

## WAR TO BE PRESSED

### PEACE BETWEEN REBEL LEADERS NOW DECLARED

#### War Against Huerta Will Be Pressed With Great Vigor—Villa to Advance on Mexico is Present Plan.

El Paso, July 8.—Within less than a week Pancho Villa will be back in the field at the head of his rebel army, advancing towards Mexico City, if nothing goes awry with plans now being worked out by the "mediators" at Ferron.

Between the claims and counter-claims of the Villa and Carranza supporters the matter sifted down to the fact that there will be peace between Carranza and Villa for the time being at least, that the war against Huerta will be pressed and that Villa will do as he pleases and Carranza will pretend to sanction it all.

In return Villa will continue to maintain his loyalty to the "supreme chief," the conference has had the effect of putting Villa closer to the Carranza Generals Obregon and Gonzalez, and their command, and is expected to bring rest in the field. Hitherto they and Villa have been unknown to each other.

The conference has brought all leaders, or their personal representatives, together and in future Villa promises to co-operate with these commanders. They promise also to co-operate with him. Where the orders are to come from the co-operation, nobody says, "in the eyes of the public they will come from Carranza and the dignity of the "supreme chief" will be maintained. Villa in return will not be interfered with.

He is to have the centre position in the march on Mexico City and when he cannot get coal from his own territory the Carranza element will supply it. He is also to get ammunition when he calls for it, but he will raise his own funds for this purpose. All his asks is permission to import it through Tampico. Villa has now and always has had his own purchasing agents.

It will really be as if two rebel governments were operating against Huerta, but to the public Carranza is to be the supreme chief and Villa is to be a subordinate.

Villa's paper money is to be retired and the issue of "constitutional" money sanctioned by Carranza will replace it, but Villa does not pledge himself to this. As the exigencies of his campaign arise Villa will issue his money as his armies advance. All that Carranza has consented to do is to allow Carranza to retire his paper with Carranza paper.

A plan was under way when the breach occurred to retire all Villa money then outstanding. The money that Carranza attempted by injunction to stop from reaching Villa at Jaxco on Friday was partly to recall the Villa money in circulation in Villa territory. Villa agents grabbed five million dollars worth of it, his friends claim, before Carranza could get the injunction.

Villa now has his own money in circulation and is holding the Carranza issue, too, but according to the peace terms, Villa will release the Carranza treasury general, whom he holds a prisoner at Chihuahua City, and then the seized money over to him, then the Villa notes will be retired as originally proposed by the Carranza crowd.

Villa has agreed to grant one concession in the present trouble, that in the dismissal of Francisco Gonzales Garza, according to the stories circulated here. Garza is the man who framed the report of the famous Benton "court martial" that first got Villa in such a bad way with the United States and Great Britain, that he had to resign as ambassador in order to get Carranza to shoulder the diplomatic negotiations. Garza has acted as Villa's legal adviser, and having been a very close friend to the late President Francisco I. Madero, is said to have represented the Madero interests in all things connected with the revolution.

## MILLINER WINS RICH MAN.

### Mary McCormack on Way to Oregon to Wed.

Sunbury, Pa., July 8.—To become the bride of a man she never saw, Miss Mary McCormack, eighteen years old, of Point township, Northumberland county, left, to-day, for a 3,000-mile trip to Portland, Ore., where she will wed John O'Donnell, a well-to-do apple grower.

More than a year ago the young woman, then employed in a Northumberland cap factory, just for fun placed her name and address under the hand of a cap. O'Donnell got it, and wrote her a letter. She did not answer it.

Persistent wooer that he was, he sent his picture next time, and Miss McCormack took up the correspondence, which resulted in a proposal, with Uncle Sam as Cupid's messenger. Miss McCormack declared to-day that she had not accepted him until he had assured her he did not drink and went to church. She was not afraid, nor was she doubtful of her future happiness, for, she said, "no man could treat a woman badly who writes letters like John does."

## MORE POWER FOR MAGISTRATE.

### Man Who Gets Liquor for One on List Can Be Put on List, Too.

There is more trouble for people who are found guilty of securing liquor for members on the "prohibited list." At least more power has been given to the magistrate in dealing with such offenders, although this additional punishment has not been meted out in Kingston as yet.

The new law gives the magistrate authority to place a person found guilty of getting liquor for another party on the list himself, and therefore this additional punishment has not been meted out in Kingston as yet.

## PRESIDENT WOODROW WILSON AT PHILADELPHIA ON INDEPENDENCE DAY.

## FAMILY OF SCHOLARS.

### Two Sons, Father, Mother, and Godfather Distinguished.

London, July 8.—K. M. Butler, son of the master of Trinity College, Cambridge, Dr. H. Montagu Butler, has added yet another to the list of his family's successes at Cambridge by gaining a first class in Part II of the history tripos, of which the result was published at Cambridge on Saturday. His younger brother, N. M. Butler, was placed in the second class.

The Butler family had already the following honors to its credit, besides numerous prizes:

Grandfather, Dr. George Butler (head master of Harrow) senior wrangler 1794.

Father, Dr. H. Montagu Butler, master of Trinity College, and formerly head master of Harrow, senior classic, 1850, ex-president of the union.

Mother, formerly Miss Agatha Ramsay, senior classic, 1887, beating all the men of her year, the only woman who has ever done so.

Son, J. R. M. Butler, one of four senior classics, 1909, Class I, Part II, history, 1910, ex-president of the union.

Son, G. K. M. Butler (Harrow and Trinity), one of seven senior classics, 1913, ex-president of the union.

## ALLIGATOR IN RACEWAY.

### Animal Stops the Bathing in the Canal.

St. Catharines, July 8.—The effort to catch M. J. Slough's big pet alligator, which escaped from the Imperial garage and took refuge in the hydrographic raceway Sunday, continues without any success. The alligator, which is four feet in length, swam against the swift current of the stream and floated down with the rush of water when tired. He has hidden himself entirely, and little hope is entertained of catching him until the water is drawn off. In the meantime the residents along the raceway are quite alarmed, and bathing in the treacherous channel, which has resulted in heavy loss of life, has stopped completely.

## MOTOR BOAT MAKES 30 MILES.

### Alexandria Bay, N. Y., July 8.

The new motor boat, Margaret II, built recently by Hutchinson Brothers for Charles S. Rees of New York was in the water Saturday for the first time. The trim little runabout made approximately thirty miles an hour. The hull of the Margaret II is of mahogany and the trimmings throughout are of the same material. The boat is equipped with a fifteen horse power Sterling engine and is one of the fastest of its type on the river. Among the others who are having new boats constructed at the Hutchinson boat works are: C. A. Terry, A. T. Hagen, John W. Butler, E. J. Chapman, Mrs. C. A. Hayden, H. Barnard, F. B. Lovejoy and Dr. Taylor.

## CHANGES IN DIOCESE.

### Bishop of Alexandria Announces Appointments.

Cornwall, July 8.—Announcement has been made that his lordship Bishop MacDonell, of Alexandria, has made the following changes in this diocese, to take effect on Sunday next: Rev. Corbet McRae, assistant priest at St. Columban's church, Cornwall; Rev. of Our Lady of Grace, Dickinson's Landing; Rev. Albert McKee, of Dickinson's Landing, to be parish priest at St. Mary's, Williamstown; Rev. J. J. MacDonell, assistant to the late Rev. Dean Twomey at St. Mary's, Williamstown, to be parish priest of the parish of St. Joseph's, Lancaster; Rev. J. M. Foley, of Lancaster, to be parish priest at Apple Hill. No announcement has yet been made of a successor to Rev. Corbet McRae, at St. Columban's church, Cornwall.

## TANGO TEACHER MADE HAUL.

### Seven Thousand Dollars in Jewels Disappeared.

Chicago, July 8.—Seven thousand dollars worth of jewels stolen from Mrs. Clarence F. Newcomb while she rested between tango lessons given her at home by "Professor" Thomas W. Healy, were recovered by the police.

The jewels disappeared at 1:30 time Healy left. They were found in possession of his brother-in-law, Albert Quaback, by detectives according to the police. Healy was held on a charge of larceny and Quaback on an "open detention" until the case is further investigated. Healy recently married Mary Elton Loug, another tango teacher. The bride went at his cell door and promised to stand by Healy if he would tell her truth.

## GIRL OF MYSTERY IDENTIFIED.

### Newark, N. J., July 8.—The "girl of mystery" who was at the city hospital for several weeks and who last week was transferred to the state hospital for the insane, at Morris Plains, was identified as Irene Richards, of 336 Summer avenue, Brooklyn. The identification was brought about by the young woman during brief rational periods when she asked for paper and pencil and wrote a letter to her mother.

## DR. MORRISON ON CHINA.

### British Political Adviser Defended Government.

London, July 8.—The active interest of London in Chinese affairs was manifested by the crowded audience which gathered to hear Dr. G. E. Morrison, political adviser to the Republic, address the chamber of commerce yesterday on the present position in China. Dr. Morrison corrected the misrepresentations of the recent actions of the government, and denied that a state of anarchy existed, though he admitted the campaign of calumny by the remnant of irreconcilables had had some effect. On the other hand, the extension of public works was strengthening the authority of the government. He declared that the provincial constitution prepared after the suspension of parliament was based upon American and Japanese lines and was well fitted to prepare the people to evolve from the rigid autocracy of the past to a good form of representative government. Foreign affairs were now settled, while the attention of the British government towards the question had won the approval of all thinking Chinese. Dr. Morrison further showed that China was successfully collecting revenue and hoped soon to revise the customs tariff. Recognizing the injury done to the national credit through unwise loans, the president now supervised the ministry of finance. This year two loans totalling £4,635,000 will be extinguished. He concluded with an appeal to Englishmen to exercise in this instance the sense of justice and the good sense which commended British to the oriental.

## TO INSTAL BIG TELESCOPE.

### Dr. King, Dominion Astronomer, Goes to Victoria.

Ottawa, July 8.—Dr. W. F. King, Dominion astronomer, has gone to Victoria to arrange for the construction of the new Dominion observatory telescope to be erected in that city. The telescope will be one of the best in the world, and as Victoria is said to present almost perfect atmospheric conditions, valuable results are expected from the observations to be taken.

The reflector of the instrument will be six feet in diameter and is being built in Cleveland. According to a description of the telescope, which has been placed before the British Astronomical association, the tube will be of what is called lattice construction, the diagonal bars being braced to give equal compression in all positions, ensuring great stability. The mounting will be of the pierced polar axis type, and every part will be fitted with anti-friction ball-bearings. The huge telescope will be housed in a 65-foot dome and set electrically from the floor in any position.

## MAYOR'S ASSAILANT DIES.

### Gunshot Wound Proves Fatal to Butte Miner.

Butte, Mont., July 8.—Eric Lantala, the Finnish miner who stabbed Mayor Louis J. Duncan three times Friday night, died at a hospital yesterday from the wound in the abdomen he received. Suddenly he shot him. The attack took place in the mayor's office, and was caused by the refusal of the mayor to deport Frank A. Altonen, the correspondent of a Hancock, Mich., Financier newspaper upholding the political views of the Western Federation of Miners, from which the Finnish miners had seceded. Lantala refused to make any statement to the county attorneys in regard to the affair, although to others he asserted that the mayor shot him before he stabbed the mayor.

## HOOP SKIRT IS BACK.

### Fashion of the '80's Imported From Paris to Atlantic City.

Atlantic City, July 8.—It is here—the wasp skirt—exactly four gowns made in this style, which Paris last week declared to be the very latest, appeared yesterday. Everybody looked and wondered, and women in particular cogitated among themselves whether this fashion of the 80's would be generally popular. It is doubtful.

Coming in at the normal waist line in most pronounced hour-glass fashion this mode of 30 years ago was revived and exploited with a skirt of the present area, which seems to be neither one thing or the other, but seems indicative of a gigantic effort to revive the hoop skirt modes. It is true that some of the smart shops along the boardwalk have been brave enough to offer hoop petticoats for sale, but these are merely cousins once removed from the original idea. The hoop or extenders are placed so low that the knees, with the dankling fullness beneath—carefully concealed at the ankle with a most efficient elastic band.

## FIGHT SEGREGATION LAW.

### Prof. Spingarn Promises Aid to Louisville Negroes.

Louisville, Ky., July 8.—Financial support in testing the constitutionality of an ordinance segregating negroes in Louisville was pledged by several hundred negroes at a mass meeting here yesterday. Addresses were delivered by Prof. J. E. Spingarn, of New York, of the National Association for the Advancement of Colored People; and Prof. William Pickens, of Tulane College, Ala. The segregation ordinance became effective last May. It prohibits negroes from moving into city squares in which most of the residents are white. A similar prohibition applies to white people. Dr. Spingarn said that the National Association for the Advancement of Colored People would assist in the fight against the law.

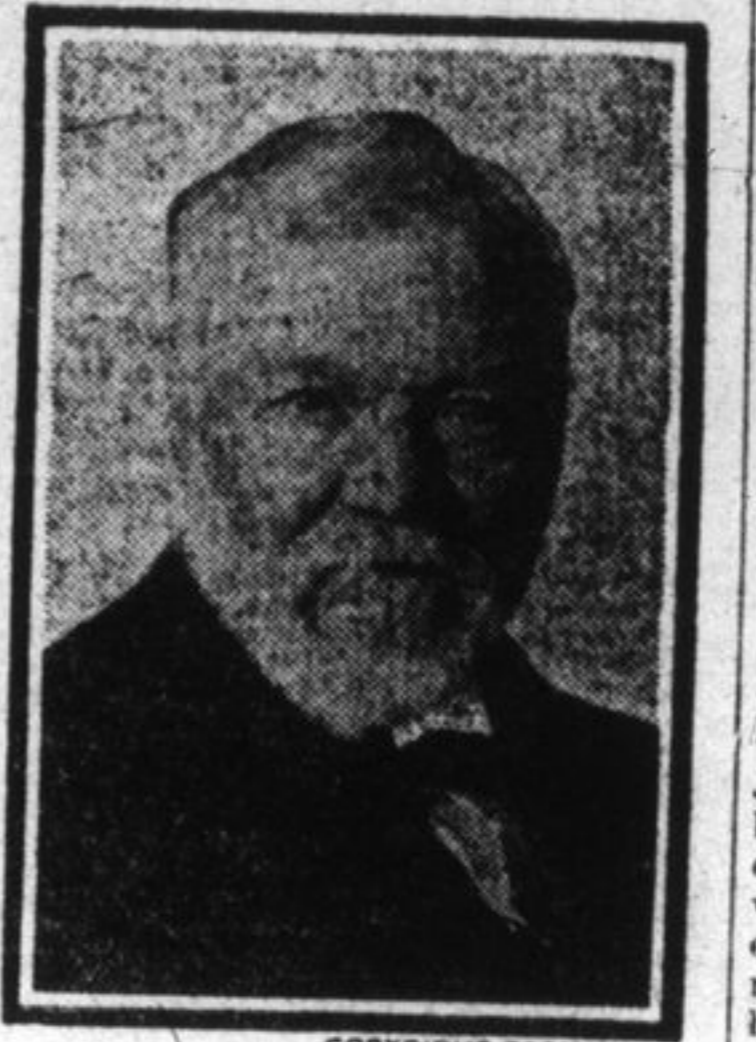

When a woman has a long talk with a man it means that he's a good listener. When a bachelor gets tired of leading a single life he should marry and be led.

## MAY GIVE \$100,000,000

### AND FOR THE CREATION OF RURAL LIBRARIES.

#### Andrew Carnegie Has Plan Under Consideration, Clayton Announces, and It is Valuable.

St. Paul, Minn., July 8.—Andrew Carnegie may contribute \$100,000,000 to build libraries in country districts, according to an intimation thrown out by Philander P. Clayton, United States commissioner of education to-day. Mr. Clayton said that he had talked the matter over with Mr. Carnegie and although he had not the authority to say Mr.

ANDREW CARNEGIE

Carnegie will donate the sum desired, the matter was well received by the steel magnate.

Discussion of the library question came up at a meeting of state superintendents at which Mr. Clayton presided. The commissioners advocated the system of central county libraries with several branches from each. He is confident the gift of the Carnegie millions would result in successfully carrying out the plan.

## NO B. C. ELECTIONS.

### Premier McBride Gives Rumor an Emphatic Denial.

Victoria, B. C., July 8.—Premier McBride gave an emphatic denial in the report that there would be an election in British Columbia in the autumn, probably in August. "There is absolutely no truth in the story," declared Sir Richard. This denial is taken to indicate that the government will adhere to its original proposal to take at least one more session and quite possibly two. At all events, it is realized that a provincial redistribution will be passed before the next British Columbia election.

## TO PATROL LAKE HURON.

### Government Party to Look for the Wrecked Steamers.

Sarnia, July 8.—Word has been received here that a survey party will patrol a considerable portion of Lake Huron, in the vicinity of Goderich, where some of the boats lost in the disastrous storm of November last are supposed to be. The Canadian government already has a survey boat in that neighborhood investigating reports to the effect that the hulls of the steamers Wexford, McGean and Caruthers are lying just off Nafed's Point.

## TO NAME ARBITRATOR.

### Colonial Secretary Will Select Third Commissioner.

Ottawa, July 8.—Right Hon. Lewis Harcourt, Colonial secretary, will shortly be asked to select a third arbitrator to act on the British Columbia Better Terms commission. The commission was established over a year ago, when Z. A. Lash, K.C., was appointed as representative of the Dominion government and Mr. E. V. Badwell, K.C., for the provincial government. These two were to select a third arbitrator, when an enquiry was to be made into the matter of better terms for British Columbia as regards the subsidy paid to that province by the Dominion government. A delay has occurred between the two governments over the terms of the reference, while no agreement has been arrived at as to the third member of the commission. Consequently, after the British Columbia government's statement of its case has been reviewed to meet points raised by the Dominion, the colonial secretary will be asked the name of the third member of the commission.

## FAMILY OF SCHOLARS.

### Two Sons, Father, Mother, and Godfather Distinguished.

Akron, Ohio, July 8.—Stricken with hemorrhage of the brain Rabbi Benjamin Levi, of Ufira, N.Y., was carried from the pulpit of the Jewish synagogue, Bowery street, here, ten minutes after he had opened his sermon, and is dead. He was apparently in good health as he entered the pulpit. He had greeted members of the congregation upon Detroit, where he preached at Jewish synagogue last week. The body will be taken to him home in Ufira.

## NO B. C. ELECTIONS.

### Premier McBride Gives Rumor an Emphatic Denial.

Victoria, B. C., July 8.—Premier McBride gave an emphatic denial in the report that there would be an election in British Columbia in the autumn, probably in August. "There is absolutely no truth in the story," declared Sir Richard. This denial is taken to indicate that the government will adhere to its original proposal to take at least one more session and quite possibly two. At all events, it is realized that a provincial redistribution will be passed before the next British Columbia election.

## TO PATROL LAKE HURON.

### Government Party to Look for the Wrecked Steamers.

Sarnia, July 8.—Word has been received here that a survey party will patrol a considerable portion of Lake Huron, in the vicinity of Goderich, where some of the boats lost in the disastrous storm of November last are supposed to be. The Canadian government already has a survey boat in that neighborhood investigating reports to the effect that the hulls of the steamers Wexford, McGean and Caruthers are lying just off Nafed's Point.
