

For Three Months Did Not Go to School. Cuticura Soap and Ointment Cured in Ten Days.

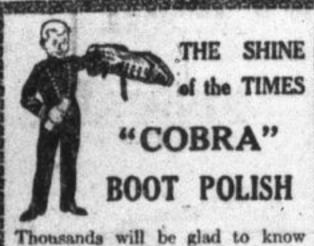

69 Rue Derazilly, Ville Emard, Montreal, Que .- "Cuticura Soap and Ointment cured

until the blood came. I was obliged to cut her hair all around the cruption. For to school and I cared for it during that time "I was told to wash it and to make an ointment of ----, but after washing itshe was worse. One evening when reading

the paper I saw the advertisement of Cuticura Soap and Ointment and I wrote at once. After receiving the rampic I immediately washed her head with the Cuticura Soap, then I put the Cascara-Ginter ment on. I did that twice a day, evening and morning. From the time I commenced using the Cuticura Soap and Cinterent that night she did not scratch any more. It stopped the itching from the first evening. After buying some Cuticura Soap and another box of Cuticura Gintment, in ten days she was completely cured." (Signed) Mrs. Arthur Poirier, July 5, 1913.

Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. A single set is often sufficient. For a liberal free sample of each, with 32-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D. Boston, U. S. A.

THE MOUNTAIN FREIGHTER

From British Columbia

The distinguishing marks of a real freighter is his inherent love of the horse, over which he holds strange dominion. He loves to tell his experiences and adventures on the trail, but he will always include the

Chief among the old historic trails They, too, have mainly gone as the At Sylvia's boarding place, a little old trail is going. They trod the trail pack trail. Romance was alive; they sang of their heart's desire

On slowly then I paced the deck that bore me from my home. There were strangers all around me, and I found myself alone;

There were strangers all around me, I knew not what to do. But I still kept up my courage for the gold in Cariboo.

In speaking of the miner we say: "The lure of gold." In speaking of ties, while others desire the nathless forest. The freighter drew a happy medium. He spent a day or two in town, but weeks or months on the trail in one trip. He drank John Barleycorn in town, and fought and cursed under the influence. On the trail he lived a normal life that neutralized his brief sojourn in town. He sang from the fulness of his heart, and ate his meals in the open.

under the broad canopy of heaven. Like the ancient bards he told strange stories of prowess, but it was the prowess of his horses. He may have been a man of common intelligence, from his own view point; but his horses were uncommonly intelligent. He was a freighter.

When the Ashcroft trail was in the zenith of its glory, and thirty teams stood hitched to the big freight wagon and its trailers, was the day of the ferk-line train; the day of the real freighter. The freighter then was no mean man of affairs. He had a pride in the expert management of his freight train that no railway president ever felt. Unlike the train of the railway, the freighter's train was almost human-no doubt far in excess of some humans. The horse of the ferk-line train knew every turn he in the game. Guided by a jerk or a pull, the leaders manifested every trait of intelligence. Governed by a word, the wheelers forced the wagons, into the desired position, while; the string would leap over the lead chains at the word of command.

The lesser freighter had his honor also! He had no camp following, but alone with his six or four-up he hauled his heavy freight wagon over the hills and through the valleys. He met each trouble as it came. He did his breakage repairs mainly with an axe. Even when the trouble was beyond repair he knew the tricks of his trade. With a tongue broken he knew how to lock so that he could reach assistance. Undaunted, resourceful, he had no such word as "can't."

The lesser freight trails are along the different lines of construction. The freight trail s the forerunner of the railroad: the completion of the railroad is the knell of the freight trail - the establishment of limitaand individual—the death of the old or-

Organized Labor Grows.

The third annual report on labor organization in Canada, covering the year 1913, has been issued by the Department of Labor. At the close of 1913 the strength of organized labor in Canada stood approximately at 176,000, an increase of nearly 16, 000 over the figures at the close of 1912. The estimated membership for each of the three years during which reports on organized labor in Canada have been issued, has been as follows: 1911, 133,132; 1912, 160,120; 1913, 175,799.

Of the total numerical strength of organized labor for 1913, the membership owing allegiance to international organizations reached the large proportions of 149,577, leaving for all other organized bodies a member-

ship of 20,222. Toronto leads with 131 unions and a membership of 20,992. Montreal 556 members.

Advised Not To Come Here.

The congested conditions in the Canadian labor market, and the fact that in some parts of the country there are large numbers out of work, has caused the Government, through the Immigration Department, to begin advertising in British papers advising mechanics and laborers not to come to Canada. Only agriculturists are for the present encouraged to emigrate.

It is the first time in history that such steps have been taken, and a decrease of fifty -er cent, in immigration this year is estimated by Supt. Scott.
