Where he fell were some loose sharp stones and his clothing was badly torn and his flesh gashed in places. The lad's shoulder was badly hurt and it was thought at first when he was taken to the Hotel Dieu that it was dislocated. CANADIAN FLOUR MILLS WILL RUN AT FULL CAPACITY

Orders from the Dominion and Ontario Governments for an aggregate of 1,250,000 barrels of flour are on the beginning of the increased demand on the flour mills of Canada as a result of the war. The mobilization of the armies of Europe will result in a large reduction in the acreage sown to wheat in that continent. That reduction in acreage and consequent reduction in yield will greatly increase the demand for wheat and flour from other producing countries. Canada will find a ready market for all the wheat and flour she can export during the war. The flour mills of Canada will be kept busy grinding Canadian wheat into Canadian flour for export to the Mother Country at this time.

REFUSES TO WORK SUNDAY.

Local Livery Has Horse Who Takes Objection. It may not be generally known, but a local livery has a horse, who refuses to work on Sunday. He believes that six days a week is sufficient for him to labor, and when Sunday comes he draws the reins heavily on the young driver who hired this horse to take a couple of his lady friends for a drive in the country, but he "kicked over the traces" and kicked good and hard. It was with much to the Hotel Dieu was hitched up, and when taken out of the stable did all sorts of "stunts" in an endeavor to get back to the stable again. Several times he went around in a circle, in spite of the frantic efforts of the young driver to head him towards the city limits. After much trouble he was compelled to do his duty but made things just as unpleasant for the party as he could. His antics were witnessed by quite a number of citizens who declare that the horse has placed a ban on Sunday work.
