea. Kingston, July 2.—(To the Editor): Since the terrible tragedy on the St. Lawrence, I have heard two valuable suggestions made for the protection of the travelling public, which I think deserve to be made widely known. The first is that all vessels should be provided with stuffed hempen "nosebags" over the bows. This would not prevent collisions, but it would so relieve and lighten the blow that it would be hardly possible for a boat to be cut down to the water line. This suggestion was first made I believe by a captain in the columns of the London "Times." The second suggestion, (which has no particular connection with the Empress case, in which, so far as I am aware, there is no suggestion that any officer had taken alcoholic liquor) is that no officer should be permitted, under severe penalties, to take liquor whilst on board ship. This may seem rather hard, but it has been shown over and over again that vessels have been lost from this cause, and the prohibition would at least make passengers feel more comfortable. I myself have frequently seen officers being treated by thoughtless passengers immediately before sailing, and the captain of a large passenger steamer once told me that he had knocked off liquor entirely because though never "drunk" he observed that after a glass of whiskey he would take risks which he would not otherwise have ventured to take. I cross the ocean every year, and am confident such measures as I have indicated would save thousands of valuable lives.—VOYAGEUR.

Visiting in Kingston. Rev. Frederick Stubbs, F.R.G.S., is the guest of Prof. Jordan. He is travelling through Canada, and is greatly charmed with its general appearance. He has been an extensive traveller as a correspondent of Australian newspapers. During the early part of the year he was visiting the Panama canal and the West Indies, and came to Canada by way of New York. He leaves to-night for Toronto.

Shingles Caught Fire. Sparks from a chimney set fire to shingles on the roof of a summer kitchen at the home of J. M. Martin, on Nelson street, near Mack at 12.30 o'clock, (noon) on Wednesday. The damage will amount to about \$25.

Thousand Island Excursion. To Thousand Islands, calling at all principal ports, Friday at 2.15 p.m. Fare, 50c.

Inland Revenue Collections. Inland revenue collections for June: Spirits, \$5,883.26; malt, \$539.28; tobacco and cigars, \$1,398.24; vinegar, \$273.61; other receipts, \$56; total, \$8,150.43.

Disagreement With Queen Mother Over Rose Day Receipts, Says Despatch.—Not at all Pleased.

London, July 2.—Queen Mary and Queen Alexandra are at odds over the finances of Alexandra Day, when society women, selling roses in the streets collected \$100,000. Queen Mary stipulated that the accounts should be audited, and a committee, with Queen Alexandra's consent, appointed one of their number to do so. Queen Mary now wishes the accounts to be audited by the king's solicitor, to which the queen mother objects.

If Queen Mary does not get her way, she will not allow her name to be connected with "Rose Day" in the future. It is said that 50 per cent. of the receipts were swallowed up in expenses.

FLY IN OINTMENT. Windsor, Ont., July 2.—The following telegram was forwarded to Sir James Whitney by supporters of Mr. Fleming: "Heartiest congratulations on your strange conduct towards the liberal-conservatives of Windsor, Sandwich and Walkerville and their nominees, O. E. Fleming. As result thereof we have the pleasure of reporting the loss of the new riding of Windsor and North and South Essex."

IN MARINE CIRCLES. Movements of Vessels Around the Harbor. The steamer Sowards arrived from Charlotte with coal for Rockwood hospital.

QUEEN MARY WANTS THE ACCOUNTS AUDITED.

IN MARINE CIRCLES. Movements of Vessels Around the Harbor. The steamer Sowards arrived from Charlotte with coal for Rockwood hospital.

The steamer Sowards arrived from Charlotte with coal for Rockwood hospital. The steamer Mississippi was up from Gananoque, to-day.

The schooner Abbie L. Andrews and J. B. Kitchen are in port, from Oswego, and are discharging coal at Crawford's wharf.

The steamer Phelps and barge Aecia cleared from Davis' dry dock on Oswego.

M.T. Co's elevator: Tug Bartlett will arrive to-night, from Port Colborne, with barges Umpqua and Selkirk, grain laden. Bartlett will clear for Montreal, with three grain barges; steamer Westmount passed down to Montreal; steamer Kimmout passed up, light on her way from Montreal to Port Williams; steamer Fairmount will pass down to-night, with grain from Fort William to Montreal; tug Emerson cleared for Montreal, with two coal and one grain barge.

The steamer Lotic passed down to Montreal from the Welland canal at 3 a.m., Thursday.

The steamer Northilda passed down at 3 a.m., Thursday, to Montreal from the Welland canal.

The steamer Kenora passed down to Montreal, at 7 a.m., Thursday, from the Welland canal.

The steamer Rosedale passed down to Montreal, at 2 p.m. Wednesday, from the Welland canal.

The steamers Natronco and Dupelin are expected to pass down, Thursday. The steamer J. H. Plummer is expected to pass up Thursday.

The steamers North King and Kingston passed down and up, Wednesday. The steamers Caspian and Toronto passed down Thursday morning.

The steamer Syracuse passed down and up, Tuesday night.

The steamer City of Ottawa passed up to Hamilton, from Montreal, Thursday morning, and the steamer City of Hamilton passed down to Montreal, from Toronto, Thursday morning.

Capt. Baxter, of the steamer City of Hamilton, missed the steamer Thursday morning, when she cleared from Swift's wharf. The boat was taken out by the pilot, Capt. Sorel.

A CELEBRATION HELD THERE ON DOMINION DAY.

Victoria Baseball Team, of Kingston, Was Defeated—Result of Horse Races—Dargavel's Majority Was 494.

Gananoque, July 2.—Gananoque celebrated Dominion day, yesterday, in fine style. The day broke with every indication of ideal weather. This continued until about 4.30 p.m., when a shower came up and dispersed a large portion of the crowd from the Driving Park. The rain, however, came sufficiently late to not spoil any of the events, or the success of the day's celebration. There was a huge crowd here to enjoy the day, Kingston, as usual, turning out a goodly number, and the surrounding rural districts turning out in mass.

The Citizens' band furnished a fine programme of selections both on the street and at the Driving Park. The crowd at the park during the afternoon was the largest known for many years. This in itself guaranteed the success of the celebration from a financial standpoint, and is a pleasing feature, as the proceeds of these celebrations is to be used in paying for the Driving Park, recently purchased by the town.

During the forenoon the Victoria baseball team, of the Kingston City League, lined up with the Gananoques to break the tie, each team having one win to its credit here this season. The game was a good one and was fought hard, there being many fine plays. The result was: Gananoques, 8; Victorias, 5.

At 1.30 o'clock headed by the Citizens' band, the crowd repaired to the Driving Park, where an excellent sport was provided. The horse races were watched with interest, the following being the results in the different classes:

2.30 class (half mile heats)—Spier, Oicatt, E. Tracey, Ottawa, 1, 2, 1, 1; Brad McKeeney, F. Suddary, Gananoque, 2, 1, 2, 2; Silver Jack, H. Aetion, Gananoque, 3, 4, 3, 4; Dominion Boy, J. Gammon, Ottawa, 4, 3, 4, 1. Time, 1.07, 1.08, 1.09, 1.10.

2.30 class (mile heats)—The Pointer, 1, Gammon, Ottawa, 2, 1, 1, 1; Dick Bison, F. Tracey, Ottawa, 2, 2, 2; Miringo, P. L. Church, Gananoque, 1, 3, 3. Time, 2.25, 2.24, 2.24.

A vaudeville troupe, "Nemo and Nemo," entertained the gathering before the grand stand throughout the afternoon, the "Mutt and Jeff" act bringing rounds of applause.

For the races there were the officials: Starter, John Webster, M.P.; Brockville; time-keeper, F. Whitney, Kingston; judges, Dr. Bell, Kingston; R. Johnson, Gananoque; H. S. Campbell, Gananoque.

Wolfe Island and Lyndhurst played a seven-innings game of ball at the Driving Park, resulting in a win for the islanders by a score of 9 to 5. The Gananoques were billed to trim the winners, but the rain descended after two innings and stopped the game.

From financial and every other respect this was the best yet. The day passed off without any serious mishap so far as known:

Two motorcycle races were also pulled off and watched with much interest by the crowd.

1st race, ten miles—A. Lamore, C. Croft, G. Lamore.

2nd race, fifty miles—C. Croft, A. Lamore, G. Lamore.

The ladies of St. John's church guild held a successful and largely patronized excursion to Alexandria Bay on the Thousand Islander on Tuesday evening.

Miss M. M. Carpenter, Charles street, of the staff of the local public schools, and Miss Eleanor Bleakney, left Monday, for Moncton, N.B., where the latter joins her sister, Miss Beatrice Bleakney. Miss Carpenter will also visit various points of interest in the maritime provinces.

Mrs. William Ward and children, of Montreal, arrived here this week to spend the summer with relatives. Miss Susie McKellar, Montreal, spent the holiday here with her parents, Mr. and Mrs. James McKellar, Garden street.

Gananoque Yacht Club held a dance at its club house last evening, 5.

THE HEAVY EXPENSES GANANOQUE'S BIG DAY

WILL NOT PAY TO UNCLE SAM WITHOUT A PROTEST.

Oliver J. Wilcox, M.P., for North Essex, which includes Windsor, Walkerville and Sandwich, has laid complaint before Premier Borden.

The British ambassador at Washington will be instructed to take the matter up with President Wilson at once. Mr. Wilcox says there are over 2,000 residents of Windsor, Walkerville and Sandwich affected by the decision. In an interview by long distance telephone, Mr. Wilcox said: "I do not advocate retaliation in this matter because there is no doubt but what it can be settled in a peaceful way; but feeling that I would advise that the statute on the Canadian side, which gives us the right to tax aliens, who are not living in this country, but in the United States and who are working in Canada, be placed in force."

The policy of President Wilson in enforcing the income tax on workers is to make up the deficit caused by new tariff regulations, and, to my mind, it is discriminating against the Canadian working people. "The United States has the best of the bargain if they allow aliens to work in their country without imposing this taxation, because the influx of skilled labor from the old lands has helped the manufacturers to a large extent, especially the automobile manufacturing district and I cannot allow this decision of the American government to tax Canadian citizens without protest."

CASTORIA For Infants and Children. The Kind You Have Always Bought. Bears the Signature of J. C. Watson. The plainer the woman the more she moralizes. Why do you suppose, does a certain successful manufacturer of a summer beverage continue to advertise that beverage in the winter-time? He is, simply, a thorough believer in the old adage: "Out-of-sight, out-of-mind." He does not advertise in the winter, with any expectation of selling much of his product while the weather is cold—but with a view of keeping up his sales the following summer. Pronounced as is the impression his advertising creates in the summer, he does not believe in expecting that impression to "carry over" the winter months. The public has not a long memory. The manufacturers who want lasting patronage for their product must indeed "keep everlastingly at it." How surprising that some of them lose sight of this fact. Experience has shown this maker of beverages that it is unwise to discontinue his advertising in the winter. It would be just as unwise for the makers of shoes, or hats, or stoves, or chocolates, or automobiles, to cease advertising in the summer. Yes, the "out-of-sight, out-of-mind" theory is sound, as applied to advertising. It is but human of us to favor the goods which are kept continually before us through advertising, be the weather cold or hot. You can obtain helpful advice on advertising free of cost and without obligation by consulting the Business Department of The British Whig.
