The Royal Visit.
 During the recent visit of the King and Queen of Denmark to the Court of St. James, the outstanding feature was the Royal Banquet at Buckingham Palace, and at this most interesting function the two features that impressed the visitors and those privileged to be present were the wonderful gold plate comprising not only the domestic service of Buckingham Palace, but also the magnificent and historic plate of Windsor Castle.
 Next to this was the magnificent lace worn by persons of high rank, and it is interesting to note that in point of value the Gold Service sank into insignificance. It is common to say "Worth its weight in gold," but let us forget that Queen Mary is possessed of lace that is worth forty-seven times its weight in solid gold sovereigns, and to note that at the time of Queen Elizabeth this priceless lace was sold for but a few shillings a yard.
 During recent years the manufacture of lace has taken a new lease of life and foremost among the British Lace makers are those of Buckinghamshire, which for centuries has been noted for this product.
 Opportunity to secure the genuine Buckingham hand-made lace is afforded by the Buckingham Cottage Workers Association and any lady interested may obtain an interesting history of the Buckingham Lace together with descriptions and prices of the articles made by these cottage workers, by applying to Mrs. Kitty Armstrong, Olney, Bucks, England.

NEW ZEALAND CAN TEACH US HOW TO SAVE BABIES.
 Has the World's Lowest Infant Death Rate—Result of Health Mission Among Mothers, Started Seven Years Ago.
 Lessons on the keeping alive of the nation's babies can be learned by the whole world from New Zealand, in the opinion of Miss Julia C. Lathrop, chief of the Children's Bureau at Washington.
 New Zealand has an infant mortality rate which is lower than that of any other country and which is but half the size of the estimated American rate. The small rate in the islands is largely due to the activities of the New Zealand Society for the Health of Women and Children, an organization upon which Miss Lathrop has recently transmitted a report to secretary of labor Wilson.
 Mrs. Goodwin explains that the New Zealand Society for the Health of Women and Children was founded for the purpose of extending a health mission among mothers which had been started by Dr. F. Truby King, medical superintendent of a hospital at Dunedin, one of the chief cities of the islands. Although the infant death rate of the country was even then one of the most favorable in the world, it was felt that it was too high.
 In the comparison of cities, it is shown that Dunedin had a rate (for 1912) of 3.8, while New York in the same year had 10.5. Other figures, all for 1910, are: New Haven, 10.5; Washington, 15.2; Boston, 12.6; Buffalo, 16.2; Syracuse, 19; Philadelphia, 13.8; Pittsburg, 15; Providence, 14.4; St. Louis, 11.5; Newark, 12.4; Milwaukee, 14.5; Cincinnati, 13.1; Seattle, 8.2; Los Angeles, 9.7; Spokane, 12.0; Detroit, 17.9; and Indianapolis, 12.3.
 The functions of the society are these:
 First—to uphold the sacredness of the body and the duty of health; to inculcate a lofty view of the responsibility of maternity and the duty of every mother to fit herself for the perfect fulfillment of the natural calls of motherhood.
 Second—to acquire accurate information and knowledge on matters affecting the health of women and children, and to disseminate such knowledge through the agency of its members, nurses, and other agencies.
 Third—to employ especially trained and qualified nurses, whose duty it will be to give sound, reliable instruction, advice, and assistance gratis to any member of the community desiring such services on matters affecting the health and well-being of women, especially during pregnancy and while nursing infants, and on matters affecting the health and well-being of children, and also to endeavor to educate and help parents and others in a practical way in domestic hygiene in general—all these things being done with a view to conserving the health and strength of the rising generation and rendering both mother and offspring healthy, hearty, and resistant to disease.
 Fourth—to promote legislative reform in matters pertaining to the health of women and children.
 Fifth—to co-operate with any present or future organizations foregoing or cognate objects.
 The society further defines its aims as follows:
 The society is less concerned in reducing the death rate than in improving the health of the people. As a health society, we are more interested in firmly establishing the all-around fitness of the 24,000 or 25,000 annual new arrivals who will live than we are in reducing the potential deaths from 2,000 to 1,000.
 The society has eight branches four in the north island and four in the south. Seventy local committees have been organized in townships where there are enough women interested to make this possible.

Falling Hair and Itching Scalp
 Use Parisian Sage—It Quickly Removes Dandruff—Your Head Feels Fine.
 Now that Parisian Sage—a scientific preparation that supplies hair and scalp need—can be had at any drug or toilet counter, it is certainly needless to have thin, brittle, matted, stringy or faded hair. No matter how unsightly the hair, how badly it is falling, or how much dandruff, just spend a few minutes each day for a week and rub a little Parisian Sage into the scalp and through the hair. All dandruff is removed with one application, the hair roots are nourished and stimulated to grow new hair, itching scalp and falling hair ceases—your head feels fine. Best of all, the hair becomes soft, fluffy, abundant and radiant with life and beauty.
 Parisian Sage is one of the most pleasant, invigorating and refreshing hair tonics. No cheap perfumery or odoriferous concoctions—but a delicately perfumed, tea-colored liquid that proves its goodness the first time it is used.
 You will be surprised and delighted with Parisian Sage. Try at least one fifty-cent bottle. J. B. McLeod will refund the purchase price if you are not satisfied.

 British royalty is reading "Potash and Perlmutter." A copy of the book was ordered for the library of Buckingham Palace, following a surprise visit paid by the Prince of Wales to the Queen's theatre, where the play is being produced. The report from London further states that the young prince had no trouble in catching the American slang, and that he roared with laughter throughout the play.
 Gaby Deslys, Harry Pilcer, her dancing partner, Max Linder, a Paris motion picture star, and four others were nearly drowned, when a landing stage at Yverne-St. Hilaire, France, where M. Linder has a villa, collapsed as they were about to enter a boat.
 Lawrence D'Orsay has been engaged as stock star of the Avenue Theatre Stock company in Vancouver, B. C., to open on August 3.  Billy Baxter, old-time minstrel, who had played in nearly all of the leading minstrel companies of America, and who had appeared before the royalty of Europe with his banjo, died at a hospital in Chicago. He was born in Cincinnati in 1861. A few years ago he retired from the stage, and since then has made his home at the Press Club in Chicago.

 A warm welcome has been accorded the revival of "The Belle of New York" in London. Miss Edna May is no longer in her familiar part, but she was there on the opening night to welcome her successor. It is sixteen years since the melody of the piece began to arrest the Londoner's attention and since the "corner boys" began to hum, whistle, and shout such airs as "Follow On" and "When We are Married," but their popularity is undimmed.
 Byron Chandler, known along Broadway as the "Millionaire Kid," must pay his wife, Grace La Rue, \$50 a week alimony, according to a decision of Justice Weeks of the supreme court. Miss La Rue is suing for a separation, and applied to the court for alimony, making the statement that her husband had not supported her since he is alleged to have abandoned her. Mr. Chandler opposed the application on the ground that his wife is earning more than \$12,500 a year and is not in need of financial assistance.
 Nora Bayes, divorced wife of Jack Norwica, is very ill in Paris. According to Miss Bayes' doctors, there is no hope for her recovery. The comedienne last appeared a few weeks ago in the London empire revue.

Falling Hair and Itching Scalp
 Use Parisian Sage—It Quickly Removes Dandruff—Your Head Feels Fine.
 Now that Parisian Sage—a scientific preparation that supplies hair and scalp need—can be had at any drug or toilet counter, it is certainly needless to have thin, brittle, matted, stringy or faded hair. No matter how unsightly the hair, how badly it is falling, or how much dandruff, just spend a few minutes each day for a week and rub a little Parisian Sage into the scalp and through the hair. All dandruff is removed with one application, the hair roots are nourished and stimulated to grow new hair, itching scalp and falling hair ceases—your head feels fine. Best of all, the hair becomes soft, fluffy, abundant and radiant with life and beauty.
 Parisian Sage is one of the most pleasant, invigorating and refreshing hair tonics. No cheap perfumery or odoriferous concoctions—but a delicately perfumed, tea-colored liquid that proves its goodness the first time it is used.
 You will be surprised and delighted with Parisian Sage. Try at least one fifty-cent bottle. J. B. McLeod will refund the purchase price if you are not satisfied.
 Look for the trade mark—"The Girl with the Auburn Hair"—it's on every package—accept no other.
