LIVE STOCK MARKET.

The Prices Paid at the Union Stock Yards.
Union Stock Yards, Toronto, Aug. 13.—Receipts were 40 cars, 413 cattle, 1110 hogs, 453 sheep and lambs and 48 calves.
Cattle—With the exception of a very few, the cattle were all medium, common or inferior classes, and trade was more than slow. There were few buyers who seemed to want to buy any cattle. The top price for 15 cattle was \$8.75. Choice butcher's steers, \$8.50 to \$8.85; good butcher's steers, \$8.25 to \$8.60; medium butcher's steers, \$7.75 to \$8.15; common butcher's steers, \$7 to \$7.65; choice butcher's heifers, \$8 to \$8.25; common butcher's heifers, \$7.75 to \$8; choice cows, \$6.75 to \$7.25; good cows, \$6.25 to \$6.50; canners, \$3.50 to \$4.50; bulls, \$5.50 to \$7.50.

Feeders and stockers—Several lots of feeders and stockers changed hands at steady prices. Choice steers \$7 to \$7.35; medium steers, \$6.50 to \$7; stockers, \$5.50 to \$6.25.

Milkers and springers—A few only were on sale at \$50 to \$85 each bulk sold at \$65 to \$75 each.

Calves—Not enough were offered to make a market and prices were more than firm. Choice veals, \$10 to \$11. Common to good \$6 to \$9.50.

Sheep and lambs—Sheep and lambs were slow trade at Wednesday's quotations. Sheep, \$6.00 to \$6.50; culled and rams, \$3.50 to \$5.00; lambs, \$7.50 to \$9.00; culled, \$7.00.

Hogs—Market easier in sympathy with British and foreign markets for bacon and hams. Selected, fed to watered, \$9.65 and \$9.39 f. o. b. \$10.10 weighed off cars.

PIONEER PASSES AWAY

House in Which Family Lived is Over a Hundred Years Old.
Grafton, Aug. 14.—The funeral took place here of A. F. Hare, who passed away at the age of ninety-two years. In the recent provincial contest Mr. Hare was the oldest voter in West Northumberland to go to the polls. The farm on which he was born was settled upon by his grandfather, a U. E. Loyalist, soon after the close of the American war of independence, and the house in which deceased was born is now over a hundred years old, being one of the first dwellings of its kind erected in the country. It is still in good repair. Mr. Hare is survived by two sons, C. J. Hare, Cobourg, and J. C. Grafton, and by two daughters, Mrs. S. E. Roberts, Grafton, and Miss Hare, at home. In religion he was a Methodist and in politics a liberal.

Iron ore exists in almost every Chisago province, but in only a few districts is it mined on an extensive scale.

THE MAN ON WATCH

The Lampman is told that Boob-seller McAuley is seventy-seven years of age to-day. His age bars him from being accepted for foreign service with his cruiser, against the German navy.

It appears to the Lampman that Mayor Shaw, like the merchants, must have a summer bargain sale, for he notices that his worship is offering town debentures in \$100 lots for sale.

Policeman Nicholas Timmerman announces that Belgium, which is making such a heroic stand against the barbarous troops of the Kaiser, is just "across the road" from where he was born. When in his prime, Nicholas, with his club brandishes, would have made the Germans sprout.

The Lampman hears that as the German empire is soon to be a great acquisition to the allied armies on the field of battle. The Germans are great lovers of music, as well as beer, and if they heard the Kingston band strike up a tune, they would surely stop fighting to listen to the sweet music, and be surrounded and taken prisoners.

The Lampman does not agree with the Tweed ruralist who writes a scolding letter saying that a teacher should be "plucked" if a child fails a second time in an examination. There are some young people, as well as old ones, into whose heads learning could not be driven with a mallet, and in such cases teachers should surely be exonerated.

The Canadian minister of finance knows what he is about when he intimates that if war taxes are to be levied, one will be driven with a mallet, and in such cases teachers should surely be exonerated.

If fifty men are all the 14th can offer to go over the sea to fight the Germans, this old corps has lost the spirit of those who wore its uniform fifty years ago. The 14th riflemen do not seem to be spoiling for a fight like the ferriers of the 5th Kingston battery whose every officer and man is buckling on his armor to get a crack at the German.

THE TOWN WATCHMAN.

NEWFOUNDLAND'S OFFER

Government's Aid to Mother Country Endorsed by Populace.
St. John's, Nfld., Aug. 15.—An immense public meeting was held here attended by the governor, premier, cabinet ministers and citizens. The meeting endorsed the offer made by the government to the imperial cabinet, and accepted by the latter, to enlist and equip 500 men to help the mother country in the war, a similar number for the local militia, and to increase the naval reserve from six hundred to one thousand men. The meeting appointed a committee of twenty-five citizens to undertake the work of organizing and equipping these forces. It is understood a full enrollment is assured.

ADVANCE OF THE GERMANS ON PARIS.
The central and main army of the Germans is moving southwest from Luxembourg to cross the Meuse at Stenay. It demands the surrender of the French fort at Longwy and is said to have suffered a reverse at Spincourt. Statements in despatches show that Germans are entrenching along the Aisne river, which is only 120 miles from Paris, and they are thought to be repairing the way for the main army crossing the Meuse at Stenay.

MANY SPINDLES IDLE.

English Textile Already Seriously Affected.

New York, Aug. 14.—Reports that New York bankers were considering a proposal to advance southern cotton growers \$400,000,000 at the rate of \$40 a bale to assist in a gradual marketing of the new crop, attracted considerable attention in the trade here to-day as such action would be considered a stop in the direction of establishing a minimum value for the staple under war conditions. Something more definite in the way of measures for considering the value of the crop is expected next week.

While talk in local trade circles reflected rather a more optimistic feeling, business conditions as well as in futures was reported absolutely at a standstill. Manchester cables dated Aug. 7th report business and shipments practically suspended, with all quotations nominal. Already, according to these cables, there has been a large shortage of spindles and looms for an indefinite period, and it is feared that the number will be largely increased in the immediate future. Reports from local dry goods circles indicate large demand for heavy cotton goods from bag manufacturers, whose supplies of bulap have been shut out by war conditions.

The Slowing Down.

Montreal, Aug. 14.—The announcement that the Nova Scotia Steel and Coal company is to curtail its operations because of conditions subsequent upon the war will cause little surprise.

Industrial companies and those in other branches of activity, have, or soon will, follow suit and it is but wise and prudent that this should be the course adopted. To husband resources in this way at the present time is as necessary as it is patriotic.

C.P.R.'s Capital To Be \$335,000,000

Montreal, Aug. 14.—At a special meeting to be held on October, 7th next, shareholders of the C.P.R. will be asked to sanction an increase in the authorized common stock from \$280,000,000 to \$335,000,000. The authority asked does not fore-shadow any new issue of stock in the immediate future, but the company desires to bring the authorized issue up to the amount for which it has the sanction of the government. No portion of the additional \$75,000,000 capital will be issued until the shareholders have given their authority at a special general meeting called for the purpose.

Financial Notes.

It is announced that J. A. Martin, for the past four years manager of the Vancouver branch of the Russell Motor Car Co., has been appointed sales manager for Canada.

A new interest has entered into the Barcelona Traction, Light and Power company, and the financial position of the company has been placed upon a firmer basis thereby.

The Great Northern railway company closed its fiscal year on June 30th last with a loss of more than \$2,000,000 in gross and over \$4,300,000 in net, as compared with the previous.

G. W. Badgley, manager of the Montreal Investment & Freehold company, limited, reports the payment of another bonus of 10 per cent. This makes 32 per cent, paid in bonuses this year.

Granby Consolidated Mining, Smelting and Power Co., will put into effect a drastic curtailment of production. This, in brief, will probably result in the cessation of operations at the old mine and smelter at Phoenix.

Rubber Goods Manufacturing Co., has announced a 15 per cent. advance in the price of solid tires and 12 1-2 per cent. in pneumatic tires. Other companies will take a similar action shortly.

The Ames Holden factory, Montreal has started work on an order received from the dominion government for between 40,000 and 50,000
