

ARE BOUND FOR BERLIN

THE SERBIANS HAVE RETAKEN THE TOWN OF SABAC.

Stirling Battle in the Province of Harnut—British Fleet is to Defend Ostend—Montenegrin Victories.

London, Aug. 26.—Officials of the British embassy here are calmly confident that before the week is ended the Serbians will enter Germany's capital. Last night the embassy issued a warning to the press not to exaggerate the forward movement of the Serbs.

The victory of our troops at Gumbinnen, said the embassy's official statement, "is important, but with Königsberg, Posen and Thann, not to speak of the Austrian army barring our way, it is absurd to talk of forced marches to Berlin."

Serbia Capture Sabac.

Nish, Serbia, Aug. 25 (Via London 2.30 p.m.).—Serbian troops recaptured Sabac (Shabatz) at four o'clock in the afternoon of Monday, August 24th, according to an official announcement made to-day.

The Austrians have been thrown back to the river bank of the River Save, and every bit of Serbian territory has now been cleared of the enemy.

The announcement adds that the retreating Austrians devastated Serbian villages and massacred the inhabitants, seven miles west of Belgrade.

Battle Waging For Three Days.

London, Aug. 25.—A despatch to the Express from Ostend, says:

"A great battle has been in progress in the province of Hainaut, on the southern frontier of Belgium since Friday evening. French and British troops have been engaged in desperate conflicts north of Charleroi and Fleurus with Germans who crossed the Meuse at Huy."

"Several French troops, which had spread from Liège, met the German right in East Flanders."

"Desperate fighting between outposts took place at Oudenarde and Renaix. The losses were heavy on both sides, Monday. Twenty-five thousand Germans have been surrounded between Courtrai and Anseghem, a town six miles west of Oudenarde. Fighting was progressing Sunday at Perennes, between Mons and Pincho, and between Waterghem and Oudenarde."

"The Handelsblatt says that since Monday no German have been in Brussels. Arrivals from Liege state that many houses there were burned last week. German soldiers have inscribed on the walls of the city 'William II, Emperor of Europe.'"

British Fleet to Defend Ostend.

Paris, Aug. 26.—A British fleet, consisting of two dreadnoughts, two cruisers, two submarines and six torpedo boat destroyers, has arrived within sight of Ostend, with the intention of bombarding the Germans if they advance against it.

Belgian Locomotives Sent to Paris.

Paris, Aug. 26.—Three hundred locomotives from the railroads of Belgium were brought to Paris to-day in order to prevent their use by the Germans.

Montenegrins Win Victories.

Milan, Aug. 24.—The Corriere della Sera says that the Montenegrin army, 30,000 strong, has achieved a series of notable successes on the border of Herzegovina.

There was a fierce bayonet fight in the Grabovo region, and the Austrians retreated, leaving 300 dead on the field, the number of wounded being still greater. One hundred and fifty prisoners were sent under escort to the rear.

The Montenegrins also suffered severe losses.

\$4,000,000 Paid to Germans.

London, Aug. 26.—A despatch to the Times from Flushing says that \$4,000,000 towards the war indemnity of \$40,000,000, demanded of the city of Brussels by the Germans, already has been paid.

Cattaro Forts Destroyed.

Milan, Via Paris, Aug. 26.—A news despatch from Cattaro says that all of the fortifications there have been destroyed by the allied fleet. The Austrians did not have time before the attack to strew the Gulf of Cattaro with mines.

Notes of the War.

An Austrian monitor struck a mine in the Adriatic and was destroyed. The crew of the monitor perished. The location of this accident is given as between Orchava and Bistach.

The entire Austrian fleet of about forty units is proceeding southward from Pola, the Austrian naval base. Their objective is thought to be Cattaro in Dalmatia.

According to a telegram from Cattaro, fourteen officers and 170 of the crew, including 50 wounded of the Austrian cruiser Zenta, which is reported to have been sunk by a French fleet, have reached Montenegrin territory.

At Charleroi the German troops obliged ten Belgian miners, who had just come out of a mine with lamps in their hands to march at the head of their advance. All the miners were killed.

Berlin despatches say five of the forts of Namur and the city itself have fallen and the capture of the remaining four forts is imminent.

Germans set fire to a whole series of outlying villages, destroying Marchiennes, Monceau-Sur-Sambre, Anderlues and Chalet.

The French force of Purcos Zouaves and Senegalese, during the fighting in Upper Alsace, entered and almost destroyed the town of Flachland, Jandorf, Landser, Brunstatt, Heitwiler and Morschweiler.

Some anxiety is entertained regarding the safety of Millicent, Duchess of Sutherland, who arrived at Namur a few days ago at the head of a party of English nurses and took up her quarters in a convent in the centre of the town.

The Rome messengers state that

ALLIES HARD PRESSED BY THE GERMAN ARMY

Paris, Aug. 26.—With the fate of the French nation admittedly hanging on the result, the allied lines along the northern and eastern frontiers were being hard pressed, to-day, by the German active army.

All night fresh troops were being brought up to the enemy, while General Joffre devoted his time to strengthening the weaker points in his defensive columns. When the great bayonet charge was made to-day, the German assault was met with a determined defence and the war office chiefs profess confidence that the line, as now established, will hold.

South of Luneville, along the Lorraine border, another great battle is in progress and it is to reinforce this line, admittedly pressed to the limit, that General Joffre withdrew his entire Alsatian army, abandoning Mulhausen, Altkirch and other points taken at so heavy a cost in a series of desperate battles.

It is with its veteran commander, General Paul Pau, to fill up gaps in the line and prevent a breakthrough through the French lines north and south of Epinal.

In the north the German army is being driven hard against the entrenched position near Givet, where the British expeditionary troops are massed. Several attempts to carry the entrenchments there by storm have been made and the heaviest fighting of the war is reported by the war office chiefs to continue in this neighborhood. The German army there is reported to be commanded by the crown prince in person.

Assaulting English Lines.

London, Aug. 26.—The English troops are holding the German lines between Dinant, Theberton and the Belgian coast, but the German pressure has been so enormous that the British are being driven to the limit of their resources in an effort to break them, but the war office insists that not only are the lines holding, but that the British have been able to push them forward to several points. It is certain, however, that

SEEK PEACEFUL SURRENDER.

Tokio Press Says Japan Will Proceed Humanely.

Tokio, Aug. 24.—Japanese newspapers expect that for the sake of humanity the army, before attacking Kiaochau, will send a military envoy, advising the garrison to surrender. The newspapers are confident that the attack made by a few American newspapers on Japan's foreign policy has not shaken the public opinion of America, but is due mainly to the German influence. Their implicit faith in American friendship remains unshaken.

With the war the German-Japanese commercial treaty naturally will cease to be effective, and as a result all foreign imports that have been enjoying the benefit of the German-Japanese conventional tariff under the most favored nation clause will be subject to the general tariff. However, in order to avoid the disadvantage to the cargoes shipped before the declaration of war, the government is considering measures of relief.

An authority on far eastern affairs, reviewing the present situation, says Japan is in honor bound by the provisions of the Anglo-Japanese alliance to take measures in co-operation with her ally and to provide a lasting peace in the far east.

The extortion of China of railway, mining, and other concessions in the province of Shantung was the beginning of the German commercial programme in China, says this authority. By the acquisition of Kiaochau, Germany inaugurated the policy of European aggression in China, threatening its disruption. To Japan, Kiaochau became a menace and the integrity of China and peace in the far east were in constant danger.

Breaks Arm Playing Polo.

Alexandria Bay, N.Y., Aug. 25.—Mrs. R. H. Eggleston, jr., of New York, was thrown from a horse playing polo Sunday, and her arm was broken. It was set and Monday she was taken to Brockville for an X-ray examination. The surgeon assured early recovery.

Mrs. Eggleston was Miss Helen Rafferty, daughter of Gilbert T. Rafferty, a Pittsburgh millionaire. She was married to R. H. Eggleston last spring in St. Patrick's cathedral, New York.

George C. Boldt's yacht Clover went up to Brockville for Mrs. Eggleston Monday afternoon and brought her back to her home on Imperial island.

H. M. C. S. Ontario.

Canada has given a million bags of flour to the imperial forces. Alberta is sending half a million bags of oats. British Columbia is giving 100,000 boxes of apples for the troops in the field. Ontario has not quite decided what to do yet. The proposal that has aroused most enthusiasm is to present the British navy with a battleship. There are three battleships now in English shipyards almost ready for sea. One of these can be contributed by Ontario if the government makes up its mind to that effect. The people are waiting to hear what is going to be done. They do not wish to wait until an offer that is made will be greeted with the information that assistance is no longer necessary.

When Henri Bourassa narrowly escaped being captured by Germans near Liege, he had a letter of introduction in his pocket to a priest who was shot as a spy, which letter would have assured the nationalist leader the same fate.

V. L. Demoge, bank clerk, Montreal, gave two months in penitentiary for embezzling money.

Military law has forbidden Alpine climbing in Switzerland.

ALLIES HARD PRESSED BY THE GERMAN ARMY

The British and their French allies will be pressed to the utmost if the German attack, at this point, is to be held. The Germans apparently have singled out the English to be the brunt of the fighting and are sending against them massed bodies of infantry while shelling the English position with guns hastily mounted in the hills and concealed behind very heavy timber.

Meanwhile the work of hastening the reinforcements to the continent is in progress. Additional troops are reported to have landed in France, yesterday, and to have been rushed to the front on trains that had been held in waiting.

Chasing Germans.

St. Petersburg, Aug. 26.—The Russian armies, having their bases at Gumbinnen in the north, and Biala in the south, are co-operating, to-day, in an effort to drive the Germans from the lake regions of Eastern Prussia. The attacking front spreads over sixty miles and is passing through a very difficult country filled with forests, marshes and lakes. These are commanded by German redoubts, heavily manned with light artillery and rapid firing guns, and fighting is constant. The Germans are reported to be inflicting as much damage as possible and then retreating, blowing up their positions before abandoning them.

Attacked English Bathers.

Paris, Aug. 26.—A strong German column of cavalry, to-day, attacked the 18th Hussars of the English army while the latter were bathing in a river, the location of which is not revealed by the war office. It is admitted that the English regiment, taken by surprise, lost very heavily. Many of the men were slaughtered before they could get out of the water.

The members of the Hussars, not bathing, rallied and stood off the charges until reinforcements reached the scene.

HOLDING FINE.

Paris, Aug. 26.—The War office, set before noon, to-day, issued the following:

"Advises received from the front declare that the big battle now in progress is progressing favorably to the allied cause."

TREACHERY IN LORRAINE.

Pretexting to Welcome Invaders, Secretly Give Information.

Paris, Aug. 26.—A despatch received here from Bourges gives the recital of a French officer wounded in Lorraine. He sets forth how the Germans were aided by the local inhabitants had prepared for every eventuality.

The officials of villages in Lorraine fell upon the necks of the French troops when they came into town and greeted them as saviors.

No sooner had they done this than they would go to the edge of the village, holding out French flags, big white sheets, etc., to indicate to the enemy the exact position of the French soldiers.

The mayor of one village tapped a French field telephone wire for the benefit of the enemy, after having offered a room in his house for the installation of the station. The range of the German guns by moving the hands of the church clock.

At Lieuz, the French were persuaded that they would meet no opposition. Despite these assurances, however, they came upon concrete trenches filled with German troops and supported by quick firing guns. After they had stormed the trenches with the bayonet and were resting, they heard the strains of Chopin's funeral march played by a military band in the distance. This music served as a prelude to a storm of shells from a machine battery.

HANG FRENCH SNIPERS.

German Officer Defends Shooting of Civilians.

London, Aug. 26.—A Rotterdam despatch to the Daily Telegraph quotes a letter written by a German officer to the Dusseldorf Tagblatt, in which he says:

"We are simply compelled to burn women who shoot on our advancing troops. Yesterday civilians from a church tower killed several of my men. We took prisoner all the occupants of the church and shot them and burned several houses to teach the civilians a lesson."

"Whenever we are fortunate enough to capture French snipers, we hang them up on the trees along the road."

WATCHING OTTAWA COUPLE.

Ogdensburg Authorities Seek Missing Cashier and a Girl.

Ogdensburg, N.Y., Aug. 26.—Immigration Inspector Robinson has been supplied with photos of John Miller and a girl supposed to be with him, wanted by the police at Ottawa, and asked to prevent their entering the United States at this point, handing them over to the police if caught. Miller is accused of absconding with \$7,000 in cash belonging to the Dominion Express company, while acting as cashier for that company at Ottawa. He is thirty-two years of age, weighs 142 pounds, and is of fair complexion.

Grand Tunc gross earnings for the third week of August were \$1,096,476, as compared with \$1,144,416 for the corresponding period a year ago, a decrease of \$47,940, or approximately 4.19 per cent.

Winnipeg will not buy any more German goods. This was the emphatic resolution of the Board of Control.

A SHOWER FOR THE BRIDE.

A Clergyman Carried Off Daughter of J. R. Dargavel.

Elgin, Aug. 24.—Miss McAmmond Scottville, the guest of relatives, has returned home. Messrs. Stanley Morgan and Elton Coon, cadets, have been called to Quebec to do engineering work. The ladies' auxiliary held a basket picnic at Sand Lake. W. A. Lewis and C. R. Deacon, Brockville, were in the village the past week. Mrs. Robert Smith was the week-end guest of relatives at Almonte. Mrs. Cole, Brockville, was a guest of her daughter, Mrs. Dargavel. Mr. and Mrs. John Dargavel Newboro, attended the Teskey-Dargavel wedding on the 19th inst. Rev. J. P. McFarlane and family have returned from their holiday season. Miss Pinkerton pleasantly entertained the young people in honor of Miss Myrtle Hayes, being in the form of a shower for the bride.

An event which had been looked forward to with much interest took place on 19th inst when Mary Robertson Dargavel, youngest daughter of J. R. Dargavel, M.P., and Mrs. Myrtle Hayes, was united in marriage to Rev. M. Teskey, Westport, in St. Paul's church by the rector. The bride was daintily gowned in cream satin with veil and carried a bouquet of pink roses. She was assisted by Miss Mary McGuggan and Miss Myrtle Hayes.

After the ceremony they resorted to the home of her parents where a luncheon was served after which they left for Kingston in an auto. They are to visit several eastern cities. The popularity of the young couple was shown by numerous and costly gifts which they will cherish with them to cherish in their new home.

SPIES DISGUISED AS NUNS.

Steal Across Battlefields and Notify Enemy.

London, Aug. 26.—The Daily Mail's correspondent at Ostend sends this account of the German spying system in Belgium:

"The spying system of the Germans is said to be remarkably complete. One spy was captured in an effort to capture a German reserve officer, rolled up a German reserve officer. Women spies are frequently disguised as nuns or Red Cross helpers. These latter are known to have stolen across battlefields frequently and notified the enemy of the movements of the Belgian troops while pretending to be succoring the wounded."

"Scores of these spies have been caught and executed. Belgian officers told me that most of the men spies died calmly and fearlessly. The execution of the women spies, however, was generally a terrible scene. The women sentenced to death on the recent battlefield struggled and scratched as they were dragged to the post for execution."

"Pillaging has started on the battlefields. The pillagers, when seen, pretend to belong to the Red Cross society, and press a bottle of cordial to the lips of the inanimate man they have been robbing."

FRENCH HAVE FINE CANNON.

Captured German Officer Lauds Deadly Weapon.

Paris, Aug. 26.—A non-commissioned officer, who is among the German prisoners at Montpelier, pays a tribute to the tremendous effect of the new French seventy-five-millimetre cannon. They have the mobility of a field gun, and, despite numerous attempts, German spies have been unable to get details of them. The officer says:

"Your batteries demolished in a few minutes entrenchments that our soldiers had spent days in constructing. The majority of the men defending them were killed, and the rest fled, with such cannon you can go to the world's end."

"As for us, we are happy to be prisoners, preferring the protection of French bayonets to the yoke of Prussian officers."

William McCullough, aged ninety-five years, died in Belleville on Sunday.

Once tried always used, White Rose flour.

Six C.P.R. conductors have been arrested for defrauding the company by "knocking down" fares.

London's Beauty Writers

Weekly Selections from Noted Beauty Experts Writing for the English Press Simple and Effective Methods.

By Olga Amsell, Special Correspondent, London, Eng.

Each week in this department I will endeavor, by careful clipping from the London papers, to keep my Colonial readers informed on the latest and best advice of the London beauty experts. Owing to the persistent demand most London newspapers and periodicals are now devoting much space to the serious consideration of beauty culture. Many of them now employ high

skilled experts to advise and instruct in methods most effective for enhancing or restoring beauty of face and figure. I append herewith a few clippings from leading English publications. Any of the ingredients mentioned could be obtained from Canadian chemists or druggists, so I am told. Look out for more hints next week. I shall endeavor to keep right up to date.

What All Women Hate.

Every woman hates a shiny nose and a dull or cross complexion. Few know that there is an instantaneous remedy at hand in the home, one that is absolutely harmless, and that defies detection even under the closest scrutiny. If you have no demerite in the house get about an ounce from your druggist and add sufficient water to dissolve it. A little of this lotion applied to the face instantly causes the greasiness to disappear, and the skin has a perfect natural velvety, youthful bloom any woman might envy. The effect lasts even under the most trying conditions, indoors or out. To prepare face, neck and arms for a song, evening in a hot ball room nothing can compare with this simple home-made lotion.

Clipping the Hair To Stay.

From as far back as the time of ancient Athens, hairdressers have tried to find some method of producing an everlasting curl. While unsuccessful in this, we now have a way to make the curl last longer than has been possible heretofore and which is free from every objection. The ruinous curling fluids have had their day. The proper thing now is to apply plain liquid sylvimer to the hair. Do this before retiring, using a comb to brush and in the morning the hair will have a beautiful natural wave and curliness, yet showing no evidence of your having used anything. A couple of ounces of pure sylvimer costs very little at any drug store.

Clipping the Eyebrows.

The practice of clipping off the ends of the eyebrows to make them grow again, we now have a way to make the curl last longer than has been possible heretofore and which is free from every objection. The ruinous curling fluids have had their day. The proper thing now is to apply plain liquid sylvimer to the hair. Do this before retiring, using a comb to brush and in the morning the hair will have a beautiful natural wave and curliness, yet showing no evidence of your having used anything. A couple of ounces of pure sylvimer costs very little at any drug store.
