

GANANOQUE FACTORIES

WORKING OVERTIME MANUFACTURING WAR SUPPLIES.

The Harness Works And the Skinner Company Have Had to Double Their Forces of Employees.

Gananoque, Oct. 15.—The harness works conducted for some time past by Mayor W. J. Gibson, has been placed under the management of a joint stock company, with Mr. Stevens, formerly manager for Lamontagne, Limited, as managing director. The new firm has booked large orders for military harness, Oliver equipments, etc., necessitating a large increase in operatives, as well as making use of night and day shifts. It is expected that before the season ends, it will be employing in the neighborhood of a hundred men.

The Skinner Co., Limited, of this town, which on the outbreak of the war ventured on a new line of business along the lines of military equipment (solid nickel cavalry bits, stirrups, spurs, buckles, etc.), has been so favored with orders for its goods as to require the doubling of its staff of employees to meet the present demand, and to forestall a still further extension of trade is making a substantial addition to its brass foundry so as to enable it to practically double its output. If the war has done nothing more it has assuredly increased to a large extent the work in the above mentioned factories, while in the other establishments of the town business conditions are far from favorable, many of them running no more than four days a week, with a prospect of even less.

Mrs. George Nuttall, Charles street, suffered a severe paralytic stroke, the fore part of the week, and is in a precarious condition.

Miss May Bullis, who has been confined to her home on King street for the past ten days, quite seriously ill, is making very satisfactory improvement.

Stewart Taggart's masterpiece, "Guilty," which has been on exhibition in the council room at the town hall since Saturday evening, under the auspices of the Leeds County Patriotic League and Relief Association, is attracting goodly crowds.

George L. Crawford, first street, who has been undergoing an operation for cataract in Kingston general hospital, has returned home much improved. He was accompanied back by Mrs. Crawford, who was at his bedside.

The Misses Margarita Bain, Myrtle Wright, Kathleen Kirke, Pearl Webster, and James Bevin, of Ottawa normal school, have returned to their studies after spending the holiday season here with their parents. Miss Vera Berry, spending the holiday here with her mother, Mrs. Thomas Berry, North street, has returned to her studies at Kingston model school.

E. H. Hurd, who has been spending a short time in town, has returned to Kingston. G. E. Hurd spent a few days this week with friends in Carthage, N.Y. Miss Lyla E. Hurd and Miss Nettie Griffin have returned to Lakeside house, Gananoque Lake, after a short visit in town.

White Rose flour put up in 6 1/2, 12, 49, 98 lb. packages, at all grocers. The horsemen in Saskatchewan are finding a ready sale for their horses, as the provincial government is buying a large number to be given to the British government for use in the war.

ENGLISH CHANNEL MENACED BY GERMANY. The map shows Ostend, whose occupation by the Germans seems imminent. It is Belgium's only free seaport. Antwerp being on the Scheldt with outlet in Holland. The map also shows Dunkirk, Calais and Boulogne with their proximity to England. The black diamonds in England denote British naval stations, the black circles with white centres denote airship stations.

ALLIES MAY HEM IN

Large Force Of The Enemy Against The Sea Front.

London, Oct. 15.—It is evident that the allies are in great force in this extreme north movement. They have met the German reinforcements from the main southern battle front with still larger forces, many of which have undoubtedly come from England. They have carried the war into Belgium with a vengeance, and unless they are stayed by the five army corps released by the fall of Antwerp, the position of the German armies in France to the south will again be in peril, and Ostend, whose capture seemed imminent, will be relieved.

It is even suggested that the cavalry operation toward Ghent may be an effort on the part of the enemy against the sea front.

Cut Silver Vein.

Cobalt, Oct. 15.—In digging a sewer in Wright township, a sub-division of Cobalt, the workmen cut a vein showing native silver. The property was formerly owned by the Temiskaming and Northern Ontario Commission, who still retain the mining rights. The property is west of the Coniags mines.

THURSTON THE MAGICIAN. At the Grand Ball Friday and Saturday.

WHAT IS BIG SURPRISE?

Copenhagen Fall of Rumors of German Activity. London, Oct. 15.—A despatch from Copenhagen to the Daily News says: "What is the big surprise? The Germans have for England which they repeatedly talk about? Copenhagen is full of rumors, purporting to come from German officers, in private letters and despatches. The Kiel canal is again closed to neutral ships and the 'big surprise' rumors are received by pretty influential and reliable persons in private despatches from Kiel, although it is difficult to understand how they have passed the censor."

WAIT WORD OF KITCHENER.

Composition of Second Contingent Not Decided. Ottawa, Oct. 15.—No word has yet been received from the British war office as to the nature of the force desired to make up Canada's second contingent. It is understood that Lord Kitchener will probably look over the first Canadian contingent and the other imperial forces before he determines the composition of the second Canadian overseas force. Most, and those south, to be consulted with Col. Sam Hughes, minister of militia, who has issued in England. Until the militia department here is notified of the desires of the imperial government the mobilizing of the second contingent will not be proceeded with.

MAKING STRONG LINE.

The Germans Prepare to Resist in Belgium. London, Oct. 15.—"The German positions in Belgium are equal to those in the Alps," says a Central News despatch from Ostend. "In addition to Antwerp they have prepared reinforced concrete works, heavily mounted with guns, extending from a point east of Louvain to a place north of Yverde, on through Alost, and thence south, to a point southeast of Brussels."

"There is also a continuous line of fortifications from Liege through Namur and Mons to Valenciennes. This should the German right retreat it would be powerfully protected unless the works were forced before hand."

Wolland county council, in special session, voted grant of \$5,000 to purchase apples and flour as a gift to the British Government. The Canadian expeditionary force has all landed in England.

STORMS' SCHOOL FAIR.

Was Held Near Murvale on Saturday, Oct. 10th.

A school fair was held in Storms' school, near Murvale, on Saturday, October 10th, by the pupils of school sections which comprise what is known as the Forest school. The weather was not very favorable for the event, but notwithstanding this there was quite a large attendance. The exhibits displayed in the various classes by the pupils reflected great credit upon their individual efforts and also the painstaking efforts of the former teacher, Miss Scanlan, and the present teacher, Miss Mabel Harrigan, and too much credit cannot be given to the two young ladies for the grand success of the fair.

An encouraging feature of the school fair was the interest taken and enthusiasm displayed by the parents and older people of the section. In fact the trustees were responsible for having the fair, as Mr. Kelly made personal requisition for the introduction of agriculture in Storms' school. Furthermore, the trustees encouraged the scheme in every way possible.

After the exhibits were properly arranged in their various classes, the judges commenced their work; and while the judging was in progress an excellent programme of races was conducted along the road in front of the school. The races were conducted by J. R. Dier and N. E. Smith, of Sydenham, and the judging was done by Mrs. McNaughton and Dewell, of Sydenham, and C. Main, of the local branch of the agricultural department.

In addition to the display of roots, vegetables, seeds, weeds, flowers, essays, and domestic science work, there were classes for colts and calves. So that the pupils were given a complete training along agricultural lines, not overlooking one of our main branches of agriculture, namely, the live stock.

After the prizes were awarded a short programme was conducted which consisted of speeches by Mr. McEcheron, principal of Sydenham high school, and John Moreland, together with songs and recitations by the pupils. After the programme Miss Mabel Harrigan announced the names of the winners in the various classes and J. R. Dier distributed the money to the pupils. The following is a list of prize winners:

Section A, potatoes, best 12 from plot—Onetta Nicholas, Mildred Moreland, Harold Moreland.

Section B, potatoes, best kept plot—Mildred Moreland, Mabel Botting, Clinton Lawrence.

Potatoes, section C, best 12 home grown—T. J. Offord, Charles Roundland, Onetta Nicholas.

Section A, mangles, best 5 from plot—Ella Fitzgerald, George Botting, Lulu Clark.

Section B, mangles, best kept plot—Lulu Clark, Hugh Fitzgerald, George Botting.

Section A, oats, best 2 quarts—Christie Irvin.

Section B, oats, best kept plot—Christie Irvin.

Section A, best 12 ears sweet corn—Ella Fitzgerald, Munroe Lawrence, Clinton Lawrence.

Section B, sweet corn, best kept plot—Ella Fitzgerald, Munroe Lawrence, Tena Fitzgerald.

Section A, dent corn, best 12 ears—Onetta Nicholas.

Section B, dent corn, best kept plot—Christie Irvin, Mabel Fitzgerald.

Section A, flowers, asters, best twelve—Mabel Botting, Mildred Moreland, Nina Shea.

Section B, flowers, best kept plot—Nina Shea, Mildred Moreland, Mabel Botting.

Section A, poultry, best pen—Harold Moreland.

Section B, poultry, best coop—Harold Moreland.

Section C, poultry, best watering device—Christie Irvin.

Section A, best heavy coil—Hugh Fitzgerald.

Section B, best light coil—T. J. Offord.

Best dairy calf—Harold Moreland, Charles Roundland, Hugh Fitzgerald.

Best essay on potatoes—Ella Fitzgerald, Mabel Botting, Nina Shea.

Best collection of not less than twelve weeds—Ella Fitzgerald.

Best layer cake—Mildred Moreland, Mabel Botting, Kathleen Roblin.

Best two loaves bread—Bertha Roblin, Nina Shea, Alma Vancouver.

Best apple pie—Mildred Moreland, Kathleen Vancouver, Ella Fitzgerald.

Best two jars homemade preserves—Mabel Botting, Bertha Clark, Nina Shea.

Best half dozen cookies—Mary Lennon, Onetta Nicholas, Mabel Botting.

Best apron, hand sewn—Mary Lennon, Mabel Botting, Kathleen Gouge.

Please remember the mid-day prayer service in City Hall each Friday, from 10.05 to 12.30. Prayers for peace in Europe.

Regina has decided to rush through to completion, the construction of a 3,000,000 gallon reservoir.

United States Coke Production.

Washington, Oct. 14.—Production of coke in the United States in 1913 amounted to 46,299,530 short tons, valued at \$128,922,273, exceeding all previous years both in quantity and value, according to statistics issued by the Geological Survey. Compared with 1912, short production was 43,983,559 short tons, valued at \$111,865,113 out of 1913 showed an increase of 2,315,971 tons, or 5.3 per cent. In quantity and of \$17,117,160, or 15.3 per cent, in value.

Liquidator For C. G. F. S.

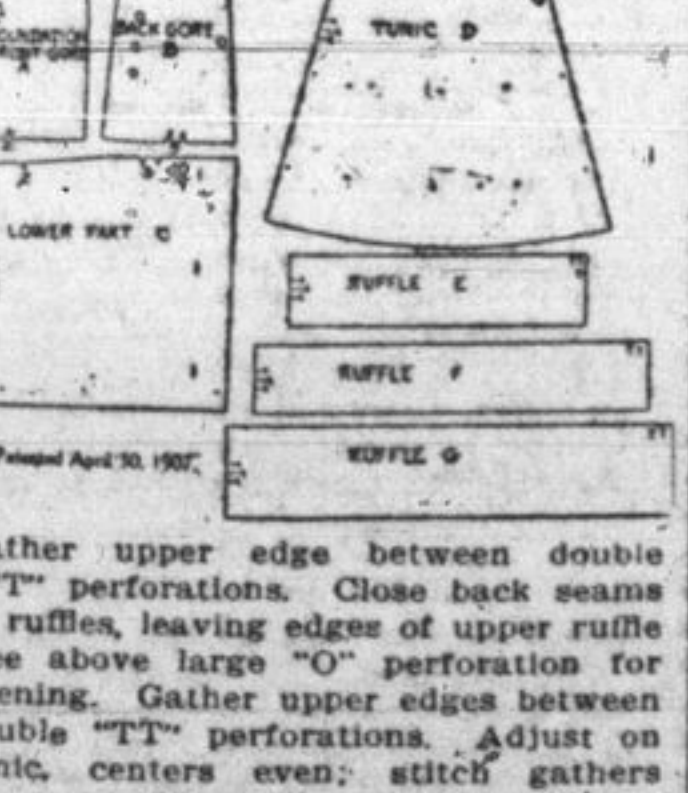

Montreal, Oct. 14.—John Hyde has been appointed liquidator of the Canadian Goldfield Syndicate. It was voted some time ago to wind the syndicate up, and distribute its assets among the shareholders. Mr. Hyde was the secretary of the company.

Was Hiding From Germans in Cellar With Baby.

London, Ont., Oct. 15.—Robert D. Ayling, a Toronto commercial traveller, produced a letter he had just received from a friend in Brighton, England, who had seen, in one of the British hospitals for Belgian refugees a woman who had had both hands put in by German soldiers, while hiding in the cellar of her home with a baby in her arms.

KEEP LIVER AND BOWELS REGULAR WITH CASCARETS

No more Headache, Bad Colds, sour stomach and constipation. Get a 10-cent box now. No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness, dizziness, Don't forget the children—their little insides need a gentle cleansing, too.

Gather upper edge between double "T" perforations. Close back seams leaving edges of upper ruffle free above large "O" perforation for opening. Gather upper edges between double "T" perforations. Adjust on tunic centers even; stitch "O" perforations, stitching longest ruffle along lower line, shortest ruffle along upper line and remaining ruffle along center line. Arrange tunic on foundation, centers even, small "O" perforation at side seam. Adjust stay to position underneath foundation, centers even; stitch upper edges together. If foundation is omitted bring corresponding small "O" perforations in tunic and stay together. The cable shirring is made by sewing together the edges of a bias strip of the material and running a cord through the openings. This is then used as a heading for the frills.

Pictorial Review pattern No. 5848. Sizes 21, 22, 24, 26, 28, 30 and 32 inches waist. Price, 15 cents.

FINANCIAL NEWS.

American Company Gets \$2,000,000 For Subsidiary Holdings.

New York, Oct. 14.—The American Sugar Refining Company has sold \$2,325,200 of its holdings of the Utah Idaho Sugar company stock and \$637,850 Amalgamated Sugar company stock to C. W. Nibley. The transaction involved a payment by the buyer of approximately \$2,000,000. It was said at the American company's offices today.

The deal comprised half of the American's holdings of the Utah Idaho shares and all of its stock interest in the Amalgamated company. The sale was another step in the plans of the American Refining Co., to dispose of all its beet sugar holdings.

Ogilvie Reports Profit of \$581,943.

Montreal, Oct. 14.—An increase of \$5,209 in net profits for the year ended August 31st last, as compared with the previous year, was shown in the financial statement of the Ogilvie Flour Mills company, Limited, submitted to shareholders at the annual meeting. Profits for the year were \$581,943, against \$576,734 the previous year, and \$521,421 in 1911-12. In fact the showing in that respect was the best made by the company since the record-breaking year of 1908-09. Fixed charges, however, rose some \$27,000, as a result of the sale of bonds against capital expenditure on the new Medicine Hat plant, and this left the balance available for dividends \$21,791 less than the previous year.

Declare Dividend.

Renfrew, Oct. 14.—At the annual general meeting of the shareholders of the Renfrew Flour Mills, Limited, which company has mills in Renfrew and Pakenham, a dividend of seven per cent on preferred stock was declared. A good business has been done by the company during the year.

Capital Stock Is Raised.

Renfrew, Oct. 14.—The capital stock of the Renfrew Machinery Co., Limited, has been increased to a round million of dollars. This company manufactures cream separators and does a large and growing business.

The need of a larger factory and warehouse has begun to be felt, and it understood the company will arrange to greatly augment its output.

Are Short Of C. P. R.

New York, Oct. 14.—Commission houses, says the Commercial, are short of Canadian Pacific, both in New York and London, because they could not get certificates from the German investors for whom they sold it in the latter part of July.

Lake Of Woods.

Montreal, Oct. 14.—Lake of the Woods Milling company reported profits of \$37,939 for the year ended August 31st last, a decrease of \$42,128, as compared with the previous year, but an increase of \$50,928 as compared with the year preceding that. In other words, profits for 1913-14 stood practically half way between those for 1912-13 and 1911-12, and were considerably better than the average, being exceeded in only three years of the last nine.
