**BUSHELL'S BIG FAIR**

DREW A LARGE CROWD ON WEDNESDAY AFTERNOON

Everybody Present Was Pleased—Horse Races, Baseball Match and Balloon Ascension Were All Good.

Over two thousand people were present at the fair grounds on Wednesday afternoon on the occasion of the opening of "Kingston's Only Fair," conducted by the townships of Kingston and adjoining every person who attended the show went away well pleased with what they saw.

The horse races were good. On a couple of occasions the horses finished neck to neck.

The balloon ascension was the thing that caught the eyes of the "kiddies" who were on the grounds in large numbers.

R. J. Bushell, secretary-treasurer and manager of the show, is deserving of great credit for the splendid exhibition. Mr. Bushell has talked fair all year, with the result that his show would be a credit to any town. The fair will conclude on Thursday afternoon when about the crowd of Wednesday is expected.

**Some Of The Exhibits.**

The merchants of the city took an active interest in the fair, by the great number of applications for space that were made to the manager and which could not be obtained in the palace. Some of those using space in and around the building were the following: Captain J. Dix had a display of awnings and tents. John McKay had a large array of furs and fur coats; J. B. Hunt had a display of stoves and hardware; A. Ghown and company, also had an exhibition of hardware; Angrove Brothers had a Ford automobile on exhibition and distributed copies of "Ford Times," a periodical issued by the Ford company; C. W. Lindsay had five pianos on exhibition and talking machines; C. W. Coates had a corset display; Victor Taylor, George Mills and company had an exhibition of furs. The Singer sewing machine had a display of their product. Melotte cream separators were shown and T. C. R. Dobbs demonstrated to the crowds the virtues of the Cadillac vacuum cleaner.

The Hydro-electric had a great number of electric appliances on exhibition, the property of H. W. Newman, and washing machines owned by J. R. Cote. Mr. Cote had a display of pianos and musical instruments in one corner and also in a tent outside.

In connection with the Hydro-electric exhibit, Frank Anglin of Brewer's Mills supplied a complete milking outfit for milking cows by electricity. These are very simple when examined and by experiments conducted on Mr. Anglin's farm he has ascertained that only one horsepower is required, costing only one gallon of gasoline a week to operate for thirty cows. They were operated by electricity in connection with the hydro-electric, and the actual milking of cows in the palace attracted large audiences. The sample shown is made by Heman and company, of Gait, and is used by the Hydro-electric people, as it is considered the cheapest of any made.

**The Balloon Ascension.**

All airship flights were put in the shade, on Wednesday afternoon, at the fair grounds, when Miss de Vonda made one of the prettiest balloon ascensions that ever was pulled off in Kingston. At about twenty minutes to five o'clock the huge gas bag was attached to the overhead rope, and then held suspended between the two upright guide-poles, which were thirty-five feet high. At a quarter past five, the balloon was fully inflated and Miss de Vonda, with her parachute attached, was carried high into the air, reaching an altitude of nearly four thousand feet. Her manager, H. H. Hoyland, of Leicestershire, Wis., in the meantime placed himself in an automobile and started after her. During the course, he fired three shots from a revolver and upon hearing the third report, Miss de Vonda pulled the rope, which was attached to the knive that severed the parachute from the gas bag. A rather long drop was made before the parachute opened, but it gradually unfolded itself to the breeze, after the aeronaut had managed by some little exertion to stop the twirling motion that is always experienced in such descents.

The huge gas bag turned over and emptied its contents, while Miss de Vonda and her parachute glided for a long distance and came within a short distance of alighting in the waters of Lake Ontario, near the Portsmouth penitentiary. It was just in the orchard east of the big institution that the parachute became entangled among the branches of the trees, but luckily Miss de Vonda was unhurt. The gas bag, or balloon proper, fell on Collingwood street, near the Kingston Ice company's icehouse. The aeronaut was hurried back to her quarters at the Frontenac hotel, and a host of people congratulated her upon her safe and successful flight.

This balloon ascension was more in favor with the populace than an airship exhibition.

The sky, shortly after five o'clock, had become quite clear and this made the flight all the more interesting. On Thursday afternoon Miss de Vonda made a second flight.

**The Horse Races.**

**\$100 REWARD, \$100**

The reward that is offered will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Half-Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Half-Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: E. J. CROSBY & CO., Toledo, O.

Sold by all Druggists. Take Half-Catarrh Pills for constipation.

**CHINA WILL REMAIN NEUTRAL.**

Minister Thinks Protest Against Japan Mere Show.

Chicago, Oct. 1.—China will keep its strict neutrality according to General Hwang Hsing, Chinese minister of war in the cabinet of Sun Yat Sen, who arrived here to-day. "I do not think more than a show of protest will be made against the Japanese journey across Chinese land," he said.

"China does not want war, and knows better than to array itself against the allies, who are its friends."

The sympathy of their many friends is extended to Mr. and Mrs. Gustave Brager, in the loss of their infant daughter, Julie M., aged two months and twenty days.

C. H. McIntosh, of Simcoe, came to the city on Wednesday evening and will remain for a few days' visit.

**THE WAR PREDICTIONS**

A WRITER DEALS WITH VARIOUS DEATHS OF THEM.

But Principally With That Based on Astronomy, Which For The Year 1914 Has Turned Out Wonderfully Correct.

Kingston, Sept. 29.—(To the Editor): We have had some remarkable predictions about the war, and it is strange what an interest is taken in them. In times of great trouble and stress how "superstitious" we become, and how anxious we are to get a "peep" into the future. When all is well and the sun is shining, what wise beings we are, and how we will turn up our noses and shrug our shoulders at "fortune telling," and all the brood that practice it; but when you come to think of it, we are all fortune tellers, the laws of nature, the laws of life have made us such. We are forever predicting what is going to happen in the future, and we do this largely from our knowledge of what has happened in the past. It is only when some one essays to do something out of the ordinary that we become sceptical. If we knew the sources of information and the laws governing these "remarkable" predictions we would not be so incredulous.

A German officer, Lieut.-Col. Frobenius, wrote a book in 1911, predicting the date of this war, how it would proceed, the part taken by the various nations now involved in it, and the results, so far as the conflict has gone, with wonderful insight. This is historical prophecy, founded on the past history of the nations now at war. Then we have had the "Strasbourg Prophecy," recently reviewed by Prof. Lanos in the Whig. It seems to be of a different character now-a-days, we call such prophecy, "psychic," in ancient times it was called "divine," but in reality it is of the same nature and founded on the same laws and principles as the historical. The prophet in this case draws on the super-natural and spiritual forces, instead of the mundane only.

"Then there is that 'vision' of Count Tolstoy. This is also psychic and spiritual.

"To many the words 'psychic' and 'spiritual' are not explanatory enough. It is not the intention of the writer to go into this phase of the subject now but there is philosophy founded on verified facts that says the next state of existence is a many living in the present state, that in that state are, according to the laws of evolution, necessarily more advanced in knowledge than we are, that they take an interest in and keep in close touch with what is going on in our lives here, and are thus able to make predictions. These prophecies come through Seers like Tolstoy, and Madame Thebes of the Tolstoy, and as they came through the present time as they came through the prophetic of old with more or less correctness. They are of human origin and consequently not infallible, but nevertheless worth consideration.

Now we come to a third kind of prediction, and these are what I intended giving you, those founded on the most ancient methods of forecasting the future known to man. Your correspondent has been reading the horoscopes of an American astrologer for a number of years, and has found them wonderful correct. His forecast for 1914, published in January, said the whole civilized world would be badly upset this year and Uranus forming an inharmonious conjunction in an inharmonious opposition to Leo, and also aspects to Taurus and Scorpio. "Many of my readers," he says, "took of me at my forecast for 1914, and wrote me their own views of things, as well as their own prophecies, and giving very good reasons why good times may be looked for, not giving much credit to astrology, but believing that politics, and those engaged in that particular science, are the makers and unmakers of good and hard times."

"One enthusiastic friend wrote me that now since Wilson had been elected and the great trusts busted, and the banking situation changed, the times must of necessity be very much improved, and that a great business boom was sure to start, and every one would be happy and prosperous, but I am sorry to say that my forecast for 1914 is working out according to necessity, and the universe. Men are but agents of a mighty force that sweeps kings and peoples on in its irresistible current. The glory of the Alexanders, the Caesars and the Napoleons, is not more than the foam on the breakers of the great movements of men."

"Now, since the war is on, many people keep writing me as to my opinions as to its probable duration as well as its outcome, and right here I will take the opportunity to state that the war was started under the influence of the two mightiest planets in the solar system, when the earth ran into that hornets' nest."

**Bethel Won From St. Luke's.**

In the exhibition game of baseball played between St. Luke's and Bethel, the latter team won out by a score of 5 to 4. The game was very good considering the rough diamond. The teams:

Bethel—Twigg, 3b; McWilliams, ss; Holland, p; Hall, 1b; Hunter, cf; M. Veale, c; Cherry, 2b; G. Veale, 1b; Wilson, rf.

St. Luke's—Carroll, ss; Saunders, 2b; Joyner, 3b; Murray, 1b; Sargent, 1b; Ashworth, rf; Barry, c; Thoms, cf; Polk, p.

Umpire—Thomas McCammon.

HON. W. L. MACKENZIE KING

**GANANOQUE THE SCENE**

Of the South Leeds Sunday School Convention.

Gananoque, Oct. 1st.—The 12th annual convention of the South Leeds Sunday School association was held in Grace Methodist church yesterday the opening session being at 10 a.m. and followed by sessions during the afternoon and evening. The morning session opened with J. Arthur Jackson, B.A., president, in the chair, Rev. I. N. Beckstedt, of Lansdowne, conducted the devotional exercises, after which the visiting delegates were formally welcomed to the town. This was followed by reports of the various departmental superintendents. Rev. E. W. Halpenny, B.D., general secretary of the Ontario Sunday School association followed with an excellent address on "The Country Sunday School." At noon lunch was served in the church for the visiting delegates.

At the afternoon session, Rev. Henry Gracey, conducted the devotional exercises. Three excellent addresses were given, "Relation of Pastor to Sunday School," Rev. Walter Cox; "Moral Force of the Sunday School," Rev. E. W. Halpenny, B.D.; "How Organization Can Help the Sunday School," J. A. Jackson, B.A. A discussion of county and individual problems was conducted by G. E. Johnson and Rev. E. W. Halpenny. Supper was served to the delegates.

The evening service included two more excellent addresses, one by Rev. E. W. Halpenny, "The Investment of Influence," the other by G. Elmer Johnson, "Opportunities in the Year We Now Enter Upon For South Leeds." T. F. Harrison, of Kingston, was present with his usual store of helpful information.

The second of the series of dances arranged recently by the Gananoque Canoe and Motor Boat association was held in their club house assembly hall last evening.

George L. Crawford, first street, was taken to Kingston General Hospital on Tuesday and operated on for cataract in one of his eyes.

The funeral of the late Mrs. Joseph Humphreys was held at noon yesterday from the family residence, River street, to the Union cemetery, Lansdowne, and was largely attended.

Messrs. George Funnell, W. T. Sampson, of Gananoque, accompanied by John Phinn, of Toronto, are Gananoque lake, Miss L. Erien Hurd, and Lansdowne, arrived home last evening to spend the balance of last week with her parents, Mr. and C. H. Hurd.

**DO YOU SUFFER FROM BACKACHE?**

When your kidneys are weak and torpid they do not properly perform their functions; your back aches and you do not feel like doing much of anything. You are likely to be despondent and to borrow trouble, just as if you hadn't enough already. Don't be a victim any longer. The reliable medicine, Hood's Sarsaparilla, gives strength and tone to the kidneys and builds up the whole system.

Hood's Sarsaparilla is a peculiar combination of roots, barks and herbs. No other medicine acts like it, because no other medicine has the same formula or ingredients. Accept no substitute, but insist on having Hood's, and get it today.

**GO TO CERTAIN DEATH**

"GOOD-BYE" THEY SHOT TO COMRADES BEFORE FALL.

Many Cases of Valor—British Spirit Enables the Allies to Hold Line Against Enemy.

London, Sept. 30.—A Reuter despatch from Paris says: "Thirty gunners of a British field battery have fallen, killed or wounded. To almost certain death they called out: 'Good-bye, fellows.' To their comrades in the reserve line. Ten minutes later every man was out of action."

"Thirty more went to the front with the same farewell, greeting. The German shells were falling thickly behind the battery and killed or wounded every man serving the guns."

"Eventually the persistence and accuracy of the British fire proved effective, and the British infantry advanced and took the opposing position at the point of the bayonet."

"Similar incidents occurred along the whole western wing Tuesday, enabling the allies to hold their own against repeated furious onslaughts of the Germans, who were attempting to break through."

**War Tidings.**

Thirty British warships are reported on their way through the Baltic to help the Russian fleet in the Baltic sea.

Two cargoes of copper consigned to the Krupp works, in Germany, from the United States, were seized and diverted to England. It was believed the copper was to be used in the construction of torpedoes.

Among the remarkable war trophies arriving at Smolensk, is the entire stock of Emperor William's famous pedigree cattle and stud horses, captured by the Russians from the emperor's estate at Rominten, in East Prussia.

**COOK'S COTTON ROOT COMPOUND.**
