

# IRON HEEL PLANTED ON CAPTURED TOWNS

### Proclamations Issued by Arrogant Germans Warning the Belgians That Hostages and Citizens Generally Are Liable to Execution if Demands Are Not Fully Met.

Berlin, Sept. 10.—The command-ers of the German troops are issuing a proclamation to the inhabitants of every hostile town they occupy, as follows:

"Citizens.—A body of the German army under my command has occupied your city. Inasmuch as the war is carried on only between the armies, I guarantee in due form the live and private property of all the inhabitants under the following conditions:

"1.—The inhabitants must strictly avoid every hostile act against the German troops.

"2.—Food and forage for our men and horses are to be furnished by the inhabitants. Every such delivery will be paid for at once in coin, or a receipt will be issued, to be redeemed after the termination of the war.

"3.—The inhabitants are to house our soldiers and horses in the best manner and keep their houses lighted at night.

"4.—The inhabitants are to put the roads in a passable condition, to remove all obstacles erected by the enemy, and give the best support to our troops in order that they may be able to fulfill their task, doubly difficult in a hostile land.

"5.—It is forbidden to collect in crowds on the streets, to ring the bells or to communicate with the enemy in any way whatever.

"6.—All weapons in possession of the inhabitants are to be handed over at the town hall within two hours.

"7.—The mayor, two clergymen and four well reputed citizens are to appear before me at once to act as hostages during the stay of the troops.

"Under these conditions—I repeat it—the lives and private property of the inhabitants are perfectly secure. The strict discipline to which our soldiers are accustomed, often renders it possible that no inhabitant will be compelled to neglect his business affairs, or to desert his home and hearth. On the other hand I shall adopt the most stringent measures as soon as the above conditions are not observed. In this respect I shall hold the hostages in the first instance responsible. Besides this, every citizen will be shot who is found with a weapon in his hands, or committing any act which is hostile to our troops. Finally the entire city is responsible for the deeds of every individual citizen, and the citizens will do well to keep mutual oversight over each other, in order that they may avoid the unpleasant consequences that must follow upon any co-operation with the enemy.

"As a consequence of non-observance of such proclamations a number of villages on the French frontier have been burned and the inhabitants severely punished.
