## WANT A HALF HOLIDAY WILL REFUSE TO HEAR CHILD TOOK GASOLENE

### THE LETTER CARRIERS HAVE A PETITION PREPARED.

For Presentation to the Postmaster-General, Who Will Grant it if Sufficiently Signed by Citizens.

The letter carriers of the city are anxious that they be granted a half holiday each week during the months of July and August. To bring the matter before the attention of the merchants of the city, as the matter lies entirely in their hands, a petition has been circulated, and is being largely signed.

When the matter was brought before the attention of the postmaster-general at Ottawa, he stated that he would be willing to give all the carriers in the service of the department the half holiday each week, providing the citizens were willing.

Now that the postmaster-general has expressed himself in this way, the matter rests entirely with the citizens to say whether or not the men should get the half day during the warm weather.

If the citizens express themselves in favor of the scheme, the new arrangement will go into effect the first week in July, 1915.

The letter carriers are asking for no particular day, but are leaving the matter entirely with the merchants to say which day is most suitable to them.

When the petition is presented the citizens are asked to be sure and consider that the men who are asking the favor are the men who are at their service on every holiday of the year.

### Dr. Hartly Has Fast Boat.

Speed motor boat enthusiasts were treated to a fine exhibition of fast craft sailing on Monday evening. The racer that drew forth this attention was a stranger in these waters and was named the P.D.Q. IV, owned by A. G. Miles, who summers near Alexandria Bay. Dr. J. J. Hartly has obtained the use of it for the summer, and will bring it into prominence this season. It is a faster launch than the Mutt Jr., and is also a few feet longer. The Whig was also informed that Dr. Hartly may possibly enter the races at Lake St. George.

### A Couple Married.

A pretty wedding took place at the home of Mr. and Mrs. W. O'Connell by Parker, 572 Jarvis street, Toronto, when their daughter, Edythe, became the wife of David Montrose Morrison, younger son of Judge and Mrs. Morrison, of Picton, Ont. Rev. Joseph Locke officiating. The bride looked charming in a gown of white tulle, with touches of rose point and veil. Only the immediate relatives and a few intimate friends were present. Mr. and Mrs. Morrison left later for their summer home in Port Stanley.

### ANY MORE FRONTENAC COUNTY LIQUOR CASES

#### Lieut.-Col. Hunter Says the People of the County Do Not Want to Give Evidence.

Justice of the Peace George Hunter has refused to hear any more liquor cases in the county of Frontenac.

Col. Hunter, when seen by the Whig on Tuesday afternoon, stated that he had decided to take this stand for several reasons.

The county magistrate stated that the people of Frontenac did not appear to want to give evidence to convict any man for a violation of the liquor act in a local option township, and for that reason it was almost impossible to get a conviction. During the past few months fifteen cases have required the attention of Justice of the Peace George Hunter. Of that number thirteen were dismissed on account of lack of evidence.

In all liquor hearings it is necessary for two justices of the peace to preside. For some time past J. W. Bradshaw has assisted Col. Hunter. Justice of the Peace Spooner, who has recently moved into the city, will likely hear the cases in future.

stitutionalists. He is one of the intimates of the Constitutionalists' president and a member of the so-called cabinet of that host now bearing the banner of "On to Mexico City." He holds the post of secretary of the interior, "fomente," so to speak, and any holder of a Mexican portfolio is a natural fomentier. He is university-bred, a lawyer of considerable renown in the turmoil-ridden republic to the south. He came to assume direct charge of the situation in Washington, as Carranza's special emissary, during the pendency of the mediation, or mediation, negotiations at Washington and Nacozari Falls. He is a typical Mexican. He is handicapped by a lack of knowledge of the English language and he talks through interpreters. He has proved an important medium of communication in the delicate stage of the mediation.

### HAD NARROW ESCAPE.

At noon on Tuesday at Lansdowne an International Limited over the Grand Trunk railway, on the way from Montreal, struck a horse and cart, killing the horse and smashing the cart. It was owned and driven by Samuel Manhard, who, through presence of mind, managed to throw himself out of the cart and out of the way of the engine.

The only injury he suffered was a number of bruises he received as a result of his fall. The International Limited reached Kingston fifteen minutes behind time.

### 400 AEROPLANES FLEW FOUR ABREAST

#### At Paris, France, in Celebrating The Fall Of The Bastille

Paris, France, July 14.—Possibly the greatest aerial manoeuvres ever witnessed were seen here to-day when four hundred aeroplanes, flying two thousand feet in the air, four abreast, in perfect military precision, flew past assembled throngs. There were no accidents, though several narrow escapes. It was a general holiday throughout France, in celebration of the fall of the Bastille.

### SAVED BY QUICK RESPONSE OF A DOCTOR.

#### The Little One Was in a Bad Condition—It Is Now Thought To Be Out of Danger.

Only a hurried response by Dr. I. G. Bogart saved the life of the fifteen months old child of Daniel A'Hearn, who resides on North street. The child was playing about the kitchen and getting its eyes on a bottle containing gasoline that was on a shelf, the youngster took the bottle down and began to play with it. Then the little one took a drink from it. Nothing was known about it at the time, but presently the child began to show signs of great agony.

The mother immediately saw the cause of the trouble when the remainder of the bottle's contents was found close by the baby, some of it being spilt. Hurrying to the nearest phone a doctor was summoned after some two or three had been called up. Dr. Bogart was eventually found in the right spot at the right time, and with all the speed which his automobile could make, he landed upon the scene of trouble none too soon to administer relief to the unconscious child. The stomach was pumped out and antidotes given to counteract the poison. Some little time elapsed before any improvement was noticed, and only careful treatment saved the baby's life. The little tot is still in a precarious condition, but hopes are held out for its recovery.

### MOTOR BOAT RACES

#### Conditions For the Events For the Hartly Trophy.

Following are the conditions for the motor boat races for Dr. "Jock" Hartly's trophy. The first race will be held on Wednesday evening, July 15th; the second on Friday evening, July 17th, and the third on Friday evening, August 7th.

The race is open to any motor boat owner in the city of Kingston and village of Portsmouth, powered with a two-cylinder engine.

The course for all three races will be the same, and as follows: Starting from the Yacht Club around the Miles shoal buoy, around the outer waterworks buoy, around the inner waterworks buoy and back to the Yacht Club. Twice around, all buoys to port.

The winner of first in each race counts three points; second place, two points; third place, one point. The winner of the largest number of points in the three races wins the cup.

An entry must be made before any one can race and this can be handled in any time up to the time of starting to L. C. Lockett.

First race, July 15th, will start at 7.15 and a preparatory gun will be fired at 7.43.

Second race, July 17th, will start at 7.15 and a preparatory gun will be fired at 7.13.

Third race, August 7th, will start at 7.30 and a preparatory gun will be fired at 7.28.

L. C. Lockett is the chairman of the regatta committee of the Kingston Yacht Club.

### DESERONTO'S BIG DAY.

#### Many Visitors Had to Go on One Meal During Day.

Monday was Deseronto's big day, all right. The Orangemen owned the town. Far more people came to attend the "doings" than was expected. As a result, the hotels had quite a proposition in feeding the visitors. Lunch counters and dining halls did a rushing business, but still it was a difficult task for some of the Orangemen to get enough to eat, and as a result there were many who had to go on one meal all day.

About five hundred Orangemen and others left Kingston on the C.N.R. special train of six coaches, at eight o'clock. They arrived in Deseronto at ten o'clock and at one o'clock the big parade of over 2,000 fell in line. They marched through all the streets of Deseronto, and finished at the fair grounds, where sports and speeches were in order. Dr. John Newton was the chairman of the proceedings.

Speeches were given by Mr. Mickel, N.E., of Belleville, and by Revs. C. E. S. Radcliffe, Nicol, and J. Roberts, all of Deseronto.

The train arrived in the city at eleven o'clock, having been delayed near Camden East by a hot box.
