He bound up the poor beast's paw and led it to the monastery, where for five years gratefully served the old man, even doing domestic labor for him. The rother brothers of the monastery also made use of the lion's service, and even set him to watch the monastery ass while it was grazing. One day the lion returned to the monastery without the ass, and Guerassim. thinking that the natural leonine appetite had accounted for the beast of labor, said to the lion: "Henceforth you shall be the monastery wife signed the certificate allowing ass"; panniers were put on king of beasts, and he carried their grain and their pitchers, and he tunately the volunted was unable to brought water from Jordan.

EARL ROBERTS' RECORD

RECALLED BY APPOINTMENT AS COMMANDER-IN-CHIEF

Of Overseas Forces-Won Victoria Cross-Was Decorated by Kaiser as Greatest General of His Time.

As all the world knows, Earl Roberts, who has just been appointed commander-in-chief of the overseas forces of the empire, is an Irishman. He was born in Cawnpore, the son of General Sir Abraham Roberts and tsabella, the daughter of Major Dunbury, of the 62nd Foot. Whether his military genius was inherited is, therefore, a nice question. He was educated at Lton, and later on went to the military school at Sandhurst. Atterwards he was gazetted to the Bengal artillery as second lieutenant. As a mere stripling he saw service throughout the Indian mutiny, taking his part at the siege of Delhi and at the relief of both Lucknow and Cawnpore. On one occasion he had a horse shot under him, an experience that was twice repeated in later years, and on several occasions he was mentioned in despatches. At the close of the war, though still a youngster, he was made a major. In the Abyssinian campaign, which close. ly followed, he won the rank of lieutenant-colonel, and in the Lushasi expedition he woo his colonelcy. In 1878 his Christmas present from the war office was the rank of major-general.

Winning the Victoria Cross Before these honors came to him, however, Roberts, then a lieutenant, had received the greasest distinction that can fall to a British soldier. While he was on his wedding tour he was commanded to attend the king and queen at Balmoral castle, and there was given the V.C. The exploit in which this coveted decoration was won occurred in the Indian mutiny, in the course of the pursuit of number of rebels, who faced suddenly round, and firing on their pursuers, stood at bay. In his book, "Forty-One Years in India," Lord Roberts has given us a matter-of-fact account of the deed which is worth repeating:

"I saw Younghusband fall," he recolds, "but I could not go to his assistance as, at that moment, one of his sowars was in dire peril from a Sepoy, who was attacking him with his fixed bayonet, and had I not helped the fellow and disposed of his opponent he must have been killed, An instant later I descried in the distance two Sepoys making off with a standard, which I determined must be recaptured; sa I rode after the rebels and overtook them, and while wrenching the staff out of the hands of one, whom I cut down. the other put his musket close to my body and fired. Fortunately for me the piece missed fire. I carried off the standard."

His Famous March.

In 1879 Roberts made the march ter military reputation than he en The repairing prices advanced tered it. Since his reputation at "little red-faced man," as Kipling be thus honored, and in explaining his action the kaiser compared him with the ablest military geniuses of the past, and declared him to be, the greatest of to-day's generals.
