THE WAR IS JUSTIFIED SAY FREE CHURCHES

British Religious Organs Support War Policy.

THE AVIATION HEROES

TO RECEIVE RECOGNITION FROM FRENCH FUND.

Germans Were Optimistic Last Tuesday — The Czar of Russia Embraced the French Envoy at St. Petersburg.

London, Aug. 8.—The attitude of the free churches in regard to the war, as reflected in religious papers here, is that Great Britain's action was justified. The British Weekly, though admitting that the free churches have worked for disarmament, and working until Sunday for neutrality, now recognizes that the disclosures of Sir Edward Grey and the arguments based thereon are sorrowfully convincing that the country cannot without loss of honor or the gravest peril forswear her obligations to France and Belgium.

The Christian World echoes this opinion, though bitterly disappointed at the collapse of a better understanding with Germany.

For Aviation Heroes.

Paris, Aug. 8.—Andre Michelin, one of the strongest supporters of aviation, has offered \$200,000 in prizes for noble deeds by French aviators, without distinction of rank. The first prize is \$20,000. The awards will be made by a committee consisting of officers appointed by President Poincare, members of the Aero club and a committee of the Aeronautic league, with Senator Raymond as president. If a hero is killed his family is to receive an award.

Germans Optimistic.

London, Aug. 8.—The Daily Mail's Paris correspondent, under Tuesday's date, says: "The Germans calculated on being able to reach Paris in a fortnight, where they think they would be in a position to dictate terms. It is quite possible the French would abandon their first line of frontier defence if hard pressed before their mobilization plans are complete. This would leave Nancy in the hands of the enemy, but Nancy is quite unimportant as a military centre."

Two More Censors.

Ottawa, Aug. 8.—The Hon. Sam Hughes, minister of militia and defence, has appointed Major Ernest Chambers, gentleman usher of the black rod in the senate, and Frederick Cook, the well-known newspaperman, as additional censors of news in Canada during the present war in conjunction with Major C. F. Hamilton, the general deputy chief censor. Three censors will be constituted and known as "The Board of Censors." Major Chambers was formerly a well-known newspaperman in the parliamentary press gallery, while Mr. Cook was for years the Canadian correspondent of the London Times.

Dublin Cheers Troops.

Dublin, Aug. 8.—There was a great demonstration here last night over the British regiments which were enlisting for active service. Reservists who were starting for England were escorted to the station by nationalist volunteers with bands of music. A great number of unionist Protestants are joining the nationalist volunteers for the defense of the country.

Death to Russians

Amsterdam, Aug. 8.—Americans arriving here say a great anti-Russian mania is on in Germany. An eye-witness says that a Russian student at Göttingen university, near Göttingen railway bridge, was arrested and shot next morning. All other Russian students have been detained for examination. The Franco-German frontier is being patrolled by rival aeroplanes, often flying in parallel lines within sight of one another.

Embraced Ambassador.

Paris, Aug. 8.—A St. Petersburg despatch to the Temps says: "The Emperor summoned to the palace Maurice Paléologue, the French ambassador, and expressed in the warmest terms his admiration of the magnificent spectacle afforded by united France. At the end of the audience Emperor Nicholas folded the ambassador in his arms, embracing him several times and saying: 'I press in my breast in your person your dear and glorious country.'"

Col. Hughes Pestered.

Ottawa, Aug. 8.—On account of the manner in which Col. the Hon. Sam. Hughes, minister of militia, has been pestered during the last few days by contractors desirous of furnishing supplies to the Canadian contingent, horse dealers, etc., he has issued orders that these people be not admitted to the militia department.

Hereafter "people who want to sell things, not to sell," as the minister puts it, "will have to make application by letter." This step has been rendered a necessity by the interference both the minister's duties resulting from the attempts of contractors to see him, as a result of which it has been almost impossible for him on occasions to enter his department.

Lots Of Equipment.

Ottawa, Aug. 8.—The militia department states that there will be no trouble at all about equipment of arms and that there are sufficient supplies available for practically the whole of the active militia in Canada.

ADMIRAL SIR GEO. CALLAGHAN
Who is in charge of the First Battle Squadron of the British navy

numbering some 50,000 men. Rush orders, however, have been placed for tents and other necessities, and contractors are working night and day to fill these orders. The Dominion arsenal at Quebec is also working overtime on ammunition of all kinds and thousands of Ross rifles have been ordered for quick delivery from the factory at Quebec.

War Notes.

British merchantmen are being allowed to clear from Manila as the seas are considered safe.

According to official advices more than fifty German steamers have been captured by the British squadron to date.

In the London newspaper offices there is a general expectation that the censorship will close down entirely on all war news save what is communicated through official channels.

ALL EXPORT OF MEAT MAY BE PROHIBITED

The Government Summons the Packers to Ottawa—Food Animals Are Scarce.

Toronto, Aug. 8.—Will the export of meat and food animals from Canada to the United States be prohibited? This question has created some agitation among the local live stock trade. That such a step is in view is well within the bounds of possibility, because local packers have been called to Ottawa to confer with the authorities regarding the meat supply of this country. The existing scarcity of food animals has been the subject of much comment of late years, and this fact, with the recent increased exports of cattle to the United States, has been directly responsible for the sharp increase in market values within the last twelve months. Scarcely a week has passed since the removal of the United States tariff on food animals occurred without the exodus of beef and stocked cattle by the carload across the line. This week-end cattle are booked for Buffalo, and only a few weeks ago about 800 head were offered on that market in one day. In view of the fact that England's food supplies are never far ahead of immediate needs and the prospect of "war" prices in Canada, a prohibition of exports of food animals may prove a reasonable precaution.

BARRED FROM RUSSIAN ARMY.

Decision Is Taken After Careful Consideration.

London, Aug. 8.—A St. Petersburg despatch to the London Times says that not a single correspondent will be allowed to the army or headquarters staff. This decision has been reached after mature consideration, and by stringent orders from the emperor to the minister of war here will be no departure from it.

PURE BLOOD MAKES HEALTHY PEOPLE

Head's Sarsaparilla removes scrofula sores, boils and other eruptions, because it drives out of the blood the humors that cause them. Eruptions cannot be successfully treated with external applications, because these cannot purify the blood. Head's Sarsaparilla makes rich, red blood, perfects the digestion, and builds up the whole system. Insist on having Head's. Get it now.
