

THREATENING OUTLOOK IN ULSTER ONCE AGAIN

Outbreak Feared On Friday In Belfast When Carson Arrives

NATIONALIST VOLUNTEERS ARE GREATLY INCREASING.

Gun-Running Vessel Lands Ammunition Under the Noses of Warships—Feeling of Resentment Against the House of Lords.

London, July 7.—Despite assurances that the House of Lords merely carried the second reading of the Home Rule bill to give an opportunity for drastic amendments, word comes from Ulster this morning that Ulsterites are in a threatening mood, and fears are expressed that Carson's return to Belfast on Friday will be the signal for an outbreak.

A sensational story was published here to-day that under the very noses of seven of his majesty's warships of the destroyer class, a gun-running vessel named Belle slipped through last night and landed many thousands of rounds of modern ammunition on benches and rocks at various points. Admiralty officials here decline to commit themselves regarding this rumor.

There is a feeling of deep resentment against the House of Lords whom Ulster regarded as its protector. The word "traitor" is being freely used in north and west Ireland to-day in regard to the lords' action.

National Volunteers Increase.
Belfast, Ireland, July 7.—The national volunteers are growing amazingly. Their present strength is estimated at 153,500, or an increase of 261 centres and nearly 40,000 men since June 10th. County Mayo has five thousand ex-soldiers drilling, and county Roscommon two thousand more trained and ready to march into Mayo at brief notice. People are waiting in queues before various Dublin shops to secure admission for ordering national volunteer uniforms.

WAR ON FAKE BANKRUPTS.
District Attorneys Declare Revelations Are Astonishing.

Chicago, July 7.—The war on fake bankruptcies by the United States district attorneys in Chicago is causing some revelations that call for more war, some of it going back into every suspicious bankruptcy case that has been in the federal courts in the last three years.

"We are going to go back as far as the statute of limitation allows," said district attorney Wilkeson. "Concentrated and aggressive action will be made and the co-operation of all reputable lawyers is sought. Agents of the department of justice will investigate every report made before a referee in bankruptcy. Something must be done to purify the bankruptcy situation in the federal courts."

Judge Landis has taken a hand in the matter. The revelations recently made by credit men for big concerns of the frauds from which they suffer from debtors who go into bankruptcy courts are said to be sensational. The National Association of Credit Men has been pointing out the cost to the public from the losses in bad debts, the thrifty being taxed for the benefit of the debtors. The secretary and treasurer of the National Association of Credit Men, T. H. Trezoe, of New York, says: "Notwithstanding the commercial morality of the people of this country its bad debts waste amounts to more than \$200,000,000 annually; this loss taxes every man, woman and child in the land and it means an increase in the cost of living to every consumer. The purchasing power of the country is affected; the whole world is affected and the whole world is responsible."

Will be Liberal Candidate.
London, July 7.—Rev. Douglas MacFayen, son of Dr. MacFayen, a former president of the Congregational Union, has been adopted as the liberal candidate in West Somerset.

Mabel to Julia
Dear Julia:
I heard you speak at the club last week, and I enjoyed the little talk more than I can tell you.
Next time you have anything to say about household efficiency, I want you to take up the question of advertising.
Does every woman understand what an important part the reading of newspaper ads plays in her scheme of home economy? If I hadn't been a persistent ad reader from the start, I wouldn't have such a happy, cozy home to-day—neither would you.
Ever,
Mabel.

RITCHIE AND WELCH FIGHTING IN LONDON

Both Are Confident Of Victory For Lightweight Championship Of World

London, July 7.—The fight for the lightweight championship of the world between "Willie" Ritchie, the present champion, and "Freddie" Welch, British title holder, takes place about five o'clock this afternoon, Canadian time. Ritchie says: "I am not worrying about Welch's twenty-two successive victories in the past fifteen months. He beat me two years ago when I was the youngster but I have improved and expect to win."

Welch says: "My hope of victory is not based on the fact that I once beat Ritchie, but on my long ring experience and punching power. I haven't gone back any, Eugene Corrin is referee."

CAPTURES 5,634,000 FLIES.
St. Louis Health Department Makes Monthly Report.

St. Louis, July 7.—Fifty-seven gallons of flies have been captured this month by the St. Louis health department in twenty-four traps set in different parts of the city. A "bin" of flies was counted amounting this month to a total of 5,634,000 flies were captured.

"This catch shows how easy it would be to kill every fly in St. Louis if every citizen put a fly trap in his garbage can," said Acting Health Commissioner Jordan.

The flies captured included the small green species which carries infantile paralysis germs from "limber-neck" chickens, and the species that carries tuberculosis and typhoid germs.

FOR GOVERNMENT SERVICE.

Students Trained to Act as Trade Commissioners.

Ottawa, July 7.—Canada's commissioner service is to be recruited from the universities, according to a plan now being formed by Sir George Foster, minister of trade and commerce.

In addition to the knowledge of Canadian trade conditions and development which they will acquire at the universities, they will be given practical training in connection with the actual work of the department of trade and commerce. They will thus be equipped with a thorough working knowledge of the trade of the dominion, both import and export, and will be kept in touch with the operations of the various Canadian trade agencies in all parts of the world, as well as with the British consular service, which becomes available for the use of Canadian import and export houses under an arrangement made by Sir George Foster with Sir Edward Grey in 1912.

FEWER INCORPORATIONS

One Effect of Financial Stringency in Canada.

Ottawa, July 7.—The financial stringency is having a marked effect upon the incorporation of companies in Canada.

In the last fiscal year there was a decrease of 181 in the number of incorporations and of \$91,922 in the departmental revenue from that source. There was, however, a healthy business in company development. During the fiscal year the number of companies were chartered, with an aggregate capitalization of \$125,207,569. The revenue from this source was \$12,721.

In the previous year 939 new companies were chartered, with an aggregate capital of \$690,762,999, and the revenue was \$304,652.

WILL NOT YIELD SEAT.

Calls Story of Resigning for Minister Ridiculous.

Toronto, July 7.—Howard G. Ferguson, M. P. for Grenville, was asked over the telephone today if he would yield up his riding for the Hon. Dr. Reame, minister of public works, who was defeated at Windsor.

Mr. Ferguson said: "I never heard of the proposition until I was called up by Ottawa this morning, when they told me a Toronto despatch asserted that I would hand over my riding to Dr. Reame. The story is absolutely ridiculous on the face of it."

Martin Objects to English.

Montreal, July 7.—Mederic Martin, mayor of Montreal, who broke the unwritten law governing the election of mayors of this city, by running for office when it was the turn of an English-speaking candidate, declared war on all such nominees.

He said because all the English papers had tried to put him on the street, never again would he allow an English-speaking candidate to be elected mayor of Montreal without a contest and protest that if he was not in Montreal when the election came on he would return and enter the fight.

ACTION TO BE TAKEN TO DEPORT HINDUS

Who Will Be Separated into Batches and Placed on Different Ships

Ottawa, July 7.—There is considerable gratification felt in government circles here at the finding of the British Columbia courts upholding the order in council by which the Hindus on Komagata Maru are refused to enter Canada.

Action will now be taken at once to have the Hindus deported whence they came. It is feared that the government will have to bear part at least of the cost of deportation, which will probably be effected by separating the Hindus into batches and taking them away on various ships.

JOHNSON SIGNS CARPENTER.

Heavyweight Champion Agrees to Meet French Idol.

MONTEAL MEN INVOLVED

On Diamond Smuggling—Indicted in New York.

New York, July 7.—Herbert J. Dietz and his son Charles, diamond dealers at 87 Nassau street indicted yesterday afternoon by a Federal grand jury, charged with complicity in a diamond smuggling plot which, it is alleged, succeeded for some time in bringing across the Canadian border from \$25,000 to \$50,000 worth of gems a month.

Several concerns here and in Canada are involved, and the investigations by Collector Malone, Chief Flynn, of the Secret Service, and United States Attorney Roger B. Wood, have traced \$700,000 worth of smuggled diamonds. On these the government has lost \$40,000 duty. The collector believes that further investigations will show that smugglers brought in more than \$1,000,000 worth of goods.

Some of the diamonds, it is charged, were brought from Montreal by Dietz and his son. Frank Burke, a secret service man, found that two mysterious travellers, who went to Canada and returned on night trains, were Dietz and his son, though they seldom made the trip together.

THE RUTHENIAN VOTE MAY DECIDE IN MANITOBA

It Holds The Balance Of Political Power

ROBLIN'S GOVERNMENT LIKELY TO BE COMPLETELY ROUTED ON FRIDAY

The Liberals Evince Much Hope of Winning—Roblin Very Ebullient—Poses as Sir James Whitney Did.

Winnipeg, July 7.—Judging from the reports that are coming into Winnipeg from all parts of the province, liberals here will not be surprised to see Sir Rodmond Roblin and his government next Friday put to rest completely. The conservative leader's speeches throughout the province are being criticized on all sides for their sheer bombast and failure to answer the issues and questions which have been placed before the people of Manitoba by the liberal leader, Mr. Norris, and his men. Sir Rodmond is placing himself beside Sir James Whitney on every occasion, and is referring to the latter's victory in Ontario so often that he almost assumes entire credit for Sir James's return to power.

He has evaded constantly all questions touching upon the delicate subject of schools and their relation to the Caldwell amendments, against which the Orange order throughout the province is directing organized opposition. And, in short, he dismisses all critical questions with some sort of rude rebuff, and sums up the policy of his liberal opponents with a wave of the hand and the remark that all it stands for is "Votes for women, and the sale of booze in bottles."

How About Temperance.
It remains to be seen whether or not, the temperance people of Manitoba, as represented in the membership of the churches, will respond to the exhortation of their leaders and vote against the Roblin government, regardless of previous party affiliations. The liberal chieftains here are not so sure of that element in the community since the result of the Ontario election, but they feel that the Roblin government, so notoriously associated with the hotel interests in Manitoba, will meet with a much stronger opposition from the church people in this province than did Sir James Whitney in Ontario. If, according to party alignment, the deciding factor in this election will be the foreigner. The Ruthenian vote in more than twenty constituencies can elect or defeat the liberal or conservative candidate in a straight party fight. That element practically holds the balance of political power in Manitoba.

PASS SECOND READING OF AMENDING BILL

Marquis of Crewe Challenges Opposition to Guarantee Against Civil War in Ireland

London, July 7.—The House of Lords yesterday passed by 273 to 10 the second reading of the bill to amend the Irish home rule bill.

That the House of Lords would pass the bill in order to amend it in committee was a foregone conclusion but there was surprise that only ten "die hards" could be found to vote for Lord Willoughby de Broke's motion for its rejection.

The Marquis of Crewe, in winding up the debate for the government, challenged the opposition to guarantee that there would be no civil war in Ireland, even if the bill was amended totally excluding Ulster. Concerning the possibility of a solution by conference, if dropping the amending bill and breaking down the government's policy was to be a preliminary it would be impossible for the government to accept it, but, short of entailing such a sacrifice, the government was most anxious to facilitate a conference.

For himself, he did not hesitate to say that if John Redmond, the Irish nationalist leader; Sir Edward Carson, the Ulster unionist leader; William O'Brien and two or three other Irishmen could get together it would be a better, surer for some permanent arrangement than any other kind of conference.

After division was taken notice of several amendments was handed in providing for the exclusion from home rule of the whole of Ulster.

NO APPOINTMENTS YET

By The Ontario Cabinet—Foy Is Ill—Other Appointments.

Toronto, July 7.—Though it was anticipated that this morning's meeting of the Ontario cabinet would result in appointments, either on the Board of Workmen's Compensation, the speakership, or the office of minister of public works, none of these offices were filled. The chief reason is that the illness of Hon. J. J. Foy, attorney-general, is holding back action of the cabinet. It is anticipated that owing to the frequent illnesses of Mr. Foy, he will accept a senatorship, and thus leave another vacancy in the cabinet. Just at present, Thomas McGarry, of South Renfrew, is the most popular candidate for the attorney-generalship, while Howard G. Ferguson runs the best chance of becoming minister of public works.
