Ontario High School History of Canada

By Professor W. L. Grant, of Queen's University

Quotation from THE PREFACE—
"The writer of a History of Canada which is to be used by teachers and pupils differing widely in religion, in racial origin, and in party affiliations, must avoid alike the obtrusion of his own prejudices and predilections, and the presentation of a story colourless and insipid. How far I have been successful I must leave to my readers to say."

This New History of Canada contains 420 pages, fully illustrated, bound in cloth.
PRICE ONLY 19 CENTS.

A Copy should be in every home.

IN BASEBALL CIRCLES

THE SUNDAY SCHOOL LEAGUE DEVELOPS PLAYERS

For the City League—The S. S. A. A. is for the purpose of Encouraging Clean Sport.

An evidence that the Sunday School Athletic Association is a benefit to the City Baseball League is shown in the fact that at the present time a large number of players taking part in the junior City Baseball League series received their first training under the direction of the officers of the S.S.A.A. A number of the senior players also played with the teams representing the Sunday schools which they attended.

The question has been asked on many occasions: "What is the aim of the S.S.A.A.?" The answer is: "It is the aim of the members of the organization to encourage clean sport in Kingston."

A number of officers who have been with the organization since it was first formed, have had many ups and downs, but they are not discouraged. For a time it was feared that the senior baseball series would be a thing of the past on account of the lack of interest on the part of many of the young men of the Sunday schools, but the president and the officers kept the matter before the young men, with the result that the series, which is now in full swing, would certainly be a credit to any city.

The games which are played every Monday and Friday evenings at the cricket field are attracting large crowds. On Monday evening, when Bethel and St. George's met, there were about two hundred spectators around the diamond.

The president of the league has no fight undertaking when one considers that he has to be on the job two and three nights each week, on account of junior and senior fixtures.

When the executive meets, the first week in October, which is the annual meeting, the members will be called upon to find another man to fill the position of president, as the president, who has been with the association since its organization, has decided to withdraw entirely, on account of other duties.

Ponies vs. Victorias.

The baseball game Saturday between the Ponies and Victorias will show what chance the Ponies have for the cup. The Ponies have lost three straight games and unless they pick up they will be listed as "also rans." The whole line-up however has been shown the danger of their present standing and as a result the work-outs each evening are full of ginger. The Victorias, however, have been sleeping but realize that victory will come on Saturday to them only through the very fastest and best kinds of ball. It is pretty hard to say who will get this game as the Ponies under Manager Kennedy, have been doing and practicing this week and ought to show the fans they are not dead yet. The result of Saturday's game meaning so much to both teams is being anxiously waited for.

He is Doing Well.

Cadet G. M. Carr-Harris, son of Mr. and Mrs. Carr-Harris, Mack street, who is taking part in the Bi-ley shoot, is making a very good showing when one considers that he is a mere lad. On May last he went over to England with the Canadian cadet team. While there he made a fine showing in the cadet matches. When a number of the members of the team left for their homes, Carr-Harris decided to remain in England and visit a number of friends.

Bowling Match.

The bowling match at Queen's on Tuesday evening resulted in Skip W. Jackson defeating Rip R. J. McKelvey. The teams were: F. Crozier, L. Sleeth, D. B. Murray, William Jackson—20. J. E. Mortimer, R. Uglow, W. C. Crozier, R. J. McKelvey—7.

DIED IN WATERTOWN, N. Y.

Mother of Fireman Daniel Enright Died Wednesday Morning.

On Wednesday morning Daniel Enright, a member of the fire department, received word from Watertown, N. Y., to the effect that his mother had died in that city on Wednesday morning at six o'clock. She has been confined to her bed for the past two months. About six months ago she suffered a stroke of paralysis. Fireman Enright left for Watertown in the afternoon to attend the burial.

New West-India Liner.

A new ship for the "Royal Mail" passenger service between Southampton, the West Indies and New York, was launched from the yards of Harland & Wolff, Belfast, on the 7th inst. This new ship, "the Essequibo" is on a par with the best of the big trans-Atlantic flyers which ply between New York and England direct. Her overall length is 467 feet, breadth 53 feet, and tonnage measurement 8420 tons. Her furnishings are described as most luxurious. Each cabin is an outside room, and the first class are amidships and well above the water line. All are supplied with brass bedsteads, thus eliminating the older style of built-in berths. The appointments throughout are the very finest.

The "Essequibo" and her sister ship "the Ebro" now building, will be of especial interest to Canadians because of the fact that they connect Trinidad with the "Royal Mail" boats from Canada. Canadian passengers for the West Indies going out via Halifax can transfer at Trinidad and come home on one of these palatial steamers via the Spanish main, the Panama Canal and New York. A large travel is expected this coming winter.

"Pint scale rings," 2 doz. 5c. Gibson's. Sometimes a man is willing to remain at the foot of the ladder for the purpose of pulling others down.

HAD A SHORT SESSION.

Two drunks before Magistrate on Wednesday Morning.

Two drunks came before the magistrate on Wednesday morning. There were no other cases, and as a result the session was a very short one.

John Grant is a mariner, but he left his boat, a few days ago, to spend a few weeks helping to gather in the hay crop in Frontenac county, by way of recreation. However, as the weather was very hot, he started drinking, not water, but "stronger stuff," with the result that he fell into the hands of the police. He was fined \$1 and costs.

Edward Burns is a railroad worker. He is working. This is what he told the magistrate. He too was under the influence. He quit his job turning switches to make a couple of trips on a boat to Montreal, but found the hot weather too much for him, so he commenced to fill up on lager beer. The magistrate fixed his fine at \$1 and costs, with the option of fifteen days.

PLAYED HIGH JINKS.

Horse on Coal Cart Was Frightened By an Engine.

The driver of one of Swift's coal carts did a very foolish thing on Wednesday morning. There is a water hydrant at the foot of Princess street, within a few feet of the railway tracks, and the driver tied his horse to this hydrant. All went well until a locomotive came in sight. Then there were doings. The animal objected very strongly to the noise of the engine and tore and stamped around at a great rate, finally freeing himself from the hydrant and taking the sidewalk towards Ontario street. Reaching the corner the animal ran against the telegraph pole, but afterwards freed itself and made for the other side of the road, where it was captured. The harness was damaged but the coal cart escaped serious injury.

Notice—Steamer Olcott.

Trip from Oswego to Kingston and return scheduled for Thursday, July 23rd, has been cancelled.

Was Entered For Show.

The fine Scotch collie dog, owned by E. E. Horsey, and which was found dead, having been poisoned, was entered for the dog show, to be held in Kingston on Civic holiday.

One tried always used, White Rose flour.

Mrs. (Dr.) Lockhart and little son, Toronto, have been the guests of Mrs. S. Chown, Deacon street, for a few days. They have gone to visit friends in Harrowsmith.

Hood's Pills

The painless, purely vegetable cathartic; cures biliousness, constipation, all liver ills. Pleasant to take. Work every time. 50c.

"Wild Strawberry Extract" at Gibson's. Canada in 1913 produced 76,720,000 bushels of potatoes.

ROUMANIAN TRAVELLER

VISITS KINGSTON IN JOURNEY AROUND THE WORLD.

He is Covering 63,000 Miles A-foot, and Will Get \$20,000 if He Does it in Six Years.

Demetre Dann, Roumanian artist globe trotter, garbed in the unique costume of his native land, reached Kingston on Tuesday evening at six o'clock, having walked here from Ottawa in four days and a half. He first called upon the chief of police, as is his custom, and then headed for the Whig office, to announce himself. From the chief of police he obtained permission to sell picture post cards for his maintenance on his journey all over the world.

The Roumanian undertook, two years ago, to visit the capital cities of over fifty-four countries in six years, travelling by foot where there is land to tread upon. If he succeeds he will receive \$20,000 from the Roumanian Sports Society. He left Bucharest on April 1st, 1912, climbed the Hungarian mountains, and proceeded to a remote village in the country to Budapest, and thence to Vienna and Berlin, where he was arrested as a spy. He was detained several days in order to have his passports proven. On being liberated, he struck south to Austria, then to Servia, Bulgaria, West Turkey, Greece. At Athens he crossed to Brinisi by boat, and then proceeded to Rome, where he learned of the great war. The young man then went back to Roumania to take part in the fighting. Four months later he went back to Rome and proceeded through Italy, across the mountains to Switzerland, thence to Paris, Brussels and Amsterdam. Crossing the North Sea, he went to London, and walked from there to Glasgow, where he took ship and crossed the Atlantic to Quebec, landing at the ancient capital of Canada on July 2nd. From there he went to Montreal and then to Ottawa.

He left, Wednesday, for Toronto, and thence proceeds to Washington and San Francisco, where he takes vessel for South America, and afterwards proceeds to South Africa, to Cairo, and then to the Orient. He will cover in all 63,000 miles, and is confident that he will succeed in doing what he started out to do.

HOTELS WERE CROWDED.

Tuesday Brought Many Tourists to This City.

The traffic to the local hotels on Tuesday was tremendous and parties had to be turned away. Two or three hotels had to supply cots for guests to sleep on the ground floor. It appears that it was a general rush on Tuesday and tourists from far and wide were in the city. The bulk of the tourists are Americans, the majority of whom go to fishing places like Battersea and Jones Falls, while others take in the beautiful scenery among the islands of the St. Lawrence.

Some of those in Kingston on Tuesday were: J. B. Boase and R. T. German, of Toronto, who left for Jones Falls to enjoy a few weeks' camping. James Leslie and wife, of Clinton, Iowa, and L. G. Shepherd and wife of Kansas City, Mo., stopped over until Wednesday to make a ramble among the islands. D. D. Lewers of Winnipeg tired of the prairies has taken a trip eastward and thoroughly enjoys the conditions of things both in weather and otherwise of the Limestone City. Then to cap it all, an automobile party, desiring to see something more than can be seen at Ottawa, motored to Kingston. This party was composed of Mrs. N. Bauer, Mrs. H. Brading, Miss Claudia Brading and Basil Bambrick.

Till recently the hotelmen were a little disappointed with the slowness of the tourist trade. The proprietors are now looking forward to being quite busy because in a little over a month's time the season will be drawing to a close.

Campbell Bros.

AT LAKE ONTARIO PARK

The Vandeville, Draws Big Crowds Each Evening.

In spite of the cooler weather the crowds at Lake Ontario park are increasing every evening, due no doubt to the excellence of the bill this week. Miss Ward dressed in the latest "peg-top" style sing, "I Just Came to Say Hello, Now I Hate to Say Good-bye." Thirty seconds after, before the applause dies down, she appears as a Japanese maiden and sings a special song composed for her. She next appears in a dress that brings down the house, because it brings to the mind of the older people the dress of long ago and shows the new generation the famous hoop skirt. She first does a curtsey and then sings a melody which contains a little of each of the best of the old-time favorites.

The other half of the programme consists of ston dashes by Evans and Wagner who are certainly hard workers. They keep perfect time and certainly have the audience's attention from start to finish. They have on the stage a table and two chairs, dancing on the table, on the chairs and back onto the floor in perfect time to the music.

Mayor Shaw Interested.

Mayor Shaw is very interested in work of the laying the new pavement on King and Princess streets. Almost every day the mayor is noticed standing on the sidewalk watching the men at work.

On Tuesday afternoon he spent some time watching the brick layers putting down the sand stone at the corner of King and Brock streets.
