PROF. WILLHOFF'S CASE.

The Whig has very much sympathy with Prof. Willhoff, who, because he is a German, and of the intense but harmless type, is suspected of things of which he is not guilty.

THE DANGER STILL EXISTS.

Congress has passed the bill, and so has the United States senate, authorizing American capitalists to invest their money in foreign vessels, to place the American flag upon them, and to use them in reviving the American trade with Europe.

IMPOSING WAR TAXES.

The federal parliament could not be long in session, when it had so few purposes to accomplish, and its members were of one mind with regard to them.

EDITORIAL NOTES.

Despite the appeal of wise men some citizens have been laying in a winter's supply of food. Isn't that exceedingly selfish? What about the people who cannot buy by the wholesale? Must one have no thought of them?

tuous session has never taken place. Canada will contribute of her talent and treasure towards the war of the century and those who go to the front will have the consciousness of knowing that public opinion is most strongly behind them.

SOME GREAT SPEECHES.

Highly dramatic touches in the debates of the imperial parliament followed each other quickly with the outbreak of the war. The first came when the premier gave a glimpse of passing events, and hushed up the general clamour while he invited the house to prepare itself for any eventuality.

LURID PICTURES OF WAR.

The financiers of London are of one mind with regard to the effects of the war. It will set back the wheels of progress for thirty years. Harold Begbie, writing to the London Chronicle, sees in the war the casting of three hundred years into the melting pot, and the very thought of it maddens him.

A PATRIOTIC EVENT.

Napanee Citizens Gave Dinner to Bulgarian Reservists. Napanee, Aug. 20.—A remarkable instance of patriotic fervor on the part of our citizens occurred this evening when they spontaneously entertained forty Bulgarian reservists to a luncheon at the Paisley House.

Alcohol in France.

The season's production of beet alcohol from October 1, 1912, to September 30, 1913, was 38,544,000 gallons, the highest figure in its history, exceeding by 700,000 gallons the average production of the five preceding years.
