FIRE LIMITS EXTENDED

ON THE RECOMMENDATION OF THE FIRE CHIEF

Board of Works Will be Asked to Supply Hose for Flashing Services—Matter Taken up by Fire and Light Committee.

The much-discussed question of supplying the Board of Works with hose for flushing out the sewers came before the members of the Fire and Light Committee again, on Thursday afternoon, and on motion of Ald. Stroud it was decided that no hose belonging to the fire department should be loaned to the Board of Works for this work, after August 1st.

The matter has been threshed out in committees for several years, and this year's committee feel that it is time they put their foot down as it were. The records go to show that so far this year the Board of Works has had the use of hose eight times, totalling 4,300 feet. In fact at times hose has been used more by this department than the fire department.

Ald. Sutherland, the chairman, presided at the meeting, and the other members in attendance were Ald. Clugston, Ald. Stroud, Ald. Nickle and Chief Armstrong.

The report submitted by Chief Armstrong showed that the loss by fire, to building and contents, within the city, for the past six months has been \$21,679.05. Four fires, which were confined to the buildings in which they started caused a loss of \$17,000. The loss for the first six months of 1913 was \$24,424.75.

The chief reported having received and granted an application from Fireman H. Graham, for leave of absence, he furnishing and paying a substitute during his absence.

Extension of Fire Limits

Chief Armstrong drew the attention of the committee to the need of the extension of the fire limits A. and C. and the following changes be recommended in the boundaries of these limits were adopted:

Fire Limit A.—Fire Limit A shall be as follows: Commencing at the water's edge on the centre line of Emily street, thence northwesterly along the centre line of King street, then southerly along the centre line of King street to the centre line of Beverly street, then northerly along the centre line of Beverly street to the centre line of Union street, westerly along the centre line of Union street to the centre line of Colborne street, easterly along the centre line of Colborne street to the centre line of Sydenham street northerly along the centre line of Sydenham street to the centre line of Bay street and then along the centre line of Bay street to the water's edge of the harbor and along the waters of the harbor to the place of beginning.

Commencing at the intersection of the centre line of King and Beverly streets then northerly along the centre line of Beverly street to the centre line of Union street, westerly along the centre line of Union street to the centre line of Colborne street, easterly along the centre line of Colborne street to the centre line of Sydenham street northerly along the centre line of Sydenham street to the centre line of Bay street and then along the centre line of Bay street to the water's edge of the harbor and along the waters of the harbor to the place of beginning.

Commencing at the intersection of the centre line of King and Beverly streets then northerly along the centre line of Beverly street to the centre line of Union street, westerly along the centre line of Union street to the centre line of Colborne street, easterly along the centre line of Colborne street to the centre line of Sydenham street northerly along the centre line of Sydenham street to the centre line of Bay street and then along the centre line of Bay street to the water's edge of the harbor and along the waters of the harbor to the place of beginning, together with the water lots of the harbor lying east and south of the city between the centre line of Beverly street and a point one hundred feet north of the northerly line of Stephen street to the water's edge.

Commencing where the centre line of Ellerbeck avenue intersects the centre line of King street, thence northerly along the centre line of Ellerbeck avenue to the centre line of Union street, thence westerly along the centre line of Union street to the westerly city limit, thence southerly along the said city limit to the water's edge of the harbor, thence along the water's edge of the harbor to the centre line of Beverly street, thence northerly along the centre line of Beverly street to the centre line of King street, westerly along the centre line of King street to the place of beginning, excepting out of the said area that portion of the city and water lots embraced within the boundaries of fire limits A and B.

Other Business.

The committee also adopted the following recommendation of the fire chief:

That the provision of the by-law requiring that shingles shall be laid in mortar or have asbestos paper underneath, and which only applies to the fire limits, shall be made to apply to all parts of the city, and that where a number of dwellings or buildings used for other purposes are under one roof, that at least every second partition wall shall be carried up to the roof so as to form a fire stop in the attic. There are a number of buildings within the city, where if a fire occurred and reached to the attic, it would have every possible chance to spread from one end of the row to the other.

The chief drew the attention of the committee to the Factory, Shop and Office Building Act, defining the meaning of "shop," as regards the act, and sections re storage of oils and combustibles. This act seems to conflict with the by-laws of the city, in regards to these matters, and the chief factory inspector for the provinces states that the act

takes precedence of any civil by-law.

There are seven places in the city where dynamite is kept for sale in greater quantities than one pound weight, and in each case it is kept in the original packing case, near to the street door, and in most places gunpowder and blasting powder is kept in a wooden box metal lined and metal covered on the outside.

"I have been unable to find any permit having been approved by your committee or issued by the city engineer as required by by-law 21, sections 17 and 18," said the chief. "I have not been able to secure a complete list of places where oils etc., are kept for sale, but as far as I have inspected, I have found the by-law complied with, except in one place, where a larger quantity than permitted of turpentine, has been stored.

The chairman, fire chief and the city engineer were instructed to consider the revision of by-law No. 21 and report back to the committee.

An invitation was received by Chief Armstrong to attend the forty-second annual meeting of the International Association of Fire Engineers to be held in the fall at New Orleans. The chief asked that the committee make provision for his attendance at this convention.

On motion of Ald. Nickle the committee decided to recommend council to defray the expenses incurred by the attendance of the chief at this gathering.

THE TOWN OF GANANOQUE.

Former Gananoque Resident Married in Collingwood.

Gananoque, July 3.—On Monday last, at Collingwood, Miss Edna May Latimer, daughter of Mr. and Mrs. Frank Latimer, of this town, was united in marriage to Cleve Walton, of Collingwood. Rev. Father O'Leary officiated. Mr. and Mrs. Walton left at once for Gananoque and are spending part of the honeymoon here with Mrs. Walton's parents.

The steamer Thousand Islands brought in quite a large excursion party from Clayton last evening, giving them about an hour here.

The Willing Circle of King's Daughters celebrated their annual Tag Day on Wednesday and added over \$200 to their endowment.

Miss Rebecca Richards, art and commercial specialist, of Gananoque high school, has purchased the old home- stead of the Jones family on King street west and will take possession at once.

Ralph B. Britton, the Gananoque canoe club's challenger for the International canoe racing cup, held up by Leo Friede, of the New York canoe club, left this week for Boston, where he will compete in the inter-city championship event, July 3rd, 4th, and if necessary for a decision on the 6th.

C. A. Pugh, tree surgery expert, has been in town for some time past fixing up the trees and grove at the Macdonald model farm, seriously injured by the big sleet storm of 1913.

Rev. and Mrs. Melvin Taylor have gone to Wellington for a two weeks' visit with their son, Garnet Taylor. Mr. and Mrs. George Pergau and their daughters, the Misses Marie, Georgia and Helen, spent a short time this week with Mrs. Pergau's sister, Mrs. J. K. Lattimore. Robert Tennant, of Lyn, was in town over the holiday, the guest of relatives.

Mr. and Mrs. Frank H. Hurd and daughters, the Misses Doris and Margery, spent the holidays here guests of the former's mother, Mrs. E. H. Hurd. Mr. Hurd left home this morning, Mrs. Hurd and family are remaining for a further visit. Russell Orser is visiting with relatives in Lyn for a short time.

John Linklater, Brandon, Man., who had been located in the west for the past eight years, is in town for a short visit with his parents, Mr. and Mrs. J. C. Linklater.

Miss Freda Sanbury has passed with honors the examination in primary theory in connection with the Toronto Conservatory of Music.

REMAINED FOR SENTENCE.

Henry Miller Pleaded Guilty to Passing Bogus Cheque.

Henry Miller, the young man arrested a few days ago at Brockville after passing a worthless cheque, was brought before Judge McDonnell on Thursday. He elected to be tried summarily by the judge and pleaded guilty. A remand until Monday was made for sentence. Miller is believed to be the young fellow who played a similar game in Kingston last week.

Grate of magnesia in 25c. bottles at Gibson's Red Cross Drug Store.

A pretty wedding was celebrated at Athens on June 24th, when Rev. W. G. Swayne, united in the holy bonds of matrimony, Miss Melissa Weir, Havelock.

The quality of White Rose flour never varies. Who "also ran" says there is nothing quite so uncertain as a sure thing.

It isn't always wise to judge a woman by the kind of hero she worships.

"Sesiditz" powders in tin boxes at Gibson's Red Cross Drug Store.

Women are employed as spies in the German war department.

To Ward Off Summer Complexion Ulcers

To keep the face smooth, white and beautiful, it is necessary to keep the skin quite so good as ordinary mercurialized wax. Oil, freckled or discolored skin, is common at this season, is gently absorbed by the wax and replaced by the newer, fresher skin beneath. The face exhibits no traces of the wax, the latter being applied at bedtime and washed off mornings. Creams, powders and rouges, on the other hand, are apt to appear more conspicuous than usual these days of excessive perspiration. Just get an ounce of mercurialized wax in a week or so, the complexion will look remarkably youthful and healthy. Sunburns and itching, burning, stinging, cause squinting and other contortions which make wrinkles. You can quickly both made by dissolving 1 oz. powdered sesiditz in 1-2 pt. witch hazel. Get rid of every wrinkle, however produced, by using a harmless face

SAYS BECK MUST GO

STORIES RIFE IN PARTY CIRCLES OF SHAKE-UP.

Hanna as Premier—If Suggested That Sir Adam May Become Minister of Railways.

Toronto, July 3.—Gossip has it in conservative quarters that Beck must go. Despite the popularity of the Hydro-Electric policy, despite the popularity of its instigator, Sir Adam Beck, of London—the "minister of power"—must leave the Whitney cabinet and leave office to Mr. Hanna the membership now held by Sir James Whitney. Just how Mr. Beck is to be got rid of is not decided. It may be that the federal portfolio of the minister of railways will be offered to him. Hon. Frank Cochrane, it is reported, would not be averse to surrendering the load of that onerous department. But however that may be, inside conservatives say Beck must be got rid of, that he was disloyal to the party in the last election, and that he tried to force Sir James Whitney's hand previous to that election to get an appointment as minister of claim to the premiership, as against the claim of Hon. J. W. Hanna.

Sir James, however, is on Mr. Hanna's side in that controversy. It is said, and though he succeeded in reconcoiling Mr. Beck to appear on his platform at the next session, he did not succeed in getting him to accept any seat on any platform on which Mr. Hanna appeared. Mr. Beck, it is stated, was the man who unseated W. K. McNaught in favor of Mark Irish in North-East Toronto, owing to the Hydro-Electric dispute as to rate reduction in Toronto.

Just when the situation will be changed up depends on the attitude of the new conservative members elected to the legislature. It is said that Mr. Hanna wants the premiership successively settled before the opening of next session.

It is thought that all these new members are strong Whitney men, and being Whitney men will be Hanna men. As soon as their opinions on the situation have been secured, further developments are expected. If Sir James steps out as a candidate, there will be a general reorganization of the Ontario cabinet, with Mr. Hanna at the head and Mr. Beck not in evidence at all—so at least are the rumors emanating from the Albany Club and such places where influential conservatives are wont to congregate.

FATHER LOSES CHILDREN.

Court Refuses to Restore Them From Children's Aid.

Toronto, July 3.—Justice Middleton has refused to interfere with the order of the magistrate at Belleville, making the children of Jonathan Elliott a farmer, of Thurlow township, Hastings, wards of the Children's Aid society.

He says: "Having regard to the welfare of the children, I am satisfied that they will be better cared for as wards of the society than they ever have been by the father."

The Apple Crop.

The season for apples, according to present indications, will be a very satisfactory one. There are certain sections, of course, where, on account of local conditions, the crop has been reduced, but these are, in the main, only small in area. In Nova Scotia, where earlier indications pointed to a record crop, the latter reports are very pessimistic and state that a great many of the orchards in the Annapolis Valley have been completely ruined. It is perhaps safe to assume, however, that these reports are somewhat exaggerated, and that while the injury is undoubtedly severe, yet it is not so great as was at first expected. It is probably true that the earlier varieties will be short, and that orchards on lowlands have been injured, but the timing of the injury has been general throughout the entire Annapolis Valley, or that all varieties have been affected, is very doubtful.

In Ontario, too, there are certain isolated sections where the ravages of tent caterpillar have reduced the crop, but in all orchards where thorough spraying has been done, and where the owners have given orchards, careful attention, the yield will be a very satisfactory one.

Pigion Reports.

Pigion, July 1.—The late rains have improved the grain and hay crop. Strawberries are plentiful and of a good variety. Some from this locality have gone to the races in Napoleon. The picnic is to be held at the Outlook on Thursday. William McCaw has returned home, after writing on his examination. Miss Grace Hellerty, Dakota, is visiting relatives in Pigion. Mrs. Q. Vangerson is spending some time the guest of her daughter, Mrs. Edna McCaw, Glen Brook. Ray Spicer spent Sunday at home. Miss Annie Collier visited at Walter Collier's last week.

Peculiar Double Accident.

Cobourg, July 3.—A peculiar accident happened to two residents of East Northumberland, who had resided near Castleton, but were moving to Cordova. They are Mr. and Mrs. Dean McGregor. When going up a hill the horses became frightened and backed the vehicle loaded with furniture over an embankment. Mrs. McGregor had her leg broken. She was conveyed to a nearby residence. Returning to reload the furniture, McGregor had his leg broken by the wagon falling on him.

Seeks to Save King's Life.

Boston, Mass., July 3.—To save the life of King George is the mission of William H. Smith, a leading Boston psychic, who has just sailed for England. He had a strange vision, he said, just before sailing, of the death of King George. It reappeared to him three times, and was so vivid that he determined to warn his majesty personally.

Trips to Cost \$80,000.

Paris, July 3.—The French cabinet requested parliament to appropriate \$80,000 to cover the expenses of President Poincaré's visit to Russia, Sweden, Norway and Denmark at the end of this month.

CHILD SUFFOCATED.

Baby Tumbles Into Open Manhole, and Loses Its Life.

Pottsville, Pa., July 3.—Stella Wagnick, a two-year-old girl, who wandered from home was found dead at Schuylkill Haven by state police, in a manhole leading to a pipe line. It is evident that she had a fate similar to that of Warren McCarrick of Philadelphia.

The manhole had a lid which was carefully kept closed except when in use. So assured were the authorities that this was the case that the spot was almost the last investigated; but when a policeman descended into the pit the little girl's body was found lying there. She had evidently fallen in, and in ignorance of her fate, some one had closed the hole, so that she soon suffocated.

Stella was under the care of the county at the Schuylkill county home. Her father is in jail, and had she lived she would have been sent to Philadelphia, where a well-to-do citizen was waiting to adopt her.

LAURIER QUITS SOULANGES.

WHI Not be Candidate Again—New One Chosen.

Montreal, July 3.—At a convention at Vaudegoull, Gustave Boyer, M. P., was chosen as liberal candidate for the united counties of Soulanges and Vaudegoull at the next general election. A telegram read from Sir Wilfrid Laurier, who now represents Soulanges as well as Quebec east, in which he stated that he would not be a candidate for the constituency at the next election.

Ballad of the Yielded Kiss.

Edith Allen Murphy in Smart Set Between the rose of sunset
And the silver of the moon.
When the gleam was on the grasses
And the dew was on my shoon,
I met my love a-tysting,
And he craved at me a boon.
I doubt me now, oh, lassies,
If 'twas right to yield so soon.
But I yielded and I kissed him—
And ever since I've missed him,
Between the rose of sunset
And the silver of the moon.

I met my love a-tysting
(Ah, my love beyond compare!)
When the gleam was on the grasses
And the glow was on his hair,
And I could not then deny him
With his tender, pleading air,
Now no more at eve he passes
Through the sunset light so fair—
And I would I had not met him,
For I cannot now forget him,
And still my heart goes trysting,
For my love beyond compare.

Convicted of Killing Horses.

Sandusky, O., July 3.—Herman King, 67, a farmer living in Sandusky county, near Helena, was found guilty of killing horses by a jury here.

According to the prosecution King, who was connected with a concern manufacturing fertilizer near Fremont, caused the death of 27 horses by piercing their lungs with a long steel needle, later buying the carcasses for 50 cents to \$1 apiece.

The case was brought to Erie county from Sandusky county on a charge of venom obtained by King, who contended he could not get a fair trial in Sandusky county.

Liquor in Chocolates Under Ban.

Berlin, July 3.—Chocolate candy "drunks" to-day went under the official ban of the Berlin police and several arrests were made of confectioners selling to children candies which contained liberal doses of intoxicants. Her Von Jagow, president of the Berlin police, personally started the crusade when he found that the consumption of whiskey hidden in chocolate coated confections was rapidly becoming a menace to the health of school children and was giving their mothers an easy way of satisfying a craving for alcohol loaded sweets.

Sulman's Majority 18.

Chatham, Ont., July 3.—Sheriff Gemmill, the returning officer for West Kent, made his official count declaring George W. Sulman elected over R. L. Brackin in the recent provincial election by a majority of eighteen votes. It is likely that a re-count will be demanded. There were thirty-two rejected ballots.

Milinery Reduced.
