In Nature's Wilderness.

The attractiveness of spending ones summer holidays in the open is appealing to the large army of summer pleasure seekers more and more every year and instead of looking for the fashionable resorts where one has to dress for dinner and where gayety reigns supreme, the younger generations are taking to the woods, the lakes and the streams in which they and, in a two or three weeks outing that rest and bodily upbuilding that fortifies them for the arduous duties that a strenuous twentieth century business life demands. Algonquin Park is just the out-of-way sort of place for you, the world with print paper will rest on the shoulders of the American manufacturers. Thousands of orders from all over the world have poured into the offices of manufacturers in the United States during the past few weeks, demanding immediate shipments.

SEE PAPER FAMINE.

Manufacturers Already Feeling the Great Demand.

New York, Aug. 12.—That if the war in Europe continues long it will result in a paper famine throughout the world is the opinion of A. E. Wright, of the International Paper Co. Mr. Wright said to-day that the paper manufacturers in this country are already feeling the great demand for print paper, and it is generally feared that it will be necessary to cut into the reserve supply now held in the mills. With the commerce on the high seas almost completely tied up, and Germany, one of the three exporting countries of the world, involving in the struggle, the task of supplying the world with print paper will rest on the shoulders of the American manufacturers. Thousands of orders from all over the world have poured into the offices of manufacturers in the United States during the past few weeks, demanding immediate shipments.

Charity may begin at home, but you frequently find it out when you go. It isn't until a man approaches the world that the world is anxious to give him a boost.
