

# ALLIES WINGS DRIVING GERMANS BEFORE THEM

## And the French Centre is Holding Fast.

### THE GERMAN CENTRE

#### MUST FALL BACK TO PROTECT ITSELF.

#### Gen. Gallieni Thinks Paris Defence Army Can Safely Push Forward to Assist Allies—A German Mine Layer Caught.

Paris, Sept. 9.—Declaring that "our successes are continued," General Gallieni, military governor of Paris, today said that in his opinion the Paris defense army can safely be pushed forward to aid the British-French column in crushing the German right wing.

There is a spirit of confidence in army circles to-day. The French centre holds fast. Whatever advantage there is there, is with the French. The right and left wings are driving the Germans before them. As a result of this development the German centre must eventually fall back to protect itself. The French officials here very plainly state, however, that the result of the battle is not yet decisive. It will probably last for some days yet.

**German Mine Layer Caught.**  
London, Sept. 7.—The first German mine layer to be caught engaged in stowing the waters of the North Sea with mines of the contact type was captured by a British gunboat on Monday. She had 200 mines on board. The British censor signified the name of the town.

### WAR TIDINGS.

Germans have asked for an armistice to bury their dead. This has been refused by the French. Later reports indicate that the Germans are continuing retirement.

The Russian war office claims further successes in Galicia. There is no official denial of the report that the emperor of Austria is dead.

Servians met with serious reverse near Belgrade. The German steamer Madgeburg slipped into New York from the Canary Islands with a cargo of dynamite. She supplied the Kaiser Wilhelm with coal before it was sunk by the Highflyer.

Germans continue to pass Liege on the way back to Germany. This weakening of the offensive force is responsible for the Germans retiring from the allies.

There is an atmosphere of cheerfulness at the French war office.

No decisive outcome is expected, but everything favors the allies.

Turkey has eighty thousand men at Tehtatalja to prevent a possible Russian landing.

A Petrograd despatch says there are signs of a general Austrian retreat on the front between the Bug and Vistula Rivers.

Reports that the Austrian emperor died twelve days ago. The news was suppressed purposely.

The German right wing has been severely crumpled by the Anglo-French line.

General Joffre has thanked Kitchener for help of the British army.

Lloyd-George in explaining his new war tax says that money may turn the scales in the present war.

The Germans have further altered their plans of campaign, consequent upon later developments.

British war office announces casualties in Indian army, indicating that they are at the front.

Paris reports that thirty thousand Germans have been taken prisoners near there.

### DEPENDENT ON BOERS

**German African Colony Was Preparing For War.**  
London, Sept. 9.—That the Germans in southwest Africa, where there are 30,000 German troops, have been storing guns and ammunition for some time preparing for military action, has been made known to the British. It is said the Germans believed the Boers would aid them.

With populous British territory on two sides of German southwest Africa, and with adequate military forces at hand, Great Britain is said to be well prepared for the situation, despite the secrecy of the German preparations. It is generally believed here that she will soon seek to take control of the German territory in Africa.

German Africa is bounded on the north and southwest by British territory, and with the end of the British Island of Mozambique just off the coast, it is thought here it will be easy for the British to dominate the east coast, with the co-operation of land and sea forces.

It is said here that the Boer farmers living in southwest Africa are all loyal to King George.

The Terra Nova, which took the Scott expedition to the South Pole, has been returned to the North Atlantic whaling service.

Overwork drives almost as many people to nervous prostration as overrest does.—Exchange.

### IMPERIAL GUARD REPORTED ANNIHILATED.

The picture shows the crack German regiment when on review a few months ago by the Kaiser. A despatch printed by the London News to-day says that the regiment under the crown prince, Frederick William, declining to surrender, were annihilated by British and French near Paris.

### THE SPORT REVIEW

**REV. "BIDDY" BARR TO COACH TORONTO ARGONAUTS.**

Canadian Baseball League Next Year May Have Only Six Teams—Close Finish in International Baseball League.

The International Baseball League is staging some real battle itself and the first three clubs are separated by but 17 points.

Rev. "Biddy" Barr will coach the Argonaut rugby club. The first practice was on Tuesday at Rosedale.

The annual general meeting of the Ontario Rugby Football union will be held on Saturday, Sept. 12th.

The Hamilton Tigers had twelve men out at their first rugby practice. Among them were Art Wilson, Thompson, Manson, Fickley, Myers, Glassford, O'Heir, Stuart, Moore, Zoeller, Rollins and Will Tove.

Jeff Tesreau saved the New York Giants from being dropped into second position in the race for the National League pennant by beating the Boston Braves in the second game on Monday.

Frank Shaughnessy predicts that there will be a six-club Canadian baseball circuit next season, consisting of London, Toronto, Ottawa, Hamilton, Brantford and one other town. The Canadian Leaguers still hope to take Montreal in, but there does not appear to be much chance as President Lichtenhan is determined to remain in the International. Several of the clubs have lost heavily and are ready to throw up the sponge. Erie has proven a big failure and will be dropped. Toronto did not prove a paying proposition at home, largely on account of the other attractions.

**Where Did They Learn.**  
Three Toronto baseballists have been fined for using profane language during the progress of a game in London. It is not surprising that London punished the offenders, but the surprise is this—where did those men learn such languages? Of course, not in Toronto. They must have picked it up during their travels. The people of Toronto will be shocked, and so were the fined players, because they were separated from considerable of their hard-earned money.

**London's Useless Feet.**  
In the hopes that Ottawa might not be able to play yesterday, London staged three games with St. Thomas, playing one in the morning and two in the afternoon, but all this was wasted energy on the part of the players, as organized ball only allows two games to be played by any club in one day, this point having been decided some years ago, when a New England club played six games in the one day. Ottawa were unable to play in the morning, but defeated Peterboro in the afternoon and thereby made the pennant sure for the third successive year.

# Putting Our Faith Into Practice

AS soon as the first shock of the European war was over, manufacturers and merchants in the United States began to ask themselves: "Is it a WORLD calamity? Cannot WE get something in the way of benefit to make up in part for the trouble it will cause?"

This is a question the people of Canada might well ask themselves.

The people of the United States are already awake to the fact that many of the necessities of life—yea, and luxuries—that were formerly supplied by Continental Europe must now be produced in the factories of the United States.

Already there are indications that the war spells almost feverish activity in many lines of business in the United States.

This is a time for the manufacturers of Canada to buckle down to work and make and sell right here at home many of the things the people of Canada have formerly imported from Continental Europe.

And the manufacturers of Canada can count upon the people of Canada to respond to their efforts in this direction. Canadian patriotism is on fire; Canadians never realized until now how deeply they believe in themselves—how strong is their faith in England, in the Empire, in Canada.

Now is the time for Canadians to APPLY that abiding faith—to carry it into the BUSINESS of life.

This much is certain: Most of what we eat and wear and use for months to come—perhaps for years—must be produced on this Continent of North America.

Many Canadian manufacturers—already awake to their opportunity—are arranging to get machinery in motion to supply Canadians with those articles they have formerly imported—the dresses and millinery and perfumes from France; the silverware, enamelware, and hosiery and countless other things from Germany; the parasols from Austria; the laces and watches from Switzerland.

Soon Canadian manufacturers will begin to tell the people of Canada that THEY—our own manufacturers—have these things for them; soon the merchants of Canada will announce that they are well stocked with these goods—of home manufacture. These announcements will come to the people of Canada in the form of advertisements in the newspapers. Watch for these advertisements and when they appear read them and respond to them. It is a duty the people of Canada owe to their country, their industries, and themselves.

William Brown, First street, met with quite a severe mishap on Monday afternoon. While using a saw he cut a great gash in his knee some three or four inches long and about an inch or more in depth. It will lay him up for some time. Miss Vera Berry, spending the past few days with her mother, Mrs. Thomas Berry, North street, left on Monday evening for Kingston to resume her studies at the model school.

Leon Kane, spending the past few weeks in Pittsburg township, with his grandmother, Mrs. John Bulloch, has returned home. Mrs. G. A. Robinson, Calgary, is the guest of her parents, Mr. and Mrs. Alex. Ramsay, Stone street, for a short time.

Messrs. W. J. Wilson and George Webb are enjoying the Toronto fair this week.

W. E. Meggs, spending the week-end here with his wife and family, left, on Monday evening, for Toronto.

**THE LIBERAL WOMEN**  
Are to Get to Work With Relief in View.

Toronto, Sept. 9.—Patriotic undertakings are to be the programme this autumn for the Ontario Women's Liberal association. A meeting of the organization has been called by its president, Mrs. N. W. Rowell, for Sept. 11th, in Toronto, and representatives from Hamilton, Brantford, Wainwright, Stratford and a number of other places are expected. The wives of the liberal members in parliament and in the legislature have also been invited.

The definite nature of the work to be undertaken will be decided at the meeting. It is thought probable that relief work and investigation of unemployment among women will be two of the activities which will be taken up.

In adopting this policy the Ontario liberal women are acting along the lines of the Women's Liberal Association in Great Britain which, under the direction of Mrs. Asquith, is using its organization to alleviate distress.

During the past year there has been a considerable falling off in the number of strikes in France. There were 1417 in all, involving 230,646 strikers.
