

## CARSON WAS RECEIVED BY AN ARMED FORCE

### On His Arrival in Belfast On Friday

## WILDEST ENTHUSIASM

### REIGNED AMONG THE CROWDS ON THE STREETS.

"First Provisional Government" of Ulster Assemblies—If Asquith Takes It Good Humoredly, There Will Be No Bloodshed.

Belfast, July 10.—In open defiance to the law respecting the carrying of arms, four hundred Ulster volunteers carrying rifles with fixed bayonets, and with cartridge filled belts, greeted Sir Edward Carson to-day when he arrived from London. Lord Londonderry and Captain Craig met him with another escort of 40 armed motorcycle dispatch riders, and Sir Edward was motored to Craigavon. The wildest enthusiasm reigned, and there were great crowds on the streets.

It is believed here that to-day, Saturday and Sunday, which happens to be July twelfth, will mark the crisis in Ulster affairs.

At Craigavon to-day will assemble the "first provisional government" of Ulster, with Sir Edward Carson at its head. It is understood that their constitution will be drafted and the "Ulster Resolve" will be promulgated possibly on Sunday.

However, much depends on Asquith's attitude towards these demonstrations. If it is one of good-natured tolerance, as is likely, it is not expected there will be bloodshed. The Asquith government will await the house of lords' deliberations.

## EMPERESS EUGENIE IN BOLOGNA.

### Napoleon III's Widow Tells of Madman's Strange Letter.

Rome, July 10.—Empress Eugenie, of France, eighty-eight years old, the widow of Napoleon III, recently spent some days at Bologna to visit the tomb of St. Dominic, whom she claims as an ancestor. She attended a reception given in her honor by the *Comitato Garibaldi Zucchini*, who is a distant relative of her husband's. The Empress, who is a French lady, spoke freely with the law guests invited to meet her.

The empress said that she had just received a letter from a madman, who claimed to have discovered the mystery of the Holy Trinity. "I accept the Father and Son," she wrote, "but not the Holy Ghost, so long as they tell me it is a dove. I am convinced that the Holy Ghost is nothing but the spirit of Napoleon, while as a dove, which will return to earth to realize the kingdom of wisdom."

The empress said that she had visited Donna Lura Mignetti, who was in Paris when Napoleon fell in love with her. "The empress' secretary, Signor Pietri, son of the famous minister of police, has been in her service for six years, and since her son's tragic death has travelled all over the world with her. He says that the empress regularly awakens at five o'clock and that she walks for hours without tiring. Her memory is wonderful, and she takes an interest in everything, remembering besides the past also significant incidents of present everyday life.

The empress has never been seriously ill. She now prefers to speak Spanish instead of French, but she can never forget that she is a French woman at heart, and every time she visits Paris her heart bleeds in seeing the city so changed. Recently, when she was at the Continental hotel, she looked out of a window and said: "They have raped even the Tuileries!" and then she wept.

## "The Hat Store."

has reduced prices on all Straw and Panama Hats. George Mills & Co.

Thomas M. Hurst passed away at the home of his son-in-law, Mayo Adams, on Wednesday morning, July 8th.

For July 12th: Sleeve-holders, correct colors, 25c. Orange songs, 50c. Gutter's store.

The Karfuk's crew is now reported safe.

## DAILY MEMORANDA

See top of page 3, right hand corner, for probabilities.

## You Are Wanted

Very important—very interesting to you.

What's the message? Find it for yourself and you will be glad you looked. It is in the advertising columns of The Whig.

It's a message of goods and service—perhaps a message of money saved.

First run through the advertising. If you have not been an advertising reader you will be surprised at the interesting things you have been overlooking.

## LAWYER BATTLES

### For the Freedom of Mrs. Carman at Freeport, L. I.

Freeport, L. I., July 10.—Victims attacks by the defence upon the testimony given at the inquest into the death of Mrs. Louise Bailey, which led to the arrest of Mrs. Florence Carman, have so far failed in their purpose. The state's case against Mrs. Carman was considered stronger by the District Attorney, Mr. Smith, last night than it was when the arrest was made. It is violating no man's confidence to say that the authorities have in reserve evidence which may prove more damaging than what has already been produced.

The prosecution is planning to present damaging evidence against Mrs. Carman through Ceila Coleman, her negro maid. This colored girl is believed by the District Attorney to hold the solution of the whole mystery locked in her breast.

While it is true that several of the witnesses who testified at the inquest may prove weaker witnesses for the state than their testimony there would indicate, it is more than true that other witnesses are almost certain to change their stories and the state believes that these changes in testimony on the part of the latter will more than offset the changes which the former may make.

## BAIT FOR HARVESTERS

### Nebraska Farmer Will Give Daughters Along With Feed.

Giltner, Neb., July 10.—Ambrose Huntington, a farmer residing west of this town, posted the following sign along a highway in front of his home:

"I need five harvest hands—two men and three boys, wages \$3.25 day; chicken once a day; washing, mending and a bed in the hay mow. Every worthy young man hired will have a chance to marry one of my five pretty daughters. If he wins one of them, he gets 100 acres of land thrown in. But he's got to make good in more ways than one."

Huntington had more than fifty applicants. The five lucky ones are hard at work in the wheat fields. However, they are far from happy, or it has become known that the five daughters, ranging from eighteen to twenty-six years, are planning to depart for an extended summer vacation in New England.

## Paris Opera Killed by Movies

Paris, July 10.—Although the precarious financial condition of the Paris opera has been an open secret, the Matin's announcement that the institution is about to share the fate of the Opera and the Theatre des Champs Elysees was a great surprise to the general public.

Vacillating causes for the opera's financial embarrassment are assigned, including the ever-growing competition of the movie theatres. Undoubtedly one great factor has been the absence this summer of the usual large number of well-to-do visitors in Paris. The opera has been forced by law to keep open during the entire year, and the management ordinarily counts on filling it with foreigners during the summer.

## VERTEBRAE REMOVED AND ATTACHED AGAIN

### Advance of Medical Science Seen in Operation Performed in Boston

Halifax, July 10.—Charles Pinckney, of Melbourne, Yarmouth County, successfully underwent one of the most remarkable operations ever performed by medical science in the Peter Bent Brigham hospital, Boston, a few days ago.

For some months past Mr. Pinckney had been suffering from what was supposed to be paralysis. As the disease grew worse he was advised to go away for treatment. At Boston a more rigid examination was made but nothing could be found.

They advised an operation and he consented with the result that Dr. Harvey Cushing, assisted by Prof. Connelman, the greatest pathologist, have made mark of a new era in medical science. An incision was made near the spine and the fifth vertebrae was removed, but no obstruction was found. This was replaced and the same treatment was given the fourteenth and so on up to the sixth, and still nothing was discovered.

Fearing that the continuance of the operation along these lines would prove fatal, the surgeons stopped the process and a probe was brought into use, which located an obstruction at fourth vertebrae. On the removing of this section of the spine a small tumor the size of an olive, was found pressing against the spinal cord. This was taken away and now Mr. Pinckney is on the road to complete recovery.

## To Appeal to Premier Borden

Toronto, July 10.—After a long discussion the Canadian Press Association to-day decided to appeal to Premier Borden against Postmaster-General Pelletier's order raising newspaper postage rates.

The Dominion cabinet, at a meeting Thursday filled the three vacant supreme court judgeships of Alberta. The new members are: Maitland S. McCarthy, J. D. Hyndman, of Edmonton and W. C. Ives, of Lethbridge.

## WAS FIRST WOMAN PHYSICIAN.

### Fraulein von Siebold Obtained Degree 100 Years Ago.

Berlin, July 10.—Feminists should celebrate this month as the centenary of the first woman doctor, says the Frankfurter Zeitung. It was in June, 1814, that a Fraulein von Siebold, after studying at Goettingen and Darmstadt obtained her degree and passed the state examination in medicine and surgery.

In a short time her fame spread throughout the land, and in 1817 the University of Giessen conferred upon her the degree of Doctor, honoris causa. The next year she was called to assist the Duchesse Louise of Colberg-Gotha, at the birth of her first son, Duke Ernest II. Fraulein von Siebold afterward married Staff Surgeon Helldorff. She died in 1859.

This, the German paper says, dispenses of the claim that the first female physician was an English woman, Elizabeth Blackwell, who graduated in 1849 at Geneva, N.Y. She died a few years ago at Hastings, England, aged 90.

## ABOLISH MORTGAGE TAX

### One of the Projects of Realty Men at Pittsburgh.

Pittsburgh, July 10.—The abolition of taxes on mortgages and the establishment of an interest rate not to exceed five per cent., through the cooperation of the several states, was one of the projects of the National Real Estate Exchanges of America expected to launch during their seventh annual convention, opened here.

Approximately one hundred cities in the United States and Canada are represented. The convention will adjourn July 11th.

## A FAMILY OF FOUR PERISHED IN RIVER

### Sad Fatality to Rowing Party Near Brantford—Garnet Family Lost

Brantford, July 10.—Late last night a tragic family was wiped out by a rowing accident on the Grand River near South Springs. Thomas Garnet, a well-known and well-to-do farmer of Onondaga township, was rowing down the river in a rowboat. With him were his young son, aged about ten years, his daughter, two years younger, a maid, and a hired man. How the boat upset has not yet been ascertained. Garnet, his two children and the maid, were drowned, while the hired man succeeded in getting to the river bank. He tried to save the boy, but was unsuccessful. He was once given the alarm, but was too late.

All evening boats were patrolling the river, but no trace of the missing could be found. The boat in which they were rowing was floating bottom up. The search is being continued.

## WARN AGAINST OIL.

### The London Chronicle on Canada's Western Fields.

London, July 10.—"Several times lately," says the Chronicle, "we have referred to the oil fields of the Canadian oilfields, and have warned investors to exercise the greatest care if shares should be offered them by unknown people.

The value of oil properties in the Dominion may be enormous, but as yet the fields have not been proved to a sufficient extent. We hear from an expert on the spot that the amount of fraudulent representation going on is appalling. Undoubtedly there is oil in paying quantities, but at the present, there has been little or no sympathetic prospecting."

## Joins Mounted Police

Ottawa, July 10.—Private Spring Rice, a near relative of Sir Cecil Spring Rice, British Ambassador to the United States, and said here to be the ambassador's nephew, is a distinguished recruit of the Royal Northwest Mounted Police.

He was sent to Regina, Sask., where he is now being broken in, and where he will be sure of his keep, good horses to ride, and outdoor life, plenty of hard work and about fifty cents a day in pay.

## The Death of George Washington Spencer

Spencer occurred on July 3rd in Ameliasburg, at the residence of Wellington Howell, Mountain View. Mr. Spencer was fifty-three years of age.

## MAJOR LEONARD WILL NOT DEAL

### With Queen's University Trustees or Senate If His Military Residence Offer Is Reconsidered.

When in Kingston on Thursday, Col. the Hon. Sam Hughes, minister of militia, made the statement that the proposition of Major R. W. Leonard to erect and equip a military residence in Kingston at a cost of over half a million dollars, was not dead, although Major Leonard had withdrawn his offer to Queen's university owing to a disagreement over the composition of the board of control. Col. Hughes intimated that the Kingston would yet secure the military buildings.

The Whig telegraphed Major Leonard, who is at his home in St. Catharines, asking him if he had any further statement to make. On Friday afternoon, the following message was received from him:

"St. Catharines, Ont., July 10th, 1914.

"Editor Whig, Kingston.

"My proposition to Queen's university is absolutely withdrawn because trustees demanded conditions in my mind threatening to pervert the object of the gift. If question be reconsidered it will not be withdrawn or senate.

(Signed) R. W. LEONARD."

## SCOTCH CORPS

### Won Benson Trophy For General Efficiency

## CADET CAMP BREAKS

### AT BARRIEFIELD HEIGHTS ON SATURDAY MORNING

Sports Held Friday Afternoon—It Was An Awfully Hot Morning For the March Past.

The highland cadet corps from Williamstown is the winner of Benson trophy for general efficiency at the cadet camp at Barriefield. The Benson trophy was awarded to the committee which was appointed to size up the different corps in camp announced its finding on Friday morning at 10.30 o'clock. The corps from Morrisburg was a close second, with a difference of two points.

The Benson trophy was awarded by Col. T. Benson, of Ottawa, who was formerly in command of the division, the position now occupied by Col. T. D. R. Hemming. Col. Hemming, camp commandant in making the announcement on behalf of the committee stated that the corps from Morrisburg made a close run for the honors.

Col. Hemming Speaks. After the march past on Friday morning, the cadets formed in group in the centre of the field and were addressed by the camp commandant. Col. Hemming stated that he was very much pleased with the work done by the boys at Barriefield during the past five days. With a few exceptions the conduct of the lads was excellent. He urged on the cadet instructors and teachers in camp the necessity of bringing the cadet movement before the notice of the boys in the schools during the winter months. If this was done, the commanding officer stated that he felt that next year the camp would be half as large again.

The march past was one of the features of the camp. Although the sun was hot enough to cook one, the boys stuck to their guns and made a fine impression. During the march past the bugle band from the Pembroke corps and the bagpipers furnished music.

The cadet corps which occupied first and second place for the camp honors are members of the 1st Battalion in command of Major W. Y. Mills of the 14th regiment. After the march past the highland corps had their picture taken in front of the headquarters tent.

## Break Camp Saturday.

This afternoon the time will be spent in camp on account of most of the boys being over to the city for the afternoon and evening. A number of the lads who came over were a little late in arriving back to the grounds on account of being out at the Lake Ontario Park. The cars were so crowded that they were unable to get to the grounds until nearly ten o'clock. They were supposed to be back in camp by 9.30 o'clock.

On Thursday evening Mayor Shaw paid a visit to the camp. The mayor spent some time watching the boys bathing in the swimming pool in the centre of the grounds.

The medical corps was kept busy on Friday morning on account of a number of the lads falling out as a result of the intense heat.

## Tax on Heiresses.

Washington, July 10.—American heiresses who have married titled foreigners will have to pay twenty-five per cent. of their income annually to Uncle Sam, if a bill Representative Bowdle, of Ohio, proposes, becomes law. Bowdle proposes to provide revenue for the government and to promote the general welfare by levying a special tax on the income of citizens of the United States who contract marriages with titled aliens.

Lawrence Coyle, a British army pensioner, and a well-known character, dropped dead in a barroom at the age of seventy.

## SWALLOWED 78 PILLS A DAY

### And William Jessup Managed to Live 96 Years.

London, July 10.—Sir Thomas Becham, the wealthiest of the new baronets, would be even wealthier if there were more men like William Jessup, who in 1816 was sued by his apothecary for his bill.

Jessup was one who emphatically did not take Shakespeare's advice, "Throw the physic to the dogs; I'll none of it." In the course of the action it was proven that between 1791 and 1816 Jessup had consumed 226,924 pills. During the five years preceding the action he had averaged seventy-eight pills a day, and in 1816 Jessup had consumed 226,924 pills. During the five years preceding the action he had averaged seventy-eight pills a day, and in 1816 Jessup had consumed 226,924 pills.

Notwithstanding this and the addition of 40,000 bottles of medicine, Jessup lived into his sixty-sixth year.

## HURLED FROM BRIDGE.

### Foreigner Fell 40 Feet Into Creek and Will Recover.

London, Ont., July 10.—Penny Kerchie, an Italian, forty-eight years of age, was trapped on the Wauburn bridge, near Dorchester, yesterday, by trains going in opposite directions, one a Grand Trunk passenger and the other a freight. He took his chance with the passenger, and was hurled into the creek, forty feet below. When the train crowded him up, he was found to have no serious injuries except a broken limb. He was brought to the hospital here.

## PEOPLE SHOULD VISIT A DOCTOR EVERY YEAR

### The Ontario Medical Council Thinks Many Lives Could Thus Be Saved

Toronto, July 10.—"That in the opinion of the members of the Ontario Medical Council of the College of Physicians and Surgeons, owing to the number of unfortunate deaths during the past year, it would seem a very wise provision towards the preservation of human life for every individual to submit to a physical examination at least once a year, so that any diseases or bodily ill could be detected before they advanced to a dangerous degree."

This resolution, prepared by Sir James Grant, of Ottawa, met with the unanimous approval of the delegates to the annual meeting of the medical council now in session in Toronto. In a strong speech, Sir James Grant mentioned numerous deaths during the past year, which had been taken in hand in time could have been checked and eventually cured. He pointed out that while an examination might prevent years of suffering, it only occupied a few minutes, and the cost was very small in comparison to the bills for medical attendance, which must come in when the ill advanced to a stage where the person was incapacitated.

## COMPANY SUMMONED FOR SELLING LIQUOR

### Without a License—It Will Have To Pay Fine Of \$1,400

Toronto, July 10.—Once again has the provincial license department made itself felt. It has swooped down on the Canada Steamship company, and the result is that corporation will have to make its annual visit to the police court on the charge of selling liquor on its fleet of steamers without a license. This covers seven boats, running out of Toronto, four on the Niagara division and three on the R. & O. line. The summonses were sworn out to-day by Chief Inspector Burrows, and are returnable on Monday before Magistrate Denison. If, as in former years, the company pleads guilty, it will hand over probably \$1,400 in cash to pay the fines, the commandment of each boat being fined \$200 for the unlicensed privilege. The fine of navigation people for liquor selling is an annual affair.

## GRAFTING JUDGES MAY DIE

### Chinese Consulate Urges Extreme Penalty for Two Magistrates

Pekin, July 10.—President Yuan Shi Kai issued a mandate recently fixing death penalty for those officials who embezzle funds and take bribes. Now the consulate has impeached two 'ekiki magistrates for misappropriating funds and has recommended the death penalty.

Wang Che Hsing, prefect of police in Peking, is in prison charged with selling offices. It is evident that President Yuan intends to use the most stringent methods in the suppression of grafting.

## Central Labor Exchange.

Toronto, July 10.—The appointment of a special sub-committee of the city council to confer with the provincial government of the unemployment problem, with the object, if possible, of having a central labor exchange for the entire province, so that men out of work in one trade in Toronto may find jobs in some other place, and vice versa, was recommended by the board of control to-day.

## The Alpha and the Omega.

The first and the last, the beginning and the ending of the season, black currants and strawberries at Carnovsky's.

## ORGY NIGHT IN WINNIPEG NEVER TO BE FORGOTTEN

### The Streets Were Crowded With Drunken Men

## THE EVE OF ELECTION

### WAS A LIVELY ONE IN MANITOBA'S CAPITAL.

Government Disturbed by the Revelations of Liberal Detectives Who Secured Knowledge of Methods to Plug Ballot Boxes.

Winnipeg, July 10.—Liquor interests and "banish the bar" advocates in Manitoba are to-day facing a crisis. The paramount issue at polls to-day is the temperance force of Manitoba is the continuation of the liquor traffic. The opposition to the present Roblin government has promised if given a majority of members in the legislature it will submit a referendum of the question to the people for their opinion.

The streets were crowded with drunken men last night. Free liquor being given at all low grade hotels and clubs, and at the government committee rooms in glasses and flasks. It was an orgy never to be forgotten. Automobiles packed with government supporters, flushed with liquor, went from one committee room to another enthusing the crowds.

The government is, however, handicapped by the revelations made yesterday by the Chicago detectives hired by the temperance forces, who have been working in the centre of the government forces since last February. They secured intimate knowledge of the methods to be used to-day to plug the ballot boxes.

## Expert Close Election.

Winnipeg, July 10.—After a brisk campaign and fighting finish, Manitoba is voting to-day for a new legislature. Rain threatened this morning, but it is probable despite this fact that a very heavy vote will be polled. Both parties appeal to their supporters to guard the polls and to vote early. There are fewer expressions of absolute confidence in the result this morning, and possibly delegates to the annual meeting of the medical council now in session in Toronto. In a strong speech, Sir James Grant mentioned numerous deaths during the past year, which had been taken in hand in time could have been checked and eventually cured. He pointed out that while an examination might prevent years of suffering, it only occupied a few minutes, and the cost was very small in comparison to the bills for medical attendance, which must come in when the ill advanced to a stage where the person was incapacitated.

## DOES NOT STOP DRINKING

### Consumption of Alcohol in Switzerland Increases.

Geneva, July 10.—The Swiss government obtained from the alcohol monopoly in 1913 the sum of \$1,200,000, showing that in spite of the prohibition of absinthe the consumption of alcohol is steadily increasing in this country, apart from wine and beer drinking. This sum has been divided among the various cantons—except \$25,000 indemnity to absinthe manufacturers—according to the population, and, curiously enough, is principally to combat the spread of alcoholism.

Since the prohibition of absinthe in French Switzerland four years ago the German-Swiss head the list as drinkers of alcohol, which consists in their case of schnapps which is sold as low as a penny a small glass in some places. A good deal of absinthe is still smuggled into Switzerland from France, but the risk is becoming greater and the profits less. Roughly speaking, beer is drunk in the north and centre of Switzerland, and wine in the south.

## Poor Old Morrisburg.

Morrisburg, July 10.—When the Morrisburg board of education met last night to consider applications for the position of principals of the Morrisburg Collegiate Institute, it was found that only one teacher had applied. He was a German Swiss just out from Europe, and probably not legally qualified in his application, which was well written. He asked a minimum salary of but \$500 a year.

## VILLA STILL REFUSES TO JOIN MEDIATION

### Telegram to Carranza Reveals Attitude With Rebel Campaign To Proceed

Washington, July 10.—General Villa has voted against formal peace conference between representatives of the constitutionalists and the Huerta government, as proposed by the South American mediators. His attitude was revealed in a telegram sent to General Carranza, copies of which have reached here.

This information, together with the knowledge that General Pablo Gonzalez, chief of the division of the east of the constitutionalist army, is opposed to the conference, has upset the hopes of the constitutionalists here. General Alvaro Obregon, commanding the division of the northeast, is the only one of the three chiefs commanding the main columns of the constitutionalist army who has not been heard from, but inasmuch as his forces are near Guadalajara and in striking distance of Mexico City, it is believed he will not agree to any parleys at this time.

## SEX HYGIENE DANGEROUS

### Policy Denounced at Education Gathering in St. Paul.

St. Paul, Minn., July 10.—The teaching of sex hygiene will never be delegated to the American teacher if it can be prevented by the National Education association. This was evidenced when speaker after speaker denounced such a course, and found themselves greeted with ringing applause. "We should have nothing but the strongest condemnation for the wealthy, club-going woman who has not time to teach her child the fundamental truths of life, and would throw the responsibility upon a teacher or a football coach," shouted Dr. Charles H. Keene, of Minneapolis, supervisor of hygiene and physical training. "Such shiftlessness is outrageous."

When the tumultuous cheering had subsided, he went on: "Sex instruction placed in the same plane with spelling and arithmetic will rob it of all its sacredness. We talk about the inability of the poorer mothers to teach their children personal hygiene, but it is not for these children that we need to have the fear."

"Knowledge never will compel purity. Sex instruction in schools will but tend to lower the standard of morality."

"If we take up sex hygiene in our schools the homes of America will continue to lose ground, and will give up the few privileges they now have to train the children."

## NEW ANGLO-AMERICAN TREATY NEARLY MADE

### Provides For a Commission to Settle Disputes Between the Two Countries

London, July 10.—The American ambassador, Walter H. Page, speaking at the peace centenary meeting in the Metropolitan Tabernacle last night, made reference to a new treaty between the United States and Great Britain.

After referring to the cordial relations now prevailing between the two countries and complimenting Viscount Bryce on the part he had played in clearing up differences between the two countries the ambassador said it was the policy of the American people to have an alliance with none; where there was perfect friendship, alliances were not needed.

The old arbitration treaty between the two countries, however, had not renewed for another period and he was free to announce that a new treaty was being concluded whereby a commission was to be set up, to which either government could refer any question arising between them. "Both governments, he added, promised not to begin hostilities until this commission had investigated matters and submitted its report."

That treaty, the ambassador declared, was now virtually completed. The announcement evoked a great outburst of cheering.
